* 1. *Ord. Lang.:* One who resides beyond or on the other side of the Alps; a foreigner.

> "To the petition of the Bannerets of Rome for a promotion of Cardinals he (Pope Urban) avowed his design to make so large a nomination that the Italians should resume their ascendancy over the *Ultramontanes*."—*Milman: Latin Christianity*, bk. xiii., ch. i.

2. *Church Hist.:* A believer in or supporter of Ultramontanism (q.v.).

> "The *Ultramontanes*, such as Bellarmine, Baronius, &c., maintain that whatever dogmatic judgment or decision on a doctrinal point the pope addressed to the whole church is necessarily correct."—*McClintock & Strong: Cyclop. Bib. Lit.*, iv. 570.

ŭl-tra-mŏn'-tān-ĭsm, *s.* [Eng. *ultramontan(e)*; *-ism.*]

Church Hist.: A name improperly given by some theologians, north of the Alps, before the Vatican Council in 1870, to the generally received opinion of the Church in all ages, that the Papal utterances *ex cathedrâ* on matters of faith or morals are irreformable. The word was used in contradistinction to Gallicanism, which attributed infallibility and supreme authority in matters of faith, morals, and discipline to the entire Church, personified in a General Council. Since the definition of the Vatican Council in 1870 concerning the infallibility of the Pope, Gallicanism has become a heresy. [VATICAN-COUNCIL.]

> "The work that has done more than any other to give a scientific character and a lasting influence to *Ultramontanism* is Möhler's *Symbolik*, which first appeared in A.D. 1832, and has since spread throughout Europe and America in rapidly recurring editions."—*Blunt: Dict. Sects*, p. 604.

ŭl-tra-mŏn'-tān-ĭst, *s.* [Eng. *ultramontan(e)*; *-ist.*] One of the ultramontane party; one who upholds or promotes ultramontanism.

* **ŭl-tra-mŭn'-dāne,** *a.* [Pref. *ultra-*, and Eng. *mundane* (q.v.).] Being beyond the world, or beyond the limits of our system.

> "We need not fly to imaginary *ultramundane* spaces."—*Boyle: Works*, v. 140.

ŭl'-tra vĭr'-ēs, *phr.* [Lat.] Beyond one's power; especially beyond the power of a person, court, or corporation, legally or constitutionally.

* **ŭl-trō'-nē-ŭs,** *a.* [Lat. *ultroneus*, from *ultro* = of one's own accord.] Voluntary, spontaneous.

> "Human laws oblige to an active obedience, but not to a spontaneous offer, and *ultroneous* seeking of opportunities."—*Jeremy Taylor: Ductor Dubitantium.*

* **ŭl-trō'-nē-ŭs-lў,** *adv.* [Eng. *ultroneous*; *-ly.*] Voluntarily, spontaneously, of one's own accord.

* **ŭl-trō'-nē-ŭs-nĕss,** *s.* [Eng. *ultroneous*; *-ness.*] The quality or state of being ultroneous; spontaneity; voluntariness.

* **ŭl'-u-la,** *s.* [Lat. = the shrieker, a screech-owl.]

Ornith.: A lapsed genus of Strigidæ (q.v.) of which the Linnæan *Strix flammea* was the type.

***ŭl'-ụ-lant,** *a.* [Lat. *ululans*, pr. par. of *ululo* = to howl.] Howling, ululating.

***ŭl'-ụ-lāte,** *v.i.* [Lat. *ululatum*, sup. of *ululo* = to howl, from the sound; Sp. & Port. *ulular*; Ital. *ululare*; O. Fr. *huller*; Fr. *ululer*.] To howl, as a dog or wolf.

"Troops of jackalls . . . *ululating* in offensive noises."—*Sir T. Herbert: Travel*, p. 118.

***ŭl-ụ-lā'-tion,** *s.* [Lat. *ululatio*.] A howling, as of a dog or wolf; a wailing.

"The *ululation* of vengeance ascended."—*De Quincey: Murder as a Fine Art.* (Postscript)

ŭl'-vạ, *s.* [Lat. = sedge, and various other aquatic plants.]

Bot.: A genus of Halymedidæ (*Lindley*); the typical genus of Ulvaceæ (*Kützing, Berkeley*, &c.). Frond plane, simple or lobed, formed of a double layer of cells closely packed, producing zoospores. It is distinguished from Porphyra chiefly by its green colour, while Porphyra is roseate or purple. With the exception of *Ulva bullosa*, most of the species are marine, and they are widely distributed through the ocean. *U. Lactuca* is Oyster-green (q.v.). This species and *U. latissima* are sometimes called Green Laver, and are eaten. In Scotland they are occasionally bound round the temples to alleviate headache. *U. thermalis* grows in the hot springs of Gastein in a temperature of about 117° Fahr. *U. compressa* is eaten by the Sandwich Islanders.

ŭl-vā'-çĕ-æ, *s. pl.* [Lat. *ulv(a)*; fem. pl. adj. suff. *-aceæ*.]

Bot.: An order of Green-spored Algals, generally marine, rarely freshwater, or growing in damp places. Fronds membranous, expanded, saccate, tubular, or sometimes filiform, composed of spherical or polygonal cells firmly united into single or double layers. Reproductive organs consisting of roundish spores, formed from the whole contents of the cells, or of ciliated zoospores in twos, fours, or a greater number. Widely distributed. British genera five.

ŭl'-yie, ŭl'-zie (z as y), *s.* [Fr. *huile* = oil.] Oil. (*Scotch.*)

"Would you creesh his bonny brown hair in your nasty *ulyie*."—*Scott: Antiquary*, ch. x.

Ŭ'-mạ, *s.* [Hind.]

Hind. Mythol.: One of the names given to the consort of Siva. [Doorga.]

ŭm'-bĕl, *ŭm-bĕl'-la, *s.* [Lat. *umbella* = a little shadow, dimin. from *umbra* = a shadow.]

Bot.: A kind of inflorescence, in which the pedicels all proceed from a single point like the spokes of an umbrella, and are of equal length or corymbose. When each of the pedicels bears only a single flower, as in Eryngium, the umbel is said to be simple; when it divides and bears other umbels, as in Heracleum, it is said to be compound. In the latter case the assemblage of umbels is called the universal umbel, and the secondary umbels the partial umbels; or the universal umbel is called simply the umbel and the secondary ones the umbellules. The peduncles supporting the partial umbels are termed radii.

ŭm'-bĕl'-lal, *a.* [Umbellar.]

ŭm-bĕl-lā'-lēs, *s. pl.* [Fem. pl. of Mod. Lat. *umbellalis*, from Lat. *umbella*.] [Umbel.]

Bot.: The Umbellal Alliance; an alliance of Epigynous Exogens, having dichlamydeous, polypetalous flowers, solitary large seeds, and a small embryo lying in a large quantity of albumen. Orders: Apiaceæ, Araliaceæ, Cornaceæ, Hamamelidaceæ, and Bruniaceæ.

ŭm-bĕl'-lar, ŭm-bĕl'-lal, *a.* [Eng. *umbel*; *-ar, -al*.] Of or pertaining to an umbel; having the form of an umbel.

***ŭm-bĕl-lā'-tæ,** *s. pl.* [Fem. pl. of Mod. Lat. *umbellatus*, from Lat. *umbella* (q.v.).]

Bot.: The twenty-second order in Linnæus's Natural System, corresponding to the present Umbelliferæ (q.v.).

ŭm-bĕl'-late, ŭm'-bĕl-lā-tĕd, *a.* [Eng. *umbel*; *-ate, -ated*.]

1. *Bot.:* With the inflorescence in the form of an umbel; bearing umbels; pertaining to an umbel.

2. *Zool.:* Having a number of nearly equal radii proceeding from the same point.

ŭm'-bĕl-lĕt, *s.* [Eng. *umbel*; dimin. suff. *-let*.] A little or partial umbel; an umbel formed at the end of one of the rays of another umbel; an umbellule.

ŭm-bĕl'-lĭc, *a.* [Eng. *umbell(iferone)*; *-ic*.] Contained in or derived from umbelliferone (q.v.).

umbellic-acid, *s.*

Chem.: $C_9H_{10}O_4 = C_6H_3(OH)_2{\cdot}C_2H_4{\cdot}CO{\cdot}OH$. A monobasic aromatic acid, obtained by the action of sodium amalgam on an alkaline solution of umbelliferone. It crystallizes in colourless granules, difficultly soluble in cold water, and melts at 125°.

ŭm-bĕl'-lĭ-fĕr, *s.* [Umbelliferæ.]

Bot.: Any plant of the order Umbelliferæ; a plant producing an umbel.

ŭm-bĕl-lĭf'-ĕr-æ, *s. pl.* [Mod. Lat., from Lat. *umbella*, and *fero* = to bear.] [Umbel.]

Bot.: Umbellifers; the name given by Jussieu in 1789, and still extensively in use, for a large and easily recognised order of plants, having their inflorescence in the form of an umbel. Lindley called them Apiaceæ, from the genus Apium, and placed the order under his Umbellal Alliance of Epigynous Exogens. The flowers, which are white, pink, yellow, or blue, are generally surrounded by an involucre. They have a superior calyx, either entire or five-toothed; five petals, five stamens, two styles, and a two-celled inferior ovary, with a solitary pendulous ovule in each cell. Fruit consisting of two carpels, separable from a common axis, to which they adhere by their face. Each carpel is traversed by elevated ridges, of which five are primary and four secondary. The Umbelliferæ abound in temperate climates in the northern hemisphere, but are rare in the tropics. The vegetation of some—as hemlock, fool's parsley, and others—is poisonous, whilst that of the garden parsley is eaten. Similarly, the stem of the celery and the roots of the carrot and the parsnip are wholesome articles of food. Families seventeen—viz.:

UMBELLIFER.
(*Angelica archangelica.*)

Hydrocotylidæ, Mulinidæ, Saniculidæ, Ammiuidæ, Seselinidæ, Pachypleuridæ, Angelicidæ, Peucedanidæ, Sileridæ, Cuminidæ, Thapsidæ, Daucidæ, Eleæoselinidæ, Caucalinidæ, Scandicidæ, Smyrnidæ, and Coriandridæ.

Genera, 267; species, 1,500. (*Lindley.*) Genera, 152; species, 1,300. (*Sir J. Hooker.*) Thirty-four genera are represented in Britain.

ŭm-bĕl-lĭf'-ĕr-one, *s.* [Mod. Lat. *umbellifer(æ)*; suff. *-one* (*Chem.*).]

Chem.: $C_9H_6O_3 = C_6H_3(OH){\cdot}\overset{O}{\underset{C_2H_2{\cdot}CO}{\frown}}$. A neutral body, obtained by the dry distillation of various resins, chiefly those derived from umbelliferous plants. It crystallizes in colourless rhombic prisms, is tasteless, inodorous, soluble in boiling water and in alcohol, ether, and chloroform. When heated it emits an odour of coumarin, melts at 240° to a yellowish liquid, and volatilizes without residue.

ŭm-bĕl-lĭf'-ĕr-oŭs, *a.* [Eng. *umbellifer*; *-ous*.] Furnished with an umbel; umbellate, umbellated.

ŭm-bĕl-lụ-lăr'-ĭ-ạ, *s.* [Mod. Lat., dimin. from Lat. *umbella* = a sunshade.]

Zool.: A genus of Alcyonaria, sometimes separated from Pennatula (q.v.). Body elongate, slender, with a long osseous axis. Polyps large, terminal. *Umbellularia groenlandica* = *Pennatula encrinus*.

ŭm-bĕl'-lụ-lăt-ĕd, *a.* [Umbellule.]

Bot.: Disposed in small umbels.

ŭm'-bĕl-lule, *s.* [As if from a Lat. *umbellula*, a double dimin. from *umbra* = a shade; Fr. *ombellule*.] A small umbel; an umbellet; a secondary or partial umbel.

ŭm'-bĕr (1), *** ŭm'-bre (bre** as **bĕr)** (1), *s.* & *a.* [Fr. *ombre* (for *terre d'ombre*), from Ital. *ombra* (for *terra d'ombra*) = umber; lit. = earth of shadow, *i.e.*, earth used for shadowing, from Lat. *umbra* = a shade; cf. Sp. *sombra* = shade, umber; Fr. *ombre* = umbered or shadowed; Ger. *umber*.]

A. *As substantive:*

I. *Ordinary Language:*

1. A well-known pigment of an olive-brown colour in its raw state, but much redder when burnt. It consists of an ochreous earth containing manganese, is durable, has a good body, and is useful in oil and water-colour painting. It occurs either naturally in veins or beds, or is prepared artificially from various admixtures. That which is brought from Cyprus, under the name of Turkish umber, is the best. It is of a brown citrine colour, semi-opaque, has all the properties of good ochre, is perfectly durable both in water and oil, and one of the best drying colours we possess. It injures no other good pigment with which it may be mixed.

"I'll put myself in poor and mean attire,
And with a kind of *umber* smirch my face."
Shakesp.: As You Like It, i. 3.

2. A variety of peat or brown coal occurring near Cologne, used as a pigment and for the adulteration of snuff. (*Brande.*)

II. *Min.:* A clay-like substance of varying shades of a brown-colour, consisting essentially of a hydrated silicate of alumina mixed with varying proportions of iron and manganese oxides. Used as a pigment.

B. *As adj.:* Olive-brown.

umber-brown, *s.*

Bot.: A pure dull brown. Nearly the same as deep brown.

ŭm'-bĕr (2), *s.* [Fr. *ombre, umbre*, from Lat. *umbra* = shade.]

1. *Ichthy.:* The grayling.

"The *umber* and grayling differ as the herring and pilcher do: but though they may do so in other nations, those in England differ nothing but in their names."—*Walton: Angler.*

* 2. *Old Arm.:* The same as Umbriere (q.v.).

3. *Ornith.:* The same as Umbre (2) (q.v.).

***ŭm'-bĕr, *ŭm'-bre (bre** as **bĕr),** *v.t.* [Umber (1), *s.*] To colour with or as with umber; to shade, to darken.

"To dye your beard and *umber* o'er your face."
Ben Jonson: Alchemist, v. 3.

***ŭm'-bĕred,** *a.* [Eng. *umber* (1), *s.*; *-ed*.] Coloured with or as with umber; embrowned, darkened, dark, dusky.

"Thy dark cloud, with *umbered* lower,
That hung o'er cliff, and lake, and tower."
Scott: Marmion, v. (Introd.)

***ŭm'-bĕr-y,** *a.* [Eng. *umber* (1), *s.*; *-y*.] Of or pertaining to umber; dark, dusky.

ŭm-bĭl'-ĭc, *a.* & *s.* [Umbilical.]

A. *As adj.:* The same as Umbilical (q.v.).

*** B.** *As subst.:* The navel, the centre.

"Hell is the *umbilick* of the world, circled with a thick wall."—*Sir T. Herbert: Travels*, p. 329.

ŭm-bĭl'-ĭc-al, * ŭm-bĭl'-ĭc-all, *a.* [Lat. *umbilicus* = the navel.] Of or pertaining to the navel; formed in the middle like a navel; navel-shaped, central.

"The chapter-house is large, supported as to its arched roof by one *umbilical* pillar."—*Defoe. Tour Thro' Great Britain.*

umbilical-arteries, *s. pl.* [Umbilical-vessels.]

umbilical-cord, *s.* [Funiculus, I. 1.]

umbilical-fissure, *s.*

Anat.: The anterior part of the longitudinal fissure between the lobes of the liver.

umbilical-hernia, *s.*

Pathol.: A hernia which protrudes through the umbilical opening in the middle line at the umbilicus. It is most commonly met with in infants and in women advanced in life, especially in obese subjects.

umbilical-points, *s. pl.*

Geom.: The same as Foci. [Focus.]

umbilical-region, *s.*

Anat.: The middle region of the abdomen, in which the umbilicus is placed; the mesogastrium. [Abdomen.]

umbilical-ring, *s.*

Anat.: A fibrous ring which surrounds the

aperture of the umbilicus, and through which umbilical hernia occurs in children.

umbilical-vein, *s.* [Umbilical-vessels.]

umbilical-vesicle, *s.* [Yolk-sac.]

umbilical-vessels, *s. pl.*

1. *Anat.:* A comprehensive name including the two umbilical arteries (continuations of the primitive iliacs) and the umbilical vein of the human fœtus. The latter arises from the placenta, and conveys to the fœtus the blood necessary for its nutrition, the residuum being carried back to the placenta by the umbilical arteries. As soon as respiration begins the arteries are transformed into fibrous cords, and the vein becomes the round ligament (*ligamentum rotundum*) of the liver.

2. *Bot.:* The vessels which pass along the umbilicus or funicle to transmit nourishment to the cotyledons.

***ŭm-bĭl-ĭ-cāl'-ĭ-tȳ,** *s.* [Eng. *umbilical; -ity.*] Character as determined by an umbilicus.

ŭm-bĭl-ĭ-cär'-ĭ-ą, *s.* [Lat. *umbilicaris* = pertaining to the navel.]

Bot.: A synonym of Gyrophora (q.v.).

ŭm-bĭl'-ĭ-cąte, ŭm-bĭl'-ĭ-cāt-ĕd, *a.* [Lat. *umbilicus* = a navel.]

*I. *Ord. Lang.:* Navel-shaped; depressed in the middle like a navel.

II. *Technically:*

1. *Bot.:* Hollowed like the navel. The same as Peltate (q.v.).

2. *Zool.:* A term applied to those univalve shells which have the axis, around which the whorls are coiled, open or hollow. The perforation may be a mere fissure, as in the Lacuna; or it may be filled up by a shelly deposit, as in many species of Natica.

ŭm-bĭl'-ĭ-cŭs, *s.* [Lat. = the navel; allied to Gr. ὀμφαλός (*omphalos*) = the navel; Lat. *umbo* = a boss; O. Fr. *umbilic;* Ital. *umbilico, ombelico, bellico, bilico;* Sp. *ombligo;* Port. *umbigo, embigo;* Sansc. *nâbhi* = the navel (q.v.).]

1. *Anat.:* The navel (q.v.).

*2. *Antiq.:* An ornamental or painted boss or ball fastened on each end of the sticks on which manuscripts were rolled.

3. *Botany:*

(1) The same as Hilum (q.v.).

(2) A genus of Crassulæ. Leaves fleshy, racemose, white or yellow; calyx five-parted; corolla campanulate; stamens ten, inserted in the corolla; nectariferous scales five; carpels five. The species grow in dry stony places, and are sometimes planted in rockeries. *Umbilicus pendulinus* is the same as *Cotyledon Umbilicus.* [Cotyledon, I. 1.]

4. *Geom.:* A term used by the older geometers as synonymous with focus; but, in modern works, a point on a surface through which all lines of curvature pass.

5. *Zool.:* The aperture of the axis near the mouth of some univalve shells. [Umbilicated, II. 2.]

***ŭm' blo,** *s.* [Umbles.]

¶ *To eat umble-pie* (commonly corrupted into *to eat humble-pie*): [Humble-pie, ¶].

ŭm'-bleş, ***hŭm'-bleş,** *s. pl.* [For *numbles* (q.v.).] The entrails of a deer; sometimes applied to entrails generally.

ŭm-bō' (pl. **ŭm-bō'-nēş),** *s.* [Lat.; Fr. *umbon;* Ital. *umbone.*]

1. *Old Arm.:* The pointed boss or protuberant part of a shield.

"Such a bowl is peculiarly well adapted for the *umbo* of the shield."—*Murray: Greek Sculpture,* ch. iii.

UMBO OF SHIELD.

2. *Anat.:* The deepest part of the arched membrane of the drum of the ear, corresponding to the termination of the handle of the malleus (q.v.).

3. *Bot.:* The boss-like protuberance rising upwards from the centre of the pileus in an Agaric, &c.

4. *Zool.:* The embryonic shell, forming the point from which the growth of the valve commences in the Conchifera. The umbones are near the hinge because that side grows least rapidly, sometimes they are situated on the margin, but they always become wider apart with age. They may be straight, as in the genus Pecten; curved, as in Venus, or spiral, as in Isocardia and Diceras.

ŭm'-bō nąl, *s.* [Lat. *umbo*, genit *umbon(is);* Eng. adj. suff. *-al.*] Of, belonging to, or situated near the umbo (q.v.).

umbonal-area, *s.*

Zool.: The part of the shell of the Conchifera lying within the impression made by the margin of the mantle.

ŭm'-bō-nąte, ŭm'-bō-nāt-ĕd, *a.* [As if from a Lat. *umbonatus,* from *umbo,* genit. *umbonis* = a boss.]

*1. *Ord. Lang.:* Bossed; having a boss or knob in the centre.

2. *Bot.:* The same as Bossed (q.v.).

ŭm-bŏn'-ų-ląte, *a.* [As if from a Lat. *umbonula,* dimin. of *umbo* = a boss.]

Bot.: Terminated by a very small boss or nipple.

ŭm'-brą, *s.* [Lat. = a shadow.]

*1. *Class. Antiq.:* Among the Romans, a person who went to a feast as a companion of one invited, whom he thus followed as a shadow; a parasite whose duty it was to laugh at the jokes of his patron.

2. *Astron.:* The name given by Dawes to the black central portion of a sun-spot (q.v.). He limits the designation nucleus to patches of deeper blackness occasionally noticed in the umbræ, though the term is sometimes applied to the whole of the darker area. The fringe of lighter shade surrounding a sun-spot is called the penumbra.

"Cases of an *umbra* without a penumbra, and the contrary, are on record."—*G. F. Chambers: Descriptive Astronomy,* p. 6.

¶ In senses 1 and 2, there is a plural *ŭm'-brœ.*

3. *Ichthy.:* The sole genus of Umbridæ (q.v.), with two species: *Umbra krameri,* a small fish three or four inches long, from stagnant waters in Austria and Hungary; and *U. limi,* rather smaller, locally distributed in the United States, where it is known as the Dog-fish or Mud-fish. [Umbrina.]

umbra-tree, *s.*

Bot.: *Pircunia dioïca,* an arborescent Phytolaccad from Buenos Ayres.

***ŭm'-brąçed,** *a.* [Vambraced.]

***ŭm'-brą-cle,** *s.* [Lat. *umbraculum,* dimin. from *umbra* = a shade.] A shade; umbrage.

"That Free, that Soull-refreshing *umbracle.*"
Davies: Holy Roode, p. 15.

ŭm-brăc-ų-lĭf'-ĕr-oŭs, *a.* [Lat. *umbraculum* (q.v.); *fero* = to bear, and Eng. suff. *-ous.*]

Bot.: Bearing an umbraculum (q.v.).

ŭm-brăc'-ų-lĭ-form, *a.* [Lat. *umbraculum* = a little shade, and *forma* = form.] Forming a shade; umbrella-shaped, like a mushroom.

ŭm-brăc'-ų-lŭm (pl. **ŭm-brăc'-ų-lą),** *s.* [Lat., dimin. from *umbra* = a shade.]

Bot.: (1) A convex body terminating the setæ of Marchantia, and bearing on its under side the reproductive organs; (2) Any similar structure.

ŭm'-brage (age as ĭj), *s.* [O. Fr. *ombrage, umbrage* (Fr. *ombrage*), from *ombre* (Lat. *umbra*) = a shade.]

*1. A shadow. (*Shakesp.: Hamlet,* v. 2.)

*2. A shade; a shadow; obscurity.

"In the deep *umbrage* of a green hill's shade."
Byron: Childe Harold, iv. 32.

3. That which affords a shade; specif., a screen of trees or foliage.

"So deep, so dark, so close the *umbrage* o'er us,
No leaflet stirred."
Coleridge: The Night Scene.

*4. A shadow of suspicion cast upon a person; slight appearance or show.

"It is also evident that S. Peter did not carry himself so as to give the least overture or *umbrage* to make any one suspect he had any such preeminence."—*Bp. Taylor: Dissuasive from Popery,* pt. i., § 8.

*5. Suspicion, suspiciousness.

"I say, just fear, not out of *umbrages,* light jealousies, apprehensions afar off, but of clear foresight of imminent danger."—*Bacon: War with Spain.*

*6. A faint representation or appearance; a glimpse.

"You rejoice in false lights, or are delighted with little *umbrages* or peep of day."—*Taylor: Sermon to University of Dublin.*

*7. An adumbration; a shadowing forth.

"Some of them being *umbrages* . . . rather than realities."—*Fuller: Holy War,* bk. v., ch. xxv.

8. The feeling of being overshadowed; jealousy of another as standing in one's way or light; suspicion of injury; resentment. (Generally in the phrase *To take umbrage* = to be offended.)

"It will not be convenient to give him any *umbrage.*"
Dryden: Evening's Love, iv.

ŭm-brā'-ġeoŭs, ***om-bra gious,** ***um-bra-gious,** *a.* [Fr. *ombrageux* = shady, from *ombre* = shade.]

1. Shady; forming a shade.

"Where the grove with leaves *umbrageous* bends."
Pope: Homer; Odyssey vi. 149.

2. Shady, shaded. (*Milton: P. L.,* iv. 257.)

*3. Obscure; dark; not easy to be perceived.

"The present constitution of the court, which is very *umbrageous.*"—*Wotton: Remains,* p. 450.

*4. Suspicious.

"At the beginning some men were a little *umbrageous* and startling."—*Donne: Sermons,* p. 557 (1640).

*5. Apt or disposed to take umbrage or offence; feeling umbrage or jealousy; taking umbrage.

***ŭm-brā'-ġeoŭs-lȳ,** *adv.* [Eng. *umbrageous; -ly.*] In an umbrageous manner, so as to furnish abundant shade.

***ŭm brā'-ġeoŭs-nĕss,** ***ŭm-brā'-ġioŭs-nĕss,** *s.* [Eng. *umbrageous; -ness.*] The quality or state of being umbrageous; shadiness.

"Small creeks and overshadowed by the maleficent *umbrageousness* of the mangrove."—*Daily Telegraph,* Oct. 14, 1885.

ŭm'-bral, *a.* [Lat. *umbra* (q.v.); Eng. adj. suff. *-al.*]

Geol.: Shady; the term applied by Prof. H. D. Rogers to the fourteenth series of the Appalachian strata, corresponding in period to the Carboniferous limestone of Europe. Maximum thickness in Pennsylvania and Virginia, about 3,000 feet; in the Western States, about 1,000 feet. (*Prof. H. D. Rogers: Geology of Pennsylvania.*)

ŭm-brā'-ną, *s.* [Umbrina.]

***ŭm'-brāte,** *v.t.* [Lat. *umbratus,* pa. par. of *umbro* = to shade, from *umbra* = a shade.] To shade, to shadow, to foreshadow.

"The Law's types, wherein the things pertaining to the person, office, and kingdom of the Messias, were *umbrated.*"—*Christian Religion's Appeal,* lib. ii., p. 84.

***ŭm-brāt'-ĕd,** *a.* [Umbrate.] Shaded; dark in colour.

"Those ensignes which are borne *umbrated*"—*Bossewell: Workes of Armorie,* p. 25. (1572.)

***ŭm brāt'-ĭc,** ***ŭm-brāt'-ĭck,** ***ŭm-brāt'-ĭc-ąl,** *a.* [Lat. *umbraticus,* from *umbra* = a shade.]

1. Being in the shade.

2. Unreal, unsubstantial.

3. Being in retirement; secluded.

"I can see whole volumes dispatched by the *umbratical* doctors on all sides."—*Ben Jonson: Discoveries,* p. 167.

4. Typical, figurative, adumbrating, foreshadowing.

"By virtue of our Saviour's most true and perfect sacrifice, those *umbratic* representations, instituted of old by God, did obtain their substance, validity, and effect."—*Barrow. Sermons,* vol. ii., ser. 27.

***ŭm'-brą-tīle,** ***um-bra-til,** ***ŭm-brāt'-ĭl-oŭs,** *a.* [Lat. *umbratilis,* from *umbra* = a shade.]

1. Being in the shade.

2. Unreal, unsubstantial.

"Shadows have their figure, motion,
And their *umbratil* action from the real
Posture and motion of the body's act."
Ben Jonson: Magnetic Lady, iii. 2.

3. Typical, figurative.

"This life that we live disjoined from God is but a shadow and *umbratil* imitation of that."—*Dr. H. More: Song of the Soul,* p. 337. (Notes.)

4. Secluded, retired.

"Natural hieroglyphicks of our fugitive *umbratile,* anxious, and transitory life."—*Evelyn: Sylva,* bk. iv., § 13.

ŭm-brā'-tion, *s.* [Lat. *umbra* = a shade.]

Her.: The same as Adumbration (q.v.).

***ŭm-brā'-tious,** *a.* [Lat. *umbra* = a shade.] [Umbrage.] Suspicious; apt to take umbrage.

*** ŭm′-bre (bre as bẽr)** (1), *s.* [UMBER (1), *s.*]

ŭm′-bre (bre as bẽr) (2), *s.* [Fr., from the colour of the plumage.]

Ornithology:

1. *Scopus ardetta*, a South African bird, called also the Hammer-head, and Brown Stork. The body is about the size of that of a crow, plumage umber-coloured, lighter beneath; the male with a large crest on the back of the head. These birds prey upon frogs and small fish, and embellish their nests with anything bright and glittering they can pick up.

2. (*Pl.*): The Scopinæ (q.v.).

*** ŭm′-brẹl, * um-brel-lo,** *s.* [UMBRELLA.]

ŭm-brĕl′-la, *s.* [Ital. *umbella, umbrella, ombrella* = a fan, a canopy, a little shade, dimin. of *ombra* (Lat. *umbra*) = a shade. The true classical Latin form is *umbella*, dimin. from *umbra*. Florio has "*Ombrella*, a fan, a canopie, also a testern or cloth of state for a prince; also a kind of round fan or shadowing that they vse to ride with in summer in Italy; a little shade" (*World of Words*, 1598).]

I. *Ordinary Language:*

*** 1.** A shade, a cover, a cloak.

"Made Religion an *Umbrella* to Impiety."—*Osborn: King James*, p. 491. (1673.)

2. A light frame covered with silk, cotton, alpaca, or other fabric, and held above the head as a protection against sun or rain. [PARASOL, SUN-SHADE.] The use of the umbrella came to us from the East, where it has been in use from remote times, and where it is considered as a symbol of royalty or dignity. As a defence against rain it was not generally used in England till the middle of the eighteenth century. (See extract.)

"As appears by the *Female Tattler* of Dec. 12, 1709, the *umbrella* was only designed as a protection between the door and the carriage. Jonas Hanway, who died in 1786, has the credit of contemning public opinion, and defying the coachmen and sedan-chair men, who deemed it their monopoly to protect from rain."—*Knight: Dict. Mechanics*, s. v. *Umbrella*.

II. *Technically:*

1. *Zool.:* The bell-shaped swimming organ of the Lucernarida, akin to the nectocalyx of the Medusidæ, but without a velum (q.v.).

2. *Zool. & Palæont.:* Chinese Umbrella-shell; a genus of Pleurobranchidæ, with six recent species, from the Canaries, Mediterranean, India, China, and the Sandwich Islands. Shell small, depressed, and limpet-like, marked by concentric lines of growth; inner surface with a central coloured and striated disc, surrounded by a continuous irregular muscular impression. Animal with a very large foot, deeply notched in front, gill forming a series of plumes beneath the shell in front and on the right side. Fossil species four, from the Oolite onward of the United States, Sicily, and Asia.

¶ *King Coffee's Umbrella:* The state umbrella of the King of Ashantee, taken at Coomassie, Feb. 4, 1874, and deposited by her Majesty in South Kensington Museum.

umbrella-bird, *s.*

Ornith.: *Cephalopterus ornatus*, from Peru. It is about the size of a crow, with deep black plumage; the head is adorned with a large spreading crest, which arises from a contractile skin, and capable of being erected at will; the shafts of the crest-feathers are white, and the plumes glossy blue, hair-like, and curved outwards at the tips. When the crest is laid back the shafts form a compact white mass, sloping up from the back of the head; when it is erected the shafts radiate on all sides from the top of the head, reaching in front beyond and below the beak, which is thus completely concealed from view. A long cylindrical plume hangs down from the middle of the neck; the feathers of the plume lap over each other like scales, and are bordered with metallic blue. Umbrella-birds associate in small flocks, and live almost entirely upon fruits. Their cry, which resembles the lowing of a cow, is most frequently heard just before sunrise and after sunset.

UMBRELLA BIRD.

"The estate, which devolved on this unhappy woman by a settlement of her *umwhile* husband."—*Scott Waverley*, ch. x.

ŭn (1), *pref.* [A.S. *an-*; cogn. with Dut. *on-*; Icel. *ú-* or *ó-* (for *un-*); Dan. *ut*; Sw. *o-*; Goth. *un-*; Ger. *un-*; Wel. *an-*; Lat. *in-*; Gr. ἀν-, ἀ- (*an-*, *a-*); Zend. *ana-*; Sanse. *an-*; Pers. *nâ*, all prefixes denoting negation; cf. Lat. *ne-* = not; Gr. *ny* (*ne*); Goth. *ni-* = not; Lith. *ne-* = no; Russ. *ne-*; Gael. *neo-*, negative prefixes.] A prefix denoting negation, used chiefly before adjectives, past participles passive, present participles used adjectively, and when so used meaning simply not: as, *unfair*, *untrue*, *untold*, *unforgiving*, &c. From such words adverbs and nouns are formed: as, *unfairly*, *untruthfulness*, *untruth*, *unforgivingly*, *unforgivingness*, &c. *Un-* is also prefixed to some nouns to express the opposite or absence of what the noun expresses: as, *untruth*, *unrest*, *undress*, &c. Before many words of Latin origin *un-*, in the sense of simple negation, becomes *in-* (q.v.): as, *uncomplete* and *incomplete*. Negation is also expressed by *non-* or *dis-*: as, *non-elastic*, *disreputable*, &c.

ŭn (2), *pref.* [A.S. *un-*, only used as a prefix in verbs, as in *undon* = to undo, *unbindan* = to unbind, &c.; cogn. with Dut. *ont-*, as in *ontladen* = to unload, from *laden* = to load; Ger. *ent-*, as in *entladen* = to unload; O. H. Ger. *ant-*, as in *antbintan* = to unlock; Goth. *and-*, as in *andbindan* = to unbind. It is the same prefix as that which appears as *an-* in Eng. *answer*, and as *and-* in A.S. *andswarian*; and it is cognate with Gr. ἀντι (*anti*) = in opposition to.]

1. A prefix used with verbs to imply the reversal of the meaning of the simple verb by a positive act not a simple negation of its meaning. Thus *unbind* means a positive undoing and removal of the binding which the simple verb affirmed to be fixed.

2. Prefixed to nouns it changes them into verbs, implying privation of the object expressed by the noun or of the qualities connoted by it: as, *unman*, *unsex* = to deprive of the qualities of a man, sex, &c. In this sense sometimes called *un* privative.

3. More rarely it is almost superfluous, or at most adds intensity to the meaning of the simple verb. Thus to loosen and to *unloosen* do not differ much in meaning, though perhaps unloosen is, to a slight extent, the more forcible word.

4. It is found in a few verbs, chiefly obsolete, with the force of retraction or revocation: as, *unsay* = to retract what has been said, *unpredict* = to retract or revoke a prediction, to *unlearn* = to forget what has been learnt, &c.

5. Some words with *un-* prefixed are hardly used unless qualified by *not*: as, though we should not speak of an *unstriking* view, we should not hesitate to say the view was *not* [illegible].

6. In the case of past participles there is an ambiguity in the prefix *un-*, which may be either *un-* (1) or *un-* (2), as in *unrolled*, which may mean either not rolled, or unfolded after having been rolled up.

¶ The meanings of most of the past participles, adjectives, adverbs, &c., having *un-* prefixed are so obvious that a large number of them are here omitted.

un hidebound, *a.* Not hidebound; not having the skin fitting closely, as is the case when animals are swoln and full: hence, hungry and with empty stomach.

"Raxin . . . though plenteous, all too little seems
To stuff this maw, this vast *un hidebound* corpse."
Milton P. L., x. 601.

***ŭn-ā'ble tŏ,** *s.* [Eng. *unable*; *-ty*.] Inability.

"If for the blyndnesse of the preest, or for other *unableté*, he that is repentaunt wole go to another preest lernuing in this ghostly office, he shal not do this withouten licence axid." *Ecclesiæ Regimen*, written, as it seems, before 1395."—*Wycliffe: Ed. Pref.*, p. 27.

***ŭn ą bŏl'ĭsh-ą-ble,** *a.* [Pref. *un-* (1), and Eng. *abolishable*.] Not able to be abolished; not capable of being abolished, annulled, or destroyed.

"That law proved to be moral, and *unabolishable* for many reasons annext thereto."—*Milton: Doct. & Dis. of Divorce*, bk. ii., ch. 4.

ŭn-ą bŏl'ĭshed, *a.* [Pref. *un-* (1), and Eng. *abolished*.] Not abolished; not repealed or annulled; remaining in force.

"The number of needless laws *unabolished*, doth weaken the force of them that are necessary."—*Hooker: Eccles. Polity*, bk. viii.

ŭn ą bridged', *a.* [Pref. *un-* (1), and Eng. *abridged*.] Not abridged; not curtailed; not shortened.

"With verdure pure, unbroken, *unabridg'd*."
Mason: English Garden, bk. i.

***ŭn ąb sŏlv'-ą-ble,** *a.* [Pref. *un-* (1), and Eng. *absolvable*.] Not capable of being absolved; not admitting of absolution.

***ŭn ąb sŏlved',** *a.* [Pref. *un-* (1), and Eng. *absolved*.] Not absolved; not solved; unsolved.

"So that doubt remaineth not *unabsolved*."—*Strype: Eccles. Mem.*; *Henry VIII.* (an. 1539).

***ŭn ąb sŭrd',** *a.* [Pref. *un-* (1), and Eng. *absurd*.] Not absurd; not opposed to reason or common sense.

"What less than infinite makes *unabsurd*
Passions, which all on earth but more inflames?"
Young: Night Thoughts, vii. 514.

***ŭn ą bŭn dąnt,** *a.* [Pref. *un-* (1), and Eng. *abundant*.] Not abundant; rare; not plentiful.

Uncle Sam, *s.* The popular or nom de plume of the United States government, used as John Bull is with respect to England. It is supposed to be a jocular extension of the letters U. S. (United States), printed or stamped on the government property.

ún clean, * **un cleane,** * **un clene,** *a.* [Pref. *un-* (1), and Eng. *clean.*]

I. *Ordinary Language:*
1. Not clean; foul, dirty, filthy.

> "Whose wife was a continence
> [illegible]
> *Gower: C. A., ii.*

2. Morally foul or impure; wicked, evil; hence (esp.), unchaste.

> "Let them an example take
> And, lastly, see you prove the unclean knight."
> *Shirley: Merry Wives of Windsor, iv. 4.*

II. *Comparative Religions:*
1. *Rhetcism:* In every ceremonial faith much [illegible] between what is ceremonially [illegible] clean. Food cooked by a pudra or by an outcast is unclean to the Brahmin, [illegible] the pots of his caste if he eat it. He [illegible] also avoid unclean persons, as the Parsee, [illegible] Mussulman, and other officials.

2. *Judaism:* Both things on the one hand, and persons or beings on the other, might be ceremonially unclean. Regarding things, there were unclean places (Lev. xiv. 40), but the word unclean was especially applied to certain articles of food, as the flesh of an [illegible] which had died of disease, or been [illegible] by man, or killed by beasts or birds of [illegible] ey, certain animals in all circumstances (Unclean animals), and blood. (Lev. v. 2, 3; xi. 40, 41; xvii. 10-16; Acts xv. 20.) Regarding persons, one might be made unclean by touching the carcase of an unclean animal of any kind (Lev. v. 2; xi. 28). In some cases this ceremonial defilement was but temporary, continuing only till the evening (Lev. xv. 2-28, &c.). Washing the clothes was often an essential step towards the removal of the impurity. A woman giving birth to a male child was unclean for seven days (xii. 2), and to a female child for fourteen days (xii. 5), the period of uncleanness being much shorter than that of her purification (xii. 4, 5). The leper was unclean till the priest pronounced that his loathsome malady was at an end (Lev. xiii. 1-59). (Cheyne & Sutherland.)

3. *Christianity:* Jesus swept away the doctrine that the eating of certain articles of food, deemed ceremonially impure, involved sin, by his sweeping declaration: "Not that which goeth into the mouth defileth a man, but that which cometh out of the mouth, this defileth a man" (Matt. xv. 11; cf. also 12-20; Mark vii. 14); and with regard to [illegible] St. Peter, after the vision of the [illegible] down, would no longer call any man [illegible] or unclean (Acts x. 28).

unclean animals, *s. pl.*
Jewish Antiq.: Certain animals which were regarded as ceremonially unclean, and [illegible] therefore to be eaten. Most animals that "chew the cud" might be eaten, with the exception of the camel, the coney (Hyrax), the hare, and the swine, only the first of which is a true ruminant. A number of birds, the "eagle," the "ossifrage," the "vulture," the "kite," &c., were to be deemed unclean and abominable. Much difficulty arises in identifying some of the birds referred to; but one broad fact is undoubted—that the Baptistes were deemed ceremonially impure, while most of the grain-[illegible] were allowed as articles of food. Unclean [illegible] were those which had not the [illegible] With the exception of what would now be

called the Leaping Orthoptera—locusts, grasshoppers, &c. most insects were unclean, as were most creeping things, from vertebrate reptiles to molluscous snails. Not merely were the unclean animals to be rejected as articles of food, their carcasses were to be avoided, as the individual touching them would be unclean (Lev. xi. 1-47). Apart from the ceremonial law, the flesh of the prohibited animals was generally less wholesome than that of those allowed.

Philos.: A term employed in a twofold signification: denoting (1) the entire absence of all restriction; or (2), more widely, the entire absence of all relation. (*Calderwood: Philos. of the Infinite*, p. 36.)

¶ *The Unconditioned:*

Philosophy:

(1) According to Kant, that which is absolutely and in itself, or internally possible, and is exempted from the conditions circumscribing a thing in time or space.

"Within the sphere of the phenomenal there exists no unconditional cause but outside of the whole complex of phenomena there exists, as their transcendental ground, the *Unconditioned*."—*Ueberweg: Hist. Philos.* (Eng. ed.), ii. 177.

(2) According to Hamilton, the highest expression for the common element in what is properly absolute and infinite in thought, or as these can be understood.

"The *Unconditioned* regarded as one, or thought as one, does imply an impossibility alike of thought and being."—*J. Veitch: Hamilton*, p. 231.

ŭn cŏn form' ă ble, *a.* [Pref. *un-* (1), and Eng. ... *-able.*]

1. *Ord. Lang.*: Not conformable; not agreeable; not consistent.

> "Unto those general rules, they knew we do not ... We were held anything *unconformable* ..."

2. *Geol.*: The term used when one series of beds is so placed over another that the superior beds repose more or less on the edges instead of on the planes of the inferior series. Thus on the borders of Wales and Shropshire the shaly beds of the Silurian system are curved or vertical, while those of the overlying carboniferous shale and limestone are horizontal. To produce unconformity, three series of events have generally occurred. First, the inferior beds, originally laid down horizontally, must at some subsequent time have been tilted up by a force, probably igneous, from beneath. Secondly, in most cases, the upturned ends of the strata must have been more or less acted on by denudation, which has rendered them a nearly horizontal plane on which fresh strata can easily rest. Thirdly, these fresh strata have been actually deposited. Approximately to measure the interval of time which the above changes have occupied, intermediate beds must be sought for in other districts or regions, or failing these, note must be taken of the amount of alteration in life which has occurred during the unknown interval. This may be determined by comparing the fossils in the lower with those in the upper beds. Unconformability is of three kinds, the effects of ancient seismic or volcanic action. If it filled up the lower and had no influence on the upper strata, the first kind of reference is that it occurred between the deposition of the two.

ŭn cŏn form ă bĭ' lў, *adv.* [Eng. *unconformable*; *-ly.*] In an unconformable manner; not conformably or agreeably.

> "In such cases the discordance of inclination between the upper and inferior strata is expressed by the term unconformity, and the upper rock is said to lie *unconformably* upon the lower." *Phillips: Geol.* (ed. 1840), i. 70.

Wordsworth: White Doe, iv.

¶ *Philosophy of the Unconscious:*

Philos.: A system introduced by E. v. Hartmann (born in Berlin 1840), who published his *Die Philosophie des Unbewussten* in 1869. He assumes that there is in nature an unconscious Will and Idea (= the Substance of Spinoza, the Absolute Ego of Fichte, the Absolute Subject-object of Schelling, the Absolute Idea of Plato and Hegel, and the Will of Schopenhauer) as a pure and spiritual activity, without a substratum of nerve and brain, which is the basis of consciousness. The product of this Will and Idea is the world.

unconscious cerebration, *s.*

Mental Physiol.: The name given to the doctrine that the mind may undergo modifications, sometimes of very considerable importance, without being itself conscious of the process, until its results present themselves to the consciousness in the new ideas, or new combination of ideas, which the process has evolved. This doctrine has been current among German metaphysicians from the time of Leibnitz to the present day, and was systematically expounded by the late Sir William Hamilton. (*Carpenter: Mental Physiol.*, ch. xiii.; see also *Macmillan's Mag.*, Nov., 1870, p. 25.)

undershot-wheel, *s.*

Hydraul.: A water-wheel moved by water passing beneath; in contradistinction to the overshot, in which it is received above; the breast-wheel, in which it is received at or nearly on a level with its axis; the turbine, in which it runs through; and some others. Poncelet's water-wheel has buckets of a curvilinear form, open at the back, without a sole-plate, to secure ventilation. The water impinges upon each bucket at nearly the lowest point of the wheel, the shuttle being arranged to draw upward; and as the water enters it follows the curve of the bucket, rises and falls over into the next in succession. In this way the force of the water is expended directly upon the wheel, instead of a portion being wasted in its passage along the sluice.

undue influence, *s.*

Law: A phrase used specially in connection with parliamentary or municipal voting or the making of a will. In the first case it consists of any force, violence, restraint, threat to inflict injury or intimidation, designed to coerce a person into voting for a particular candidate, or abstaining from voting at all, or as an infliction because of his having done so. The perpetrator exposes himself to a legal penalty; and if he can in any sense be considered an agent of the candidate the election is rendered void. If undue influence is proved against a candidate he is disqualified from taking his seat in the legislative body to which he may have been elected. In the case of a will, undue influence is exerted when one acquires such an ascendency over the testator's mind as to prevent the latter from being a free agent. If he spontaneously bequeath money to one whom he esteems or loves, the esteem or affection do not constitute undue influence. Importunity does. When undue influence is proved the will becomes void.

***ŭn-dūe'-nĕss,** *s.* [Eng. *undue*; *-ness.*] The quality or state of being undue.

"Their *undulating* manes."
Cowper: Homer; Iliad xxiii.

B. *Trans.:* To cause to wave or move with a wavy motion; to cause to vibrate.

"Breath vocalized—*i.e.*, vibrated and *undulated*, may in a different manner affect the lips, or tongue."—*Holder: Elements of Speech.*

ŭn'-dŭ-lāt-ĕd, *pa. par. & a.* [UNDULATE, *v.*]

A. *As pa. par.:* (See the verb).

B. *As adjective:*

1. *Ord. Lang.:* Wavy; having a waved surface.

2. *Bot.:* Wavy; having an uneven, alternately convex and concave margin, as the leaf of the holly.

ŭn'-dŭ-lāt-ĭng, *pr. par. & a.* [UNDULATE, *v.*]

A. *As pr. par.:* (See the verb).

B. *As adjective:*

1. Waving; rising and falling like waves; vibrating. (*Thomson: Summer*, 982.)

2. Having a form or outline resembling that of waves; wavy; having an arched, curved, or bending outline. (A stretch of country is said to be undulating when it presents a succession of elevations and depressions resembling the waves of the sea.) In bot. the same as UNDULATED, P. 2 (q.v.).

"The outline remarkably *undulating*, smooth, and flowing."—*Reynolds: Journey to Flanders & Holland.*

ŭn'-dŭ-lāt-ĭng-lў, *adv.* [Eng. *undulating; -ly.*] In an undulating manner; in the manner of waves.

ŭn-dŭ-lā'-tion, *s.* [UNDULATE, *v.*]

I. *Ordinary Language:*

1. The act of undulating; a waving or wavy motion; fluctuation.

"Water-lilies in myriads rocked on the slight *undulations* Made by the passing oars." *Longfellow: Evangeline*, ii. 2.

2. A wavy form; a form resembling that of a wave or waves.

"The root of the wilder sort [is] incomparable for its crisped *undulations*."—*Evelyn: Sylva*, bk. ii., ch. iv., § 15.

II. *Technically:*

1. *Pathol.:* The movement, as ascertained by pressure or percussion, of a fluid in any natural or artificial cavity of the body. Called also Fluctuation. Used spec. in sense 3. (q.v.).

2. *Phys.:* A motion to and fro, up and down, or from side to side, but without translation of the particles composing any fluid medium. Called also a Vibration or a Wave-motion. [UNDULATORY-THEORY.]

3. *Surg.:* A certain motion of the matter of an abscess when pressed, which indicates its fitness for opening.

¶ 1. *Length of an undulation:*

Acoustics: The distance which sound travels during a complete vibration of the body by which it is produced.

2. *Point of undulation:* [SINGULAR-POINT].

† **ŭn-dŭ-lā'-tion-ĭst,** *s.* [Eng. *undulation; -ist.*] One who supports the undulatory theory of light.

* **ŭn'-dŭ-lāt-ĭve,** *a.* [Eng. *undulat(e); -ive.*] Undulating, undulatory.

ŭn-dŭ-lā-tō-, *pref.* [UNDULATE.] Undulated, undulating, waved on the margin.

undulato-rugose, *a.*

Bot.: Rugose or rugged, waved. (*Loudon.*)

undulato-striate, *a.*

Bot.: Having elevated lines wavy in direction.

ŭn'-dŭ-lā-tŏr-ў, *a.* [Eng. *undulat(e); -ory.*] Having an undulating character; moving in the manner of a series of waves; rising and falling like waves; pertaining to such a motion.

"The *undulatory* motion propagated along the body."—*Paley: Nat. Theol.*, ch. xvi.

undulatory-theory, *s.*

Optics: The generally accepted theory which traces light to vibrations set up and transmitted as waves in an invisible medium termed the luminiferous ether. This, it is assumed, is (sensibly) imponderable, and almost infinitely elastic, and fills all space, passing freely through the pores or between the atoms of bodies as the wind does through the trees, but having its motions, in a somewhat analogous manner, hindered or modified thereby, and thus accounting for the retardation which is the principal factor in producing Refraction (q.v.). Luminous bodies are believed to be (and in the case of heated luminous bodies are known to be) in a state of intense molecular vibration, and these successive impulses communicated to the ether give rise to successive waves of radiant energy, whose effects on other bodies depend upon their rate, as the pitch of a sound does. The slower periods apparently cause heating effects only; more rapid impulses produce luminous and chemical effects as well, and energetic chemical action is exerted by waves far too rapid to produce luminous impressions. Within the luminous range each rate produces on the normal retina the sensation of one given colour only, while a proportion of all periods mixed produces that of white. In the phenomena of Reflection, Refraction, Dispersion, and ordinary Interference, there is nothing to define the direction of the actual ethereal vibrations; but the facts of Polarization (q.v.) demonstrate that these must be at right angles to the path of the ray, which again implies that the ether, rare and subtle as it is, must have the chief distinguishing quality of a solid, or resemble a thin but solid jelly rather than a fluid. This is believed to be the case, and the ether is also believed to be the medium through which electricity and other forms of energy are transmitted. The Undulatory Theory is usually ascribed to Huyghens, but was firmly established by the convincing experiments and reasoning of Young and Fresnel. Newton adopted the Corpuscular Theory, but in the second edition of his *Opticks* he added "queries," showing that later he was very strongly disposed to adopt the other.

* **ŭn-dŭll',** *v.t.* [Pref. *un-* (2), and Eng. *dull.*] To remove dulness or obscurity from; to clear, to purify.

"Poetry . . . is a most musical modulator of all intelligibles by her inventive varintions; *undulling* their grossness."—*Whitlock: Present Manners of the English*, p. 477.

* **ŭn'-dŭ-lŭs,** *a.* [UNDULATE.] Undulating.

"The *undulous* readiness of her volatile paces."—*Blackmore: Lorna Doone*, ch. lxv.

ŭn-dū'-lў, *adv.* [Eng. *undu(e); -ly.*] In an undue manner or degree; wrongly, improperly, excessively, inordinately.

"Subject to the delusions of the mind when *unduly* agitated either by sensation or reflection."—*Warburton: Sermons*, vol. x., ser. 27.

* **ŭn-dŭmp'-ĭsh,** *v.t.* [Pref. *un-* (2), and Eng. *dumpish.*] To free from the dumps; to remove heaviness, dulness, or sullenness from.

"He [the jester] could *undumpish* her at his pleasure."—*Fuller: Worthies; Staffordshire.*

* **ŭn-dūr'-a-ble,** *a.* [Pref. *un-* (1), and Eng. *durable.*] Not of a durable character; not lasting. (*Arnway: Tablet of Moderation*, p. 109.)

* **ŭn-dūr'-a-blў,** *adv.* [Eng. *undurab(le); -ly.*] In an undurable manner; not lastingly.

* **ŭn-dŭst,** *v.t.* [Pref. *un-* (2), and Eng. *dust.*] To free from dust; to clear.

"We frequently dress up the altar of our hearts, and *undust* it from all these little foulnesses."—*Montague: Devoute Essays*, pt. ii., treat. 6.

* **ŭn-dū'-tē-oŭs,** *a.* [Pref. *un-* (1), and Eng. *duteous.*] Not duteous; not performing one's duties to parents and superiors; undutiful.

"And this deceit loses the name of craft,
Of disobedience, or *undutteous* title."
Shakesp.: Merry Wives, v. 5.

ŭn-dū'-tĭ-fŭl, * **ŭn-dū-tĭ-fŭll,** *a.* [Pref. *un-* (1), and Eng. *dutiful.*]

1. Not dutiful; not performing one's duty; neglectful of one's duty.

"Never give him cause to think them unkind or *undutiful*."—*Macaulay: Hist. Eng.*, ch. xxiv.

2. Characterized by disobedience to or neglect of one's duty; disobedient.

"The church was indeed very severe against such *undutiful* proceedings."—*Bp. Taylor: Rule of Conscience*, bk. iii., ch. v.

ŭn-dū'-tĭ-fŭl-lў, *adv.* [Eng. *undutiful; -ly.*] In an undutiful manner; with neglect of duty.

"Charged them with *undutifully* and ungratefully encroaching on the rights of the mother country."—*Macaulay: Hist. Eng.*, ch. xix.

ŭn-dū'-tĭ-fŭl-nĕss, *s.* [Eng. *undutiful; -ness.*] The quality or state of being undutiful; disobedience.

"*Undutifulness* to an almighty superior, and ingratitude to a gracious benefactor, such as God is."—*Secker: Sermons*, vol. ii., ser. 18.

* **ŭn-dwĕl'-la-ble,** *a.* [Pref. *un-* (1), and Eng. *dwellable.*] Uninhabitable; not capable of being dwelt in.

"Lest par auenture I sette thee desert, a lond *vndwellable*."—*Wycliffe: Jer.* vi. 8.

* **ŭn-dwĕlt',** *a.* [Pref. *un-* (1), and Eng. *dwelt.*] Not dwelt in; not inhabited. (Followed by *in.*)

"It, like a house *undwelt in*, would decay."
Browne: Britannia's Pastorals, i. 1.

ŭn'-dў, *a.* [UNDE.]

ŭn-dў'-ĭng, *a.* [Pref. *un-* (1), and Eng. *dying.*]

1. Not dying; not perishing; immortal, indestructible.

"To chains of darkness and the *undying* worm."
Milton: P. L., vi. 739.

2. Unceasing: never ending or perishing; imperishable.

"But thou, a schoolboy, to the sea hadst carried
Undying recollections."
Wordsworth: On the Naming of Places, No. vi.

undying-flowers, *s. pl.* [EVERLASTING-FLOWERS.] (*Paxton.*)

* **ŭn-ēared',** *a.* [Pref. *un-* (1), and Eng. *eared.*] Not eared or ploughed; unploughed, untilled. (*Lit. & fig.*) (*Shakesp.: Sonnet* 3.)

ŭn-ĕarned', *a.* [Pref. *un-* (1), and Eng. *earned.*] Not earned; not gained or merited by labour or services.

"The hour of supper comes *unearn'd*."
Milton: P. L., ix. 225.

unearned-increment, *s.*

Polit. Econ.: The increase in the value of land produced without labour or expenditure on the part of the owner; as, for instance, by the growth of a town in its vicinity. Henry George and his followers contend that this increment should belong to the nation.

* **ŭn-ĕar'-nĕst,** *a.* [Pref. *un-* (1), and Eng. *earnest.*] Not earnest.

"Be possessed of vs after an *unearnest* sorte."—*Udal: Luke* xii.

ŭn-ĕarth', *v.t.* [Pref. *un-* (2), and Eng. *earth.*]

I. *Literally:*

1. To pull or drag out of the earth.

"To *unearth* the root of an old tree."
Wordsworth: Simon Lee.

2. To drive from an earth or burrow, as a fox, badger, &c.; to cause to leave a burrow.

"It was made known that, when that time had expired, the vermin who had been the curse of London would be *unearthed* and hunted without mercy."—*Macaulay: Hist. Eng.*, ch. xxii.

II. *Fig.:* To bring to light; to reveal, to discover, to find out.

"Those who have busied themselves in *uncarthing* the early history of curling, have been unable to discover that James IV. really played much at the game."—*Field*, Nov. 26, 1887.

ŭn-ĕarth'-lў, *a.* [Pref. *un-* (1), and Eng. *earthly.*] Not earthly; not of this world; hence, supernatural, not like, or as if not proceeding from or belonging to, this world.

"The *unearthly* voices cease."
Scott: Lay of the Last Minstrel, i. 18.

* **ŭn-ēase',** *s.* [Pref. *un-* (1), and Eng. *ease.*] Want of ease; uneasiness, trouble, anxiety, distress.

"What an *unease* it was to be troubled with the humming of so many gnats."—*Hacket: Life of Williams*, pt. ii., p. 88.

* **ŭn-ēased',** *a.* [Pref. *un-* (1), and Eng. *eased.*] Not eased; in a state of unease or anxiety; troubled, anxious.

* **ŭn-ēaş'-ĭ-lў,** * **un-eis-y-liche,** *adv.* [Eng. *uneasy; -ly.*]

1. Not easily; not readily; with difficulty, trouble, or pain.

"It was presently counted a place very hardly and *uneasily* to be inhabited for the greate colde."—*Hackluyt: Voyages*, iii. 54.

2. In an uneasy manner; with uneasiness; restlessly; like one uneasy or ill at ease: as, He moved *uneasily* in his seat.

ŭn-ēaṣ'-ĭ-nĕss, *s.* [Eng. *uneasy; -ness.*] The quality or state of being uneasy or ill at ease; want of ease or comfort, mental or physical; restlessness, anxiety.

"At a time when the ascendency of the court of Versailles had aroused *uneasiness.*"—*Macaulay: Hist. Eng.*, ch. v.

ŭn-ēaṣ'-ў, *a.* [Pref. *un-* (1), and Eng. *easy.*]

1. Feeling some degree of pain, mental or physical; ill at ease; restless, disturbed, anxious.

"*Uneasy* lies the head that wears a crown."
Shakesp.: 2 Henry IV., iii. 1.

2. Not easy or elegant in manner; constrained; ill at ease; not graceful; awkward.

"In conversation, a solicitous watchfulness about one's behaviour, instead of being mended, will be constrained, *uneasy*, and ungraceful."—*Locke.*

"Upon *uneasy* pallets stretching thee."
Shakesp.: 2 Henry IV., iii. 1.

* **4.** Peevish; difficult to please.

"A sour untractable nature makes him *uneasy* to those who approach him."—*Addison: Spectator.*

* **5.** Difficult; not easy to be done or accomplished.

"This swift business I must *uneasy* make."
Shakesp.: Tempest, i. 2.

ŭn-ēat'-a-ble, *a.* [Pref. *un-* (1), and Eng. *eatable.*] Not eatable; not fit to be eaten.

"An almost *uneatable* . . . compound."—*Field*, Jan. 14, 1888.

ŭn-ēat'-en, *a.* [Pref. *un-* (1), and Eng. *eaten.*]

1. Not eaten.

"A huge brawn, of which *uneaten* still
Large part and delicate remain'd."
Cowper: Homer; Odyssey viii.

* **2.** Not destroyed.

"Therefore I will out-swear him and all his followers, that this is all that's left *uneaten* of my sword."—*Beaum. & Flet.: King & No King*, iii.

* **ŭn-ēath',** * **un-ethe,** *adv. & a.* [A.S. *uneáthe* = with difficulty, from *uneáthe* = difficult, from *un-* = not, and *eáth, eáthe* = easy; cogn. with O. S. *ôthi* = easy; O. H. Ger. *ôdi* = desert, empty, easy; Ger. *öde* = deserted; Goth. *auths, authis* = desert, waste; Icel. *audhr* = empty; Lat. *otium* = ease.]

A. *As adverb:*

1. With difficulty; not easily; scarcely.

"*Uneath* may she endure the filthy struts."
Shakesp.: 2 Henry VI., ii. 4.

2. Almost.

"Seem'd *uneath* to shake the stedfast ground."
Spenser: F. Q., I. xii. 4.

B. *As adj.:* Not easy; difficult, hard.

"*Uneath* it is to tell." *Southey.*

* **ŭn-ĕbb'-ĭng,** *a.* [Pref. *un-* (1), and Eng. *ebbing.*] Not ebbing, receding, or falling back.

* **ŭn-ē'-brĭ-ate,** *a.* [Pref. *un-* (1), and Eng. *ebriate.*]

1. Not intoxicated.

"Forth, *unebriate*, unpolluted, he came from the orgy."—*Lytton: My Novel*, bk. vi., ch. xx.

2. Not intoxicating.

"There were . . . *unebriate* liquors."—*Lytton: My Novel*, bk. iv., ch. xvii.

"By an exertion of the same almighty power light up the lamp of knowledge in the minds of *uneducated* men."—*Horsley: Sermons*, vol. i., ser. 14.

ŭn-ĕf-fāced', *a.* [Pref. *un-* (1), and Eng. *effaced.*] Not effaced; not defaced or erased.

"If we have received a good impression, let us bear it away *uneffaced* to our graves."—*Knox: Sermons*, vol. vi., ser. 2.

* **ŭn-ĕf-fĕc'-tu-al,** *a.* [Pref. *un-* (1), and Eng. *effectual.*] Not effectual; having no effect or power; ineffectual; inefficacious.

"The glow-worm shows the matin to be near,
And 'gins to pale his *uneffectual* fire!"
Shakesp.: Hamlet, i. 5.

* **ŭn-ĕ-ġĕst'-ĕd,** *a.* [Pref. *un-* (1), and Eng. *egested.*] Unvoided, undischarged from the bowels. (*Adams: Works*, ii. 476.)

* **ŭn-ē lăb' ŏr-ate, ŭn-ē lab ŏr-āt ĕd,** *a.* [Pref. *un-* (1), and Eng. *elaborate, elaborated.*] Not elaborate, not elaborated; not worked or wrought elaborately.

"An *unelaborate* stone."
Wordsworth: Excursion, bk. vii.

ŭn-ĕ-lăs'-tĭc, *a.* [Pref. *un-* (1), and Eng. *elastic.*] Not elastic; having no elasticity.

* **ŭn-ĕ-lăs-tĭc'-ĭ-tў,** *s.* [Pref. *un-* (1), and Eng. *elasticity.*] The absence or want of elasticity.

* **ŭn-ĕl'-bōwed,** *a.* [Pref. *un-* (1), and Eng. *elbowed.*] Not pushed aside, as with the elbow; not thrust aside or crowded.

"We stand upon our native soil,
Unelbow'd by such objects."
Wordsworth: Excursion, bk. ix.

* **ŭn-ĕ-lĕct'-ĕd,** *a.* [Pref. *un-* (1), and Eng. *elected.*] Not elected; not chosen.

"You should have ta'en the advantage of his choler,
And pass him *unelected.*"
Shakesp.: Coriolanus, ii. 3.

* **ŭn-ĕ-lĕc'-tĭve,** *a.* [Pref. *un-* (1), and Eng. *elective.*] Not choosing or electing; without power of choice or election.

"An ignorant, unknowing, *unelective* principle."—*Hale: Orig. of Mankind*, p. 274.

* **ŭn-ĕl'-ĕ-gant,** *a.* [Pref. *un-* (1), and Eng. *elegant.*] Not elegant; inelegant.

"You meet with expressions now and then, which appear *unelegant* and singular."—*Secker: Sermons*, vol. iv., ser. 15.

* **ŭn-ĕl'-ĕ-gant-lў,** *adv.* [Pref. *un-* (1), and Eng. *elegantly.*] In an unelegant manner; unelegantly.

"Neither seemeth he *unelegantly* and beside the purpose . . . to have expressed as much in this verse."
—*P. Holland: Plutarch*, p. 426.

* **ŭn-ĕl'-ĭġ-ĭ-ble,** *a.* [Pref. *un-* (1), and Eng. *eligible.*] Not eligible; ineligible.

"Both extremes, above or below the proportion of our character, are dangerous; and 'tis hard to determine which is most *uneligible.*"—*Rogers.*

ŭn-ĕm băr'-rassed, *a.* [Pref. *un-* (1), and Eng. *embarrassed.*]

1. Not embarrassed; not perplexed or confused; free from embarrassment or confusion.

"With minds *unembarrassed* with any sort of terrour."—*Burke: Letter to Sir H. Langrishe.*

2. Free from pecuniary obligations or encumbrances.

"*Unembarrassed* in business."—*Daily Telegraph*, Jan. 26, 1888.

* **ŭn-ĕm-băr'-rass-mĕnt,** *s.* [Pref. *un-* (1), and Eng. *embarrassment.*] Freedom from embarrassment.

"My feeling was that of *unembarrassment.*"—*Carlyle: Reminiscences*, ii. 21.

* **ŭn-ĕm bĕl'-lished,** *a.* [Pref. *un-* (1), and Eng. *embellished.*] Not embellished, adorned, or beautified.

"If truth only and *unembellished* facts are plainly represented."—*Knox: Essays*, No. 45.

ŭn-ĕm-bĭt'-tered, *a.* [Pref. *un-* (1), and Eng. *embittered.*] Not embittered; not accompanied with any bitterness or pain; free from pain or acerbity.

"There rose no day, there roll'd no hour
Of pleasure *unembitter'd.*"
Byron: All is Vanity.

ŭn-ĕm bŏd'-ĭed, *a.* [Pref. *un-* (1), and Eng. *embodied.*]

1. Not embodied; not collected into a body: as, *unembodied* troops.

2. Freed from a corporeal body; disembodied.

"Then, *unembodied*, doth it trace
By steps each planet's heavenly way."
Byron: When Coldness Wraps, &c.

* **ŭn-ĕm-bŏw'-ered,** *a.* [Pref. *un-* (1), and Eng. *embowered.*] Not provided with bowers.

"All *unembowered*
And naked stood that lonely parsonage."
Wordsworth: Excursion, bk. vii.

† **ŭn-ĕ-mō'-tion-al,** *a.* [Pref. *un-* (1), and Eng. *emotional.*] Not emotional; free from emotion or feeling; impassive.

"Thought of all that this inscription signified with an *unemotional* memory."—*G. Eliot: Daniel Deronda*, ch. lxii.

* **ŭn-ĕ-mō'-tioned,** *a.* [Pref. *un-* (1), and Eng. *emotioned.*] Free from emotion.

"In a dry, sarcastic, *unemotioned* way."—*Godwin: Mandeville*, iii. 98.

* **ŭn-ĕm-phăt'-ĭc,** * **ŭn-ĕm-phăt'-ĭc-al,** *a.* [Pref. *un-* (1), and Eng. *emphatic, emphatical.*] Not emphatic; having no emphasis or stress of voice.

* **ŭn-ĕm-phăt'-ĭc-al-lў,** *adv.* [Eng. *unemphatical; -ly.*] Not in an emphatic manner; without emphasis.

* **ŭn-ĕm-pĭr'-ĭc-al-lў,** *adv.* [Pref. *un-* (1), and Eng. *empirically.*] Not empirically.

"The result is in the fullest keeping with that which I have reached *unempirically.*"—*Poe: Works*, ii. 137.

ŭn-ĕm-plŏў'-a-ble, *a.* [Pref. *un-* (1), and Eng. *employable.*] Not capable of or eligible for employment; unfit for employment.

"To these we must add a still larger number of persons who are unemployed because they are *unemployable.*"—*St. James's Gazette*, Dec. 21, 1887.

ŭn-ĕm-plŏўed', *a.* [Pref. *un-* (1), and Eng. *employed.*]

1. Not employed; having no work or employment; out of work; at leisure.

"Other creatures all day long
Rove idle, *unemploy'd*, and less need rest."
Milton: P. L., iv. 617.

2. Not being in use: as, *unemployed* capital.

3. Not associated or accompanied with labour or employment.

"To maintain able-bodied men in *unemployed* imprisonment."—*Froude: Hist. Eng.*, ch. xvi.

¶ *The Unemployed:* A collective term, embracing all persons in humble circumstances who are out of employment. These may be divided into three classes: (1) Those who are unable to work, either through age, accident, or disease; (2) Those who are willing to work but cannot find employment; and (3) Those who will not work under any circumstances. The unemployed who fall under the third category form a large and dangerous class in all our cities and in the country at large. In the latter they have the significant name of tramp, and form a large body of peripatetic beggars, few of whom are willing to work under any contingency. In the cities they are one of the most dangerous classes, being ready to take advantage of any strike or popular excitement, and often bringing worthy causes into disrepute by their illegal acts. Of the worthy unemployed there is always a considerable number in the congested cities of modern times, and in periods of business depression, like that of 1883–94, an army of them exists, who unavoidably become a heavy and distressing burden on the community. Great sums of money are subscribed by the generous for the alleviation of the distress on such occasions, but in all such cases much suffering unavoidably results. The great strikes which are now becoming so common form another source of this public evil, which is undoubtedly added to greatly in the United States by the rapid influx of unskilled foreigners, many of them from the normally idle class.

"*The unemployed* are formed from many different classes, from many diverse elements: and we get no nearer to understanding their condition, to say nothing of improving it, if we persist in treating them as though they were all of a single type, and that type one which is in no degree representative."—*St. James's Gazette*, Dec. 22, 1887.

***ŭn-ĕmp′-tĭ-a-ble** (*p* silent), *a.* [Pref. *un-* (1); Eng. *empty*, and suff. *-able.*] That cannot be emptied or exhausted; inexhaustible.

"A drop of that *unemptiable* fountaine of wisdome."
—*Hooker: Eccles. Pol.*, bk. ii., § 1.

ŭn-ĕmp′-tĭĕd (*p* silent), *a.* [Pref. *un-* (1), and Eng. *emptied.*] Not emptied.

"With its *unemptied* cloud of gentle rain."
Byron: Childe Harold, iv. 70.

***ŭn-ĕn-ā′-bled (bled as beld)**, *a.* [Pref. *un-* (1), and Eng. *enabled.*] Not enabled or empowered. (*Southey: Thalaba*, v.)

***ŭn-ē-năr′-ra-ble**, *a.* [Inenarrable.]

***ŭn-ĕn-chant′-ĕd**, *a.* [Pref. *un-* (1), and Eng. *enchanted.*] Not enchanted; that cannot be enchanted. (*Milton: Comus*, 395.)

ŭn-ĕn-clōsed′, *a.* [Pref. *un-* (1), and Eng. *enclosed.*] Not enclosed; open.

"An ancient manor, now rich with cultivation, then barren and *unenclosed*, which was known by the name of Hallamshire."—*Macaulay: Hist. Eng.*, ch. iii.

***ŭn-ĕn-cŭm′-bĕr**, *v.t.* [Pref. *un-* (2), and Eng. *encumber.*] To free from encumbrance; to disencumber.

"A cloistral place

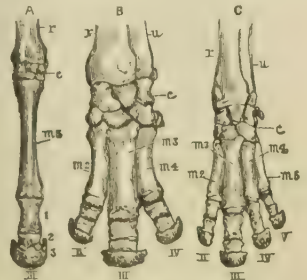
1. *Zoology :*

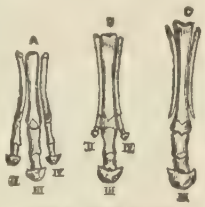
(1) A provisional group of Mammals, the living members of which correspond to the Pecora and Belluæ of Linnæus, and the Ruminantia and Pachydermata of Cuvier. The dentition is heterodont and diphyodont, the milk-teeth not being completely changed till the animal attains its full development; the molars have broad crowns with tuberculated or ridged surfaces; clavicles absent; toes with broad, blunt nails, or, in most cases, with hoofs, more or less enclosing the ungual phalanges; scaphoid and lunar bones of carpus distinct. The group is usually divided into two minor groups: *Ungulata Vera*, often called simply Ungulata [(2)], and Subungulata (q.v.). All the species are eminently adapted for a terrestrial life, and, generally speaking, for a vegetable diet. Some are, to a greater or less extent, omnivorous, as Sus; but no genus is distinctly predaceous.



FEET OF UNGULATA.

A. Horse. B. Rhinoceros. C. Tapir. *r.* Radius; *u.* Ulna; *c.* Carpus; *m2, m3, m4, m5,* Metacarpals; II. III. IV. V. Digits; 1, 2, 3. Phalanges.

(2) True Ungulates; a group of Mammals classed as an order, or as a group of the wider Ungulata [(1)]. Feet never plantigrade, functional toes never more than four, the first digit being suppressed; allantois largely developed; placenta non-deciduate; uterus bicornuate; mammæ usually few and inguinal (as in Equus), or many and abdominal (as in Sus), but never solely pectoral. There are two divisions; Artiodactyla and Perissodactyla (q.v.), first indicated by Cuvier and established by Owen, who proposed the names now in general use.



FEET OF HORSE AND ITS ANCESTORS.

A. Anchitherium with three functional digits; B. Hipparion and C. Horse, showing gradual disappearance of second and fourth digits.

2. *Paleont. :* The Ungulata appear first in the Eocene Tertiary, in which period the Artiodactyla and Perissodactyla were already differentiated. [Teleodactyla.]

ŭn'-gu-late, *a. & s.* [Ungulata.]

A. *As adjective :*

1. Hoof-shaped; shaped like the hoof of a horse.

2. Having hoofs; hoofed: as, an *ungulate* animal.

ŭn-hăir', *v.t.* [Pref. *un-* (2), and Eng. *hair.*] To remove the hair from; to deprive or divest of hair; to strip of hair.

"I'll spurn thine eyes
Like balls before me; I'll *unhair* thy head."
Shakesp. : Antony & Cleopatra, ii. 5.

ŭn-hăir'-ĭng, *s.* [Unhair.]

Leather : The process of removing hair from hides. This is performed by the action of lime, which dissolves the hair-sheath and combines with the fat of the hide to form an insoluble soap. The lime is suspended in water in pits, and the hides placed therein, being occasionally handled, that is, taken out, drained, and replaced in the pit, examination determining when the process is complete. The hides are then removed, laid over a beam, and the hair and epidermis removed by a knife.

***ŭn-hāle',** *a.* [Pref. *un-* (1), and Eng. *hale.*] Not hale; not healthy; unsound.

***ŭn-hăl'-lōw, *unhalwe,** *v.t.* [Pref. *un-* (2), and Eng. *hallow.*] To profane; to desecrate.

"Shall we esteem and reckon how it heeds
Our works, that his own vows *unhalloweth?*"
Daniel : Musophilus.

ŭn-hăl'-lōwed, *unhalwed, *a.* [In sense 1 from pref. *un-* (1), and Eng. *hallowed*; in sense 2 from *unhallow*, v.]

1. Not hallowed; unholy, profane.

ū-nĭ-, *pref.* [Lat. *unus* = one.] Having one feature or character.

Ū'-nĭ-ăt, Ū'-nĭ-ate, *s.* [From Lat. *unus* = one.]

Church Hist.: One of the United Greeks (q.v.).

***ū-nĭ-âu-rĭc'-ū-lāte,** *a.* [Pref. *uni-,* and Eng. *auriculate.*] Possessed of, or in form resembling, a single small ear.

uniauriculate-animals, *s. pl.*

Zool.: The Gasteropoda. (*Rossiter.*)

ū-nĭ-ăx'-al, ū-nĭ-ăx'-ĭ-al, *a.* [Pref. *uni-,* and Eng. *axial.*]

1. *Biol.:* Developed from a single axis, as is the case with all vertebrate animals, some molluscs and annulosa, and some plants. (*Rossiter.*)

2. *Optics & Crystall.:* Having one direction within the crystal, along which a ray of light can proceed without being bifurcated.

"The coloured rays of *uniaxial* and biaxial crystals."—*Proc. of Phys. Soc. London,* pt. ii., p. 3.

¶ The crystals of Iceland spar, quartz, and tourmaline are uniaxial. Brewster has shown that in all uniaxial crystals the optic axis coincides with the axes of crystallization. When the ordinary refractive index exceeds the extraordinary index the crystal is said to be negative, when it falls short of it the crystal is said to be positive. Iceland spar, tourmaline, sapphire, ruby, &c. have negative, and quartz, ice, titanite, &c. positive uniaxial crystals.

***ū'-nĭ-bèr,** *s.* [Etym. doubtful.] The faceguard of a helmet. (*Ogilvie.*)

* **u-nic,** *s.* [UNIQUE.]

* **ū-nĭ-căm'-ĕr-al,** *a.* [Lat. *unus* = one, and *camera* = a chamber.] Consisting of a single chamber. (Said of a legislative body.)

ū-nĭ-căp'-su-lar, *a.* [Pref. *uni-,* and Eng. *capsular.*]

Bot.: Having but a single capsule.

ū-nĭ-car'-dĭ-um, *s.* [Pref. *uni-,* and Mod. Lat. *cardium* (q.v.).]

Paleont.: A doubtful sub-genus of Corbis, having the shell thin, oval, and concentrically striated; the hinge with an obscure tooth or edentulous. Known species forty, from the Lias to the Portland Rock. (*Woodward.*)

ū-nĭ-căr'-ĭ-nate, *a.* [Pref. *uni-,* and Eng. *carinate.*] Having a single ridge or keel.

ū-nĭ-cĕl'-lu-lar, *a.* [Pref. *uni-,* and Eng. *cellular.*]

Biol.: Consisting of a single cell or cellule. (Used of certain algals and fungals of low organization, and of the Protozoa.)

* **ū-nĭç'-ĭ-tў,** *s.* [Lat. *unus* = one.]

1. The state of being unique.

2. The state of being in unity, or of being united into one.

† **ū-nī-clī'-nal,** *a.* [Lat. *unus* = one, and Gr. κλίνω (*klinō*) = to cause to bend, slope, or slant.]

Geol.: Having but a single dip, inclination, or direction. Used of a stratum which slants only in one direction; opposed to synclinal and anticlinal (q.v.).

ū'-nĭ corn, * **u-ni-corne,** *s.* [Fr. *unicorne,* from Lat. *unicornum,* accus. of *unicornus* = one-horned, from *unus* = o and *cornu* = a horn.]

I. *Ordinary Language:*

1. An animal having a single horn, frequently mentioned by Greek and Latin authors. Ctesias calls it the Wild Ass, and Aristotle the Indian Ass. Ctesias describes the Wild Ass as being about the size of a horse, with a white body, red head, and blue eyes, having a horn on the forehead a cubit long, which for the extent of two palms from the forehead is entirely white, black in the middle, and pointed and red at the extremity. Of the horn drinking cups were formed, and those who used them were said not to be subject to spasm, epilepsy, or the effects of poison. Unicorns were said to be very swift and strong, not naturally fierce, but when provoked they fought desperately with horn, heels, and teeth, so that it was impossible to take them alive. Browne (*Vulg. Errours,* bk. iii., ch. xxiii.) enumerates five kinds of unicorns: "the Indian ox, the Indian ass, the rhinoceros, the oryx, and that which was more eminently termed *monoceros* or *unicornis;*" and in the same chapter he quotes descriptions of this mythical animal from various authors. Wilkin, in a note to Browne (*loc. sup. cit.*) gives a statement from Rüppell that the unicorn exists in Kordofan, where it is known by the name of *millekma.* He describes it as of a reddish colour, of the size of a small horse, of the slender make of a gazelle, and furnished with a long, straight, slender horn

in the male, which is wanting in the female. Some added that it had divided hoofs, while others declared it to be single-hoofed. Three Arabs told Rüppell that they had seen the animal in question. All these stories have probably some foundation in fact, to which a large superstruction of fiction has been added. An antelope like an oryx, seen in profile would appear to a careless observer like an animal with a single horn; and hence the mythical tales of unicorns probably arose. (See illustration.)

* 2. A kind of insect having a horn upon its head.

"Some *unicorns* we will allow even among insects, as those insicornous beetles described by Muffetus."—*Browne: Vulgar Errours,* bk. iii., ch. xxiii.

3. A carriage and pair with a third horse in front; also applied to such an equipage.

"Let me drive you out some day in my *unicorn.*"—*Miss Edgeworth: Belinda,* ch. xvii.

II. *Technically:*

1. *Astron.:* [MONOCEROS, 1.].

2. *Her.:* A fabulous animal, having the head, neck, and body of a horse, with a beard like that of a goat, the legs of a buck, the tail of a lion, and a long tapering horn, spirally twisted, in the middle of the forehead. Two unicorns were borne as supporters of the Scottish royal

arms for about a century before the union of the Crowns in 1603; and the sinister supporter of the arms of the United Kingdom is a unicorn argent, armed, crined, and unguled or, gorged with a coronet of crosses patée and fleurs de lis, with a chain affixed passing between the fore legs and reflected over the back of the last. (See illustration under REVERTED.)

"How the brave boy, in future war,
Should tame the *Unicorn's* pride."
Scott: Lay of the Last Minstrel, i. 19.

3. *Script.:* [REEM].

¶ *Sea-unicorn:* The narwhal, *Monodon monoceros*. [MONODON, NARWHAL.]

unicorn-bird, *s.*

Ornith.: Palamedea cornuta. [ANHIMA.]

"The horn of the *unicorne-bird*; in Brasile called Anhima. Described by Marggravius and Willughby out of him. His principal marks are these: headed and footed like the dunghill cock, tail'd like a goose, horned on his forehead (with some likeness) as the Unicorne is pictured; spurd on his wings; bigger than a swan. The male, say Marggravius and Piso, as big again."—*Grew: Museum*, p. 65.

unicorn-fish, *s.* [UNICORN, ¶.]

unicorn-plant, *s.*

Bot.: A popular name for Martynia (q.v.), said to refer to the projecting beaks or hooks of the capsule; but the name is inaccurate, as there are two horns in place of one.

unicorn-root, *s.*

Bot.: The root of *Helonias dioica*, a plant of the Melanthaceæ or Melanths, one or two feet high, growing in North American bogs. It has a leafy scape, spiked racemes of white flowers, with linear petals and exserted stamens. In infusion the root is anthelmintic, but its tincture is bitter and tonic.

unicorn-shell, *s.*

Zool.: The genus Monoceros (q.v.). Both the scientific and popular names refer to the prominent spine on the outer lip.

unicorn's horn, *s.*

* **1.** *Ord. Lang.:* A name formerly given to the horn of the narwhal, which was often preserved in museums as the horn of the mythical unicorn. [UNICORN, II. 1.]

2. *Bot.: Helonias dioica.* [UNICORN-ROOT.]

ū-nĭ-corn′-oŭs, *a.* [Lat. *unicornus.*] [UNICORN.] Possessed of but a single horn.

"*Unicornous* beetles."—*Browne: Vulgar Errours*, bk. v., ch. xix.

ū-nĭ-cŏs′-tate, *a.* [Pref. *uni-*, and Eng. *costate* (q.v.).]

Bot.: Having but a single midrib, whence the secondary veins or nerves diverge. This is the typical structure of Exogens in general.

ū-nĭ-dăc′-tўle, *a.* [Pref. *uni-*, and Gr. δάκτυλος (*daktulos*) = a finger or toe, a digit.] Having a single functional digit, as the horse and some of its ancestors. (See illustration under UNGULATA, 1. (2).)

"In the Anchitherium and Hipparion the transformation from the tridactyle to the *unidactyle* Ungulate is accomplished."—*O. Schmidt: Doctrine of Descent*, p. 274.

B. *As adj.:* Of or pertaining to Uniformitarianism (q.v.).

ū-nĭ-for-mĭ-tär′-ĭ-ăn-ĭşm, *s.* [Eng. *uniformitarian*; *-ism.*]

Geol.: A term introduced by Prof. Huxley to express the view strongly advocated by Hutton and Lyell, that there is no need for the hypothesis of alternate periods of repose and convulsion to account for the present appearance of the earth's crust. All that we see might be—and they believed was—produced by the operation of ordinary causes continued during indefinitely long periods of time. [GEOLOGY.]

"I have spoken of *Uniformitarianism* as the doctrine of Hutton and Lyell."—*Huxley: Pres. Address*, in *Quart. Journ. Geol. Soc.*, vol. xxv. p. xli.

ū-nĭ-form′-ĭ-tў, * **u-ni-form-i-tie,** *s.* [Fr. *uniformité*, from Lat. *uniformitatem*, accus. of *uniformitas* = uniformity, from *uniformis* = uniform (q.v.).]

1. The quality or state of being uniform; resemblance to itself at all times; the quality, state, or character of adhering to one plan all through, or of having the parts similar.

"But for *uniformitie* of building . . . the towne of Cambridge, as the newer workmanship, exceedeth that of Oxford."—*Holinshed: Descr. England*, bk. ii., ch. iii.

2. Consistency, sameness.

"Queen Elizabeth was remarkable for that steadiness and *uniformity* which ran through all her actions. *Addison.*

3. Conformity amongst several or many to one pattern or rule; consonance, agreement, accord.

"The unity of that visible body and Church of Christ consisteth in that *uniformity* which all the several persons thereunto belonging have."—*Hooker.*

4. Continued or unvarying sameness or likeness; monotony.

¶ *Act of Uniformity:*

Church. Hist.: The Act 13 & 14 Car. II., c. 4, designed to regulate the terms of membership in the Church of England and in the colleges of Oxford and Cambridge. Both the Anglican and the Puritan parties had desired their faith to be that of the Church of England, and Charles II., who, as a step to obtaining his father's throne, wished to stand well with both parties, promised at Breda to use his influence to bring about a certain measure of comprehension. But the Parliament was in no mood to vote for such a scheme, and the Act of Uniformity required the clergy to sign the Thirty-nine Articles and to use the Book of Common Prayer. The enforcement of these regulations led to the secession from the Church of England of upwards of 2,000 clergymen, and laid the foundation of modern dissent. The Act of Uniformity Amendment Act, passed July 18, 1872, somewhat modified that of Charles, as the University Test Act, passed June, 1871, had done the year before.

ū′-nĭ-form-lў, * **u-ni-forme-lie,** *adv.* [Eng. *uniform*; *-ly.*]

1. In a uniform manner or degree; without variation; with even tenor.

"*Uniformly* clear of clouds."—*C. Brontë: Jane Eyre*, ch. xxii.

2. Without diversity of one from another.

"They turne it often, that it may be *uniformelie* drie."—*Holinshed: Descr. Eng.*, ch. vi.

3. With consistency throughout.

* **ū′-nĭ-form-nĕss,** *s.* [Eng. *uniform*; *-ness.*] The quality or state of being uniform; uniformity.

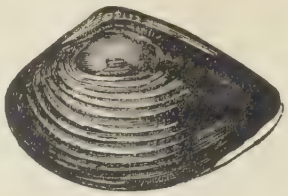
ū'-nĭ-ō, *s.* [Lat. = a single large pearl.]

1. *Zool.*: River-mussel; the type-genus of Unionidæ (q.v.), with more than 400 species, from all parts of the world. Shell oval or elongated, smooth, corrugated, or spiny, becoming very solid with age; anterior teeth, 1-2 or 2-2, short, irregular; posterior teeth, 1-2, elongated, laminar. Animal with the mantle margins only united between the siphonal openings; palpi long, pointed, laterally attached. [PEARL-MUSSEL.]



UNIO VALDENSIS.
(From the Wealden.)

2. *Palæont.*: Fossil species, fifty from the Wealden onward.

unio-beds, *s. pl.*

Geol.: The name given to certain beds in the Purbeck, characterized by the occurrence of species of Unio (q.v.).

ūn'-iŏn (i as y), * un-yon, *s.* [Fr., from Lat. *unionem*, accus. of *unio* = (1) unity, (2) a union, (3) a single large pearl (*Pliny the Elder: H. N.*, IX. xiv. 56), in which various excellencies, such as roundness, smoothness, and whiteness were united.]

I. *Ordinary Language:*

* 1. A pearl of great beauty and value.

"And in the cup an *union* shall he throw,
Richer than that which four successive kings
In Denmark's crown have worn."
Shakesp.: Hamlet, v. 2.

2. The act of uniting or joining two or more things in one, thus forming a compound body.

3. The state of being united; junction, coalition.

"To effect a civil *union* without a religious *union*."
—*Macaulay: Hist. Eng.*, ch. xiii.

4. Concord; agreement and conjunction of mind, will, affection, or interests.

"*Union* the bond of all things, and of man."
Pope: Essay on Man, iii. 150.

5. That which is united or made into one body; a body formed by the combination or uniting of two or more individual things or persons; the aggregate of the united parts; a combination, a coalition, a confederacy:

(1) A confederacy of two or more nations, or of several states in one nation: as, The United States of America are called the *Union*. This state of union was accomplished by means of the United States Constitution, adopted in 1787; the states having been previously practically independent, or very feebly combined. After the Revolutionary War they remained associated, but by a slight bond that was sure to cause discontent, and it quickly became evident that either a stronger central government must be organized, or the several states each become an independent nation. The latter expedient was so dangerous a one, that there was common consent to the formation of a strong central government, and the Constitution was adopted, combining the states into what is known as the Union.

(2) Two or more parishes consolidated into one for Administration of the Poor Laws. (*Eng.*)

* (3) (See extract):

"*Union* is a combining or consolidation of two churches in one, which is done by the consent of the bishop, the patron, and incumbent. And this is properly called an *union*; but there are two other sorts, as when one church is made subject to the other, and when one man is made prelate of both, and when a conventual is made cathedral. Touching *union* in the first signification, there was a statute, an. 37 Hen. VIII., ch. 21, that it should be lawful in two churches, whereof the value of the one is not above six pounds in the king's books, of the first fruits, and not above one mile distant from the other. *Union* in this signification is personal, and that is for the life of the incumbent: or real, that is perpetual, whosoever is incumbent."—*Cowel.*

(4) A trades-union (q.v.).

6. A contraction of union-workhouse [WORKHOUSE.]

7. A kind of device for a flag, used either by itself or forming the upper inner corner of an ensign; a flag marked with this device.

"As the patron saint of England, the banner of St. George ever ranked highly. In heraldic language, it was 'Argent, a cross gules,' i.e., a white flag with a plain red cross (the Plantagenet colours, white and red). It appears to have been very early adopted as a national ensign. Coins and seals of the time of Edward III., and Henry V. are impressed with the figure of a ship bearing this flag at the bow and stern, and the portrait of the 'Great Harry' exhibits it at the fore and mizen. The national flag of Scotland, or banner of St. Andrew, was azure, a saltire argent, i.e., a white saltire or St. Andrew's Cross on a blue field. On the union with Scotland in 1707 these flags were combined: the red cross of St. George, fimbriated, argent, that is, with a white border to the cross, being laid upon the St. Andrew's banner, and thus it appears in the portrait of the 'Sovereign of the Seas' (Greenwich Hospital), a war ship of that period. On the union with Ireland, in 1801, the banner of St. Patrick, which is a red saltire cross on a white field, was laid upon that of St. Andrew's, and upon these the fimbriated cross of St. George—composing the flag now known to us as the *Union* Jack. In 1707 the *Union* at the main became, and remains to this day, the distinguishing flag of an Admiral of the Fleet. It was thus carried by Lord Howe on the 1st of June [1794], and by Earl St. Vincent in 1800 and 1806. Merchant vessels are prohibited from carrying this flag without a white border under a penalty of £500."—*Field*, Sept. 24, 1887.

"But I had better give the words of the heraldic blazon contained in the Order of the King in Council of Nov. 5, 1800, and announced to the nation by the Proclamation of Jan. 1, 1801, which prescribes the form in which the national flag is to be constructed. It is in these words: 'The *Union* flag shall be azure, the crosses saltires of Saint Andrew and Saint Patrick, quarterly per saltire, counterchanged, argent and gules; the latter fimbriated of the second, surmounted by the cross of St. George of the third, fimbriated as the saltire. . . . One word more. Your correspondents must not call our national flag the *Union* Jack. The Jack is a small flag—a diminutive of the *Union*—only flown from the jack staff on the bowsprit or forepart of a ship. In the Royal Navy it is plain. In the merchant service it must have a white border. When flown from the mast with a white border it is the signal for a pilot, and is called the Pilot Jack. To no other flag is the term Jack applied. The name of our national flag is the *Union*."—*Field*, Oct. 8, 1887.

II. *Technically:*

1. *Brewing:* One of a series of casks placed side by side, and supported on pivots or trunnions, in which fermentation is completed.

2. *Fabric:* A fabric of flax and cotton.

3. *Hydr.:* A tubular coupling for pipes.

4. *Ecclesiol.:* Various small religious sects adopt the word Union as part of their name. Places of worship belonging to the Union Baptists, Union Churchmen, Union Congregationalists, the Union Free Church, &c., appear in church returns.

ū-nĭ-ō'-nĭ-dæ, *s.* [Mod. Lat. *unio*, genit. *union(is)*; Lat. fem. pl. adj. suff. *-idæ.*]

1. *Zool.:* A family of Conchifera, with several genera, universally distributed. Shell usually regular, equivalve, closed; structure nacreous; epidermis thick and dark; ligament external, large and prominent; margins even; anterior hinge-teeth thick and striated, posterior laminar, sometimes wanting. Animal with mantle-margins united between the siphonal orifices, and, rarely, in front of the branchial opening; anal orifice plain, branchial fringed; foot very large, tongue-shaped, compressed, byssiferous in the fry; gills elongated, sub-equal, united posteriorly to each other and to the mantle, but not to the body; palpi moderate, laterally attached, striated inside; lips plain. Sexes distinct.

2. *Palæont.:* The family commences in the Devonian.

ū-nĭ-ō'-nĭ-form, *a.* [Mod. Lat. *unio* (q.v.), genit. *unionis*, and *forma* = form, appearance.] Having the shape or general appearance of the genus Unio (q.v.).

ūn'-iŏn-ĭşm (i as y), *s.* [Eng. *union*; *-ism.*]

1. The principle of uniting or combining; specif., the system of union or combination among workmen engaged in the same occupation or trade; trades-unionism.

2. The doctrine that the legislative union between Great Britain and Ireland, and the supremacy of Parliament over any form of local government or Home Rule granted to Ireland, must be maintained.

"The Conservatism and *Unionism* of the electorate of the Universities is absolutely in harmony with the Conservatism and *Unionism* of the majority of the entire electorate of the country, as expressed at the last General Election."—*Globe*, June 24, 1887.

ūn'-ĭôn-ĭst (i as y), *s.* **&** *a.* [Eng. *union*; *-ist.*]

A. *As substantive:*

I. *Ordinary Language:*

1. One who promotes or advocates union: specif., in United States History, one who opposed secession at the time of the Civil War; a Union man. Also, in English History, one who is opposed to the granting of a separate Parliament to Ireland and the consequent disruption of the union. [U-.]

It will be seen that, down to the close of yesterday's polling, the *Unionists* were still maintaining their lead of more than one hundred."—*Daily Telegraph*, July 6, 1886.

2. A member of a trades-union; a trades-unionist.

"Prohibiting the reading of papers devoted to the defence of trades-unionism, because, whenever the public heard of the *unionists*, it was generally when they were engaged in some great struggle with the employers."—*Daily Telegraph*, Sept. 9, 1885.

II. *Ecclesiol.:* A small religious sect now having registered places of worship in Britain.

B. *As adj.:* Pertaining or relating to unionism; promoting or advocating unionism.

"At the commencement of yesterday's pollings the *Unionist* party were more than a hundred seats ahead of their opponents."—*Daily Telegraph*, July 6, 1886.

* **ūn-ĭôn-ĭst'-ĭc (i as y),** *a.* [Eng. *unionist*; *-ic.*] Pertaining or relating to unionism or unionists; pertaining to or promoting union.

ū'-nĭ-ō-nīte, *s.* [After Union(ville), Pennsylvania, U. S. A., where found; suff. *-ite* (*Min.*).]

Min.: A very pure zoisite (q.v.), occurring with corundum and other species.

ū-nĭ-ō'-nōĭd, *a.* [Mod. Lat. *unio* (q.v.), genit. *union(is)*; Eng. suff. *-oid.*] Unioniform (q.v.).

"*Unionoid* bivalves, with thick shells."—*Nicholson: Palæont.*, i. 492.

ụ-nĭp'-ạr-ŏŭs, *a.* [Lat. *unus* = one, and *pario* = to bring forth.]

1. *Biol.:* Bringing forth normally but one at a birth.

"The mastodons, megatheria, glyptodons, and Diprotodons are *uniparous*."—*Owen: Class. of the Mammalia*, p. 56.

2. *Bot.* (*Of a cyme, &c.*): Having but one peduncle.

ū'-nĭ pĕd, *a.* **&** *s.* [Pref. *uni-*, and Lat. *pes*, genit. *pedis* = a foot.]

A. *As adj.:* Having only one foot.

B. *As subst.:* An animal having only one foot.

* **ū-nĭ-pĕl-tā'-ta,** *s. pl.* [Pref. *uni-*, and neut. pl. of Lat. *peltatus* = armed with a small, light, and generally crescent-shaped shield.]

Zool.: Cuvier's name for a family of Stomapoda consisting of the modern genus Squilla (q.v.).

* **ū-nĭ-pĕl'-tāte,** *a.* **&** *s.* [Unipeltata.]

A. *As adj.:* Of or belonging to the Unipeltata (q.v.).

B. *As subst.:* Any individual of the Unipeltata (q.v.).

* **ū-nĭ-pĕr'-sŏn-ạl,** *a.* [Pref. *uni-*, and Eng. *personal.*]

1. *Ord. Lang.:* Having but one person; existing in one person, as the Deity.

2. *Gram.:* Used only in one person; impersonal. (Said of verbs.)

* **ū-nĭ-pĕr'-sŏn-ạl-ĭst,** *s.* [Eng. *unipersonal*; *-ist.*] One who believes that there is only one person in the Deity.

* **ū-nĭph'-ō-nŏŭs,** *a.* [Lat. *unus* = one, and Gr. *φωνή* (*phōnē*) = sound.] Having or giving out only one sound.

"That *uniphonous* instrument the drum."—*Westminster Review*, Nov., 1832.

ū-nĭp'-lĭ-cāte, *a.* [Pref. *uni-* = one, and Lat. *plicatus* = folded.] Consisting of or having only one fold.

ū-nĭ-pō'-lạr, *a.* [Pref. *uni-*, and Eng. *polar.*]

Elect.: Of or pertaining to one pole: as, a *unipolar* dynamo, in which the conductors move in one and the same field.

ụ-nīque' (que as k), *a.* **&** *s.* [Fr., from Lat. *unicum*, accus. of *unicus* = single, from *unus* = one.]

A. *As adj.:* Having no like or equal; unmatched, unparalleled, unequalled; alone in its kind or excellence.

* **B.** *As subst.:* A thing unique or unparalleled in its kind.

"An *unique* in the history of the species."—*Paley: Evidences of Christianity*, ch. ix.

ụ-nīque'-lў (que as k), *adv.* [Eng. *unique*; *-ly.*] In a unique manner; so as to be unique.

ụ-nīque'-nĕss (que as k), *s.* [Eng. *unique*; *-ness.*] The quality or state of being unique.

* **ụ-nĭ'-quĭ-tў,** *s.* [Eng. *unique*; *-ity.*] The quality or state of being unique; uniqueness.

"*Uniquity* will make them valued more."—*H. Walpole: Letters*, iv. 477.

ū-nĭ-rā'-dĭ-āt ĕd, *a.* [Pref. *uni-*, and Eng. *radiated.*] Having only one ray.

ū-nĭ sĕp'-tate, *a.* [Pref. *uni-*, and Eng. *septate.*]

Bot.: Having only one septum or partition.

ū-nĭ-sĕr'-ĭ-ạl, ū-nĭ-sĕr'-ĭ-ate, *a.* [Pref. *uni-*, and Eng. *serial*, *seriate.*] Having a single line or series.

ū-nĭ-sĕr'-ĭ-ate-lў, *adv.* [Eng. *uniseriate*; *-ly.*] In a uniseriate manner; in a single line or series.

ū-nĭ-sĕx'-ụ-ạl, *a.* [Pref. *uni-*, and Eng. *sexual.*]

1. *Ord. Lang.:* Having one sex only.

2. *Bot.* (*Of a plant*): Of one sex only; having stamens and pistils in different flowers; diclinous. Used of a monœcious or of a dioœcious plant or its flowers.

ū-nĭ-sĭl'-ĭ-cate, *s.* [Pref. *uni-*, and Eng. *silicate.*]

Min.: The second sub-division of the Anhydrous Silicates, which Dana divides as follows: (1) Bisilicates; oxygen ratio for bases and silica, 1 : 2; (2) Unisilicates; in which the ratio for the bases and silica is as 1 : 1; (3) Sub-silicates; oxygen ratio for bases and silica, 1 : $\frac{2}{3}$; sometimes 1 : $\frac{1}{2}$ and 1 : $\frac{2}{5}$.

ū'-nĭ-sŏn, * **ụ-nĭ-sonne,** *s.* **&** *a.* [Fr. *unisson*, from Lat. *unisonum*, accus. of *unisonus* = having the same sound as something else: *unus* = one, and *sonus* = a sound; Sp. *unison*; Ital. *unisono.*]

A. *As substantive:*

I. *Ordinary Language:*

* 1. *Lit.:* A single, unvaried tone.

"While the long solemn *unison* went round."
Pope: Dunciad, iv. 612.

2. *Fig.:* Accordance, agreement, harmony.

"It is the more tranquil style which is most frequently in *unison* with our minds."—*Knox: Essay* 28.

II. *Music:*

1. The state of sounding at the same pitch; accordance or coincidence of sounds proceeding from an equality in the number of vibrations made in a given time by a sonorous body.

2. Music in octaves for mixed instruments or voices.

B. *As adjective:*

*** I.** *Ordinary Language:*

1. Sounding alone; unisonous.

"Tempered soft tunings, intermixt with voice
Choral or *unison*." *Milton: P. L.*, vii. 599.

2. In accord.

"Something of peculiar harmony, or rather a kind of *unison* correspondence between them."—*South: Sermons*, vol. vi., ser. 1.

II. *Music:* Sounded together; coinciding in pitch or sound; unisonal: as, *unison* passages.

* **ụ-nĭs'-ŏn-ạl,** *a.* [Eng. *unison*; *-al.*] Being in unison.

"The frequent use of *unisonal* passages for the voices."—*Standard*, Nov. 25, 1885.

* **ụ-nĭs'-ŏn-ạl-lў,** *adv.* [Eng. *unisonal*; *-ly.*] In unison.

"Tenors and basses burst in *unisonally*."—*Church Times*, March 4, 1887.

* **ụ-nĭs'-ō-nance,** *s.* [Eng. *unisonan(t)*; *-ce.*] The quality or state of being in unison; accordance of sounds; unison.

* **ụ-nĭs'-ō-nant,** *a.* [Lat. *unus* = one, and *sonans*, pr. par. of *sono* = to sound.] Being in unison; having the same degree of gravity or acuteness.

* **ụ-nĭs'-ō-noŭs,** *a.* [Unison.]

1. Sounding alone; without harmony.

"These apt notes (to sing the Psalms withall) were about 40 tunes of one part only, and in one *unisonous* key."—*Warton: Hist. Eng. Poetry*, i. 171.

2. Being in unison; having the same sound or pitch.

ū'-nĭt, * **ụ-nite,** *s.* [An abbrev. of *unity* (q.v.).]

I. *Ord. Lang.:* A single person or thing regarded as having oneness for its main attribute; a single one of a number, forming the basis of count or calculation.

II. *Technically:*

1. *Arith.:* The least whole number or one, represented by the figure 1. Numbers are collections of things of the same kind, each of which is a unit of the collection. Thus 20 feet is a collection of 20 equal spaces, each of which is equal to 1 foot; here 1 foot is the unit or base of the collection.

2. *Math. & Physics:* Any known determinate quantity by the constant repetition of which any other quantity of the same kind is measured. It may be a length, a surface, a solid, a weight, a time, as the case may be.

¶ 1. *Abstract unit:* The unit of numeration; the abstract unit 1 is the measure of the relation of equality of two numbers. It is the base of the system of natural numbers, and incidentally the base of all quantities.

2. *Decimal & duodecimal units:* Those in scales of numbers increasing or decreasing by ten or twelve respectively.

3. *Dynamic units:*

(1) *Unit of force:* A dyne; a force which, acting for one second on a mass of one gramme, gives to it a velocity of one centimetre per second.

(2) *Unit of work done:* A watt (q.v.): the power developed when 44·25 foot pounds are done per minute = one 746th part of a horse-power. [Foot-pound, Kilogrammetre.]

4. *Electric units:*

(1) *Unit of quantity:* A coulomb. The quantity of electricity that will liberate ·000162 grains of hydrogen from water, or ·005232 grains of zinc from a solution of the metal. In this unit, rate or time is taken no account of.

(2) *Unit of current:* An ampere; a current flowing at the rate of one coulomb per second, or liberating ·000162 grains of hydrogen, &c., per second.

(3) *Unit of electro-motive force:* A volt (q.v.). The force or difference of potential required to produce, through a wire of one ohm resistance, a current of one ampere.

(4) *Unit of resistance:* The legal unit of resistance, as settled by the International Electrical Congress, at Paris, 1884, is that of a column of pure mercury 106 centimetres long, 1 square millimetre in sectional area at 0° C. The name ohm is now confined to this unit, but was formerly used to denote an older unit chosen by the British Association, which is to the legal ohm as 1·0112 to 1.

(5) *Unit of capacity:* A farad (q.v.). A condenser has a capacity of one farad when a potential difference of one volt between its two sets of plates charges each of them with one coulomb.

(6) *Absolute units:* The absolute electromotive force unit is a force, and the absolute unit magnetic pole is a pole, which, when placed at a distance of one centimetre, from a similar force or pole, repels it with a force of one dyne. One volt = 10^8 absolute units.

(7) *Unit of work done:* The watt (q.v.); the rate at which electrical work is done is measured by watts. A watt is the power developed in the circuit when one ampere of current produces one volt difference of potential at the terminals. [¶ 3. (2).]

5. *Fractional unit:* The unit of a fraction. Thus in the fraction $\frac{3}{4}$ there is an assemblage of three units, each of which is one-fourth of the whole number.

6. *Integral unit:* The unit 1.

7. *Military unit:* The *administrative* unit is for infantry the company, for cavalry the troop, and for artillery the battery, and for the three arms combined the division. The *tactical* unit is the battalion or regiment, squadron or regiment, and battery respectively.

8. *Specific-gravity unit:* For solids or liquids, one cubic foot of distilled water at 62° F.=1; of air and gases, one cubic foot of atmospheric air at 62°.

9. *Unit of heat:* [THERMAL-UNIT].

10. *Unit of illumination:* The light of a sperm candle burning 120 grains per hour. The standard for gas is that the flame, burning at the rate of five cubic feet per hour, shall give a light equal to the light of 14 sperm candles, each consuming at the rate of 120 grains per hour.

11. *Unit of measure:* The unit of measure of any quantity is a quantity of the same kind, with which the quantity is compared.

12. *Unit of value:* In the United States a gold dollar, weighing 25·8 grains, one-tenth of which is alloy; in England a gold sovereign, weighing 123·274 grains, one-eleventh being alloy.

unit-jar, *s.*

Elect.: An instrument devised by Sir W. Snow Harris for measuring definite quantities of electricity.

***ụ-nīt'-a-ble, *ụ-nīte'-a-ble,** *a.* [Eng. *unit(e)*; *-able.*] Capable of being united or joined together by growth or otherwise.

Ū-ni-tär'-i-an, *s. & a.* [Eccles. Lat. *unitarius*; Ger. *unitarier*; Fr. *unitaire*; Ital. *unitario*; Sp. *unitário*; Wel. *undodwr, undodiad.*]

A. *As substantive:*

1. *Theology & Church History:*

(1) A name adopted by those members of the Christian Church who conceive of the Godhead as unipersonal and regard the Father as the only God. The term first appeared in a decree of the Transylvanian Diet, Oct. 25, 1600, and was adopted by the Transylvanian Unitarians, to designate their church, in 1638. This body now forms the Hungarian Unitarian Church, with about 60,000 members. Unitarianism has made some progress in other parts of Europe, and has at the present time about 320 congregations in Great Britain. Unitarian tendencies appeared in the American Colonies early in the eighteenth century, in some of the Puritan congregations of New England; and in 1783 the Rev. James Freeman, of the Episcopal Church of King's Chapel, Boston, expurged from the Book of Common Prayer all allusion to the Trinity, or to any Supreme Being but the Father. This, therefore, became the first distinctively Unitarian Church in the United States. At the same time, however, many of the Congregational Churches were ceasing to use the Trinitarian formulæ. Among the Unitarians of that period was John Adams, who affirmed that many of the clergy and the intelligent laity shared his views. In 1794 the famous Dr. Priestly, who had left England to escape persecution on account of his liberal religious views, came to Philadelphia, and gave a course of lectures on "The Corruptions of Christianity," the outcome of which was the formation of an Unitarian society in that city. In 1801 the church at Plymouth, Mass., that established by the Pilgrims of the Mayflower, and the oldest in New England, declared itself Unitarian by a large majority of the congregation. During the first twenty years of the nineteenth century there was a rapid growth of Unitarianism in New England, principally within the Congregational Church. In 1815 Dr. Channing came forward as an Unitarian divine, and by his elevated ethical ideas gave a new impetus to the movement. His Baltimore sermon (1819) marks the cleavage between the Unitarian and orthodox sections of the Congregational body. Since that period Unitarianism has continued to grow in New England, and has become particularly strong in Boston, which possesses more than 25 out of the 400 American churches belonging to the sect. Harvard College, while not a denominational institution, is under Unitarian control. Outside of New England Unitarianism has not grown rapidly. The Philadelphia society organized in 1794, had developed into but two congregations in 1894. In the west, however, there is considerable growth. In addition to the Unitarians proper are the Hicksite section of the Quakers, the Christians (a Baptist body), and the Christian Disciples, all more or less Unitarian in doctrine.

(2) A general term for all non-Trinitarian Christians, whether they have themselves used the name or not. Some of the ante-Nicene Fathers, the Sabellians, Arius and his followers, the Photinians, &c., have been included in this designation. At the Reformation period Servetus and others, and subsequently Faustus Socinus and his school, are thus described by later writers. In England, Bartholomew Legate, the last person burned at Smithfield (1612); John Bidle, who gathered a London congregation during the Commonwealth; Samuel Clarke, D.D, whose *Scripture Doctrine of the Trinity* (1712) had a powerful influence, have all been reckoned Unitarians; and the name has been applied to writers like Milton, Locke, and Newton.

(3) Any non-Christian monotheist. The Jews are sometimes called Unitarians; and Wesley uses the expression "Unitarian fiend" in his Hymn for the Mahometans.

2. *Philos.* (*Pl.*): A name for a special class of Realists.

"The Realists or Substantialists are again divided into Dualists, and into *Unitarians* or Monists, according as they are, or are not, contented with the testimony of consciousness to the ultimate duplicity of subject and object in perception."—*Hamilton: Metaphysics*, i. 295.

B. *As adjective:*

1. *Theol., Church Hist, &c.:* Pertaining to or connected with Unitarians, in the several senses defined above.

2. *Philos.:* Holding the unity of subject and object in perception.

3. *Polit.:* Favouring a plan of union. In continental politics first used of the party in favour of a united Italy; then applied in the case of Germany, the Slavs, &c.

Ū-ni-tär'-i-an-ĭsm, *s.* [Eccles. Lat. & Ger. *unitarismus*; Fr. *unitarisme*; Ital. *unitarismo, unitaresimo, unitarianesimo*; Wel. *undodiaeth.*]

Theology & Church History:

1. A collective name for the views of Unitarians. Unitarians have no formulated test of membership, and have always shown great varieties of opinion. The Arian school has little influence, except in Ireland. The Socinian theology, with its worship of Christ, has never been completely adopted in Great Britain or America. Priestley's Unitarianism included a determinist philosophy and a strong element of supernaturalism. The return to a spiritual philosophy was initiated by Channing. Many of his followers, influenced by Emerson and Parker, have done their best to relieve Christianity of its supernatural ingredients. All own a spiritual allegiance to Christ, though varying as to the nature and extent of his authority. Appealing to Scripture as a witness for their views, Unitarians have generally limited revelation to the communication of spiritual data. They reject a substitutionary atonement, and are usually advocates of a universal restoration.

2. The Unitarian cause. Unitarianism as an organized interest has never taken large proportions, and it is not easy to estimate its actual strength. It has produced a number of influential men, far in excess of its denominational importance; and the stress which it lays on individuality, while checking its progress, has added to its power. By the Toleration Act (1689) the open preaching of Unitarianism was forbidden in Great Britain, a legal disability not removed till 1813.

***Ū-ni-tär'-i-an-īze,** *v.t.* or *i.* [Eng. *Unitarian*; *-ize.*] To cause to conform, or to conform, to Unitarianism.

ū'-nĭt-a-rў, *a.* [Eng. *unit*; *-ary.*] Pertaining or relating to a unit.

unitary-theory, *s.*

Chem.: A term applied by Gerhardt to the system of chemistry in which the molecules of all bodies are compared, as to their magnitude, with one unit molecule—water for example—and all chemical reactions are, as far as possible, reduced to one typical form of reaction—namely, double decomposition.

***ụ-nīte',** *s.* [UNIT.]

1. A unit.

2. The same as LAUREL, A. 2. (2) (q.v.).

ụ-nīte', ***u-nyte,** *v.t.* & *i.* [Lat. *unitus*, pa. par. of *unio* = to unite, from *unus* = one.]

A. *Transitive:*

1. To combine or conjoin, so as to form into one; to make to be one, and no longer separate; to incorporate into one.

"*Unite* Your troops." *Shakesp.:* 1 *Henry VI.*, iv. 1.

2. To connect, conjoin, or bring together by some tie or bond, legal or other; to join in interest, affection, fellowship, or the like; to associate, to couple, to conjoin.

"Hymen did our hands *Unite* commutual." *Shakesp.: Hamlet*, iii. 2.

3. To cause to adhere; to connect or join together; to attach.

"The peritonæum, which is a dry body, may be *united* with the musculous flesh."—*Wiseman: Surgery.*

4. To make to agree; to bring into a state of agreement or uniformity; to render uniform.

"The king proposed nothing more than to *unite* his kingdom in one form of worship."—*Clarendon.*

B. *Intransitive:*

1. To become one; to become incorporated; to grow together; to become attached, conjoined, or consolidated; to combine, to coalesce.

2. To join in an act; to combine, to concur; to act in union.

"If you will not *unite* in your complaints." *Shakesp.: Henry VIII.*, iii. 2.

***ụ-nīte',** *a.* [UNITE, *v.*] United, joint.

"By *unite* consent."—*Webster.* [1681.]

***ụ-nīte'-a-ble,** *a.* [UNITABLE.]

ụ-nīt'-ĕd, *pa. par.* or *a.* [UNITE, *v.*] Joined together, combined, made one; allied, conjoint, harmonious; in union.

"The men who followed his banner were supposed to be not less numerous than all the Macdonalds and Macleans *united*."—*Macaulay: Hist. Eng.*, ch. xiii.

¶ The word "United" forms part of the names of various sects appearing in the Registrar-General's Return, as, the United Christian Army, the United Christian Church, the United Evangelical Church of Germany, and the United Free Methodist Church.

United Brethren, *s. pl.* [MORAVIANS.]

United Greeks, *s. pl.*

Church Hist.: A comprehensive name including all those who follow the Greek rite, and at the same time acknowledge the authority of the Pope. These are (1) the Melchites (q.v.) in the East, (2) the Ruthenians (q.v.), (3) the Greek Catholics of Italy, whose clergy are allowed to marry when in minor orders, and continue in the married state after they are priests, but are forbidden, under pain of deposition, to contract a second marriage. These Greeks, about 30,000 in number, have three seminaries, each with a resident Greek bishop to ordain the priests, but otherwise they are subject to the bishop in whose diocese they live. (4) The Catholics of the Greco-Roumaic rite in Hungary and Siebenbürgen, who number about 900,000, and form an ecclesiastical province. Their secular clergy are married.

United Irishmen, *s. pl.*

Hist.: A secret society formed in 1791 by Theobald Wolfe Tone, having for its object the establishment of a republic in Ireland. Being arrested, and sentenced to death by a military commission, he committed suicide (Nov. 1798).

United Kingdom, *s.*

Geog. & Hist.: The name adopted on Jan. 1, 1801, when Great Britain and Ireland were united.

United Presbyterian Church, *s.*

Eccles. & Church Hist.: The third in point of magnitude and importance among the Presbyterian denominations in Scotland, the two in advance of it in point of numbers being the Established and the Free Churches. It was formed by the union between the Secession and the Relief bodies on May 13, 1847. Its tenets are essentially those of the Confession of Faith, with modifications needful to adapt it to the views of its ministers as to the relation of the civil magistrate to the church and religious toleration. Nearly all its office-bearers are opposed to the principle of establishments, but latitude of belief on the subject is permitted, and a minority hold the opposite view. In May, 1876, the United Presbyterian Church made a friendly disseverance of its congregations south of the Tweed that these might unite with the English Presbyterian Church to constitute the Presby-

terian Church of England. [PRESBYTERIAN, B.] At the end of 1886 the United Presbyterian Church consisted of 32 presbyteries, 546 congregations, and 82,063 communicants, and had a revenue of £317,955 17s. 11d. It has foreign missions in the West Indies, in South Africa, &c., in India, China, and Japan.

United Provinces, *s.*

Geog. & Hist.: The provinces of Guelderland, Holland, Zealand, Utrecht and Friesland, which united in 1579, and became the nucleus of the Dutch republic.

United States, *s. pl*

Geog. & Hist.: The forty-five states of North America, composing the federal republic whose official title is the United States of America, and which comprises in addition to its states four organized territories, the unorganized Indian Territory, and the federal District of Columbia. The United States is the largest republic and one of the largest nations in the world. It embraces nearly one-half of the North American continent, and, including Alaska, has an area nearly equal to that of Europe. The total area is 3,557,009 square miles. The country extends (east and west) from the Atlantic to the Pacific Oceans, with an extreme length of about 2700 miles, and (north and south) from Canada to Mexico and the Gulf of Mexico, with an extreme width of about 1600 miles. The population in 1890 was 62,971,081. It is at present (1894) about 68,000,000. In 1790 there were but 13 states, with less than 4,000,000 population, and an area of about 400,000 square miles. The progress of the United States in wealth has been equally unprecedented, and it is to-day the richest country upon the face of the globe. Through the eastern and western sections of the country run two important mountain systems, the Appalachian and the Rocky Mountains, between which lies a vast plain, abundantly watered, and remarkable for its fertility and the variety of its productions. The districts bordering the oceans are equally prolific, while in the Rocky Mountain region lies a vast arid district, to some extent reclaimable by irrigation, but particularly valuable for its richness in gold and silver. The Appalachian region is equally valuable for its immense stores of coal and iron, while copper, lead, and other metals are elsewhere abundant.

The government of the United States embraces three departments, the executive, the legislative, and the judicial. The executive comprises a President and Vice-President, elected for four years, and a number of Cabinet officials, or Secretaries of Departments, chosen by, and forming the advisory council of, the President. The legislative department consists of a Senate (embracing two members from each state), and a House of Representatives, elected by popular vote to represent districts of approximately equal population. The judicial department is known as the Supreme Court, whose function it is to decide upon the constitutionality of the laws. The general government has control of commerce and all relations with foreign powers, of the army and navy, the post-offices and the coinage of money, and has the sole power to declare war and conclude peace.

The separate states have similar organizations, each having its own constitution, executive, legislative, and supreme court. They are divided into counties, with local powers of government, and these again into townships, boroughs, cities, &c. The cities largely control their own affairs, each having a mayor and a law-making body. The United States is thus organized on the principle of a general government for general interests, and successively descending state and local governments for state and local interests. The other republics of America are organized on the same general principle, having taken the United States as their model.

ụ-nīt'-ĕd-lỹ, *adv.* [Eng. *united; -ly.*] In a united manner; in union; conjointly; jointly.

"The eyes, which are of a watery nature, ought to be much painted, and *unitedly* on their lower parts."—*Dryden: Dufresnoy.*

ụ-nīt'-ẽr, *s.* [Eng. *unit(e)*, v.; *-er.*] One who or that which unites.

"Suppose an *uniter* of a middle constitution, that should partake of some of the qualities of both."—*Glanville: Scepsis*, ch. iii., § 3.

***ŭn-ĭt'-ẽr-ạ-ble,** *a.* [Pref. *un-* (1), and Eng. *iterable.*] That cannot be renewed or repeated.

"To play away an *uniterable* life."—*Browne: Christian Morals*, pt. iii., § 23.

***ụ-nĭ'-tion,** *s.* [UNITE, *v.*] The act of uniting; the state or condition of being united.

"Parts separated and disjoined are to be brought together gently and equally, that they may touch one another, and so be prepared for *unition*."—*Wiseman: Surgery*, bk. v., ch. i.

***ū'-nĭt-ĭve,** *a.* [Eng. *unit(e)*, v.; *-ive.*] Having the power or quality of uniting; causing or tending to unite; producing or promoting union.

"That can be nothing else but the *unitive* way of religion, which consists of the contemplation and love of God."—*Norris.*

ū'-nĭt-ĭve-lỹ, *adv.* [Eng. *unitive; -ly.*] In a united or unitive manner. (*Cudworth.*)

***ū'-nĭt-īze,** *v.t.* [Eng. *unit; -ize.*] To reduce to a unit or to one whole; to unify.

ū'-nĭt-ỹ, *u-ni-te, *u-ni-tee, *u-ni-tie, *u-ny-te, *s.* [Fr. *unite*, from Lat. *unitatem*, accus. of *unitas*, from *unus* = one.]

I. *Ordinary Language:*

1. The state or condition of being one; oneness, singleness, as opposed to plurality.

"The *unity* of God is a true and real, not figurative *unity*."—*Clarke: On the Attributes*, prop. 3.

2. Concord, agreement, harmony; oneness of sentiment, affection, or the like.

"How good and how pleasant it is for brethren to dwell together in *unity*."—*Psalm* cxxxiii. 1.

3. Uniformity, harmony, agreement.

"To the avoiding of dissention it availeth much that there be amongest them an *unity* as well in ceremonies as in doctrine."—*Hooker.*

¶ *At unity:* At one; in accord.

"The King and the Commons were now *at unity*."—*Macaulay: Hist. Eng.*, ch. xi.

4. The principle by which a uniform tenor of story and propriety of representation is preserved in literary and dramatic compositions; conformity in a composition to such principle; a reference to some one purpose or leading idea in all the parts of a discourse or composition. In the Greek drama the three *unities* required were those of *action*, of *time*, and of *place*. This so-called Aristotelian law of unity required that there should be no shifting of the scene from place to place, that the whole series of events should be such as might occur within the space of a single day, and that nothing should be admitted irrelevant to the development of the single plot.

"The *unities* of time, place, and action are exactly observed."—*Drydan: All for Love.* (Prel.)

*5. A gold coin of the reign of James I. [UNITE, *s.*, 2.]

II. *Technically:*

1. *Art.:* That proper balance of composition or colour in a work of art which produces a perfectly harmonious effect, and to which all the parts of the work conduce.

2. *Law:*

(1) (See extract.)

"*Unity* of possession is a joint possession of two rights by several titles. For example, I take a lease of land from one upon a certain rent: afterwards I buy the fee-simple. This is an *unity* of possession, whereby the lease is extinguished; by reason that I, who had before the occupation only for my rent, am become lord of the same, and am to pay my rent to none."—*Cowel.*

(2) The holding of the same estate in undivided shares by two or more; joint tenancy.

3. *Math.:* An entire collection, considered as a single thing. Thus, 20 feet, considered as a single distance, is unity; 1 foot is the unit of the expression. The number 1, when unconnected with anything else, is generally called *unity.*

ụ-nĭv'-ạ-lent, *a.* [Pref. *uni-*, and Lat. *valens*, pr. par. of *valeo* = to be worth.]

Chem.: Equivalent to one unit of any standard, specially to one atom of hydrogen. [MONAD, II. 1.]

ū'-nĭ-vălve, *a.* & *s.* [Pref. *uni-*, and Eng. *valve.*]

A. *As adj.:* Having only one valve, as a shell or pericarp.

B. *As substantive:*

Zool.: A popular name for any of the Gasteropoda (q.v.) inclosed in a univalve shell, which may be regarded essentially as a cone, the apex of which is more or less oblique. In the simplest form the conical shape is retained without any alteration, as is the case with the common limpet. In the majority of instances univalves have the conical shell considerably elongated, so as to form a tube, which may retain this shape, but is usually coiled up into a spiral, and this latter form may be regarded as the typical shell of the Gasteropoda. In some (as in Vermetus) the coils or whorls are hardly in contact, but more commonly they are so amalgamated that the inner side of each convolution is formed by the pre-existing whorl. When the whorls are coiled round a central axis in the same plane, the shell is said to be discoidal, as in Planorbis (q.v.); but, in most cases, they are wound obliquely round the axis, and the shell is termed turreted, trochoid, or turbinated, fusiform, &c. The animal withdraws into its shell by a retractile muscle, which passes into the foot or is attached to the operculum, its scar or impression being placed in the Spiral Univalves, upon the columella. In the Marine Univalves two important variations exist in the form of the mouth of the shell. In one group, the Holostomata (q.v.), it is unbroken and entire, and these animals live for the most part on vegetable food; in the other group, the Siphonostomata (q.v.), which are mainly carnivorous, the aperture of the shell is notched in front. The shell figured is fusiform; the apex (A) mammillated; the whorls (*w*) ventricose, strongly ribbed or corrugated, with discontinuous varices (*v*), and distinct sutures (*su*); the columella (*i*) is denticulated; the outer lip (*o*) is internally plicato-dentate; the body-whorls (*b w*) are large, and the aperture (*a*) ovately elliptical; *a c* and *p c* mark the anterior and posterior canals respectively.

UNIVALVE.
(*Shell of the genus Triton.*)

"This class [Gasteropoda] includes all those molluscous animals which are known as *Univalves*, such as Land-snails, Sea-snails, Whelks, Limpets, &c."—*Nicholson: Palæont.*, ii. 1.

ū'-nĭ-vălved, *a.* [Pref. *uni-*, and Eng. *valved.*] Having only one valve; univalve; univalvular.

ū-nĭ-văl'-vụ-lar, *a.* [Pref. *uni-*, and Eng. *valvular.*] Having but a single valve; univalve.

ū-nĭ-vẽr'-sal, *u-ni-ver-sall, *a.* & *s.* [Fr. *universel*, from Lat. *universalis* = pertaining to the whole, from *universum* = the whole, prop. neut. sing. of *universus* = combined into a whole: *unus* = one, and *versus*, pa. par. of *verto* = to turn; O. Fr., Sp., & Port. *universal.*]

A. *As adjective:*

I. *Ordinary Language:*

1. General; pertaining or extending to or comprehending the whole number, quantity, or space; pertaining to or pervading the whole; all-embracing, all-reaching.

"And there is an *universal* obligation upon all men to obey them."—*Leighton: Com. on 1 Peter*, ii

2. Constituted or considered as a whole entire; whole, total.

"Sole monarch of the *universal* earth."
Shakesp.: Romeo & Juliet, iii. 2.

3. Comprising all the particulars; general.

"From things particular
She doth abstract the *universal* kinds."
Davies: Immort. of the Soul.

II. *Logic:* Comprising particulars, or all the particulars.

"The appellations that be *universal*, and common to many things, are not always given to all the particulars."—*Hobbs: Human Nature*, ch. v.

B. *As substantive:*

***I.** *Ord. Lang.:* The whole; the system of the universe.

"To what end had the angel been set to keep the entrance into paradise after Adam's expulsion, if the *universal* had been paradise?"—*Raleigh: Hist. of the World.*

II. *Technically:*

1. *Logic:* A universal proposition (q.v.).

"As for singular propositions (viz., those whose subject is either a proper name, or a common term with a singular sign) they are reckoned as *Universals*, because in them we speak of the whole of a subject."—*Whately: Logic*, bk. ii., ch. ii., § 2.

2. *Philos.* (*Pl.*): Universal concepts; general notions or ideas predicable of many; concepts embracing that which by its nature has a fitness or capacity to be in many.

(1) Platonic ideas; archetypal forms existing in the divine mind, and forming the pattern according to which each individual of kind has been created. These have been called also Metaphysical, or, in the language of the Schools, *universalia ante rem.*

(2) Certain common natures which, one in themselves, are diffused among or shared in by many; as rationality, which is common to all men. These are called Physical Universals, or *universalia in re.* [NOMINALISM, REALISM, 3.]

(3) General notions framed by the intellect and predicable of many things on the ground of their possessing common properties, *e.g.*, animal, which may be predicated of a man, a lion, a bird, a fish, &c. These are Logical Universals, or *universalia post rem.*

† (4) The predicables. [PREDICABLE.]

"Abelard was silent until the question of *Universals* was brought forward, and then suddenly changing from a disciple to an antagonist, he harassed the old man with such rapidity and unexpectedness of assault that William [of Champeaux] confessed himself defeated and retracted his opinion."—*G. H. Lewes: Hist. Philos.* (ed. 1880), ii. 16.

¶ For the difference between *universal* and *general*, see GENERAL.

universal-agent, *s.*

Law: An agent authorized to do for a principal all the acts which the latter can lawfully delegate. Such devolution of authority very rarely takes place. (*Story: Agency.*)

universal-chuck, *s.* A chuck having movable dogs on a face-plate to adapt them to grasp objects of varying sizes.

Universal Church, *s.*

Theol.: The Church of God throughout the world. [CATHOLIC.]

universal-compass, *s.* A compass with tubular legs containing extension-pieces, which may be drawn out to strike a large circle, and fixed at the required length by screws. The extension-pieces are also tubular, each receiving either leg of a small bow-compass, one having a plain point and pen and the other a plain point and pencil-holder; these are used as parts of the large compass, but both may be withdrawn and used independently for drawing small circles.

universal-coupling, *s.* A form of coupling in which the parts united are capable of assuming various angular relations to each other. A gimbal-joint is a familiar instance.

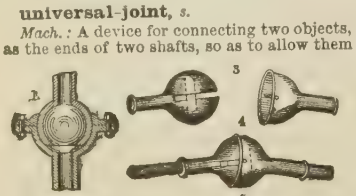
universal-dial, *s.* A dial by which the hour may be found by the sun in any part of the world, or under any elevation of the pole.

universal-instrument, *s.*

Astron.: A reflecting instrument invented by Prof. Piazzi Smyth. It is a sort of reflecting circle, in which a spirit-level with a very small bubble is so placed that by means of a lens and a totally reflecting prism an image of the bubble is formed at the focus of the telescope, and the coincidence of the centre of that image with the cross-wires shows when the line of collimation is truly horizontal.

universal-joint, *s.*

Mach.: A device for connecting two objects, as the ends of two shafts, so as to allow them



UNIVERSAL-JOINTS.

1. Ball-and-socket joint. 2. Flexible pipe-joint. 3, 4, 5. Shaft-coupling.

to have perfect freedom of motion in every direction within certain defined limits. There are numerous forms.

universal-legacy, *s.*

Scots Law: A legacy of all one's property given to a single person.

universal-legatee, *s.*

Scots Law: A legatee to whom the whole estate of a deceased person is given, subject only to the burden of other legacies and debts.

universal-lever, *s.*

Mech.: A contrivance by means of which the reciprocating motion of a lever is made to communicate a continuous rotatory motion to a wheel, and a continuous rectilinear motion to anything attached by a rope to the axle of the wheel.

universal prime-meridian, *s.*

Astron., &c.: The meridian of Greenwich, adopted at an International Conference of scientific men, held at Washington, D. C., in 1883. Till that time nearly every country had its own prime meridian—that of England was Greenwich, and that of France Paris; hence an English and a French ship, meeting at sea, would find that there would be a difference of 2° 20′ between the records of their longitude, since Paris is 2° 20′ east of Greenwich. The conference decided that this anomaly should be abolished, and that longitude should be reckoned only from the meridian of Greenwich, and that it should count 180° east and 180° west; so that in future all maps will be constructed on this principle, and ships of every nation, meeting at sea, will find themselves in the same degree of longitude. [UNIVERSAL-TIME.]

universal-proposition, *s.*

Logic: A proposition in which the predicate is said of the whole of the subject: Thus, All tyrants are miserable, is a universal affirmative proposition (having the symbol A); No miser is rich, is a universal negative proposition (having the symbol O). [See also examples under UNIVERSAL, II. 1.]

universal-religion, *s.*

Compar. Relig.: A missionary religion (q.v.); a faith intended to be preached to all men, as distinguished from a tribal or national cult.

"Of *universal religions* there are at most only three, and Prof Kuenen would almost seem to deny the right of Islam to be admitted into the class."—*Athenæum*, Oct. 14, 1882, p. 482.

universal-successor, *s.*

Scots Law: An heir who succeeds to the whole of the heritage of a person who dies intestate.

universal-suffrage, *s.*

Hist.: Suffrage which accords a vote to every man in the community. It is called in France Plebiscite (q.v.). It exists in the United States, and in some other countries, being confined to male citizens. Advocates of women's suffrage contend that a franchise confined to men is not universal.

universal-time, *s.*

Astron. &c.: A method of reckoning time for international purposes, agreed on by the International Conference, held at Washington, in 1883. Universal time is reckoned from mean noon at the universal prime-meridian (q.v.), the day commencing at midnight, and being divided into twenty-four (instead of into two portions of twelve) hours each. Local time is still used for local purposes; but the method of fixing it is changed. Since the earth is divided into 360° and the day into 24 hours, every 15° represents the difference of an hour in time. The meridian at Greenwich being taken as the zero line, or the centre of the zero zone, the United States is divided into four zones, in which the time is designated as follows: Eastern time (67½° to 82½° west longitude), Central time (82½° to 97½°), Mountain time (97½° to 112½°), and Pacific time (112½° to 127½°). Within each of these zones the time changes by one hour. Thus when it is 12 o'clock at Philadelphia, it is 11 at Chicago, 10 at Denver, and 9 at San Francisco, and the same at any point within the respective zones. This system, adopted for convenience in making railroad time tables, has proved so advantageous that other countries are following the United States in applying Standard-time. Universal-time, so far as concerns the twenty-four hour day, has as yet made little progress, being principally confined to astronomers. It is used in Italy and some other countries, and must extend, through its convenience in making railroad time tables, etc. [STANDARD-TIME.]

universal-umbel, *s.*

Bot.: An umbel consisting of various partial umbels.

***ū-nĭ-vĕr-sā'-lĭ-an,** *a.* [Eng. *universal*; *-ian.*] Of or pertaining to Universalism (q.v.).

Ū-nĭ-vĕr'-sal-ĭsm, *s.* [Eng. *universal*; *-ism.*]

1. *Church History:*

(1) The doctrine held by large numbers of Christians that all men, and also the devil and fallen angels, will be forgiven and will enjoy eternal happiness. This belief is very ancient, and passages implying it may be found in the works of Origen and his followers, Gregory of Nyssa, Chrysostom, &c. It is also said to have constituted part of the creed of the Lollards, Albigenses, and Waldenses. Among the English divines who have held some form of this doctrine are Tillotson, Burnet, and William Law, and more recently the late Professor F. D. Maurice. All Unitarians hold it, and some of the Universalists agree with the Unitarians in rejecting the doctrine of the Trinity. The Universalists ground their reasons for their doctrine in the love of God, who, they say, is only angry with sin, not the sinner, and therefore if the sinner repents even after death his repentance will restore him to God's favour. The sovereignty of God will be finally vindicated by the ultimate harmony of the moral universe, and the submission of all things in heaven and earth to His righteous will. When righteousness is triumphant peace and happiness will prevail; until then pain and suffering will be instruments to work out the will of God. They profess to prove their doctrine from Scripture, quoting in support of it Matt. xxv. 46, John xvii. 3, 1 Cor. xv. 22, Phil. ii. 10, Eph. i. 10, Col. i. 19, 20, and 1 Tim. iv. 10. Universalism is better known as a distinct sect in America than in England. In 1827 a division arose among the American Universalists concerning punishment after death, some asserting it to be limited, while others denied it altogether. Some separated from the main body and called themselves "The Massachusetts Association of Restorationists." Most of them afterwards joined the Free-Will Baptists or the Unitarians, while the others returned to the main body. In 1840 the whole sect divided into two, the Impartialists and the Restorationists. But Universalism is also held by many members of other sects, and practically by all Theists strictly so called.

(2) A name sometimes given to Arminianism (q.v.), because it maintains that Christ died for all men, not merely for the elect. [CALVINISM.]

(3) The doctrine that the mission of Christ was to all men, not merely to the Jews; Paulinism (q.v.).

"The Fourth Gospel again . . . is the Gospel of *Universalism* in the highest degree."—*Matthew Arnold: God & the Bible*, 229.

2. *Compar. Relig.:* The state or condition of embracing or being suited for the acceptance of all men. [UNIVERSAL-RELIGION.]

"The denial of true *universalism* to Islam is somewhat contradicted by the fact that it is at the present day spreading more than either Christianity or Buddhism."—*Athenæum*, Oct. 14, 1882, p. 490.

ū-nĭ-vĕr'-sal-ĭst, *s.* & *a.* [Eng. *universal*; *-ist.*]

A. *As substantive:*

* 1. *Ord. Lang.:* One who pretends to understand all statements or propositions.

"For a modern free-thinker is an *universalist* in speculation; any proposition whatsoever he's ready to decide; every day de quolibet ente, as our author here professes."—*Bentley: On Free Thinking*, § 3.

2. *Church History:*

(1) One who believes in the final salvation of all rational beings.

(2) An Arminian (q.v.).

(3) One who believes that the mission of Jesus was to all men; not to the Jews only.

"The advanced *Universalist* means to indicate that the multitudes of the heathen world may be brought into Christianity without any such disruption of the Christian Church as to his faint-hearted predecessor had seemed inevitable."—*Matthew Arnold: God & the Bible*, p. 229.

B. *As adj.:* Of or pertaining to any form of Universalism.

***ū-nĭ-vĕr-sal-ĭst'-ĭc,** *a.* [Eng. *universal*; *-istic.*] Of, relating to, or affecting the whole; universal.

ū-nĭ-vĕr'-sĭt-ў, * **u-ni-ver-sit-e,** * **u-ny-ver-sit-ee,** *s.* [Fr. *université*, from Lat. *universitatem*, accus. of *universitas* = the whole of anything, the universe; later, an association, corporation, company, &c.; from *universus* = universal (q.v.); Sp. *universidad;* Ital. *università.*]

* **1.** The whole universe; the world.

"Oure tunge is fier, the *unyuersitee* of wickidnesse." —*Wycliffe: James* iii. 56.

* **2.** A corporation, a guild, an association.

3. Now, specifically, an establishment or corporation for the purpose of instruction in all or some of the most important sciences and literature, and having power to confer certain honorary dignities, called degrees, in several faculties, as arts, science, medicine, law, theology, &c. When the term came first to be applied to seminaries of learning it was used to signify either the whole body of learners and teachers, or the whole body of learners, with corporate rights, and under by-laws of their own, divided either by faculty or by country (whence the division into nations in the Scotch and some of the European universities), or both together, the particular meaning being determined by the words with which it was connected. Such phrases as *Universitas magistrorum et auditorum* (or *scholarium*), meaning the whole body of teachers and scholars, are met with at the very beginning of the thirteenth century. As applied to Oxford, such an expression is found in a document belonging to the year 1301. In the following century the Latin term *universitas* acquired a technical sense, and came to be used by itself much in the same sense as we now use the English University. In most cases the corporations constituting universities include a body of teachers or professors for giving instruction to students; but this is not essential to a university, the University of London being simply an examining body. A common idea of a university (founded probably on the word itself, and also on the fact that the best-known universities, as Oxford and Cambridge, consist of several colleges) is that a university is an aggregate or union of several colleges, that is, a great corporation embodying in one several smaller and subordinate collegiate bodies; but such is not necessarily the case, as some universities, such as Dublin, consist of but one college. The three oldest universities are those of Bologna, Paris, and Oxford, the first-named having already acquired great celebrity as a school of law in the early part of the twelfth century. The practice of granting degrees originated at Paris in the second half of the same century. The earliest division of students and teachers was into nations, at Paris there being four and at Bologna seventeen or eighteen nations. The division into faculties did not arise till the thirteenth century. In the United States there has been considerable looseness in the application of the term, the titles university and college being applied indifferently, so that some institutions denominated universities are little more than high schools, while others that are entitled colleges should properly be called universities. In the best universities of this country the course of study will bear comparison with that of any British university. These include Harvard, Yale, Pennsylvania, and several others. Most of the states have state universities as a part of the educational system, these being, like many of the colleges, open to both sexes. Women have also been admitted, to a partial extent, into several of the older universities. Elective and post-graduate courses have been introduced into several of the larger colleges, and the dividing line between college and university has become difficult to distinguish.

University extension, *s.* The name given to a scheme by which many of the advantages of university teaching are brought within the reach of the inhabitants of the principal towns of the United States and England. Called also Local Lectures Scheme.

1. *The Cambridge scheme:* In 1872 the University of Cambridge appointed a syndicate to organize lectures by university men, and conduct classes in suitable places. The lectures are of a similar character to those given at Cambridge, and in addition to being largely attended, have led, in the case of Nottingham and Sheffield, to the establishment of permanent institutions for higher education. There were 100 courses given in 1887, attended by 10,000 students.

2. *The American scheme:* The University Extension system, as developed at Cambridge, and later at London and elsewhere, has been taken up in the United States, and particularly in Philadelphia, where it has attained an encouraging development. It originated there in the University of Pennsylvania, under whose auspices were established several local centres and others in neighboring towns and cities, the lecturers being University professors, and others who had gained a reputation in connection with the English movement. From Philadelphia the movement has extended to other American cities, and promises to become widely developed, as an aid towards higher education for those who cannot take a regular university course. The Chautauqua course of home reading and study is a movement in the same direction. The course is a four years' one and post-graduate and special courses may be taken.

university-tests, *s. pl.* Tests enforced upon students in the Universities as an essential to their obtaining a degree. The tests, till recently in force, were those prescribed by the Act of Uniformity [Uniformity]; an Act for their abolition in the English Universities became law in June 16, 1871. A similar Act for Trinity College, Dublin, was passed in May, 1873. Tests had not been enforced in the Scottish Universities. (*English.*)

unleavened-bread, *s.*

1. *Ord. Lang.:* Bread made without leaven or barm.

2. *Church Hist.:* Unleavened bread is used in the Roman Church for the celebration of mass and the administration of the Eucharist, while the Greeks use leavened bread. In the English Church the Rubric directs that the bread "shall be such as is usual to be eaten," and an attempt to revive the use of unleavened bread has been declared illegal.

¶ Feast of Unleavened Bread:

Judaism: A festival so connected with that of the Passover that the two are all but identified (Exod. xii. 11, 17; Ezek. xlv. 21). It celebrated the fact that in the exodus from Egypt on the night when the Passover was killed the departure of the Israelites was so sudden, that there was no time to bake bread in the usual way with leaven (Exod. xii. 39). The eating of unleavened bread annually at the festival was therefore enjoined as a religious duty, and neither leavened bread nor leaven was to be within the houses of the worshippers during the seven days that the festival continued. (Exod. xii. 14–20, xiii. 6, 7.) [Passover.]

ŭn-lĕc′-tŭred, *a.* [Pref. *un-* (1), and Eng. *lectured.*]

* **ŭn-leis′-ŭred-nĕss (leis** as **lĕzh** or **lēzh),** *s.* [Eng. *unleisured; -ness.*] The quality or state of being unleisured; want of leisure; occupation.

"The true, though seldom the avowed cause of these men's neglect of the scripture, is not their *unleisuredness,* but their pride."—*Boyle: Works,* ii. 312.

ŭn-lĕss′, * **un-lesse,** * **on-les,** * **on-lesse,** *conj.* [Orig. *onlesse, onlesse that* = in less than, on a less supposition, in a less case.]

1. If it be not the case that; if it be not that; were it not the fact or case that; if . . . not; supposing that . . . not; except, excepting.

"*Unless* there be some ancient matron grave
Among them." *Cowper: Homer; Odyssey* xix.

* 2. For fear that; in case; lest.

"Beware you do not once the same gainsay
Unless with death he do your rashness pay."
Greene: Alphonsus, v.

¶ In some cases *unless* is used almost as a preposition, a verb being omitted: as in, "Here nothing breeds *unless* the nightly owl" (*Shakesp.: Titus Andronicus,* ii. 3), where "*it be*" is omitted after unless, or *breed* after owl. *Except* and *unless* were formerly commonly used as conjunctions, and almost or quite interchangeably, but the former is now seldom used as a conjunction. *Unless,* which is equivalent to, if less, if not, or if one fail, is employed only for the particular case; but *except* has always a reference to some general rule, of which an *exception* is hereby signified: I shall not do it *unless* he ask me; no one can enter *except* those who are provided with tickets.

* **ŭn-lĕss′-ŏned,** *a.* [Pref. *un-* (1); Eng. *lesson,* and suff. *-ed.*] Not lessoned; not having had lessons prescribed or taught to one; untaught; uninstructed.

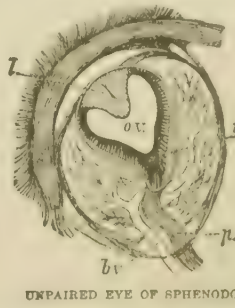
unpaired-eye, *s.*

Biol.: A functionless eye formed on the Invertebrate type, and filling up the space between the brain and the parietal foramen. It was first found in Sphenodon (q.v.);



UNPAIRED EYE OF SPHENODON.

further investigation led to its discovery in all the living Lacertilia in which a parietal foramen exists (*Spencer* in *Q. Jour. Micros. Soc.*, n.s. xxvii.), and it has since been traced in Fishes by Beard of Freiburg (*Nature*, July 14,

1887). Thus in the same vertebrate animal are eyes developed on the vertebrate and on the invertebrate type, and formed from the modification of the walls of hollows in, and out-growths of, the brain. In Sphenodon, which has been the subject of most of the investigations, this eye has, in section, the shape of a cone, the base of which fills the foramen, while the pineal stalk (*p.s.*) is connected with the apex. The walls of the optic vesicle (*o v.*) are divided into an anterior and a posterior part, the first forming the lens (*l*), and the other the sensitive structures, all nourished by a bloodvessel (*b.v.*). The lens is apparently directly the product of the brain-wall itself. The retinal elements (*r*) are arranged in the manner typical of Invertebrates—the rods lie on the inner side, bounding the cavity of the optic vesicle, the nerve entering posteriorly, and not spreading out in front of the rods. In all living forms this eye is in a state of greater or less degeneration, but it was most probably functional in the Labyrinthodonts in which the parietal foramen was very large, and had its sides corrugated, as if for the attachment of muscles.

MODIFIED EYE-SCALE

"The ship having been sent to sea in an *unseaworthy* condition."—*Pall Mall Gazette*, Feb. 9, 1883.

¶ On March 4, 1873, Mr. Samuel Plimsoll, M.P. for Derby, moved for a Royal Commission to inquire into the state of the British Shipping Interest as regarded the safety of mariners. A report justifying his apprehensions was drawn out in September. A bill which he subsequently introduced on the subject was rejected on June 24, 1874, but his earnestness led to the introduction of a temporary measure, proposed by Sir C. Adderley, giving further powers to the Board of Trade to stop unseaworthy ships. Similar legislation to prevent the sending to sea of unseaworthy vessels has been passed in the United States and other countries. The evil is one calling for stringent regulations and strict inspection, both as to the condition of vessels and the character of the food provided for seamen. The greed and inhumanity of ship-owners have caused much suffering and loss of life in the directions here indicated, and legislation is still needed in the interests of mariners.

"Whom want itself can force *untruths* to tell."
Pope: Homer; Odyssey xiv. 180.

¶ *Untruth* is an *untrue* saying; *falsehood* is a *false* saying: *untruth* of itself reflects no disgrace on the agent; it may be unintentional or not: a *falsehood* is an intentional *false* saying; an *untruth* is not always spoken for the express intention of deceiving. Some persons have a habit of telling *falsehoods* from the mere love of talking. Children are apt to speak *untruths* for want of understanding the value of words; travellers from a love of exaggeration are apt to introduce *falsehoods* into their narrations. *Falsehood* is also used in the abstract sense for what is *false*. *Falsity* is never used out in the abstract sense, for the property of the *false*. The former is general, the latter particular in the application: the truth or *falsehood* of an assertion is not always to be distinctly proved; the *falsity* of any particular person's assertion may be proved by the evidence of others.

ŭn-trŭth′-fŭl, *a.* [Pref. *un-* (1), and Eng. *truthful.*] Not truthful; wanting in veracity.

û-păn'-ĭsh-ăd, *s.* [Sans. = a sitting.]

Hindoo Sacred Lit. (*Pl.*): Vedic speculative treatises occupied with attempts to solve problems connected with the universe and the nature and destiny of man. They are 108 or more in number, each Veda having a certain number of Upanishads connected with it. They constitute part of the Brahmanas or commentaries belonging to the Veda, presenting the Vedic doctrine in a comprehensive form, and being of a more dogmatic character than the rest of the Brahmanas. They vary in date like the Brahmanas, which extend, according to Max Müller, from 800 to 600 B.C. [BRAHMANISM.] All Indian philosophers and various sects profess to derive their belief from the Upanishads. [VEDA.]

ū'-păs, *s.* [Malay *ùpas* = poison.] The Upas-tree (q.v.).

upas-tieute, *s.*

Toxicol. & Bot.: The poison of *Strychnos Tieute*, a climbing shrub growing in Java. The natives use it to poison their arrows, its deleterious effects being produced by the presence of strychnine.

upas-tree, *s.*

Bot.: Antiaris toxicaria, a large tree growing in Java. Stem naked for the first sixty, seventy, or eighty feet of its height; leaves alternate, stipulate, entire, unequal-sided, subcordate, costately-veined; flowers in

axillary or lateral drooping peduncles, monœcious; males numerous, enclosed in a hairy involucre, calyx with three or four divisions, anthers sessile, three or four; females solitary, calyx in several divisions with a long bipartite style, and ultimately bearing a succulent, drupaceous fruit. The inspissated juice of the upas-tree constitutes a virulent poison called by the natives antjar, which owes its deleterious character to the presence of strychnine. The smallest wound by an arrow tipped with this poison is fatal. Towards the close of the eighteenth century a Dutch surgeon, Foersch, circulated in Europe various myths with regard to the upas-tree. It was said to be so deadly that the poison was collected by criminals condemned to death, who obtained their pardon if they brought away the poison, which was, however, found fatal to eighteen out of every twenty who made the attempt. It was destructive to all vegetable life but its own, and grew in the midst of a desert which it had made. Is it now known that the upas-tree was credited with the destruction of animal life really attributable to the escape of carbon dioxide from a vent or vents in a valley surrounded by volcanoes. It has been seen growing with other trees in forests, and in 1844 was introduced into British hothouses with no deleterious effect.

2. *Geol.*: The sudden elevation of land, or its slow rise through volcanic or earthquake action. This elevation is popularly attributed, as it was by the early geologists, to a recession of the sea; no portion of which, however, could recede without producing a universal fall in the level of the ocean. No known natural cause could produce such a phenomenon, and the popular hypothesis is embarrassed by the necessity of explaining what has become of the water which has disappeared, and why certain strata are not horizontal, but slanted at all angles or disposed in curves. These difficulties do not arise when it is held that the permanent recession of the ocean is only apparent; the water has remained at its own level, and it is the land that has risen. This rise of the land, though often very extensive, is still in each successive case only a local phenomenon. [UP-THROW.]

"The evidence of *upheaval* in the atoll regions of the Pacific."—*Nature*, Ap. 26, 1888, p. 604.

ū′-pu-pa, *s.* [Lat., connected with Gr. *ἔποψ* (*epops*) = the hoopoe (q.v.).]

Ornith.: The sole genus of Upupidæ (q.v.), with bill long, slender, slightly arched, sharp, and much compressed; nostrils basal, oval, partly concealed by feathers; tongue very short and heart-shaped; head with an erectile crest of oblong feathers, set regularly in pairs for the whole length; wings moderately long, very broad, with ten primaries; tail of ten feathers, almost square at the end; feet with the tarsi scutellated behind as well as before; three toes before, one behind, outer and middle united as far as first joint; claws but slightly curved. The Hoopoes are nearly related to the Hornbills, but are strongly contrasted to the latter in appearance, through their grace of figure and carriage and the beauty of their crest. Their central locality is in the Ethiopian region, but they are found in southern and central Europe and Asia. A desert country is best suited to them, and there

UPUPA EPOPS,
With crest erected and depressed.

they are protected from observation by their sand-colored plumage. The Hoopoe or Upupa derives its name from its frequent repetition of the sound *hoo-hoo-hoo* which it produces. At each note it puffs out its neck and hammers the ground with its bill.

ụ-pū′-pĭ-dæ, *s. pl.* [Mod. Lat. *upup(a);* Lat. fem. pl. adj. suff. *-idæ.*]

Ornith.: A family of semi-terrestrial, insectivorous Picarian Birds whose nearest affinities are with the Hornbills. It contains a single genus, Upupa (q.v.), characteristic of the Ethiopian region, but extending into the south of Europe and into all the continental divisions of the Oriental region, as well as to Ceylon, and northwards to Pekin and Mongolia. (*Wallace.*) The Wood-hoopoes (q.v.) were formerly placed in this family, but now more generally constitute the family Irrisoridæ, with the single genus Irrisor.

ŭp-waft′-ĕd, *a.* [Eng. *up,* and *wafted.*] Wafted upwards; carried up or aloft.

"Mingled his taint with every breath
Upwafted from the innocent flowers!"
Moore: Paradise & the Peri.

ŭp′-ward, * up-warde, * uppe-warde, * up-pard, *adv., adj.,* **& s.** [Eng. *up,* and *-ward.*]

A. *As adverb:*

1. Towards a higher place or position; upwards.

"All his sad companions *upward* gaze,
Fixed on the glorious scene in wild amaze.'
Pope: Statius; Thebaid i. 644.

***** 2. With respect to the upper or higher part or parts.

"Dagon, sea-monster; *upward* man,
And downward fish." *Milton: P. L.,* i. 462.

3. More. (Used indefinitely.)

"I am a very foolish, fond old man,
Fourscore and *upward,* not an hour more or less."
Shakesp.: Lear, iv. 7.

***** 4. Toward the source or origin.

"Thence your maxims bring,
And trace the muses *upward* to their spring."
Pope: Essay on Criticism, 127.

5. Noting progress or advance in years or life; on.

"From the age of xiiii. yeres *uppewarde.*"—*Elyot: Governour,* bk. i., ch. xvi.

B. *As adjective:*

1. Directed or turned upwards.

"Titinius' face is *upward.*"
Shakesp.: Julius Cæsar, v. 3.

2. Towards the source or origin.

"Entirely arresting their *upward* migration."—*Field,* Dec. 31, 1887.

3. Towards a higher price or value.

"Feeding materials of all kinds are unusually reasonable just now, although an *upward* tendency is apparent."—*Field,* Oct. 3, 1885.

*** C.** *As subst.:* The top, the summit.

"From the extremest *upward* of thy head
To the descent and dust below thy foot."
Shakesp.: Lear, v. 3.

*** ¶** *Upward of:* [*Upwards of*].

***ŭp′-ward-lў,** *adv.* [Eng. *upward; -ly.*] In an upward direction; upwards.

"*Upwardly* opening valves."—*Knight: Dict. Mechanics,* s.v. *Ventilator.*

ŭp′-wardş, *adv.* [UPWARD.]

1. Towards a higher place; in an upward direction. (Opposed to *downward.*)

"She shall be buried with her face *upwards.*"—*Shakesp.: Much Ado,* iii. 2.

2. Towards the source or spring.

3. More.

"Some of them worth as much as £30 and *upwards.*"—*Daily Chronicle,* Jan. 17, 1887.

¶ *Upwards of:* More than; above; in excess of: as, He has been here *upwards of* ten years.

ŭp-whĭrl′, *v.i. & t.* [Eng. *up,* and *whirl.*]

A. *Intrans.:* To rise upwards in a whirl; to whirl upwards.

B. *Trans.:* To raise upwards in a whirling direction.

"All these *upwhirl'd* aloft
Fly o'er the backside of the world."
Milton: P. L., iii. 493.

ŭp-wīnd′, *v.t.* [Eng. *up,* and *wind,* v.] To wind up; to roll up; to involve. (*Spenser: F. Q.,* I. i. 15.)

ŭp′-wĭnd, *adv.* [Eng. *up,* and *wind,* s.] Against or in the face of the wind.

"For, though *upwind* now, they could merely hunt."—*Field,* Feb. 4, 1888.

ŭp-wŏŭnd′, *pa. par.* or *a.* [UPWIND, *v.*]

***ŭp-wrēath′,** *v.i.* [Eng. *up,* and *wreath,* v.] To curl upwards.

"Around it columns of smoke *upwreathing.*"
Longfellow: Building of the Ship.

ūr′-a-chŭs, *s.* [Gr. *οὖρον* (*ouron*) = urine, and *ἔχω* (*echō*) = to have.]

Anat.: A fibrous cord connecting the summit of the bladder with the anterior abdominal wall, passing upwards between the *linea alba* and the peritoneum to the umbilicus. In fœtal life the urachus connects the bladder with the allantois.

ụ-răc′-ō-nīte, ụ-răc′-ō-nīşe, *s.* [Eng. *ura(nium),* and Gr. *κονίς* (*konis*) = dust.]

Min.: A mineral of undetermined crystalline form, occurring in exceedingly minute scales, or earthy, on uraninite (q.v.), at Joachimsthal, Bohemia. Colour, lemon-yellow, sometimes orange. Compos.: essentially a hydrated sulphate of the sesquioxide of uranium.

ụ-ræ′-mĭ-a, *s.* [Gr. *οὖρον* (*ouron*) = urine, and *αἷμα* (*haima*) = blood.]

Pathol.: A disease caused by the retention of urea and other noxious substances in the kidneys and bladder, followed by blood poisoning. It is produced by any cause which prevents the periodical excretion of the urine, and is a most dangerous malady. It takes three forms: stupor, followed by coma, convulsions of an epileptic type, or coma and convulsions combined. [ALBUMINURIA.]

ụ-ræ′-mĭc, *a.* [Mod. Lat. *uræm(ia);* Eng. suff. *-ic.*] Of or belonging to uræmia: as, *uræmic* coma, *uræmic* intoxication, *uræmic* poisoning.

Ūr′-al, *s.* [See def.]

Geog.: The name of a range of mountains about 1,250 miles long, constituting the north-eastern boundary of Europe.

Ural Altaic, *a.*

Philol.: The same as TURANIAN.

Ụ-rā′-lĭ-an, *a.* [See def.] Of or pertaining to the Ural Mountains, in Russia.

Ụ-răl′-ĭc, *a.* [See def.] Of or pertaining to the Ural Mountains; specifically applied to the languages of the Finnic tribes, from it being generally supposed that the original seat of such tribes was in the Ural Mountains.

ūr′-al-īte, *s.* [After the Ural Mountains, where it was first observed; suff. *-ite* (*Min.*); Ger. *uralit.*]

Min.: An altered form of Augite (q.v.), where the exterior form of the crystal is preserved, but the cleavage is that of hornblende. The crystals appear to be composed of a number of minute prisms of hornblende. First made known by H. Rose, as occurring in a green porphyritic rock in the Urals, but it has since been found to be very abundant in many rocks.

uralite-porphyry, *s.*

Petrol.: A porphyry in which the mineral uralite is a prominent constituent.

uralite-syenite, *s.*

Petrol.: A variety of syenite (q.v.), occurring near the village of Turgojak, in the Ural Mountains, which contains uralite.

ŭr-ăl-orth′-īte, *s.* [After the Ural Mountains, where found, and Eng. *orthite.*]

Min.: A variety of Allanite (q.v.), occurring in large dull crystals in the Ilmen Mountains, Urals. Hardness, 6·0; sp. gr. 3·41 to 3·647; colour, pitch-black.

ụ-răm′-īl, *s.* [Eng. *uran(ic),* and *amil.*] [DIALURAMIDE.]

ŭr-ą-mĭl′-ĭc, *a.* [Eng. *uramil; -ic.*] Derived from or containing uramil.

uramilic-acid, *s.*

Chem.: $C_8H_{10}N_5O_7$ (?). Dialuramic acid. Obtained by boiling a solution of dialuramide in sulphuric acid. It crystallizes in transparent four-sided prisms or in silky needles, soluble in water and nitric and sulphuric acids, insoluble in alcohol and ether. With the alkalis it forms crystallizable salts.

ụ-răn′, *s.* [See def.] A contraction of Uranium (q.v.).

uran-mica, *s.*

Min.: The same as URANITE (q.v.).

ŭr′-ąn-ąte, *s.* [Eng. *uran(ic); -ate.*]

Chem. (Pl.): Compounds of the uranic oxide with basic metallic oxides. (*Watts.*)

ụ-răn-ą-tĕm′-nīte, *s.* [Eng. *uran(ium);* Gr. ἀ (*a*) negative, and τέμνω (*temnō*) = to cut.]

Min.: The same as URANIN.

ụ-rā′-nĕ-æ, *s. pl.* [Mod. Lat. *uran(ia);* Lat. fem. pl. adj. suff. *-eæ.*]

Bot.: A tribe of Musaceæ. Seeds numerous in each cell; fruit berried, or, if capsular, bursting through the cells. (*Lindley.*)

Ụ-rā′-nĭ-ą, *s.* [Lat., from Gr. Οὐρανιά (*Ouranía*) = the Heavenly one, later regarded as the muse who presides over astronomy.]

1. *Classic Mythology:*

(1) The muse of Astronomy, usually represented as holding in one hand a globe, in the other a rod, with which she is employed in tracing out some figure.

(2) A surname of Venus = Celestial. She was said to be the daughter of Uranus or Cœlus by the Light, and was supposed to preside over beauty and generation.

2. *Astron.:* [ASTEROID, 30.].

3. *Bot.:* The typical genus of Uraneæ (q.v.). Only known species, *Urania speciosa* (*Ravenala madagascariensis*). [RAVENALA.] It has leaves of giant size, small axillary flowers, and fruits bearing seeds, surrounded by an aril of an ultramarine colour. It yields an essential oil, and the capsules a dye.

4. *Entom.:* The typical genus of Uraniidæ (q.v.). Splendid lepidopterous insects, often about three inches across the wings, which are transversely banded with black and green, the hinder pair terminating posteriorly in a long tail, sometimes edged with white. All the species are South American. *Urania fulgens* migrates in large flocks across the Isthmus of Panama.

Ụ-rā′-nĭ-ąn (1), *a.* [Eng. *Urani(a); -an.*]

Mythol.: Of or belonging to heaven; heavenly, celestial. Used of Venus when regarded as the patroness of heavenly or chaste love. Or it may refer to her being the daughter of Uranus. [URANIA, 1, (2).]

"The seal was Cupid bent above a scroll,
And o'er his head *Uranian* Venus hung."
Tennyson: Princess, i. 239.

Ụ-rā′-nĭ-ąn (2), *a.* [Mod. Lat., &c. *uranus* (q.v.), *i* connect., and Eng. suff. *-an.*]

Astron.: Of or belonging to the planet Uranus.

"The most singular circumstance attending the whole *Uranian* system."—*Bait: Story of the Heavens,* p. 169.

ụ-răn′-ĭc (1), *a.* [URANUS.] Of or pertaining to the heavens; celestial, astronomical.

"On I know not what telluric or *uranic* principles."
—*Carlyle.*

ụ-răn′-ĭc (2), *a.* [Eng. *uran(ium); -ic.*] Contained in or derived from uranium (q.v.).

uranic-acid, *s.*

Chem.: The name given to uranic oxide when in combination with bases.

uranic-nitrate, *s.*

Chem.: $(UO_2)''(NO_3)_2{\cdot}6H_2O$. Prepared by dissolving pulverised pitchblende in nitric acid, evaporating to dryness, adding water, filtering, and allowing filtrate to crystallize. It is soluble in water and alcohol.

uranic-oxide, *s.*

Chem.: UO_3. Uranyl oxide. A chamois-yellow powder, obtained by heating uranic nitrate in a glass tube to 250°. It dissolves in acids forming the uranic salts.

uranic-oxychloride, *s.*

Chem.: UO_2Cl_2. Uranyl chloride. Obtained as an orange-yellow vapour, which solidifies to a yellow crystalline mass, when dry chlorine gas is passed over red-hot uranous oxide. It is soluble in water, and forms double salts with the chlorides of the alkali metals.

ŭr-ą-nĭ′-ĭ-dæ, *s. pl.* [Mod. Lat. *uranĭ(a);* Lat. fem. pl. adj. suff. *-idæ.*]

Entom.: Pages; a family of Lepidoptera, now believed to be Hawk Moths, but constituting the transition to the tribe of Butterflies with which they were formerly placed. They are large, have long slender antennæ, and fly by day. Found in the hotter parts of the world. The tropical American species are brighter in color than those from the East Indies.

ŭr′-ą-nĭn, ŭr-ą-nĭn′-īte, *s.* [Eng. *uran (ium);* suff. *-in, -inite (Min.);* Ger. *uranerz, schweruranerz;* Fr. *urane oxydulé.*]

Min.: A mineral crystallizing in the isometric or cubic system, mostly, however, occurring massive. Hardness, 5·5; sp. gr., 6·4–8; lustre, greasy to dull; colour, velvet-black, grayish; streak, brownish-black to dark olive-green; opaque; fracture, somewhat conchoidal. Compos.: protoxide of uranium, 32·1; sesquioxide of uranium, 67·9 = 100, which is equivalent to the formula $UO_2U_2O_3$. Occurs sparingly in Cornwall, Bohemia, Saxony, and a few other localities.

ŭr-ą-nĭs-cŏ′-nī′-tĭs, *s.* [Gr. οὐρανίσκος (*ouraniskos*) = the palate; suff. *-itis.*]

Pathol.: Inflammation of the palate.

ŭr-ą-nĭs′-cŏ-plăs-tў, *s.* [Gr. οὐρανίσκος (*ouraniskos*) = the palate; πλαστικός (*plastikos*) = forming, from πλάσσω (*plassō*) = to form, to mould.]

Surg.: The operation of engrafting in case of deficiency of the soft palate.

*** ŭr-ą-nĭs-cŏr′-ą-phў,** *s.* [Gr. οὐρανίσκος (*ouraniskos*) = the palate, and ῥαφή (*rhaphē*) = a suture.]

Surg.: The operation of suture in the case of cleft palate.

ŭr′-ąn-īte, *s.* [Eng. *uran(ium);* suff. *-ite (Min.);* Fr. *urane oxydé;* Ger. *uranit, uranglimmer.*]

Mineralogy:

1. A tetragonal mineral occurring in square tables or plates with bevelled edges, occasionally in square octahedrons; cleavage, basal, micaceous. Hardness, 2 to 2·5; sp. gr., 3·4 to 3·6; lustre of cleavage faces, pearly, of others, sub-resinous; colour and streak, various shades of green; transparent to subtranslucent. Compos.: a hydrated phosphate of the sesquioxide of uranium and protoxide of copper. The finest varieties of this mineral have been hitherto found in the mines of Cornwall.

2. The same as AUTUNITE (q.v.).

ŭr-ăn-ĭt′-ĭc, *a.* [Eng. *uranit(e); -ic.*] Pertaining to or containing uranite.

ụ-rān′-ĭ-ŭm, *s.* [Named by the discoverer after the planet Uranus (q.v.).]

Chem.: A hexad metallic element, discovered by Klaproth in 1789 as a metallic oxide, but first obtained as a true metal by Peligot in 1840; symb. U; at. wt. 120. It is found in pitchblende, which is an oxide, and in uranite, which is a phosphate. The metal is readily obtained by decomposing the chloride with potassium or sodium. It is somewhat malleable and hard, with a colour resembling nickel or iron; sp. gr. 18·4; permanent in the air at ordinary temperature, but in the pulverulent state it takes fire at about 207°, burning with great splendour. It forms two classes of compounds, viz., the uranous, in which it is quadrivalent, and the uranic, in which it is sexvalent.

uranium-carbonate, *s.* [LIEBIGITE VOGLITE.]

uranium-oxide, *s.* [URANIN, URANINITE.]

uranium-phosphate, *s.* [URANITE, AUTUNITE.]

uranium-sulphate, *s.* [JOHANNITE, URANOCHALCITE, MEDJIDITE, ZIPPEITE, VOGLIANITE, URACONITE.]

ŭr-ą-nŏ-, *pref.* [URANIUM, URANUS.]

1. Of or belonging to the sky.

2. Pertaining to or obtained from uranium (q.v.).

ụ-răn-ŏ-chăl′-çīte, *s.* [Pref. *urano-,* 2.; Gr. χαλκός (*chalkos*) = brass, copper, and suff. *-ite (Min.);* Ger. *uranochalzit.*]

Min.: A name given to a mineral occurring in small velvety nodules formed of radiating crystal-fibres. Hardness, 2 to 2·5; colour and streak, grass- to apple-green. Compos.: probably sulphuric acid, 21·1; oxide of uranium, 33·5; oxide of copper, 7·0; lime, 9·8; water, 28·5 = 99·9.

ŭr-ăn-ŏ′-chre (chre as kĕr) *s.* [Pref. *uran(o)-,* 2., and Eng. *ochre.*]

Min.: The same as URACONITE (q.v.).

ụ-răn-ŏ-çĭr′-çīte, *s.* [Pref. *urano-,* 2.; Lat. *circus* = a circle, and suff. *-ite (Min.).*]

Min.: An orthorhombic mineral strongly resembling autunite (q.v.), for which it had been long mistaken. Sp. gr. 3·53; colour, yellowish-green. Compos.: phosphoric acid, 14·0; sesquioxide of uranium, 56·75; baryta, 15·07; water, 14·18 = 100, thus being an autunite (q.v.), in which baryta replaces the lime. Found in veins in the granite of Saxon Voigtland.

ụ-răn-ŏ-grăph′-ĭc, ụ-răn-ŏ-grăph′-ĭc-ąl, *a.* [Eng. *uranograph(y); -ic, -ical.*] Of or pertaining to uranography (q.v.).

ŭr-ąn-ŏg′-rą-phĭst, *s.* [Eng. *uranograph(y); -ist.*] One who is versed or skilled in uranography.

ŭr-ąn-ŏg′-rą-phў, *s.* [Pref. *urano-,* 1., and Gr. γράφω (*graphō*) = to write, to describe.] A description, chart, or orrery of the heavens; that branch of astronomy which consists in the determination of the relative situations of the heavenly bodies and the construction of celestial maps and globes, &c.

"For the purposes of *uranography* . . . a knowledge of the equinox is not necessary."—*Herschel: Astronomy,* § 294.

ụ-răn′-ŏ-līte, *s.* [Pref. *urano-,* 1., and Gr. λίθος (*lithos*) = a stone.] A meteoric stone; an aerolite.

ŭr-ąn-ŏl′-ŏ-ġў, *s.* [Pref. *urano-,* 1., and Gr. λόγος (*logos*) = a discourse.] The knowledge of the heavens.

ŭr-ąn-ŏm′-ĕt-rў, *s.* [Pref. *urano-,* 1., and Gr. μέτρον (*metron*) = a measure.] A measurement of the heavens.

"A new *uranometry* and a repertory of constants of astronomy."—*Nature,* vol. xxiv., p. 624. (1881.)

ụ-răn-ŏ-nĭ′-ŏ-bīte, *s.* [Pref. *urano-,* 2., and Eng. *niobite.*]

Mineralogy:

1. The same as SAMARSKITE (q.v.).

2. The same as URANIN (q.v.).

ụ-răn′-ŏ-phāne, *s.* [Pref. *urano-,* 2., and Gr. φαίνω (*phainō*) = to cause to appear.]

Min.: An orthorhombic mineral occurring in exceedingly minute crystals on the sides of fissures in granite at Kupferberg, Silesia. Hardness, 2·5 to 3; sp. gr. 2·6 to 2·8; colour, honey-yellow. Compos.: essentially a hydrated silicate of sesquioxide of uranium, alumina, and lime.

ụ-răn-ŏ-phўll′-īte, *s.* [Pref. *urano-,* 2., and Eng. *phyllite.*]

Min.: The same as URANITE (q.v.).

ụ-răn-ŏ-scŏ-pī′-ną, *s. pl.* [Mod. Lat. *uranoscop(us);* Lat. neut. pl. adj. suff. *-ina.*]

Ichthy.: A group of Trachinidæ, containing several genera. The eyes are on the upper surface of the head, directed upwards; lateral line continuous.

ŭr-ą-nŏs′-cŏ-pŭs, *s.* [Lat., from Gr. οὐρανο-

σκόπος (*ouranoskopos*) = *Uranoscopus scaber*. (See def.)]

Ichthy.: Stargazer. A genus of Uranoscopina (q.v.), with eleven species from the Indo-Pacific and Atlantic, and one, *Uranoscopus scaber*, known to the ancients, from the Mediterranean. Head large, broad, and thick, partially covered with bony plates; mouth-cleft vertical; scales very small; two dorsal fins, ventrals jugular, pectorals branched; villiform teeth in jaws, on vomer, and palatine

URANOSCOPUS SCABER.

bones; a long filament usually present before and below the tongue; gill-cover armed. The eyes, which are very small, can be raised or depressed at will. The species are small, inactive fishes, rarely a foot long, generally lying hidden at the bottom between stones, watching for their prey. The filament attached to the bottom of their mouth, and playing in the current of water passing through the mouth, serves to allure small marine animals within reach.

ūr-ạn-ŏs′-cō-pȳ, *s.* [Pref. *urano-*, 1., and Gr. σκοπέω (*skopeō*) = to see, to observe.] Contemplation of the heavenly bodies.

ūr-ạ-rō-sō-, *pref.* [Mod. Lat. *uranosus* = uranous (q.v.).]

Chem.: Uranous (q.v.).

uranoso-uranic oxide, *s.*

Chem.: $U_3O_8 = UO_2{\cdot}2UO_3$. The chief constituent of pitchblende, obtained artificially by igniting uranous oxide in contact with air. It forms a dark-green velvety powder; sp. gr. 7·1 to 7·3, hardly acted upon by dilute acids, but dissolving without alteration in concentrated hydrochloric and sulphuric acids.

ụ-răn-ō-sphær′-īte (ær as **ēr),** *s.* [Pref. *urano-*, 2, and Eng. *sphærite* (*Min.*).]

Min.: A mineral occurring in semi-globular groups of microscopic crystals, with radiated and concentric structure. Hardness, 2 to 3; sp. gr. 6·36; colour, orange-yellow to brick-red; lustre, greasy. An analysis of perfectly pure material yielded: sesquioxide of uranium, 50·88; teroxide of bismuth, 44·34; water, 4·75 = 99·97, which gives the formula $BiO_3{2}U_2O_3 + 3HO$. Found at the Weisser Hirsch Mine, Schneeberg, Saxony.

ụ-răn-ō-spīn′-īte, *s.* [Pref. *urano-*, 2.; Lat. *spina* = a thorn, and suff. *-ite* (*Min.*).]

Min.: A mineral occurring in scales with rectangular contours. Crystallization orthorhombic; hardness, 2 to 3; sp. gr. 3·45; colour, siskin-green. An analysis by Winkler gave: arsenic acid, 19·37; sesquioxide of uranium, 59·18; lime 5·47; water, 16·29 = 100·31, which is approximately equivalent to the formula $CaO,U_2O_3AsO_5 + 8HO$. Found at the Weisser Hirsch Mine, Schneeberg, Saxony.

ụ-răn-ō-tăn′-tal-īte, *s.* [Pref. *urano-*, 2., and Eng. *tantalite:* Ger. *uranotantal.*]

Min.: The same as Samarskite (q.v.).

ụ-răn-ō-thăll′-īte, *s.* [Pref. *urano-*, 2., and Eng. *thallite.*]

Min.: A mineral occurring in aggregates of minute crystals or grains as encrustations on uranium ores. Hardness, 2·5 to 3·0; colour, and streak, siskin-green; lustre, vitreous, on cleavage faces pearly. Compos.: a hydrated carbonate of uranium and lime. Found at Joachimsthal, Bohemia.

ụ-răn-ō-thōr′-īte, *s.* [Pref. *urano-*, 2., and Eng. *thorite.*]

Min.: A variety of thorite (q.v.), containing nearly 10 per cent. of sesquioxide of uranium. Found in the Champlain iron region, New York, U.S.A.

ụ-răn′-ō-tīl, *s.* [Uranium.]

Min.: An orthorhombic mineral occurring in radiating or stellar groups of acicular crystals. Sp. gr. 3·95; colour, lemon-yellow. The mean of three analyses gave: silica, 13·78; sesquioxide of uranium, 66·75; alumina and sesquioxide of iron, 0·51; lime, 5·27; phosphoric acid, 0·45; water, 12·67 = 99·43, which resembles the composition of uranophane (q.v.).

ūr′-ạ-nŏŭs, *a.* [Eng. *uran(ium); -ous.*] Derived from uranium.

uranous-chloride, *s.*

Chem.: UCl_4. Formed by burning uranium in chlorine gas, or by igniting uranous oxide in hydrochloric acid gas. It crystallizes in dark-green deliquescent octahedrons, soluble in water with a hissing noise, forming an emerald-green solution. When boiled it gives off hydrochloric acid, and deposits a finely-divided brown powder.

uranous-oxide, *s.*

Chem.: UO_2. Obtained by heating uranosouranic oxide in a current of hydrogen. It is a brown crystalline powder, soluble in acids, and forming greenish-coloured salts.

Ūr′-ạ-nŭs, *s.* [Mod. Lat., from Gr. οὐρανός (*ouranos*) = heaven, spec. the celestial vault.]

1. *Greek Mythol.:* The most ancient of all the gods. He married Terra, or Earth, by whom he had, first, the children called the hundred-handed, Briareus, Cottus, and Gyges; secondly, the Cyclopes, Arges, Steropes, and Brontes; thirdly, the Titanes, Oceanus, Cœus, Saturnus, &c.; and lastly, the Giants. He was dethroned and mutilated by his son Saturnus, and from his blood sprang the Furies, Alecto, Tisiphone, and Megæra.

2. *Astron.:* One of the superior planets between Saturn and Neptune. It was not known to the ancients. When Sir William Herschel, after the construction of his great reflecting telescope [Telescope] was systematically examining with it all the stars above a certain magnitude, he, on March 13, 1781, found in the constellation Gemini a star which he recognized as having a disk which the others had not. He took it for a comet, and other contemporary astronomers held the same view. Some months afterwards, as its motions were traced, the opinion arose that it was a planet, and in January, 1783, La Place laid before the Academy of Science, at Paris, calculations relating to its elliptic orbit which established beyond a doubt that this opinion was correct. The discovery led to the appointment of Herschel as Astronomer-Royal, and the establishment of the observatory at Slough. Uranus had been noted down by Flamsteed as a fixed star, in his *Historia Cœlestis Britannica*, published in 1725, and he had measured its place four or five times between 1690 and 1715. Lemonnier had observed it nine times without identifying it as a planet. Bradley and Tobias Mayer had done so at least once. Its diameter is about 31,700 miles—about four times that of the earth, its bulk about sixty-four times as great; but being of light material its weight is only fifteen times as great. It has been reasoned out from analogy rather than proved by actual observation that it rotates, but the time of this rotation is wholly unknown. Its distance from the sun is about 1,800,000,000 of miles, and it travels once round the orbit in about eighty-seven years. It receives only about one three-thousandth part of the light and heat from the sun which fall upon the earth. It is attended by at least four satellites—Ariel, Umbriel, Titania, and Oberon. Their orbits all lie in the same plane, and are at right angles to the path of the planet itself—a circumstance not known in the case of any other planet. Called also Georgium Sidus and Herschel (q.v.).

ū-răn′-ū-tăn, *s.* [Ourang-outang.]

ūr-ăn-vĭt′-rī-ōl, *s.* [Eng. *uran(ium)*, and *vitriol.*]

Min.: The same as Johannite (q.v.).

ūr′-ạ-nȳl, *s.* [Eng. *uran(ium); -yl.*]

Chem.: UO_2. The hypothetical radical of the uranic compounds.

uranyl-chloride, *s.* [Uranic-oxychloride.]

uranyl-oxide, *s.* [Uranic-oxide.]

ụ-ra′-ō, *s.* [A name given by the natiye inhabitants to a deposit in a lake near Nerida, Columbia, South America.]

Min.: The same as Trona (q.v).

ūr-ăp-tĕr-ȳ′ğ-ĭ-dæ, *s. pl.*, **ūr-ăp′-tĕr-ȳx,** *s.* [Ouraptérydæ, Ouraptéryx.] (*Newman.*)

û-ra′-rî, *s.* [Curari.]

ụ-răr′-ĭ-ạ, *s.* [Mod. Lat., from Gr. οὐρά (*oura*) = a tail, which the bracts resemble.]

Bot.: A genus of Hedysareæ. Papilionaceous plants with pinnate leaves, having generally three leaflets, purple or yellow flowers, and nearly sessile legumes contracted between the seeds. *Uraria lagopoides*, an Indian species, is considered by the Hindoos to be alterative, tonic, and anticatarrhal, and is an ingredient in some of their medicines. The fruit of *U. picta*, another Indian species, is applied to the sore mouths of children, and the plant itself is deemed an antidote for the bite of a Southern Indian snake (*Echis carinata*).

ụ-răs′-tĕr, *s.* [Pref. *ur(o)-*, and Gr. ἀστήρ (*astēr*) = a star-fish.]

Zool.: A synonym of Asterias (q.v.). [Star-fish.]

ụ-răs-tĕr-ĕl′-la, *s.* [Mod. Lat., dimin. from *uraster* (q.v.).]

Palæont.: A genus of Star-fishes, having the ambulacral grooves margined by a row of ambulacral plates only. Found in the Silurian. Called also Stenaster.

ūr′-ạte, *s.* [Eng. *ur(ic); -ate.*]

Chem.: A salt of uric acid.

urate of ammonia, *s.*

Chem.: $C_5H_3(NH_4)N_4O_3$. A salt frequently found in urine, and prepared by adding ammonia to uric acid. It is slightly soluble in water, insoluble in alcohol and ether.

ūr′-bạn, *a.* [Lat. *urbanus* = pertaining to a city; *urbs*, genit. *urbis* = a city.]

1. Of or pertaining to a city or town; living or situated in a city or town.

"The gradual removal of *urban* rookeries."—*Daily Telegraph*, Sept. 29, 1885.

* 2. Urbane (q.v.).

ūr-bāne′, *a.* [Lat. *urbanus* = urban (q.v.).] Courteous, polite, suave, elegant, refined, polished.

"Raising, through just gradation, savage life
To rustic, and the rustic to *urbane*."
Wordsworth: Excursion, bk. viii.

Ūr′-bạn-īst, *s.* [See def. II. 1. 2.]

I. *Ord. Lang.:* A sort of dessert pear of the highest excellence.

II. *Church History* (*Pl.*):

1. A name sometimes given to those of the Poor Clares (q.v.) who accepted the reform of Pope Urban IV. (1291–65).

2. The adherents of Pope Urban VI. (1378–89), in opposition to whom Clement VII. was afterwards elected. The latter held his court at Fondi, in the kingdom of Naples, and afterwards at Avignon.

"As Clement's party drew back, the *Urbanists* took up the cry."—*Milman: Latin Christianity*, viii. 51.

ūr-băn′-ĭ-tȳ, * **ur-ban-i-tie,** *s.* [Fr. *urbanité*, from Lat. *urbanitatem*, accus. of *urbanitas*, from *urbanus* = urbane (q.v.).]

1. The quality or state of being urbane; civility and courteousness of manner; refinement, suavity, polish, politeness.

"The grace and *urbanity* of his manners."—*Macaulay: Hist. Eng.*, ch. vi.

* 2. A polished humour or facetiousness.

"Moral doctrine, and *urbanity*, [says Casaubon] or well-mannered wit, are the two things which constitute the Roman satire."—*Dryden: Juvenal.* (Dedic.)

* **ūr′-bạn-īze,** *v.t.* [Eng. *urban(e); -ize.*] To render urbane.

"Refined nations, whom nature and knowledge did first *urbanize* and polish."—*Howell: Instructions for Travel*, p. 9. (1642.)

* **ūr-bĭc′-ō-lŏŭs,** *a.* [Lat. *urbs*, genit. *urbis* = a city, a town, and *colo* = to cultivate, to inhabit.] Inhabiting a city or town; urban. (*Eclec. Rev.*, in *Annunale.*)

ŭr-çē′-ō-la, *s.* [Lat. *urceolus* (q.v.).]

1. *Bot.:* A genus of Plumiereæ. Named from the form of the corolla. Leaves opposite, ovato-oblong; flowers small, greenish, in terminal cymes; calyx five-cleft; corolla pitcher-shaped, hairy, with five erect teeth; stamens five, with sagittate anthers; ovaries two, developing into fruit the size of oranges. *Urceola elastica* of Roxburgh (= *U. esculenta* of Bentham) is an extensive woody climber in the forests of Tenasserim and Pegu. Mr. G. W. Strettell believes that it may be utilized for supplying caoutchouc. (*Calcutta Exhib. Report.*)

2. *Ecclesiol.:* A pitcher for containing water for ritual use in the Eucharistic service, whether for washing the ministrant's hands or for cleansing the vessels. (*Smith: Christian Antiquities.*)

ŭr-çē-ō-lā′-rĭ-a, *s.* [Lat. *urceolaris* = of or belonging to a small pitcher.]

1. *Bot.:* A genus of Limboridæ, closely akin to Lecanora, and named from the form of the shields. The spermogonia are scattered over the thallus, sometimes on the border of the apothecia. They are inconspicuous on account of their pale colour. *Urceolaria scruposa* and *U. cinerea* are Crustaceous Lichens, used in dyeing. The former is the more common, growing on heaths, walls, and rocks.

2. *Zool.:* A genus of Urceolariidæ (q.v.), with a single species, parasitic on *Planaria torva*. Free-swimming, highly elastic, changeable in shape; sucking-disc provided with a simply striated horny ring; the anterior region usually alternate, and with the peristome obliquely set.

ŭr-çē-ō-la-rī′-ĭ-dæ, *s. pl.* [Mod. Lat. *urceolari(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Zool.: A family of Peritrichous Infusoria, with four genera, from salt and fresh water; all parasitic or commensal. Animalcules free-swimming or adherent at will, discoidal, turbinate, or hourglass-shaped; anterior border more or less circular, with a spirally convolute ciliary wreath, the right limb of which descends into the oral aperture; oral system consisting usually of a widened anterior entrance (the vestibulum), and a somewhat prolonged pharyngeal passage; posterior border cup-shaped, adhesive, ciliated, and generally strengthened internally with a horny ring, which in some cases is simple, and in others set with tooth-like processes.

ŭr′-çē-ō-late, *a.* [Mod. Lat. *urceolatus*, from Lat. *urceolus* (q.v.).]

Bot.: Pitcher-shaped (q.v.).

ŭr-çē′-ō-lŭs, *s.* [Lat., dimin. from *urceus* = a water-pitcher.]

Bot. (*Of a carex*): The tube made by two bracts, which becoming confluent at their edges, enclose the pistil. Called also Perigynium.

ŭr′-çhĭn, * **ŭr′-chŏn,** * **ur-chone,** * **ir-chon,** * **ur-gin,** * **yro-heon,** *s.* & *a.* [O. Fr. *ireçon, heriçon, eriçon*; Fr. *hérisson* = a hedgehog, as if from a Lat. *ericionem*, accus. of *ericio*, for *ericius* = a hedgehog; cogn. with Gr. χήρ (*chēr*) = a hedgehog.]

* **A.** *As substantive:*

* **I.** *Ordinary Language:*

1. A name given to the hedgehog.

"Round as a ball, skinned like an *yrcheon* or hedgehog."—*Holinshed: Descript. Scotland*, ch. ix.

2. A sea-urchin (q.v.).

"The *urchins* of the sea called echini."—*P. Holland: Plinie*, bk. ix., ch. xxxi.

* 3. An elf, a fairy, from its being supposed to take at times the shape of a hedgehog.

"Like *urchins*, ouphes and fairies."
Shakesp.: Merry Wives of Windsor, iv. 4.

4. A familiar, half chiding name sometimes given to a child.

"There stood the *urchin*, as you will divine."
Wordsworth: Michael.

II. *Technically:*

1. *Bot.:* The key of the ash-tree. (*Halliwell.*) More probably the fruit of the horse-chestnut, *Æsculus Hippocastanum*. (*Britten & Holland.*)

2. *Carding:* One of a pair of rapidly revolving small card-cylinders, arranged around the periphery of a large card-drum.

B. *As adjective:*

1. Prickly, stinging, rough. (*Milton.*)

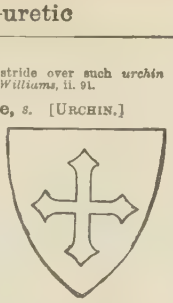
2. Trumpery.

"How easie it was to stride over such *urchin* articles."—*Hacket: Life of Williams*, ii. 91.

* **ŭr′-chŏn,** * **ur-chone,** *s.* [Urchin.]

ûr′-deĕ, ûr′-dȳ, *a.* [Fr. *urdée.*]

Her.: Pointed. A cross-urdée is one in which the extremities are drawn to a sharp point instead of being cut straight.



CROSS URDÉE.

ûrd′-īte, *s.* [After Urda, of Scandinavian mythology; suff. *-ite* (*Min.*).]

Min.: A name given by D. Forbes to a monazite occurring in large crystals in the granite of Notero, near Arenodal, Norway.

ûr′-dû, *s.* & *a.* [Hind. *urdu* = (1) an army, a camp, a market, (2) the language defined in the article.]

A. *As subst.:* The Hindustani language as spoken by the Muhammadan population of India. It is a *lingua franca*, which became the medium of communication between the Muhammadan conquerors of India and their Hindu subjects. It is really the Hindi language, which is of the Aryan family, with a number of Persian, Arabic, and Turkish words introduced into it, though the inflections of nouns and verbs remain unaltered. Many consider Urdu a distinct language from Hindi, but Beames regards this as a great error in philology. It is now the language most largely used by Europeans in their intercourse with the natives of India. It has a literature, chiefly historic, which arose under the Mogul emperors, commencing with Akbar (1556–1605).

"By a curious caprice Hindi, when it uses Arabic words, is assumed to become a new language, and is called by a new name—*Urdu*; but when Punjabi or Sindhi do the same, they are not so treated."—*Beames: Comp. Gram. Aryan Lang.*, i. 39.

B. *As adj.:* Pertaining to the language so called.

* **ūre** (1), *s.* [O. Fr. *eure, euvre*; Fr. *œuvre* = work. Cf. manure, inure.] Use, practice.

"For in the time that thieving was in *ure*
The gentler fled to places more secure."
John Taylor: Penniless Pilgrimage.

* **ūre** (2), *s.* [O. Fr. *eür* = lot, chance, from Lat. *augurium* = augury (q.v.).] Chance, destiny, fortune.

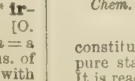
"So pitously gan cry
On his fortune and on *ure* also."
Lydgate: Complaint of the Black Knight.

* **ūre** (3), *s.* [Urus.] A wild bull; the urus.

"The third kind is of them that are named *ures*."—*Goldinge: Cæsar*, fol. 163.

* **ūre,** *v.t.* [Ure (1), *s.*] To inure; to accustom by use or practice.

ūr′-ĕ-a, *s.* [Latinised from root of *urina* = urine (q.v.).]



Chem.: $CH_4N_2O = \overset{NH_2}{\underset{NH_2}{C}} = O$. The chief organic constituent of urine, first obtained in an impure state by Rouelle the younger, in 1799. It is readily obtained by evaporating urine to dryness on the water-bath and exhausting the residue with alcohol; or it may be prepared synthetically by the action of ammonia upon carbonic oxychloride. From a pure aqueous solution it crystallizes in long, flattened prisms without terminal faces, is soluble in water and alcohol, insoluble in ether, melts at 120°, and decomposes at a higher temperature. The synthesis of urea, discovered by Wöhler in 1828, was the first instance of an undoubtedly organic body being obtained by artificial means.

* **ūred,** *a.* [Ure (2), *s.*] Fortunate.

"In my body I was well *ured*.
Chaucer: Dream.

ūr-ĕ-dĭn-ā′-çē-æ, *s. pl.* [Mod. Lat. *uredo* (q.v.), genit. *uredin(is)*; Lat. fem. pl. adj. suff. *-aceæ.*]

Bot.: The same as Coniomycetes (q.v.). (*Lindley.*)

ūr-ĕ-dĭn′-ĕ-ī, *s. pl.* [Lat. *uredo*, genit. *uredin(is)*; Lat. masc. pl. adj. suff. *-ei.*]

Bot.: A section of Pucciniæi. Protospores not septate, and disposed in regular sori, or the species have two kinds of fruit. Some alleged species are undoubtedly only the secondary state of other Fungals, but there are Uredinei which appear genuine. All were formerly included under Uredo (q.v.).

ụ-rē′-dō, *s.* [Lat. = a blast or blight of plants; *uro* = to burn.]

Bot.: The typical genus of Uredinei (q.v.) Protospores brown or yellow, composed of several layers of cells, each containing a spore.

ūr′-ĕ-īde, *s.* [Eng. *ure(a)*; *-ide.*]

Chem. (*Pl.*): Compounds containing the elements of a urea-salt, minus water; thus alloxan is a monuride of mesoxalic acid, being a compound of that acid with one atom of urea minus $2H_2O$.

ụ-rē′-mĭ a, ụ rē′-mĭc, *s.* [See Uræmia, Uræmic.]

ụ-rē′-na, *s.* [From *uren*, the Malabar name of the species defined.]

Bot.: The typical genus of Ureneæ (q.v.). Involucre and calyx five-cleft; style divided above into ten portions; carpels five, prickly at the top. *Urena lobata*, a shrub commonly occurring with the mango and bamboo in Bengal and throughout India, and *U. sinuata*, a small Indian shrub, have strong fibres, probably well adapted for the manufacture of sacking and twine. (*Calcutta Exhib. Report.*) In Brazil a decoction of the root and stem of *U. lobata* is employed as a remedy in windy colic, and the flowers are given as an expectorant in dry and inveterate cough.

ūr′-ĕt, *s.* [Urea.]

Chem.: This name has been applied to the group CH_2NO, which by substitution for one atom of hydrogen in ammonia, may be supposed to form urea, $\left.\begin{matrix}CH_2NO\\H_2\end{matrix}\right\}N$, and by substitution for two atoms of hydrogen, biuret, $\left.\begin{matrix}(CH_2NO)_2\\H\end{matrix}\right\}N$. (*Watts.*)

¶ This term was formerly used as an affix indicative of combination; thus sulphuret now sulphide; phosphuret, phosphide, &c.

ụ-rē′-tĕr, *s.* [Gr. οὐρητήρ (*ourētēr*) = the urethra; οὐρέω (*oureō*) = to pass urine.]

Anat. (*Pl.*): Two tubes which conduct the urine from the kidneys into the bladder, one entering at each side near the base. They are from fourteen to sixteen inches long, and about the width of a goose quill.

ụ-rē-tĕr-ī′-tis, *s.* [Eng. *ureter*; suff. *-itis.*] Inflammation of the ureter.

ūr′-ĕ-thānes, *s. pl.* [Eng. *ur(ic)*, and *ethane.*] [Carbamic-ethers.]

ụ-rē′-thra, *s.* [Gr. οὐρήθρα (*ourēthra*).]

Anat.: A membranous tube running from the bladder first directly downwards and then forwards beneath the arch of the pubes. It is the excretory passage for the urine, serving also in the male for the ejaculation of the semen.

ụ-rē′-thral, *a.* [Eng. *urethr(a)*; suff. *-al.*] Of or belonging to the urethra: as, *urethral* abscess.

ūr-ĕ-thrī′-tis, *s.* [Eng. *urethr(a)*; suff. *-itis* (q.v.).]

Pathol.: Inflammation of the mucous membrane lining the urethra [Gonorrhœa], or of the urethra itself.

ụ-rē-thrō-plas′-tĭc, *a.* [Eng. *urethroplast(y)*; *-ic.*]

Surg.: Of or relating to urethroplasty.

ụ-rē-thrō-plas′-tȳ, *s.* [Gr. οὐρήθρα (*ourēthra*) = the urethra, and πλάσσω (*plassō*) = to mould.]

Surg.: An operation for remedying defects in the urethra.

ụ-rē′-thrō-tōme, *s.* [Mod. Lat. *urethra*, and Gr. τομή (*tomē*) = a cutting.]

Surg.: A knife used in urethrotomy (q.v.).

ūr-ĕ-thrŏt′-ō-mȳ, *s.*

Surg.: The operation for urethral stricture.

ūr-ē′-thȳl āne, *s.* [Eng. *ur(ic)*; *ethyl*, and suff. *-ane.*] [Methylic-carbamate.]

ụ-rĕt′-ĭc, *a.* [Gr. ουρητικός (*ourētikos*) = pertaining to urine (q.v.).]

Med.: Of or relating to, or promoting the flow of urine.

ŭrġe, *v.t.* & *i.* [Lat. *urgeo* = to urge, to drive; cogn. with Gr. εἴργω (*eirgō*) = to repress, to restrain.]

A. *Transitive:*

1. To force or drive onward.

"From stage to stage the licensed earl may run . . . .
The senator at cricket *urge* the ball."
Pope: Dunciad, iv. 592.

*2. To hasten or push forward with exertion and vigour.

"Now *urge* the course where swift Scamander glides.'
Pope: Homer; Iliad xxi. 714.

3. To press the mind or will of; to serve as a motive or impelling cause; to impel, to constrain, to stimulate.

4. To press or ply hard with arguments, entreaties, or the like; to importune; to solicit with more or less earnestness.

"And he *urged* him to take it."—2 *Kings* v. 16.

5. To press upon attention; to put forward or advance in an earnest manner; to press by way of argument; to plead earnestly; to insist on.

"These arguments . . . were doubtless *urged* with force by Danby."—*Macaulay: Hist. Eng.*, ch. x.

*6. To press closely on; to follow closely.

"Heir *urges* heir, like wave impelling wave."
Pope: Satires, vi. 259.

*7. To ply hard in a contest or argument; to attack briskly.

"Though every man have a right in dispute to *urge* a false religion."—*Tillotson.*

*8. To demand; to insist on.

"She *urged* conference."—*Shakesp.: As You Like It*, i. 2.

*9. To incite, to stimulate, to promote, to encourage.

"*Urging* the carnage, and eyeing with pleasure all the horrors of war."—*Daily Telegraph*, Sept. 11, 1885.

*10. To provoke, to irritate, to exasperate.

"I'll in, to *urge* his hatred more to Clarence."
Shakesp.: Richard III., i. 1.

B. *Intransitive:*

*1. To press onward.

"He
Strives to *urge* upward, and his fortune raise."
Donne. (*Todd.*)

2. To incite; to stimulate.

"The combat *urges*, and my soul's on fire."
Pope: Homer; Iliad vi. 453.

3. To make a claim; to insist, to persist.

"*Urg'd* extremely for it." *Shakesp.: Timon*, iii. 2.

4. To produce arguments; to allege proofs, as an accuser.

"That . . . my accusers
May stand forth face to face
And freely *urge* against me."
Shakesp.: Henry VIII., v. 3.

ŭrġe, *s.* [Fr. *orge* = barley.] Barley.

* **urge-wonder,** *s.* A variety of barley.

"This barley is called by some *urge-wonder*."—*Mortimer.*

***ŭrġ'-ençe,** *s.* [Lat. *urgens* = urgent (q.v.).] Urgency.

"His business craves dispatch,
And is of serious *urgence*."
New Tricke to Cheate the Divell.

ŭrġ'-ęn-çy, *s.* [Eng. *urgen(t)*; *-cy.*]

I. *Ord. Lang.:* The quality or state of being urgent: as—

1. Importunity; earnest solicitation or pressing.

"At length he yielded to the *urgency* of friends."—*Macaulay: Hist. Eng.*, ch. x.

2. Pressure of necessity.

"Saving only in case of so great *urgency*."—*Hooker: Eccles. Politie*, bk. i., § 8.

II. *Parliament:* The voting by a majority of three to one in a house of not less than three hundred members, that a certain measure or resolution is urgent in the interests of the state, in which case it takes precedence of all other business.

ŭrġ'-ent, *a.* [Fr., from Lat. *urgens*, pr. par. of *urgeo* = to urge (q.v.).]

*1. Oppressive.

"The heat is very *urgent*."—*Hackluyt: Voyages*, iii. 49.

2. Pressing, cogent; necessitating immediate action; demanding early attention.

"He will send to borrow so much money, pretending *urgent* occasions for it."—*Dampier: Voyages* (an. 1686.)

3. Pressing or soliciting with importunity; importunate.

"The Egyptians were *urgent* upon the people, that they might send them out in haste."—*Exodus* xii. 33.

ŭrġ'-ent-lў, * **ŭrġ'-ente-lў,** *adv.* [Eng. *urgent*; *-ly.*] In an urgent manner; with pressing importunity; pressingly, forcibly.

"And therefore the Jewes called more *urgentely* upon the matter."—*Udal: John* xix.

ŭrġ'-ĕr, *s.* [Eng. *urg(e)*; *-er.*] One who urges; one who importunes; an inciter.

"Few . . . admonishers, but *urgers* of your action."
Beaum. & Flet.: Valentinian, i. 3.

ŭr-ġĭn'-ĕ-ą, *s.* [Named by Steinheil, in 1834, after Ben Urgin, a tribe of Arabs near Bona, Algeria, in whose territory he first collected a species of the genus.]

Bot.: A genus of Scilleæ, akin to Scilla, but with a more spreading perianth and more numerous seeds. *Urginea maritima* (*U. Scilla*, or *Scilla maritima*) is the Squill (q.v.). *U. indica*, found on the sandy shores of India, is sometimes given as a substitute for the official squill, to which, however, it is much inferior in value. It is chiefly used, according to Dr. Ainslie, for horses in cases of strangury and fever.

ŭr'-ĭ-ą, *s.* [Lat. *urinor* = to dive.]

Ornith.: Guillemot; a genus of Alcidæ, with eight species, from the Arctic and north temperate zones. Bill of moderate length, strong, straight, pointed, compressed, upper mandible slightly curved near the point, with a small notch in the edge on each side; nostrils lateral, basal, concave, pierced longitudinally, partly closed by a membrane, which is itself partly covered with feathers; feet short, placed behind the centre of gravity in the body; legs slender; feet with only three toes, all in front and entirely webbed; wings and tail short. There are several species which are common on both sides of the Atlantic. Among them *Uria troile* is seen at times on the coasts of New York, and *U. grylle* breeds as far south as the Bay of Fundy. The eggs, are used in Britain for clarifying wine, also as food.

ŭr'-ĭc, *a.* [Eng. *ur(ea)*; *-ic.*] Contained in or derived from urea (q.v.).

uric-acid, *s.*

Chem.: $C_5H_4N_4O_3$. Formerly called lithic acid. A general constituent of the Vertebrata, and usually prepared from serpents' excrements or from guano, by boiling with dilute potassic hydrate, and decomposing by hydrochloric acid. It forms a glistening, snow-white spongy crystalline powder, tasteless and inodorous, slightly soluble in water, insoluble in alcohol and ether. By destructive distillation it yields cyanic and hydrocyanic acids, carbon dioxide, and ammonium carbonate. It is readily identified, even in minute quantity, and by dissolving in nitric acid, evaporating the solution to dryness, and adding excess of ammonia, a beautiful deep red colour (murexide) is immediately produced. It forms salts called urates.

Ŭr'-ĭm, *s. pl.* [Heb. אוּרִים (*urim*), pl. of אוּר (*ur*), the same as אוֹר (*or*) = light.]

Hebrew Antiq.: Literally, lights; but the Septuagint translators make it apparently a plural of *excellence*, in which case it would signify, light. Used specially in the compound term Urim and Thummim [THUMMIM], believed to mean, light and perfection. Many conjectures have been hazarded as to their nature, but the subject still remains very obscure. They were to be put "on the breastplate of judgment," and on or over the heart of the high priest when he specially entered into the presence of Jehovah (Exod. xxviii. 30; Lev. viii. 8). On the return from the Captivity the Tirshatha (governor) forbade certain sacerdotal pretenders, or perhaps the whole body of Aaron's descendants (for the words seem ambiguous), to eat of the most holy things till there should stand up "a priest with Urim and with Thummim" (Ezra ii. 63; Neh. vii. 65). In one place the order of the two words is reversed (Deut. xxxiii. 8). If by Urim in two other passages is meant Urim and Thummim, then they seem to have constituted an oracle to or by which applications might be made to Jehovah for counsel (Numb. xxvii. 21; 1 Sam. xxviii. 6.)

ŭr'-ĭn-ąl, *s.* [Fr., from *urine* = urine (q.v.).]

1. A vessel for containing urine, specifically a vessel or reservoir, with conductor, used in cases of incontinence of urine.

"Eke thyn *urinals* and thy jordanes."
Chaucer: C. T., 12,240.

2. A convenience, public or private, for the accommodation of persons wishing to pass urine.

* 3. A bottle in which urine was kept for inspection.

"These follies shine through you like the water in an *urinal*."—*Shakesp.: Two Gentlemen*, ii. 1.

***ŭr'-ĭn-ąl-ĭst,** *s.* [Eng. *urinal*; *-ist.*] One who professed to be able, by inspecting the urine, to discover from what disease a sick person was suffering.

"My *urinalist* . . . left no artery
Unstretcht upon the tenters."
Decker: Match Me in London, iii.

ŭr'-ĭn-ąnt, *a.* [Lat. *urinans*, pr. par. of *urinor* = to duck or dive under water.]

Her.: A term applied to the dolphin, or other fish, when borne with the head downwards, and the tail erect, exactly in a contrary position to what is termed Haurient.

ŭr'-ĭn-ąr-ў, *a.* & *s.* [Eng. *urin(e)*; *-ary.*]

A. *As adj.:* Of, pertaining to, containing, deposited from, or affording passage to urine: as, *urinary* calculi, *urinary* deposits, the *urinary* passage.

B. *As substantive:*

1. *Agric.:* A reservoir or place for the reception of urine, &c., for manure.

*2. The same as URINAL, 2.

urinary-bladder, *s.*

Anat.: A hollow membranous and muscular receptacle receiving the urine poured into it through the ureter, retaining it for a longer or shorter period, and finally expelling it through the urethra. In the male it is situated in front of the rectum; in the female it is separated from the rectum by the uterus and the vagina. When completely distended with urine, it rises above the brim of the pelvis and becomes egg-shaped, the larger end constituting its base, or inferior fundus, and being directed towards the rectum in the male and the vagina in the female, and its smaller end, or summit, resting against the wall of the abdomen. In front of the base is the cervix or neck connecting the bladder below with the urethra.

urinary-fistula, *s.*

Pathol.: An abnormal communication between the urinary passages and the external surface, through which the urine finds an outlet in greater or less quantities.

urinary-organs, *s. pl.*

Anat.: A collective term, including (1) the kidneys which secrete urine; (2) the ureters which convey it to (3) the bladder; and (4) the urethra, by which it is evacuated from the body.

urinary-vesicle, *s.*

Anat.: A term sometimes applied to the allantois (q.v.), because from a dilation on its pedicle the mammalian bladder is produced.

***ŭr'-ĭn-ąte,** *v.i.* [URINE.] To discharge urine.

***ŭr-ĭn-ā'-tion,** *s.* [URINATE.] The act of passing urine; micturition.

***ŭr'-ĭn-ąt-ĭve,** *a.* [Eng. *urin(e)*; *-ative.*] Provoking or promoting the discharge of urine; diuretic.

"Medicines *urinative* do not work by rejection and indigestion, as solutive do."—*Bacon: Nat. Hist.*, § 42.

***ŭr'-ĭn-ąt-ŏr,** *s.* [Low Lat., from *urinatus*, pa. par. of *urinor* = to dive or duck under water.] A diver; one who searches under water for something, as for pearls.

"The precious things that grow there, as pearl, may be much more easily fetched up by the help of this, than by any other way of the *urinators*."—*Wilkins: Mathematical Magick.*

ŭr'-ĭne, *s.* [Fr., from Lat. *urina* = urine; cogn. with Gr. οὖρον (*ouron*) = urine; Sans. *vâri*, *vâr* = water; Icel. *úr* = drizzling rain; *ver* = the sea; A.S. *wer* = the sea.]

1. *Ord. Lang. & Chem.:* The secretion of the kidneys, the chief fluid excretion of man and of the higher animals. (*Watts.*) Healthy human urine is a transparent light amber-coloured liquid, having a saline taste, a peculiar aromatic odour, an acid reaction, and a density varying from 1·010 to 1·025. Its chief constituents are urea, uric, lactic and hippuric acids, and creatine, together with calcium and magnesium sulphates, chlorides and phosphates, alkaline salts, certain imperfectly known principles, and a colouring substance. The urine contains the liquid portion of useless and noxious residuum left after the assimilation of whatever is useful to the structure. [URÆMIA.]

2. *Pathol.:* Morbid states of the urine occur—the aqueous, the subaqueous, the lithic, the phosphatic, the purpuric, the albuminous,

and the saccharine. Aqueous urine, with a diminution in its solid contents, is passed in large quantity by nervous and hysteric persons, especially when they approach old age. Subaqueous urine, in some respects the opposite of the first, carries off an unduly large proportion of solid matters, and exists chiefly in decline of the bodily powers, which it tends to accelerate. Lithic urine deposits a pink or purple sand or "gravel," consisting of lithia; its ultimate tendency is to produce lithic calculi. Phosphatic urine contains an excess of phosphatic salts, and deposits a white earthy or chalky powder. Purpuric urine deposits a lateritious sediment. Albuminous urine deposits albumen; sometimes it is an unimportant, but at others a very formidable disease. [ALBUMINURIA.] Saccharine urine is an attendant on diabetes (q.v.).

3. *Physiol.:* The mechanism by which the urine is secreted is apparently of a double kind: (1) uriniferous tubules, which seem to be actively secreting structures, and (2) the Malpighian capsules, which appear to act rather as a filtering apparatus.

***ūr'-īne,** *v.i.* [Fr. *uriner;* Sp. *urinar.*] To pass urine; to make water. (*Bacon: Nat. Hist.*, § 835.)

ūr-ĭn-ĭf'-ĕr-oŭs, *a.* [Lat. *urina* = urine, and *fero* = to bear.] Bearing or affording passage to urine.

uriniferous-tubes, *s. pl.*

Anat.: Small tubes or ducts opening on the surface of the several papillæ into the interior of the calices of the kidneys.

ūr-ĭn-ĭp'-ar-oŭs, *a.* [Lat. *urina* = urine, and *pario* = to produce.]

Anat. & Physiol.: Producing or secreting urine. Used of certain tubes in the cortical portion of the kidney.

ūr-ĭn-ō-ĝĕn'-ĭ-tal, *a.* [UROGENITAL.]

ūr-ĭn-ŏm'-ĕ-tĕr, *s.* [Lat. *urina* = urine, and Gr. μέτρον (*metron*) = a measure.]

Physics: An instrument for ascertaining the specific gravity of urine. It is constructed on the principle of the hydrometer, and variations in the density of urine as detected by it are of great importance in the treatment of disease.

ūr'-ĭn-oŭs, *ūr-ĭn-ōse, *a.* [Eng. *urin(e); -ous, -ose.*] Full of urine, emanating from, impregnated with, or smelling of urine. Used specially of an odour of urine in the breath, the perspiration, or in vomited matter.

"Conveying the *urinose* particles to the pelvis and ureters."—*Ray: On the Creation*, pt. ii.

ūr'-ĭths, *s. pl.* [Etym. doubtful.] The bindings of a hedge. (*Prov.*)

***ūrle,** *s.* [Etym. doubtful.]

Bot.: The tare (*Vicia sativa*).

ŭrn, *urne, *s.* [Fr. *urne*, from Lat. *urna;* prob. from *uro* = to burn, urns being used for containing the ashes of the dead.]

I. *Ordinary Language:*

1. A vessel, enlarged in the middle and provided with a foot or pedestal; specifically, a vessel in which the ashes of the dead were formerly preserved; a cinerary urn. (*Browne: Hydriotaphia*, ch. iii.) [URN-BURIAL.]

2. A vase or vessel, for holding water; hence, a vessel generally.

"Ten thousand rivers pour'd at his command,
From *urns* that never fail." *Cowper: Retirement*, 73.

3. The same as TEA-URN (q.v.).

4. A ballot-box.

"The Reactionaries broke into the voting-hall; . . . flung the traditional '*urn*' out of the window."—*Daily Telegraph*, May 8, 1868.

*5. A place of burial; a grave. (*Fig.*)

"Lay these bones in an unworthy *urn*."
Shakesp.: Henry V., i. 2.

*6. A Roman measure for liquids, containing about three gallons. One urn was four times the congius and half the amphora.

II. *Bot.:* The spore-case of any moss belonging to the Bryaceæ. [URNMOSS.]

*¶ *In the urn:* Unknown, undiscovered. (A reference to the urn of destiny; cf. *Virg. Æn.* vi. 432, *Hor.: Od.* III. i. 16).

"A large part of the earth is still *in the urn* to us."—*Browne: Hydriotaphia*, ch. i.

urn-burial, *s.*

Anthrop.: An expression used by Sir Thomas Browne as a sub-title to his *Hydriotaphia*, and employed to denote: (1) the deposition of human ashes in a cinerary urn after cremation; (2) less commonly, actual interment of a corpse in an urn. Both methods were practised by the ancient Greeks, and afterwards spread westward. The πίθος (*pithos*), which resembled in size and shape the large oil-jars of southern Europe, was used as an urn to contain burnt human ashes; and two such jars placed mouth to mouth sometimes served as a rude coffin, and thus arranged they are not unfrequently found in the tombs of the Troad. (*Dennis: Cities & Cemeteries of Etruria*, vol. i., p. cvii.)

***ŭrn, *urne,** *v.t.* [URN, *s.*] To inclose in or as in an urn. [INURN.]

"He will not suffer us to burn their bones,
To *urn* their ashes." *Two Noble Kinsmen*, i. 1.

***ŭrn'-al,** *a.* [Eng. *urn; -al.*] Pertaining to, resembling, or done by means of an urn: as, *urnal* interment.

"*Urnal* interments and burnt relicks lie not in fear of worms."—*Browne: Hydriotaphia*, ch. iii.

ŭrn'-fŭl, *s.* [Eng. *urn*, s.; *-ful(l).*] As much as an urn will hold.

ŭrn'-mŏss, *s.* [Eng. *urn*, and *moss.*]

Bot. (*Pl.*): The Bryaceæ. (*Lindley.*)

ŭr'-nu-la, *s.* [Mod. Lat., dimin. from *urna* = an urn (q.v.).]

Zool.: A genus of Tentaculifera Suctoria. Animalcules bearing a single retractile, simple or sparsely-branched, filiform tentaculate appendage; excreting and inhabiting a membranous lorica. They multiply by the production of free-swimming ciliated embryos, and by the sub-division of the entire body mass into sporular elements. There is but one species, *Urnula epistylidis*, which lives attached to the branching pedicle of *Epistylis plicatilis.*

ūr-ō-, *pref.* [Gr. οὐρά (*oura*) = a tail.] Tailed; having a tail or a tail-like process or processes.

ūr-ō-ā'-ĕ-tŭs, *s.* [Pref. *uro-*, and Gr. ἀετός (*aetos*) = an eagle.]

Ornith.: A genus of Aquilinæ, with one species from Australia and Tasmania.

ūr-ō-çĕn'-trŭm, *s.* [Pref. *uro-*, and Lat. *centrum* = a sharp point.]

Zool.: A genus of Peritrichous Infusoria, family Gyrocoridæ, with one species, *Urocentrum turbo*, from salt and fresh water. Free-swimming, ovate or pyriform, persistent; body with one or two circular girdles of cilia; a caudal appendage produced from the posterior region; endoplast and contractile vesicle conspicuously developed.

ūr-ō-çĕr'-ĭ-dæ, *s. pl.* [Mod. Lat. *urocer(us); -idæ.*]

Entom.: Tailed-wasps; a family of Phytophaga. Antennæ filiform, of uniform thickness, having from eleven to twenty-four joints, middle lobe of the mesonotum reaching to the scutellum, and separated from it by a transverse line; abdomen elongated, usually nearly cylindrical, of nine segments; ovipositor long; tibiæ with only a single spine at the apex; larvæ like those of beetles, with six thoracic legs, often rudimentary, and generally no prolegs. The species, which are chiefly from Europe and North America, are not numerous. Called also Siricidæ. [SIREX.]

***u-rŏç'-ĕr-ŭs,** *s.* [Pref. *uro-*, and Gr. κέρας (*keras*) = a horn.]

Entom.: An old synonym of Sirex (q.v.). [UROCERIDÆ.]

ūr'-ō-chord, *s.* [UROCHORDATA.] Any individual of the Urochordata (q.v.).

"Amphioxus has no external skeleton, nor have those *Urochords* that are tailed through life."—*Bell: Comp. Anat.*, p. 313.

ūr-ō-chor-dā'-ta, *s. pl.* [Mod. Lat., from Gr. οὐρά (*oura*) = the tail, and χορδή (*chordē*) = a string, here = the notochord.]

Zool.: A name given by some authors to the Tunicata (q.v.). The group is divided into (1) Perennichordata, in which the notochord is found in the tail only, and is retained through life; and (2) Caducichordata, in which the caudal notochord is present in the larva only or is never developed. The notochord, when present, may be regarded as having a distinct locomotory function.

ŭr-ō-cor'-dȳ-lŭs, *s.* [Pref. *uro-*, and Gr. κορδύλη (*kordulē*) = a club, a cudgel.]

Palæont.: A genus of Labyrinthodonts. Skull triangular, truncated behind, with a rounded snout; teeth small, slightly curved; ventral armour consisting of scutes in a chevron pattern, reversed behind. From the British Coal-measures.

***ūr-ō-crўp'-tŭs,** *s.* [Pref. *uro-*, and Gr. κρυπτός (*kruptos*) = hidden.]

Zool.: A genus of Bats, now merged in Saccopteryx (q.v.).

† u-rŏç'-ў-ŏn, *s.* [Pref. *uro-*, and Gr. κύων (*kuōn*) = a dog.]

Zool.: A genus of Canidæ, with two species: *Urocyon virginianus* (the Gray Fox) from the Atlantic States, and *U. littoralis* (the Coast Fox) from California. (*Gray: Proc. Zool. Soc.*, 1868.)

ūr-ō-dē'-la, *s. pl.* [Pref. *uro-*, and Gr. δῆλος (*dēlos*) = visible, manifest.]

1. *Zool.:* A division of Huxley's Amphibians, often called Tailed Amphibians, from the fact that the larval tail persists in adult life. The skin is naked, and an exoskeleton is rarely present. The body is elongated posteriorly to form a compressed or cylindrical tail; dorsal vertebræ biconcave, or concave behind and convex in front, ribs short and attached to the transverse processes. The radius and ulna in the fore limb, and the tibia and fibula in the hind limb, do not grow together so as to form a single bone. Most of them have the four limbs well developed, but in some the posterior limbs are wanting. The Urodela are divided into two sub-orders, Salamandrinæ and Ichthyoidea.

2. *Palæont.:* From the Permian onward. [SALAMANDER.]

u-rōd'-ĕ-la, *s.* [Mod. Lat. *urodel(a);* Eng. suff. *-an.*] Any individual of the Urodela (q.v.).

"The former . . . is believed by its discoverer to be a *urodelan*."—*Nicholson: Palæont.*, ii. 175.

ūr'-ō-dēle, *a.* & *s.* [URODELA.]

A. *As adj.:* Of or belonging to the Urodela.

"The world's surface may be divided, according to its *Urodele* population, into three regions."—*Mivart: The Common Frog*, p. 49.

B. *As subst.:* Any individual of the Urodela (q.v.).

"The largest existing *Urodele* . . . is found in Japan."—*Mivart: The Common Frog*, p. 42.

ūr-ō-ĝĕn'-ĭ-tal, ūr-ĭn-ō-ĝĕn'-ĭ-tal, *a.* [Formed from Eng. *urine*, and *genital.*] Of or belonging to the urine and genital products; chiefly used of the *urogenital* or *urinogenital* passage, of which the male urethra is an example.

ūr-ō-glē'-na, *s.* [Pref. *uro-*, and Gr. γλήνη (*glēnē*) = an eyeball.]

Zool.: A genus of Flagellata-Eustomata, family Chloromonadidæ. Animalcules enclosed socially within a sub-spheroidal matrix; flagella two; endoplasm enclosing two distinct lateral colour-bands, and usually one or more eye-like pigment-spots. There is one species, *Uroglena volvox*, from pond water, formerly regarded as an imperfect or transitional form of Volvox (q.v.).

ūr-ō-ġўm'-nŭs, *s.* [Pref. *uro-*, and Gr. γυμνός (*gumnos*) = naked, unarmed.]

Ichthy.: A genus of Trygonidæ (q.v.). Tail long, finless and unarmed with spines; body thickly covered with bony tubercles; teeth flattened. *Urogymnus asperrimus*, about four or five feet long, from the Indian Ocean, is the only species. Its skin is used for covering shields and the handles of swords and other weapons, its rough surface affording a firm grip to the hand.

ūr-ō-lĕp'-tŭs, *s.* [Pref. *uro-*, and Gr. λεπτός (*lĕptos*) = peeled.]

Zool.: A genus of Oxytrichidæ, with seven species, all from fresh water. Animalcules free-swimming, elongate, highly elastic, but maintaining the same general contour; posterior extremity usually produced in an attenuate tail-like manner; ventral surface with three or four anterior or frontal styles, and usually two lines of cirræ.

u-rŏl'-ō-ġў, ür-ŏn-ŏl'-ō-ġў, *s.* [Gr. οὖρον (*ouron*) = urine, and λόγος (*logos*) = a word, a discourse.]

Med.: That branch of medicine which treats of urine.

u-rŏl'-ō-phŭs, *s.* [Pref. *uro-*, and Gr. λόφος (*lophos*) = a crest.]

Ichthy.: A genus of Trygonidæ, with seven small species from tropical seas. Tail of moderate length, with a distinct rayed terminal fin, armed with a barbed spine; rudimentary dorsal sometimes present.

ür-ō-măs'-tĭx, *s.* [Pref. *uro-*, and Gr. μάστιξ (*mastix*) = a whip.]

Zool.: Thorn-tailed Agamas; a genus of Agamidæ, with five species, from the south of Russia, northern Africa, and Central India. Body covered with small scales; tail with rings of large spiny scales.

ür-ō-nē'-mą, *s.* [URONEMUS.]

Zool.: A genus of Pleuronemidæ (q.v.), with one species, *Uronema marinum*, from vegetable infusions in salt and fresh water. Animalcules free-swimming, oval or elongate, persistent in shape; oral aperture ventral; body ciliated, setæ at posterior extremity.

ür-ō nē'-mŭs, *s.* [Pref. *uro-*, and Gr. νῆμα (*nēma*) = a thread.] [PHANEROPLEURON.]

* **ür-ō-nўc'-tĕr-ĭs,** *s.* [Pref. *uro-*, and Gr. νυκτερίς (*nukteris*) = a bat.]

Zool.: A genus or section of Bats, erected by Gray (*Proc. Zool. Soc.*, 1862, p. 262) for *Cynopterus albiventer*, which is now merged in Harpyia, under the name of *H. cephalotes*.

ür-ō-pĕl'-tĭ-dæ, *s. pl.* [Mod. Lat. *uropelt(is)*; Lat. fem. pl. adj. suff. *-idæ*.]

Zool: Rough-tail Snakes, Rough-tailed Burrowing Snakes; a family of Innocuous Colubriform Snakes, with five genera and eighteen species, strictly confined to Ceylon and the adjacent parts of southern India. Body cylindrical, head sharp and pointed, tail short and truncated, with a naked terminal plate, which is sometimes replaced by keeled scales; teeth in both jaws. They sometimes burrow to a distance of four feet below the surface.

ür-ō-pĕl'-tĭs, *s.* [Pref. *uro-*, and Gr. πέλτη (*peltē*) = a shield.]

Zool.: The type-genus of Uropeltidæ, with one species, from Ceylon.

† **ür-ō-plăn'-ĭ-ą,** *s.* [Gr. οὖρον (*ouron*) = urine, and πλάνη (*planē*) = a wandering; Fr. *uro-planie.*]

Pathol.: The transport of urine to some part of the body where its presence is abnormal.

u-rŏp-ō-dą, *s.* [Pref. *uro-*, and Gr. πούς (*pous*), genit. ποδός (*podos*) = a foot.]

Zool.: A genus of Gamasidæ. Palpi and rostrum inferior; dorsal shield of a single broad circular or oval piece; legs nearly equal. *Uropoda vegetans* is a small mite, parasitic upon beetles, to which these pests themselves by a cord believed to consist of their excrement.

u-rŏp'-sīle, *s.* [UROPSILUS.] Any individual of the genus Uropsilus (q.v.).

u-rŏp'-sī-lŭs, *s.* [Pref. *uro-*, and Gr. ψιλός (*psilos*) = stripped of hair, bare.]

Zool.: A genus of Mygalidæ, closely allied to the Shrews. [SHREW-FOOTED UROPSILE.]

ür-ō-pўġ'-ĭ-ąl, *a.* [UROPYGIUM.] Of, belonging to, or connected with the uropygium. Specifically applied to a peculiar sebaceous gland developed in many birds in the skin covering the coccyx. It secretes an oily fluid, which the bird spreads over its feathers by the operation of preening. The fluid passes out by one or two apertures, commonly situated upon an elevation, which may or may not be covered with feathers.

ür-ō-pўġ'-ĭ-ŭm, *s.* [Gr. ὀρροπύγιον (*orropugion*) = the rump of birds in which the tail-feathers are set (*Arist.*); generally the rump or tail of any animal.]

Anat.: The coccyx (q.v.).

u-rŏs'-cō-pў, *s.* [Gr. οὖρον (*ouron*) = urine, and σκοπέω (*skopeō*) = to see, to observe.] The judgment of diseases by inspection of the urine of the patient. [URINALIST.]

"In this work, attempts will exceed performances: it being composed by snatches of time, as medical vacations, and *uroscopy*, would permit."—*Browne: Vulgar Errours.*

ür'-ō-sphēn, *s.* [Pref. *uro-*, and Gr. σφήν (*sphēn*) = a wedge.]

Ichthy.: A genus of Fistulariidæ, from the Eocene of Monte Bolca. The cylindrical body terminates in a large wedge-shaped fin, whence the generic name.

ür-ō-stĭc'-tē, *s.* [Pref. *uro-*, and Gr. στικτός (*stiktos*) = spotted, dappled.]

Ornith.: A genus of Trochilidæ, with two species, from Ecuador. Bill straight and longer than the head; nostrils not covered with plumes; wings pointed; tail slight, forked.

ür-ō-stўl'-ą, *s.* [Pref. *uro-*, and Gr. στῦλος (*stulos*) = a pillar.]

Zool.: A genus of Oxytrichidæ, with four species from fresh water. They have the general character of the family, but the ventral setæ are developed in great abundance.

u-rŏt'-rĭch-ŭs, *s.* [Pref. *uro-*, and Gr. θρίξ (*thrix*), genit. τριχός (*trichos*) = hair.]

Zool.: A genus of Mygalidæ, intermediate between the Desmans and the Moles, and agreeing with the Shrews in having only two incisors in the lower jaw. Nose elongated into a snout, with nostrils at tip; tail stout, covered with long hairs. Two or three species, from Japan and North America.

* **ür'-ŏx,** *s.* [AUROCHS.]

ür-ŏx-ăn'-ĭc, *a.* [Eng. *ur(ic)*; *(all)oxan*, and suff. *-ic.*] Derived from or containing uric acid and alloxan.

uroxanic-acid, *s.*

Chem.: $C_5N_4H_{10}O_6$. A dibasic acid obtained by boiling uric acid with strong potash ley, allowing the solution to remain in contact with the air for several months, and decomposing the resulting salt with hydrochloric or sulphuric acid. It crystallizes in colourless, transparent tetrahedrons, slightly soluble in cold water, insoluble in alcohol. On boiling with water it is decomposed, carbonic anhydride being given off.

uroxanic-anhydride, *s.*

Chem.: $C_5N_4H_8O_5$. Uroxil, Uroxyl. A yellowish hygroscopic substance obtained by heating uroxanic acid at 130°, till the weight of the residue becomes constant.

u-rŏx'-ĭl, u-rŏx'-ўl, *s.* [Eng. *urox(anic)*; *-il*, *-yl.*] [UROXANIC-ANHYDRIDE.]

u-rŏx'-ĭn, *s.* [Eng. *urox(anic)*; *-in.*] [ALLOXANTIN.]

ŭr'-pĕth-īte, *s.* [After the Urpeth Colliery, where found; suff. *-ite* (*Min.*).]

Min.: A member of the Paraffin group of hydrocarbons; soft, like tallow; sp. gr. 0·885; colour, yellowish-brown. An analysis yielded Johnson: carbon, 85·83; hydrogen, 14·17 = 100. Separated from the ozocerite of the Urpeth Colliery by its ready solubility in cold ether.

ŭr'-rў, *s.* [Cf. Gael. *uirlach* = mould, dust.] A sort of blue or black clay, lying near a vein of coal. (*Prov.*)

"In the coal-mines they dig a blue or black clay, that lies near the coal, commonly called *urry*, which is an unripe coal, and is very proper for hot lands, especially pasture ground."—*Mortimer: Husbandry.*

Ŭr'-sa, *s.* [Lat. = (1) a she bear, (2) a constellation.]

Astron.: The Bear; the first word in the name of two constellations.

Ursa Major, *s.*

Astron.: The Great Bear. The most conspicuous of the twenty ancient northern constellations, its seven leading stars attracting notice all the more conspicuously that there is a certain absence of visible heavenly bodies in the adjacent parts of the sky. The Semitic conception of the constellation was that it resembled a bier with mourners walking behind. [ARCTURUS, BENETNASCH], and it has sometimes been called specifically Lazarus's bier, the four stars constituting a four-sided figure being the bier and the other three, Mary, Martha, and Mary Magdalene, the mourners. It is much like a plough, and is often called the Plough, the rectangle constituting its body, and the three projecting stars its handle. To other minds it suggests a vehicle, whence it has been called the Car of David, and very commonly in England Charles's Wain, or Waggon. The four stars standing together are the wheels, and the three behind are the shaft. Another name is the Dipper. But astronomers cling to the old classical conception of a bear, of which the four stars, α, β, γ, δ Ursæ Majoris, are the hind quarter, and the three the tail. The remaining portions of the animal are marked out by sundry small stars of the third and fourth magnitude. The Bear was supposed to require a ward or keeper. [ARCTURUS.] The Arabs gave the seven conspicuous stars names, some of which are still in use. They are called α Ursæ Majoris or Dubhe; β, Merak; γ, Phecda; δ, Megrez; ε, Alioth; ζ Mizar; and η, Alcaid, or Benetnasch. The first two are called Pointers, because a line drawn from β through α, and continued for about five times as far as the distance between them will reach the pole-star. Ursa Major is bounded on the north by Draco and Camelopardalis, on the south by Leo Minor, on the east by Canes Venatici, and on the west by Lynx and Camelopardalis. It is too near the pole ever to set in the latitude of London; in its revolutions it turns over, but never disappears. At 11 p.m. in the month of April it is directly overhead; at the same hour in September it is in the north and low down; in July it is in the west; and at Christmas in the east. Of the seven stars six are of the second magnitude, the remaining one (δ) being at present between the third and fourth magnitude. Mizar (ζ) is a double star. Powerful telescopes show that the Great Bear is made up of many thousand other stars.

URSA MAJOR AND URSA MINOR.
(The Great Bear and the Little Bear.)

Ursa Minor, *s.*

Astron.: The Little Bear; one of the twenty ancient northern constellations, bounded by Draco, Camelopardalis, Cassiopeia and Perseus. Its contour is marked out by seven stars. The curvature of the tail is in the contrary direction to that of the Great Bear; and at its tip is a star of the second magnitude, α Ursæ Minoris, called Polaris, or the Pole Star (q.v.), midway between Cassiopeia and the Great Bear. Next in brightness are β Ursæ Minoris, called by the Arabs Kokab, and γ Ursæ Minoris. The two are sometimes designated the Guards of the Pole, or simply the Guards. Kokab is of the second, and the other of the third. The remaining stars are smaller.

ŭr'-sąl, *s.* [URSUS.]

Zool.: The Ursine-seal. (*Annandale.*)

ŭr-sī-dæ, *s. pl.* [Mod. Lat. *urs(us)*; Lat. fem. pl. adj. suff. *-idæ.*]

1. *Zool.:* Bears; a family of the Carnivora, group Arctoidea, or, in older classifications, Plantigrada (q.v.). Claws, five on each foot, large, strong, and curved, non-retractile; tongue smooth; ears small, erect, and rounded; tail short; nose forming a movable truncated snout; cæcum absent. Though ranged with the Carnivora, many of the Ursidæ live entirely or partially on vegetable diet, and their teeth are modified accordingly. They are widely distributed, but are entirely absent from the Australian and Ethiopian regions, and only one species, *Ursus* (or *Tremarctos*) *ornatus*, from the Andes of Peru and Chili. Wallace reckons fifteen species, which have been grouped into as many as five genera (Ursus, Thalassarctos, Helarctos, Melursus or Prochilus, and Tremarctos); Mivart (*Proc.*

Zool. Soc., 1885, p. 395) makes two genera (Ursus and Melursus); and Prof. Flower (*Encyc. Brit.*, ed. 9th, art. *Mammalia*) includes Ailuropus, an annectant form connecting Ursus with Ailurus (q.v.).

2. *Palæont.:* The family appears first in the Miocene.

ŭr'-sĭ-form, *a.* [Lat. *ursus* = a bear, and *forma* = form.] Having the form or shape of a bear; resembling a bear.

ŭr'-sīne, *a.* [Lat. *ursinus*, from *ursus* = a bear.] Pertaining to, or resembling a bear.

ursine-dasyure, *s.*

Zool.: Dasyurus ursinus, the Native or Tasmanian Devil. In outward appearance it somewhat resembles a small bear with a long tail; the body is about two feet in length; general colour, a brownish-black, with a broad white band across the chest, and another

URSINE-DASYURE.

over the back close to the tail. They commit great havoc among sheep and poultry, and are a match for an ordinary dog. In confinement they appear to be untameably savage. They are true Marsupials, and have the jaw inflected, but in dental characters and in general habits they resemble the Carnivora. Found only in Tasmania.

ursine-howler, *s.*

Zool.: Mycetes ursinus, a large monkey from South America. The body is about three feet long, and the tail slightly longer; colour, rich reddish-brown.

ursine-seal, *s.* [Northern fur-seal.]

ŭr-sĭ-tăx'-ŭs, *s.* [Mod. Lat. *ursus*, and *taxus* (q.v.).]

Palæont.: A genus of Melidæ, allied to Mellivora (q.v.), from the Sivalik Hills. [Sivalik-strata.]

ŭr'-sŏn, *s.* [Prob. from Lat. *ursus* (q.v.).]

Zool.: Erythizon dorsatum, a North American species of Tree-porcupine. When full-grown it is about two feet long, covered with woolly hair mixed with long, coarse, dark-brown hair, with white or yellowish points. It is distributed almost universally over the Eastern United States, and north through Canada till the limit of the trees is reached. Called also the Canadian Porcupine.

ŭr'-sōne, *s.* [Mod. Lat. (*Arctostaphylos uva-*) *urs(i)*; *-one* (*Chem.*).]

Chem.: $C_{10}H_{16}O$ (?). A resinous body, obtained by treating the leaves of the red bearberry (*Arctostaphylos uva-ursi*) with ether in a displacement apparatus, and purifying by crystallization from alcohol. It forms slender, colourless needles, having a silky lustre, tasteless, inodorous, insoluble in water, soluble in alcohol and ether, melts at 190° to 200°, and solidifies again in the crystalline form on cooling.

Ur'-su-line, *a. & s.* [Named after St. Ursula, a famous British virgin and martyr, who is said to have suffered at Cologne, with 11,000 companions, in the fourth century. The enormous number of St. Ursula's companions has been since explained as originating in a mistake of the early copyists, who found some such entry as—"Ursula, et xi. M. V.," which (taking M for *millia*) they read as "Ursula and 11,000 virgins," instead of "Ursula and eleven martyr virgins." (*Smith: Christ. Biog.*, iv. 1071.)]

Church History:

A. *As adj.:* Of or belonging to the congregations described under B.

"In the Milanese alone there were eighteen *Ursuline* houses at the death of St. Charles."—*Addis & Arnold: Cath. Dict.*, p. 827.

B. *As subst.* (*Pl.*): An order of nuns developed from a society founded by St. Angela Merici of Brescia (1470–1540) in 1537, under the invocation of St. Ursula (see etym). The objects of the institution were, nursing the sick, the education of girls, and the sanctification of the lives of the members; and the foundation was confirmed by Pope Paul III. in 1544. Till the beginning of the seventeenth century the vows were simple, but in 1612 a bull was obtained from Pope Paul V., making the congregation a religious order, with strict enclosure and solemn vows, a fourth—that of instructing the young—being added to the usual three. Since that time several distinct congregations have been formed.

ŭr'-sŭs, *s.* [Lat. = a bear.]

1. *Zool.:* The type-genus of Ursidæ (q.v.), with the range of the family. Dental formula, I. $\frac{3}{3}$, C. $\frac{1}{1}$, PM. $\frac{4}{4}$, M. $\frac{2}{3}$. Milk teeth comparatively small, and shed at an early age; body heavy; feet broad, and completely plantigrade; the five toes on each foot all well developed, and armed with long, compressed, moderately-curved, non-retractile claws; palms and soles naked; tail very short; ears moderate, erect, rounded, hairy; fur generally long, soft, and shaggy. Prof. Flower groups the species in the following sections:

(1) Thalassarctos. Head comparatively small, molar teeth small and narrow, soles more covered with hair than in the other sections. *Ursus maritimus*, the Polar or White Bear.

(2) Ursus proper; *U. arctos*, the Common Brown Bear of Europe and Asia, is regarded by some naturalists as identical with the American Black Bear (*U. americanus*). The Grizzly Bear of the Western States (*U. horribilis* or *ferox*) is one of the largest, and the strongest and fiercest of the family. There are several species in Asia which are perhaps but variations from the Black or Brown Bear.

(3) Helarctos. Head short and broad, molars comparatively broad, tongue long and extensile, fur short and smooth. *U. malayanus*, the Malay or Sun Bear.

2. *Palæont.:* [Bear (1), *s.*, I. 1. (2).]

ŭr'-tĭ-ca, *s.* [Lat. = a nettle, a stinging nettle; *uro* = to burn.]

Bot.: Nettle; the typical genus of Urticaceæ (q.v.). Herbs, rarely shrubs, with stinging hairs and a tenacious inner bark. Leaves opposite, with stinging hairs; calyx four-partite; males with four stamens and the rudiments of an ovary; females with a subsessile, penicillate stigma; fruit an achene. Known species thirty-seven, from temperate and tropical climes. Some species sting strongly. *Urtica urentissima*, called in Timor the Daoun Setan (the Devil's Leaf) is said by the natives to produce effects continuing about a year, or even to cause death. *U.* (= *Laportea*) *crenulata*, an Indian species, is also formidable. [Laportea.] *U. stimulans* of Java is less violent. The fibres of *U. tenacissima*, called in Sumatra, Caloose, can be manufactured into very tough cordage; those of *U. cannabina* may be similarly employed. The tubers of *U. tuberosa* are eaten raw, boiled, or roasted by the natives of India. *U. simensis*, the Sama of Abyssinia, though acrid, is eaten in that country. The leaves and the seeds of *U. membranacea*, an Egyptian plant, are considered emmenagogue and aphrodisiac. Flogging with nettles was formerly practiced for arthritis and paralysis. The old *U. heterophylla*, the Neilgherry Nettle, is now *Girardinia heterophylla*. [Girardinia]. Australia produces a tree nettle (*U. gigas*) abundant in some parts of New South Wales. Ordinarily it is from 25 to 50 feet high, but sometimes attains the imposing proportions of 120 to 140 feet, with a trunk of great thickness, and very large green leaves, which sting violently when young. Of American species may be named *U. canadense*, whose fibre is used in rope making. The roots of some species of nettles, boiled with alum, yield a yellow dye, and a green dye has been obtained from the juice of the stalks and leaves.

ŭr-tĭ-cā'-çĕ-æ, * **ŭr-tĭç'-ĕ-æ,** *s. pl.* [Mod. Lat. *urtic(a)*; Lat. fem. pl. adj. suff. *-aceæ*, *-eæ*.]

Bot.: Nettleworts; an order of Diclinous Exogens, typical of the alliance Urticales. Trees, shrubs, or herbs, never milky. Leaves alternate, usually covered with asperities or stinging hairs; stipules membranous, often deciduous; flowers small, green, unisexual, scattered, clustered, in catkins or in close heads; calyx membranous, persistent—in the males it is four or five-parted, with four or five stamens inserted into its base opposite to its lobes; females with a tubular, four to five-cleft calyx, three to five staminodes, the style simple or wanting, the stigma simple, fringed, the ovary superior, sessile, one-celled, with a single erect ovule; the fruit a simple indehiscent nut surrounded by the calyx. Nettleworts are widely distributed over the world, flourishing both in hot and in cold countries, and often following the footsteps of man. There are eight tribes, or sub-orders, including Artocarpaceæ (Bread-fruit tree), Cannabinaceæ (Hemp), Moraceæ (Mulberry), Ulmaceæ (Elm), Urticaceæ (Nettle, Fig, &c.), and others of no interest.

ŭr-tĭ-cā'-çĕ-oŭs (or **ceous** as **shŭs**), *a.* [Urticaceæ.] Having the character of a nettle; belonging to the Urticaceæ.

ŭr'-tĭ-cal, *a.* [Urticales.]

Bot.: Of or belonging to the genus Urtica or to the order Urticaceæ. (*Lindley.*)

ŭr-tĭ-cā'-lēs, *s. pl.* [Masc. or fem. pl. of Mod. Lat. *urticalis*.] [Urtica.]

Bot.: The Urtical Alliance; Lindley's nineteenth alliance of Exogenous plants. Diclinous Exogens, with scattered monochlamydeous flowers, single superior carpels, and a large embryo lying in a small quantity of albumen. Orders: Stilaginaceæ, Urticaceæ, Ceratophyllaceæ, Cannabinaceæ, Moraceæ, Artocarpaceæ, and Platanaceæ.

ŭr-tĭ-cär'-ĭ-a, *s.* [Fem. of Mod. Lat. *urticarius* = stinging like a nettle, from Lat. *urtica* (q.v.).]

Pathol.: Nettle-rash; a non-contagious eruption on the skin, producing prominent patches or wheals, accompanied by great heat and itching. It may be acute or chronic, continuing for months or even for years. It is often caused by derangement of the digestive organs, by over fatigue, or by mental anxiety. Steel, cold or tepid baths, and a simple diet will often do it good.

* **ŭr'-tĭ-cāte,** *v.i.* or *t.* [Urtica.]

A. *Intrans.:* To act so as to annoy or irritate.

"He not only *urticates*, he hurts."—*G. A. Sala: America Revisited*, i. 271.

B. *Trans.:* To annoy, to irritate.

"While he *urticates* you, he utters a low crooning murmur."—*G. A. Sala: America Revisited*, i. 270.

ŭr'-tĭ-cāt-ĭng, *pr. par.* or *a.* [Urticate.] Stinging like a nettle; pertaining to Urtication.

urticating-cells, *s. pl.* Thread-cells. [Cnidæ.]

* **ŭr-tĭ-cā'-tion,** *s.* [Lat. *urtica* = a nettle.] The stinging of nettles, or a similar stinging; the whipping of a benumbed or paralytic limb with nettles to restore its feeling.

"The sense of actual *urtications* and violence."—*Bp. Taylor: Of Repentance*, ch. v.

û-rû'-bû, *s.* [Native name.]

Ornith.: Cathartes iota (or *atrata*), from the Southern States of the Union and Central South America. It is often confounded with the Turkey-buzzard (q.v.), from which, however, it may be readily distinguished by the absence of the ring of feathers round the throat. General colour black; head and naked part of neck bluish-black with warts and a few hair-like feathers. Called also Black Vulture and Zopilote.

ûr'-ŭs, *s.* [Lat. See def.]

Zool. & Palæont.: A kind of ox, the *Bos urus* of Cæsar (*De Bello Gallico*, vi. 28), now called *Bos primigenius*. It differs from the Aurochs (q.v.) in its larger size, the double curvature of its horns, &c. It existed from the Pleistocene almost to historic times, always diminishing in size, and Prof. Boyd Dawkins thinks it may not be specifically distinct from *Bos taurus*. (*Quar. Jour. Geol. Soc.*, xxiii. 392–401.] [Bos, Ox, Reem.]

"It proves that the *urus* was living in Britain as late as the Bronze Age."—*Dawkins: Early Man in Britain*, ch. x.

û-rû'-shĭ, *s.* [See def.] The Japanese name of the varnish or lacquer tree, *Rhus vernix*, or *vernicifera*.

ûr'-ŭs-īte, *s.* [After the Urus plateau, Tscheleken Island, Caspian Sea; suff. *-ite* (*Min.*).]

Min.: A hydrated sulphate of soda and sesquioxide of iron, probably related to sideronatrite (q.v.), but needing further examination.

ŭr'-va, *s.* [Mod. Lat., from native name.]

Zool.: Crab-Mungoos; a sub-genus of Herpestes, with one species, *Urva cancrivora*, from India. It is nearly three feet in length, of which the tail occupies about a third. A narrow stripe of white hairs runs from the shoulders, contrasting very decidedly with the grayish-brown tint of the fur; there are some very faintly marked darker bars on the body, and the tail is marked with three or four faint transverse bars; feet and legs of uniform dark tint. Its habits are aquatic, and it feeds on frogs and crabs.

URVANT.

ŭr'-vant, ŭr'-vĕd, *a.* [Etym. doubtful.]

Her.: Turned or bowed upwards.

ŭr-voe'-gy-ite (o long), *s.* [After Urvölgy, the Hungarian name for Herrengrund, where found; suff. *-ite* (*Min.*).]

Min.: A mineral occurring in semi-spherical aggregations of thin hexahedral plates, associated with malachite and other minerals in a conglomerate. Hardness, 2·5; sp. gr. 3·132; lustre, vitreous to pearly; colour, shades of emerald- to bluish-green. Compos.: a hydrated sulphate of copper and lime, but, as Dana suggests, it "needs further examination on the chemical side." More frequently known under the name of Herrengrundite.

ŭr-zĕl'-la, *s.* [West African native name of the plant.]

Bot. & Comm.: Roccella fusiformis, a dye-lichen exported from Western Africa.

ŭs, * ous, * ows, *pron.* [A.S. *ús* (dat.), *úsa, úsic, ussic* (accus. pl.); cogn. with Dut. *ons;* Icel. *oss* (accus. & dat.); Sw. *oss;* Dan. *os;* Ger. *uns;* Goth. *uns, unsis.*] The plural of the first personal pronoun. Used:

(1) As the accusative, or direct object, of *we.*

"Lead *us* not into temptation."—*Matt.* vi. 13.

(2) As the dative, or indirect object, of *we.*

"Give *us* this day our daily bread."—*Matt.* vi. 11.

ūs'-a-ble, * ūse'-a-ble, *a.* [Eng. *us(e); -able.*] Able to be used; fit to be used.

"If it be neither *useable* nor beneficiall, it will soon have ending."—*Time's Storehouse*, p. 756.

ūs'-age (age as ĭj), *s.* [Fr.]

1. The mode or manner of using or treating; treatment; an act or series of actions performed by one person towards another.

"This most cruel *usage* of your queen."
Shakesp.: Winter's Tale, ii. 3.

2. Custom; practice or use long continued; customary way of acting.

"Stokesley of London . . . was very earnest with him for the *usages* of the church."—*Strype: Eccles. Mem.* (an. 1538).

3. Established or customary mode of employing some particular word; current use or locution.

"A certain community, at a certain time, used such and such a sign thus and so; and hence, by this and that succession of partly traceable historical changes, our own *usage* has come to be what it is."—*Whitney: Life & Growth of Language*, ch. viii.

* 4. Manners, behaviour.

"At which his uncouth guise and *usage* quaint
The Prince did wonder much."
Spenser: F. Q., IV. vii. 45.

¶ *Usage* is what one has been long used to do; *custom* is what one generally does; *prescription* is what one is *prescribed* to do. The *usage* acquires force and sanction by dint of time; the *custom* acquires sanction by the frequency of its being done or the numbers doing it; the *prescription* acquires force by the authority which *prescribes* it. *Customs* vary in every age, *usage* and *prescription* supply the place of written law.

*** ūs'-ag-ĕr (ag as ĭj),** *s.* [Fr.]

1. One who has the use of anything in trust for another. (*Daniel: Civil Wars*, iii.)

2. A Nonjuror (q.v.). [NONJUROR'S-USAGES.]

ūs'-ance, *s.* [Fr.]

* I. *Ordinary Language:*

1. Use, usage, employment, treatment.

"This discriminative *usance* or sanctification of things sacred."—*Mede: Diatribe*, p. 60.

2. Custom, usage, practice.

"It was that tyme suche *usance.*"
Gower: C. A., vi.

3. Usury; interest paid for the loan of money.

"He lends out money gratis, and brings down
The rate of *usance.*"
Shakesp.: Merchant of Venice, i. 3.

II. *Comm.:* The time allowed by usage and custom for the payment of a bill of exchange. The length of usance varies greatly in different countries; long usance is felt to be very objectionable, and merchants are making efforts to reduce usance within narrower limits. In England usance always means the *usual time*, and must not be confounded with usury. (*Bithell.*)

*** ūs'-ant,** *a.* [O. Fr.] Using, accustomed, used.

ŭs'-bĕg, ŭs'-bĕck, *s.* [See def.] A member of a Turkish or Tartar tribe scattered over Turkestan in Central Asia.

ūse, * us, *s.* [Fr. *us* = use, usage, from Lat. *usum*, accus. of *usus* = use, from *usus*, pa. par. of *utor* = to use.]

I. *Ordinary Language:*

1. The act of using or employing anything for any purpose; the state of being used or employed; employment in or conversion to a purpose, especially to a profitable purpose; application.

"I know not what *use* to put her to."
Shakesp.: Comedy of Errors, iii. 2.

2. The quality which makes a thing useful or proper for a purpose; usefulness, utility, service, convenience, advantage, profit.

"God made two great lights, great for their *use*
To man."
Milton: P. L., vii. 346.

3. Present possession; usufruct. [II. 3.]

"He will let me have the other half in *use*,
To render it, upon his death, unto the gentleman."
Shakesp.: Merchant of Venice, iv. 1.

4. Occasion or need for employing; necessity, exigency, need.

"Here is no *use* for gold."
Shakesp.: Timon, iv. 3.

5. Continued or repeated practice or employment; usage, custom, practice, wont; habitual exercise.

"It hath not been my *use* to pray."
Coleridge: Pains of Sleep.

* 6. Common occurrence; ordinary experience.

"O Cæsar! these things are beyond all *use*,
And I do fear them."
Shakesp.: Julius Cæsar, ii. 2.

* 7. (*Pl.*): Manners, customs, ways.

"How weary, stale, flat, and unprofitable
Seem to me all the *uses* of this world.'
Shakesp.: Hamlet, i. 2.

* 8. Interest for money; usury.

"The Jews were forbidden to take *use* one of another; but they were not forbidden to take it of other nations."—*Selden: Table-Talk; Usury.*

* 9. The practical application of doctrines; a term particularly affected by the Puritans, and consequently ridiculed by the dramatists.

"He hath begun three draughts of sack in doctrines
And four in *uses.*"
Ben Jonson: Magnetic Lady, iii. 1.

II. *Technically:*

1. *Eccles. & Church Hist.:* The different customs which prevailed in different dioceses as to ritual, especially in the celebration of mass. In former times bishops had the power of making changes in the liturgy, and these customs or uses in time took the name of the diocese where each prevailed. [SARUM-USE.] At the present day, in Ritualistic churches, where the seasons are marked by the use of different colours, some follow the Roman, others the Sarum use.

"And whereas heretofore there hath been great diversity in saying and singing in churches within this Realm; some following Salisbury *use*, some Hereford *use*, and some the *use* of Bangor, some of York, some of Lincoln; now henceforth all the whole realm shall have but one *use.*"—*Book of Common Prayer.* (Pref.; Concerning the Service of the Church.)

2. *Forging:* A slab of iron welded to the side of a bar near the end, to be drawn down by the hammer in prolongation of the length of the bar. One mode of building up heavy shafts for paddle-wheels, &c.

3. *Law:* The benefit or profit of lands and tenements that are in the possession of another, who simply holds them for a beneficiary. He to whose use or benefit the trust is intended enjoys the profits, and is called the *cestui que use.* The term *trust* is now commonly used to denote the kind of estate formerly signified by *use.* [TRUST, *s.*, II.] *Uses* apply only to land of inheritance; no *use* can subsist of leasehold.

¶ (1) *Statute of Uses:* The statute 27 Henry VIII., c. 10, also called, in conveyances and pleadings, the statute "for transferring uses into possession." The statute thus executes the use, as our lawyers term it; that is, it conveys the possession to the use, and transfers the use into possession; thereby making *cestui que use* complete owner of the lands and tenements, as well at law as in equity. (*English.*)

(2) *Contingent use:* [CONTINGENT].

(3) *Executed use:* [EXECUTED].

(4) *Future use:* The same as CONTINGENT USE (q.v.).

(5) *Resulting use:* [RESULTING].

(6) *Secondary*, or *Shifting use:* That use which, though executed, may change from one to another by circumstances.

(7) *Springing use:* The same as CONTINGENT USE (q.v.).

(8) *Use and occupation:* The form of words usual in pleadings in an action for rent against a person who has held and enjoyed lands not under a written deed.

* (9) *Use and wont:* Common or customary practice. (*Tennyson: In Memoriam*, xxix. 11.)

* (10) *In use:*

(*a*) In employment; being employed: as, The book is *in use.*

(*b*) In customary practice, observance, or employment: as, Such rites are still *in use.*

(11) *To have no use for:* Not to need; not to be able to make profitable or advantageous use of.

(12) *To make use of:* To employ profitably or to a good purpose.

"*Make use of* time."
Shakesp.: Venus & Adonis, 129.

"He that intends to gain th Olympick prize,
Must *use* himself to hunger, heat, and cold."
Roscommon.

* 5. To behave, to comport, to demean. (Used reflexively.)

"Forgive me, if I have *used* myself unmannerly."
Shakesp.: Henry VIII., iii. 1.

6. To frequent; to visit often or habitually. (*Colloq.*)

"He finds this place in the tavern which he *uses.*"—*Referee*, April 17, 1887.

B. *Intransitive:*

* 1. To deal, to dispose.

"I . . . brought him hither,
To *use* as you think needful of the man."
Shakesp.: Titus Andronicus, v. 1.

2. To be accustomed; to practise customarily; to be in the habit. (Generally in the past tense.)

"Where Adon *used* to cool his spleen."
Shakesp.: Passionate Pilgrim, 76.

3. To be wont; to be customarily.

"Fears *use* to be represented in such an imaginary fashion, as they rather dazzle men's eyes than open them."—*Bacon.*

* 4. To be accustomed to go; to frequent.

"Ye valleys low, where the mild whispers *use*
Of shades."
Milton: Lycidas, 136.

¶ *To use up:*

1. To consume entirely by using; to use the whole of: as, It *used up* all my money.

2. To exhaust, as the strength or powers of; to wear out.

"We have *used up* no fewer than six Irish Secretaries in little more than as many years."—*Daily Telegraph*, March 5, 1887.

ŭs′-kȳ, *s.* [See def.] A contraction of Usquebaugh (q.v.).

ŭs′-nĕ-a, *s.* [Arab. *achneh* = a lichen.]

Bot.: The typical genus of Usneidæ (q.v.). Thallus round, branched, and generally pendulous, with a central thread; apothecia terminal, orbicular, and peltate, of the substance and colour of the thallus. The species are bright green while they are in moist places, but become brownish-black when exposed to the rays of the sun. *Usnea plicata* can be used for a dye.

ŭs-nē′-ĭ-dæ, *s. pl.* [Mod. Lat. *usne(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Bot.: A family of Hymenothalameæ. Disc from the first open, thallus generally vertical and shrubby, hypothallus none.

ŭs′-nĭc, *a.* [Mod. Lat. *usn(ea)*; Eng. suff. *-ic.*] (See compound.)

usnic-acid, *s.*

Chem.: $C_{18}H_{18}O_7$. Usnin. Found in all members of the genus Usnea, and in many other lichens, and obtained from them by treatment with warm lime-water. It crystallizes in yellow leaves or prisms, insoluble in water, slightly soluble in alcohol and ether, and melts at 202°. It dissolves in the alkalies, but the solutions soon take up oxygen from the air, and become brown.

ŭs′-nĭn, *s.* [Mod. Lat. *usn(ea)*; Eng. suff. *-in.*] [Usnic-acid.]

ŭs′-quĕ-bâugh (*gh* silent), * **usquebeatha,** *s.* [Irish & Gael. *uisgebeatha* = usquebaugh, whiskey, lit. = water of life (cf. Lat. *aqua vitæ;* Fr. *eau de vie*), from *uisge* = water, whiskey (q.v.), and *beatha* (cogn. with Gr. *βίος* (*bios*), and Lat. *vita*) = life.]

1. Whiskey.

"*Usquebaugh* to our feast in pails was brought up."
Swift: Description of Irish Feast.

2. A strong compound cordial made of brandy or other spirits, raisins, cinnamon, cloves, and other ingredients.

"Pewter basins of *usquebaugh* and brandy blazed all night in the tents."—*Macaulay: Hist. Eng.*, ch. xvi.

* **ŭs′-sĕlf,** * **us-silf,** *pron.* [Eng. *us*, and *self.*] Ourselves.

"If we demyden wiseli *ussilf*, we schulen not be demed."—*Wycliffe: 1 Corinthians* xi. 31.

ŭs-tĭl-a-gĭn′-ĕ-ī, *s. pl.* [Mod. Lat. *ustilag(o)*, genit. *ustilagin(is)*; Lat. masc. pl. adj. suff. *-ei.*]

Bot.: A tribe of Fungals, order or suborder Puccinæi. The species grow in the interior of the ovaries, anthers, and other organs of flowering plants, producing deformity, absorption of the internal tissue and its replacement by the pulverulent spores of the Fungals, constituting a dark-coloured and fetid powder. The protospores are produced from very delicate branching tissue, or from closely packed cells.

ŭs-tĭ-lā′-gō, *s.* [Lat. = an unidentified plant, called also *carduus sylvaticus.*]

Bot.: The typical genus of Ustilagineï (*Berkeley*), a genus of Cæomacei (*Lindley*). The spores are simple, with a simple coat. It contains the various kinds of smut so destructive to corn, to reed-beds, &c. [Smut, II. 1.]

* **ŭst′-iôn (i as y),** *s.* [Lat. *ustio*, from *ustum*, sup. of *uro* = to burn.] The act of burning; the state of being burned.

* **ŭs-tōr′-ĭ-oŭs,** *a.* [Ustion.] Having the quality of burning.

"The power of a burning glass is by an *ustorious* quality in the mirror or glass."—*Watts.*

ŭs′-tu-late, *a.* [Lat. *ustulatus*, pa. par. of *ustulo* = to burn a little, to scorch, dimin. of *uro* = to burn.]

Bot.: Blackened. (*Paxton.*)

ŭs-tu-lā′-tion, *s.* [Ustulate.]

* **I.** *Ordinary Language:*

1. The act of burning, scorching, or singeing.

"It seems to lie in a kind of sindging and *ustulation*."—*Petty*, in *Sprat's Hist. Royal Society*, p. 297.

2. Ardent lustful passion; concupiscence.

"They chose *ustulation* before marriage."—*Bp. Taylor: Of Repentance*, ch. v., § 3.

II. *Technically:*

1. *Metall.:* The operation of expelling one substance from another by heat, as sulphur and arsenic from ores, in a muffle.

2. *Pharmacy:*

(1) The roasting or drying of moist substances so as to prepare them for pulverization.

(2) The burning of wine.

ū′-sṳ-al (ṣ as zh), * **u-su-all,** *a.* [Lat. *usualis*, from *usus* = use; Fr. *usuel.*] In common use; such as occurs commonly in ordinary practice, or in the ordinary course of events; customary, habitual, ordinary, frequent.

"A thing *usuall* and common."—*Hackluyt: Voyages*, ii. 95.

• **usual-terms,** *s. pl.*

Law: An expression in common law practice which means pleading issuably, rejoining gratis, and taking short notice of trial. (*Wharton.*)

ū′-sṳ-al-lȳ (ṣ as zh), *adv.* [Eng *usual; -ly.*] According to the usual or common course; commonly, ordinarily, customarily.

"*Usually* when they were nearest to them, they did most pluck up their spirits."—*Bunyan: Pilgrim's Progress*, pt. ii.

ū′-sṳ-al-nĕss (ṣ as zh), *s.* [Eng. *usual; -ness.*] The quality or state of being usual; commonness, frequency.

"Tis only *usualness* or unusualness that makes the distinction."—*Clarke: Evidences of Religion*, prop. 14.

ūṣ-ṳ-căp′-tion, *s.* [Lat. *usucaptio*, from *usus* = use, and *captio* = a taking; *capio* = to take.]

Civil Law: The acquisition of the property of a thing by the uninterrupted possession and enjoyment thereof for a certain term of years prescribed by law. It is equivalent to prescription in the common law.

ūṣ′-ṳ-frŭct, * **us-u-fruite,** *s.* [Lat. *usufructus*, from *usus* = use, and *fructus* = fruit; Fr. *usufruit.*]

Law: The temporary use and enjoyment of lands or tenements, or the right of receiving the fruits and profits of land, or other things, without having the right to alienate or change the property.

"The husband shall haue the *usufruite* of her landes."—*Smith: Commonwealth*, bk. iii., ch. viii.

ūṣ-ṳ-frŭc′-tṳ-a-rў, *s.* & *a.* [Usufruct.]

A. *As subst.:* One who has the usufruct, or use and enjoyment, of property for a time without having the title or property.

"The *usufructuary* has a temporary, or limited property."—*Wollaston: Relig. of Nature*, § 6.

B. *As adj.:* Of or relating to usufruct; of the nature of a usufruct.

* **ū-sṳ-rär′-ĭ-oŭs (ṣ as zh),** *a.* [Lat. *usurarius.*] Usurious.

"He doubts concerning all *usurarious* contracts."—*Bp. Taylor: Rule of Conscience*, bk. i., ch. v.

* **ū′-sṳ-ra-rў (ṣ as zh),** *s.* [Lat. *usurarius.*] Usurious.

"Odious and severely interdicted *usurary* contracts."—*Bp. Hall: Works*, vii. 373.

* **ū′-ṣure (ṣ as zh),** *s.* [Fr. *usure*, from Lat. *usura.*] Usury.

"*Usure* of gowle. *Usura.*"—*Prompt. Parv.*

ū-ṣu-rĕr (ṣ as zh), * u-ser-er, * u-su-rere, *s.* [Fr. *usurier*, from Lat. *usurarius*, from *usura* = usury (q.v.).]

* 1. One who lent money at interest without its being implied that that interest was exorbitant.

"On the other side the commodities of usury are: first, that however usury in some respects hindereth merchandizing, yet in some other it advanceth it; for it is certain that the greatest part of trade is driven by young merchants upon borrowing at interest; so as, if the *usurer* either call in or keep back his money, there will ensue presently a great stand of trade."—*Bacon: Essays.*

2. One who lends money at exorbitant interest; a money-lender who exacts exorbitant or excessive interest for his money.

"These thoughts when *usurer* Alphius, now about
To turn mere farmer, had spoke out."
Ben Jonson: Praises of a Country Life.

*** ū-ṣur-ĭng (ṣ as zh),** *a.* [Mid. Eng. *usure* = usury.] Practising usury; usurious.

"You should not need to fear me, madam,
I do not love the *usuring* Jew so well."
Beaum. & Flet.: Night Walker, iv.

ụ-ṣür'-ĭ-ŏŭs (ṣ as zh), *a.* [Eng. *usury*; *-ous.*]

1. Practising usury; exacting exorbitant interest for money lent.

"I refer me to your *usurious* cannibals, or such like."—*Ben Jonson: Every Man out of His Humour*, v. 4.

2. Pertaining to, of the nature of, or acquired by usury.

"Holding any increase of money to be indefensibly *usurious*."—*Blackstone: Comment.*, bk. ii., ch. 30.

ụ-ṣür'-ĭ-ŏŭs-lȳ (ṣ as zh), *adv.* [Eng. *usurious*; *-ly.*] In an usurious manner.

ụ-ṣür'-ĭ-ŏŭs-nĕss (ṣ as zh), *s.* [Eng. *usurious*; *-ness.*] The quality of being usurious.

ụ-ṣŭrp', * **u-surpe,** *v.t. & i.* [Fr. *usurper*, from Lat. *usurpo* = to employ, to acquire, to usurp; prob. for *usurapio* = to seize to one's own use: *usus* = use, and *rapio* = to seize.]

A. *Transitive:*

1. To seize and hold possession of, as of some important or dignified place, office, power, or property, by force or without right; to appropriate or assume illegally, falsely, or against right.

"Who thus *usurp*
Dominion here." *Cowper: Homer; Odyssey* ii.

* 2. To counterfeit.

"An *usurped* beard." *Shakesp.: Othello*, i. 3.

B. *Intransitive:*

* 1. To be in or enter into a place contrary to right; to encroach.

"Death may *usurp* on nature many hours."
Shakesp.: Pericles, iii. 2.

2. To be or act as an usurper; to commit illegal seizure or appropriation.

*** ụ-ṣŭrp'-ant,** *a.* [Fr.] Usurping.

"Some factious . . . ventured to be extravagant and *usurpant*."—*Gauden: Tears of the Church*, p. 473.

ū-ṣŭr-pā'-tion, * u-sur-pa-ci-on, *s.* [Fr. *usurpation*, from Lat. *usurpationem*, accus. of *usurpatio*.] [Usurp.]

I. *Ordinary Language:*

1. The act of usurping; the act of seizing and holding possession of some place, power, functions, title, property, or the like, of another without right; specif., the unlawful seizing or occupation of a throne.

"Conquest may be called a foreign *usurpation*."—*Locke: Of Civil Government*, ch. xvii.

* 2. An encroachment, an intrusion (*in* or *upon*).

* 3. Use, usage.

II. *Law:* The presentation to a Church benefice by a stranger, who has no right to do so, of a clerk, who is thereupon admitted and instituted. Anciently such an act deprived the legal patron of his advowson; but it is not so now, as no usurpation can displace the estate or interest of the patron, nor turn it to a mere right; but the true patron may present upon the next avoidance, as if no such usurpation had occurred. (*Lee: Glossary.*)

*** ụ-ṣŭrp'-ạ-tŏr-ȳ,** *a.* [Eng. *usurp*; *-atory.*] Characterized or marked by usurpation; usurping.

*** ụ-ṣŭrp'-ạ-ture,** *s.* [Eng. *usurp*; *-ature.*] Usurpation.

"God's gold just shining its last where that lodges
Failed beneath man's *usurpature*."
R. Browning: Master Hugues of Saxe-Gotha.

ụ-ṣŭrp'-ẽr, *s.* [Eng. *usurp*; *-er.*] One who usurps a throne, or other dignity, functions, property, or an advantage to which he is not rightfully entitled.

"The *usurper* would soon be again out of England."—*Macaulay: Hist. Eng.*, ch. xvi.

ụ-ṣŭrp'-ĭng, *a.* [Eng. *usurp*; *-ing.*] Acting as an usurper; characterized by usurpation.

"Its sanctuary the while the *usurping* Moslem pray'd." *Byron: Childe Harold*, iv. 153.

*** ụ-ṣŭrp'-ĭng-lȳ,** *adv.* [Eng. *usurping*; *-ly.*] In an usurping manner; after the manner of an usurper; by usurpation. (*Shakesp.: King John*, i.)

*** ụ-ṣŭrp'-ĕss,** *s.* [Eng. *usurper*; *-ess.*] A female usurper.

"She is a double *usurpresse*."
Howell: Dodona's Grove, p. 19.

ū'-ṣu-rȳ (ṣ as zh), * u-su-re, * u-su-rie, * u-su-rye, * u-se-rie, *s.* [Fr. *usure* = the occupation of a thing, usury, from Lat. *usura* = use, usury, from *usurus*, fut. par. of *utor* = to use.]

* 1. Any premium or interest paid, or stipulated to be paid, for the loan of money, without any insinuation that the interest asked was exorbitant.

"Wherefore then gavest thou not my money into the bank, that at my coming I might have required mine own with *usury*?"—*Luke* xix. 23.

2. An excessive or exorbitant interest or premium paid, or stipulated to be paid, for the loan of money.

3. The practice of lending money at interest; the practice of taking interest for money lent; specifically, the practice of taking exorbitant or excessive interest for the loan of money; the practice of exacting interest in an exorbitant way from needy or extravagant borrowers.

¶ In the ancient world, interest was always usurious as it is in the East at the present day. The Mosaic Law prohibited taking interest from Hebrews (Exod. xxii. 25; Levit. xxv. 35–37; Deut. xxiii. 20); and Christ's words, "Give to him that asketh thee," (Matt. v. 42) seem to be of still wider application. The Fathers regarded interest as usury, and therefore as a species of robbery; and this opinion prevailed in the Church till the sixteenth century, and numbered Luther and Melanchthon among its defenders. Calvin appears to have been the first theologian who propounded the modern distinction between interest and usury.

ût, *s.* [See def.]

Music: The name given to the first or key note in the musical scale of Guido, from being the first word in the Latin hymn, "*Ut queant laxis*," &c. Except among the French, it has been superseded by *do* (q.v.). [Gamut.]

ū'-tah-īte, *s.* [After Utah, where found; suff. *-ite* (*Min.*).]

Min.: A mineral occurring in minute micaceous crystals as an encrustation upon a quartzite in the Eureka Hill mines, Juab County, Utah. Crystallization, rhombohedral; lustre, silky; colour, brownish-yellow. Compos.: sulphuric acid, 28·45; arsenic acid, 3·19; sesquioxide of iron, 58·82; water, 9·35 = 99·81, which yields the formula $3Fe_2O_3,3SO_3 + 4HO$.

ū'-tăs, *s.* [Utis.]

ụ-tĕn'-sĭl, * u-ten-sile, *s.* [Fr. *utensile*, from Lat. *utensilis* = fit for use; *utensilia* (neut. pl.) = utensils. For *utentilis*, from *utens*, pr. par. of *utor* = to use.] An implement, an instrument; more particularly, an instrument or vessel used in the kitchen, or in domestic or farming work.

"The housewife hung a lamp,
An aged *utensil*, which had perform d
Service beyond all others of its kind."
Wordsworth: Michael.

ū'-tĕr-īne, *a.* [Lat. *uterinus* = born of the same mother, from *uterus* (q.v.).]

1. Of or belonging to the uterus or womb.

2. Born of the same mother, but by a different father.

"Walter Pope, *uterine* brother to Dr. Joh. Wilkins."—*Wood: Athenæ Oxon.*, vol. ii.

ū-tĕr-ō-, *pref.* [Lat. *uterus* = the womb.]

Anat., Physiol., &c.: Of, belonging to, or carried on within the womb.

ū-tĕr-ō-gĕs-tā'-tion, *s.* [Pref. *utero-*, and Eng. *gestation.*]

Biol.: The development of the fecundated ovum within the uterus. [Pregnancy.]

ū'-tẽr-ŭs, *s.* [Lat.]

I. *Ord. Lang.:* The womb.

II. *Technically:*

1. *Anatomy:*

(1) *Compar.:* A dilatation in the walls of the oviduct for the preservation or development of the ova. In Birds, although the ova are developed externally, the term uterus is often applied to that cavity where the eggs receive the shell. In most of the Viviparous Fishes, and in the Viviparous Lacertilia and Ophidia the ova develop within the uterine cavity without any assistance or nourishment from the mother. In the Prototheria (= Ornithodelphia = Monotremata) the oviducts, according to some authorities, have no distinct uterine or Fallopian portion, but open directly into a cloacal chamber. Gegenbaur, however, calls the lower end of each oviduct a uterus. In the Metatheria (= Didelphia = Marsupialia) each of the oviducts is differentiated into uterine and Fallopian tracts, opening into a long and distinct vagina. In the Eutheria (= Monodelphia, including all other Mammals) the uterus is variously modified. In the Primates it is normally single, though instances of a double uterus occasionally occur; it is two-horned in the Ruminantia, Pachydermata, Equidæ, and Cetacea, and is said to be divided when it has only a very short body, which speedily divides externally and internally, and is continuous with the oviducts (as in most of the Carnivora and Edentata, and some of the Rodentia); it is actually double in some of the Edentata and in most of the Rodentia, including the mouse and the hare, each oviduct passing into an intestiniform uterus, which has two completely distinct openings lying near to each other within the vagina.

(2) *Human:* A hollow, muscular organ, with very thick walls, situated in the pelvic cavity, between the rectum and the bladder. The virgin uterus is about three inches long, two broad, and one inch thick at its upper extremity. The middle part is called the body, the upper the fundus, and the lower, opening into the vagina, the neck. Its chief function is to receive the ovum from the Fallopian tubes, and to retain and support it during the development of the fœtus, which it expels by muscular contractions at parturition. During uterogestation the uterus becomes greatly enlarged and undergoes important structural changes.

2. *Pathol.:* The *uterus* is liable to many affections and diseases, as tumours, ulceration, catarrh, tenesmus, hæmorrhage, &c.

uterus masculinus, *s.*

Compar. Anat.: The prostatic vesicle. It varies considerably in size: in man it is small, in the rabbit it is of considerable extent. It is developed from the same portion of the embryo as the female uterus. [Uterus, II.]

ût'-gard, *s.* [Icel. = out yard.]

Scand. Mythol.: The uttermost borders of the habitable world, where antiquity fixed the abode of giants and monsters; hell. (*Grimm: Deut. Mythol.*, ed. Stallybrass, i. 245.)

*** ū'-tĭle,** *a.* [Fr., from Lat. *utilis*, from *utor* = to use.] Useful, profitable, beneficial. (*Levins.*)

ū-tĭl-ĭ-tär'-ĭ-ạn, *a. & s.* [Eng. *utilit(y)*; *-arian.*]

A. *As adjective:*

1. Of or pertaining to utility.

2. Pertaining or relating to utilitarianism.

"The author of this essay has reason for believing himself to be the first person who brought the word *utilitarian* into use. He did not invent it, but adopted it from a passing expression in Mr. Galt's 'Annals of the Parish.' After using it as a designation for several years, he and others abandoned it from a growing dislike to anything resembling a badge or watchword of sectarian distinction. But, as a name for one single opinion, not a set of opinions—to denote the recognition of utility as a standard, not any particular way of applying it—the term supplies a want in the language, and offers in many cases a convenient mode of avoiding tiresome circumlocution."—*J. S. Mill: Utilitarianism*, ch. ii. (Note.)

B. *As subst.:* One who upholds the doctrine of utilitarianism.

"Although *Utilitarians* hold that good and evil, right and wrong are properly determined by a calculation of the consequences as regards human happiness, they do not all maintain that past or existing systems of morals have been on all points founded on this principle."—*Chambers' Encyc.* (ed. 1867), ix. 684.

ū-tĭl-ĭ-tăr′-ĭ-ạn-ĭzm, *s.* [Eng. *utilitarian; -ism.*]

Ethics: A word coined by J. Stuart Mill to denote that system which makes the happiness of mankind the criterion of right. It is thus more extensive than Epicureanism, which constituted personal happiness a criterion for the individual, leaving the happiness of others out of the question. The system owes its origin to Bentham (1748–1832), was attacked by Macaulay in the *Edinburgh Review*, and is thus defined by J. S. Mill: "The creed which accepts, as the foundation of morals, Utility, or the Greatest Happiness Principle, holds that actions are right in proportion as they tend to promote happiness, wrong as they tend to produce the reverse of happiness. By happiness is intended pleasure, and the absence of pain; by unhappiness, pain, and the privation of pleasure. To give a clear view of the moral standard set up by the theory much more requires to be said; in particular what things it includes in the ideas of pain or pleasure; and to what extent this is left an open question. But these supplementary explanations do not affect the theory of life on which this theory of morality is grounded—namely, that pleasure and freedom from pain are the only things desirable as ends; and that all desirable things (which are as numerous in the utilitarian as in any other scheme) are desirable either for the pleasure inherent in themselves, or as means to the promotion of pleasure and the prevention of pain."

ụ-tĭl′-ĭ-tў, * **u-til-i-te,** * **u-til-i-tie,** *s.* [Fr. *utilité*, from Lat. *utilitatem*, accus. of *utilitas* = usefulness, from *utilis* = useful, from *utor* = to use; Sp. *utilidad;* Ital. *utilità.*]

1. The quality or state of being useful; usefulness; the quality of being serviceable or conducive to some desirable end or purpose; use, advantageousness, serviceableness.

"*Utility* is that quality in things in virtue of which they afford satisfaction and enjoyment to those who possess them, or create a desire in persons to get possession of them. *Utility* is the source of value in all valuable things. Anything that is useless for any purpose whatever, is without any value. Nevertheless, *utility*, like value, is not a quality inherent in things themselves, but arises from the fact that things are desired, and only so far as they are desired."—*Bithell: Counting-House Dict.*

2. The greatest happiness of the greatest number; the fundamental principle of Utilitarianism (q.v.).

"A perfectly just conception of *Utility* or Happiness, considered as the directive rule of human conduct."—*J. S. Mill: Utilitarianism*, ch. ii.

ụ-tĭl-ĭ-zā′-tion, *s.* [Eng. *utiliz(e); -ation.*] The act of utilizing or turning to some useful account; the state of being utilized.

ū′-tĭl-īze, ū′-tĭl-īse, *v.t.* [Fr. *utiliser*, from *utile* = useful.] [Utile.] To turn to some useful or profitable account; to make useful or profitable; to save from waste or loss by making use of.

"In the *Edinburgh Review* for 1809 . . . exception is taken to . . . *utilize*."—*Fitzedward Hall.*

ū′-tī pŏs-sĭ-dĕ′-tĭs, *phr.* [Lat. = as you possess.]

1. *Civil Law:* An interdict as to heritage, ultimately assimilated to the interdict *utrubi* as to movables whereby the colourable possession of a *bonâ fide* possessor is continued until the final settlement of a contested right.

2. *International Law:* The basis or principle of a treaty which leaves belligerent parties in possession of what they have acquired by their arms during the war.

* **ū′-tĭs, ū′-tăs,** * **ou-tas,** *s.* [From a Norm. Fr. word corresponding to O.Fr. *oitaues, oiteves*, pl. of *oitauve* = octave or eighth (day), from Lat. *octava* (*dies*) = the eighth (day).] [Octave.]

1. The octave of a legal term, saint's day, or other festival; the space of eight days after it; also the festival itself.

"To assemble the *utas* of saint George at Westmynster."—*Berners: Froissart; Cronycle*, vol. ii., ch. xcii.

2. Merriment, festivity, jollity, stir, bustle.

"Then here will be old *utis:* it will be an excellent stratagem."—*Shakesp.: 2 Henry IV.*, ii. 4.

* **ŭt′-lâ-rў,** * **ŭt′-lâw-rў,** *s.* [A corruption of *outlawry.*] Outlawry.

"Where processse of *utlawry* lieth."—*Camden: Remaines: Surnames.*

* **ŭt-lĕ-gā′-tion,** *s.* [Mid. Eng. *ut* = out; Lat. *lex*, genit. *legis* = law.] The act of outlawing; outlawry.

* **ut-mer,** *a.* [Mid. Eng. *ut* = out; *mer* = more.] Outer.

"Be cast out into *utmer* darknesses."—*Wycliffe: Matthew* viii. 12.

ŭt′-mōst, * **oute-meste,** * **ute-meste,** * **ute-mæste,** * **ut-mest,** *a.* [A.S. *ýtemest, ýtmest*, from *ut* = out. *Utmost* is thus a doublet of *outmost.*] [Out.]

1. Being or situated at the furthest point or extremity; furthest out; extreme; most distant; furthest.

"Thou shalt see but the *utmost* parts of them."—*Num.* xxiii. 13.

2. Being in the highest degree or quantity; greatest; extreme.

"Six or seven thousand is their *utmost* power."
Shakesp.: Richard III., v. 3.

¶ *Utmost* is frequently used substantively, preceded by *the*, a possessive pronoun or noun, or other word of a like limiting force, to signify, the most that can be; the greatest power, the highest degree, the greatest effort, or the like.

"Though he perform to *the utmost* of a man."
Shakesp.: Coriolanus, i. 1.

Ụ-tō′-pĭ-ạ, *s.* [The weight of authority is in favour of the generally accepted derivation from Gr. οὐ (*ou*) = not, and τόπος (*topos*) = a place, hence Utopia = nowhere (Cf. Scotch *kennaquhair;* Ger. *Weissnichtwo*, used by Carlyle in *Sartor Resartus*). Another derivation is from Gr. εὖ (*eu*) = well (in comp. = happy, fortunate, blessed), and τόπος (*topos*) = place, when Utopia would = a happy place, a land of perfection. (See *Notes & Queries*, 7th ser., v. 101.)]

1. A name coined by Sir Thomas More, and used by him (in his celebrated work so called, published in 1513), to signify an imaginary island, where everything is perfect—the laws, the morals, the politics, &c.; the evils and defects of existing laws being shown by contrast.

2. A place or state of ideal perfection.

Ụ-tō′-pĭ-ạn, *a. & s.* [Utopia.]

A. *As adj.:* Of, pertaining to, or resembling Utopia; founded on or involving ideal or imaginary perfection; ideal, imaginary.

"They would like strangers greet themselves, seeing then
Utopian youth grown old Italian."
Donne: Let. to Sir Henry Wotton.

*** B.** *As substantive:*

1. An inhabitant of Utopia.

2. One who forms or favours Utopian schemes; an ardent but unpractical political or social reformer.

"Such subtile opinions, as few but *Utopians* are likely to fall into."—*Hooker: Eccles. Polity.*

* **Ụ-tō′-pĭ-ạn-ĭz-ẽr,** *s.* [Eng. *Utopian; -iser.*] A former of an Utopia, or of Utopian ideas or schemes. (*Southey: The Doctor*, ch. cclxi.)

Ụ-tō′-pĭ-ạn-ĭzm, *s.* [Eng. *Utopian; -ism.*] The views or schemes of an Utopian; ideas founded upon or relating to ideal social perfectibility.

* **Ụ-tō′-pĭ-ạn-ĭst,** *s.* [Eng. *Utopian; -ist.*] An Utopian; an Utopianiser.

"The sentimental *Utopianists* and Socialists who hope for a millennium of State intervention."—*Daily Telegraph*, Dec. 28, 1885.

* **Ụ-tŏp′-ĭc-ạl,** *a.* [Eng. *Utop(ia); -ical.*] Utopian.

"Let no idle Donatist of Amsterdam dream hence of an *Utopical* perfection."—*Hall: Beauty & Unity of the Church.*

† **Ū′-tō-pĭst,** *s.* [Eng. *Utop(ia); -ist.*] The same as Utopian, 2. (q.v.).

"Like the *utopists* of modern days, Plato has developed an *a priori* theory of what the State should be."—*Lewes: History of Philosophy* (ed. 1880), i. 273.

Ū′-trạ-quĭst, *s.* [Lat. *utraque*, fem. sing. of *uterque* = both.]

Church Hist. (*Pl.*): A name given in 1420 to the Calixtines because they received the Eucharist in both kinds.

ū′-trĭ-cle, *s.* [Lat. *utriculus* = a small skin, a leather bottle.]

1. *Anat.:* Anything shaped like a small bag. There is a utricle of the male urethra, and one of the vestibule in the ear.

2. *Botany:*

(1) *Gen.:* A little bottle or bladder.

(2) *Spec.:* A simple fruit, one-celled, one or few seeded, superior, membranous, and frequently dehiscing by a transverse incision. Examples: Amaranthus and Chenopodium.

ụ-trĭc′-ụ-lạr, *a.* [Lat. *utricul(us);* suff. *-ar.*]

Bot.: Bearing utricles.

ụ-trĭc-ụ-lār′-ĭ-a, *s.* [Lat. *utriculus.*] [Utricle.] (See def.)

Bot.: Bladderwort; a genus of Lentibulariaceæ. Slender herbs, often floating in water. Leaves of some species multifid with floating bladders; calyx bipartite, the upper lobe entire, the lower often notched or bidentate; corolla personate; style generally wanting, if present filiform and persistent; stigma two-lipped; capsule globose, bursting irregularly; seed oblong or peltate, striated, pitted, or hairy. Known species 120 (*Sir J. Hooker*), widely diffused. The Common Bladderwort (*Utricularia vulgaris*) is a rootless, floating plant, which in summer becomes conspicuous from its handsome, gold-hued flowers raised in stalks six inches above the water. Its floating bladders are modified leaf-organs which form simple but effective insect traps. They form hollow vesicles, entered by a door or trap which opens inwards only. Minute crustaceans, perhaps attracted by the slight mucilage within, push through this valve, and are entrapped, escape being impossible. This plant, therefore, belongs to the class of Insectivorous Plants.

UTRICULARIA INTERMEDIA.

ụ-trĭc′-ụ-lạte, *a.* [Utriculus.] The same as Utricular (q.v.).

ụ-trĭc′-ụ-lĭ-form, *a.* [Lat. *utriculus*, and *forma* = form.]

Bot.: Shaped like a bottle.

ụ-trĭc′-ụ-lōid, *a.* [Lat. *utricul(us); -oid.*] Shaped like a bladder; utricular.

ụ-trĭc′-ụ-lōse, *a.* [Lat. *utricul(us);* Eng. suff. *-ose.*]

Bot.: Bearing many utricles.

* **ụ-trĭc′-ụ-lŭs** (pl. **ụ-trĭc′-ụ-lī**), *s.* [Lat. *utriculus* = a small skin or leather bottle; dimin. of *uter* = a leather bottle.] [Utricle, 2.]

ŭt′-tẽr, *a.* [A.S. *útor, uttor* = outer, utter, compar. of *út* = out (q.v.). *Utter* and *outer* are thus doublets.]

* 1. Being on the outer or exterior side; situate or being outside.

"To the Bridge's *utter* gate I came."
Spenser: F. Q., IV. x. 11.

* 2. Situate or being on the extreme limits of something else; outside of any place or space; remote from the centre.

"Drive them out . . . into the *utter* deep."
Milton: P. L., vi. 716.

3. Complete, total, perfect, entire.

"The *utter* loss of all the realm of France."
Shakesp.: 1 Henry VI., v. 4.

4. Peremptory, absolute, unconditional, unreserved.

"The *utter* refusal of the auxiliary regiments of London and Kent to march farther."—*Clarendon.*

utter-barrister, *s.* [Barrister.]

ŭt′-tẽr, * **out-ren,** * **ut-tren,** *v.t.* [A freq. from Mid. Eng. *outen* = to put out, to out with, from A.S. *útian* = to put out, to eject, from *út* = out.]

* 1. To put out or forth; to expel, to eject, to emit.

"How bragly it beginnes to budde
And *utter* his tender head."
Spenser: Shepheards Calender; March.

* 2. To expose; to set forth, to disclose, to exhibit.

"The godhed which than and never before *uttred* itself."—*Vidal: Luke* xvii.

* 3. To expose for sale.

"No man shall bargaine, sell . . . or conueigh of any other sise to be *uttred* or sold."—*Fabyan: Chronycle* (an. 1543).

4. To dispose of to the public or in the way of trade; to put into or offer for circulation, as money, notes, base coin, &c. (Now applied more especially to the last.)

5. To disclose; not to keep secret; to give expression to.

"My tongue shall *utter* all."
Shakesp.: Rape of Lucrece, 1,076.

6. To speak, to pronounce. (Sometimes followed by *forth*.)

* **ŭt′ tẽr a ble,** *a.* [Eng. *utter*, v.; *-able.*] Capable of being uttered or expressed.

ŭt′ tẽr ance (1), *s.* [Eng. *utter*, v.; *-ance.*]

1. The act of uttering, putting forth in public or circulation.

2. Emission from the mouth; vocal expression; expression.

3. Power of speaking; speech.

4. That which is uttered or spoken; speech, words.

* **ŭt′ tẽr ance (2),** * **ut trance,** *s.* [A corrupt. of Fr. *outrance.*] The last or utmost extremity; the end; death. (Only in the phrase *to utterance, or ultrance* (= Fr. *à outrance*).)

ŭt′ tẽr ẽr, *s.* [Eng. *utter*, v.; *-er.*] One who utters; as,

(1) One who utters or puts into circulation: as, an *utterer* of base coin.

(2) One who pronounces, speaks, discloses, or publishes.

* **ŭt′ tẽr ẽst,** * **ut ter este,** *a.* [Eng. *utter*, *a.*, and *-est.*] [Uttermost.]

* **ŭt′ tẽr less,** *a.* [Eng. *utter*, v.; *-less.*] That cannot or may not be uttered or expressed in words; unutterable, inexpressible.

ŭt′ tẽr ly, * **ut ter lie,** *adv.* [Eng. *utter*, *a.*; *-ly.*] To the full or utmost extent; completely, totally.

* **ŭt′ tẽr more,** *a.* [Eng. *utter*, *a.*; *-more.*] Outer, further.

ŭt′ tẽr most, *a.* [Eng. *utter*, *a.*; *-most.*]

1. Farthest in distance; most remote; extreme.

2. Highest in degree; greatest, utmost.

¶ *Uttermost* is also used substantively in the same way as *utmost*—the most that can be done; the utmost; the greatest power, degree, or effort.

*** ut trance,** *s.* [Utterance (2).]

† **ū′ va** (pl. **ū′ væ**), *s.* [Lat. = a bunch or cluster of grapes.]

1. *Bot.*: A succulent indehiscent fruit, with a central placenta and a very thin outer pericarp. Examples: the fruit of the vine, that of solanum, &c. Deemed by most botanists an unnecessary term.

2. *Pharm.* (*Pl.*): Raisins; used only to make raisin preparations.

Uva ursi, *s.*

Bot. & Pharm.: Tournefort's name for the genus now called Arctostaphylos (q.v.). The name is still retained as a convenient abbreviation in pharmacy, bear-berry leaves being called *Uvæ ursi folia.* [Bear-berry.]

ū vär′ i a, *s.* [Lat. *uva* = a bunch of grapes, which the fruit resembles.]

Bot.: A genus of Xylopeæ. Flowers hermaphrodite; petals equal, connate-buttoned; ovaries linear, cylindrical, inserted, as are the stamens, into a flat receptacle. Natives of tropical or sub-tropical countries in the eastern hemisphere. The roots of *Uvaria Narum*, a large, woody, Indian climber, yield, by distillation, a sweet-scented, greenish oil, used in various diseases in Malabar. The aromatic root is also employed medicinally. The bruised leaves smell like cinnamon. The bark of *U. tripetaloidea*, when tapped, yields a viscid and fragrant gum. The leaves of *U. triloba* are applied to languid abscesses to bring them to a head. The fruit of *U. febrifuge* is regarded by the Indians of the Orinoco as an excellent febrifuge.

ū vate, *s.* [Uva.] A conserve made of grapes. (*Simmonds.*)

ū vē ą, *s.* [Uva.]

Anat.: A covering of dark pigment at the posterior surface of the iris.

ū′ vē oŭs, *a.* [Uva.]

1. *Ord. Lang.*: Resembling a grape or a bunch of grapes.

2. *Anat.*: Of or pertaining to the uvea (q.v.).

ū′ vĭc, *a.* Of, pertaining to, or derived from grapes; as uvic acid, $C_5H_6O_3$.

ų vĭt′ ic, *a.* [Lat. *ur(a)* = a grape; Eng. suff. *-itic.*] Of, pertaining to, or derived from grapes.

uvitic acid, *s.*

Chem.: $C_9H_6O_4 = C_6H_3(CH_3)(CO{\cdot}OH)_2$. A dibasic aromatic acid, obtained by boiling pyroracemic acid with excess of baryta water. It crystallizes in fine needles, difficultly soluble in water, more readily in alcohol and ether, and melts at 287°. Heated with lime to 350°, it yields calcic carbonate and metatoluate, at a higher temperature yielding toluene.

ū vĭ tŏn′ ic, *a.* Derived from grapes; as uvitonic acid, $C_8H_{12}O_3$.

ū′ vrŏh, ū′ vrŏw, *s.* [Euphrosyne.]

ū vų lą, *s.* [Mod. Lat., dimin. from Lat. *uva* (q.v.).]

Anatomy:

1. *Gen.*: Any projecting portion; as, the uvula of the bladder or of the cerebellum.

2. *Spec.*: A prolongation of the soft palate at the back of the mouth. It is a small cylindrical body which hangs at the middle of the posterior margin of the soft palate. It possesses some minute glands, and can be elevated and shortened by a muscle, the *azygos uvulæ.* A relaxed sore throat is mainly produced by an enlargement of the uvula with a certain amount of œdema; if unusually long it is frequently necessary to cut it. [Tonsil.]

ū′ vų lar, *a.* [Uvula.] Of or pertaining to the uvula: as the *uvular* glands.

ū vų lăr′ ĕ æ, *s. pl.* [Mod. Lat. *uvular(ia)*; Lat. fem. pl. adj. suff. *-ea.*]

Bot.: A tribe of Melanthaceæ.

ū vų lăr′ i ą, *s.* [Mod. Lat., from *uvula* (q.v.).]

Bot.: The typical genus of Uvularieæ (q.v.). Leaves sessile, amplexicaul; flowers solitary, drooping, like those of Polygonatum, but having the style three-cleft, and the fruit dry and three-celled. The species are astringent, and the bruised leaves of *Uvularia grandiflora* are a popular remedy in the United States for the bite of the rattlesnake.

* **ū′ vų lar lỹ,** *adv.* [Eng. *uvular*; *-ly.*] With thickness of voice or utterance, as when the uvula is too long.

ū vų lą wort, *s.* [Mod. Lat. *uvula*, and Eng. *wort.*]

Bot.: *Campanula Trachelium*, the Nettle-leaved Bell-flower. Leaves ovate, lanceolate, hispid, coarsely doubly serrate; peduncles generally few flowered; racemes panicled; corolla bluish purple. Found in woods and copses in England. So named because it was supposed to be of use in swelling and pain of the throat. [Throatwort (1).]

ū wa rŏ′ vite (w as v), *s.* [After the Russian Minister Uwarof, Uvarof, Uvarov, Uwarow; Russ. *ouvarovit.*]

Min.: A variety of garnet (q.v.) of an emerald-green colour, in which a part of the alumina is replaced by sesquioxide of chromium. Originally from the Ural Mountains, but now found, though sparsely, in several other parts of the world.

* **ŭx ŏr′ i al,** *a.* [Lat. *uxor* = a wife.]

1. Of or pertaining to a wife or married women.

2. Related to or connected with one's wife.

3. Uxorious.

† **ŭx ŏr′ i çide,** *s.* [Lat. *uxor* = a wife, and *cædo* (in compos. *-cido*) = to kill.]

1. The murder of a wife by her husband.

2. A husband who murders his wife.

ŭx ŏr′ i oŭs, *a.* [Lat. *uxorius*, from *uxor* = a wife.] Excessively or foolishly fond of a wife; doting on a wife.

ŭx or′ i oŭs lỹ, *adv.* [Eng. *uxorious*; *-ly.*] In an uxorious manner; with foolish or fond doting on a wife.

ŭx ŏr′ i oŭs nĕss, *s.* [Eng. *uxorious*; *-ness.*] The quality or state of being uxorious; foolish or fond doting on a wife.

ū′ zĕ ma, *s.* [Native word.] A linear measure in the Birman Empire, equal to about twelve statute miles.

V.

V, the twenty-second letter, and the fifteenth consonant of the English alphabet, represents a labial or labio-dental consonant sound, and is produced by the junction of the lower lip and upper teeth, as in *ov, eve, vain.* The sound of *v* differs from that of *f*, which is produced in the same way, in being voiced, while that of *f* is breathed. Both *v* and *f* are also continuous consonants, and also belong to the class of the spirants. *V* in Middle English is commonly written *u* in MSS., and conversely *u* sometimes appears as *v*, most frequently at the beginning of words, and especially in the words *us, use, up, unto, under*, and *un-*, used as a prefix. As noted under U, *u* and *v* were formerly the same letter, and in dictionaries and alphabetical lists words beginning with U and V were, up till a comparatively recent date, combined. [U.] The Latin *v*, or rather consonant *u*, was probably pronounced as *w*: as in *vespa* = wasp. A very large proportion of the words which begin with *v* are of French or Latin origin, only *vane, vat, vineweal*, and *viren* being English. The letter *v* did not exist in Anglo Saxon, its sound being represented by *f*, as in *hefon* = heaven, *of* = of (*or*). [F.] By this may be explained the change of consonant in the plurals of such words as *thief*, pl. *thieves, wolf*, pl. *wolves*, &c. *V* frequently replaces *f*, as in *vat* = Mid. Eng. *fat*; *vetches* = Mid. Eng. *fetches* (at the present day so pronounced in the Midland counties), &c. In the dialects of the South of England *v* is still commonly used when other dialects had *f*: as *ve* = *foe, vinger* = finger, &c. *V* in some Romance words represents *ph*, as *vial* = phial Mid. Eng. *visnomy* = physiognomy, &c. *V* has been changed to (1) *w* in *periwinkle* = Fr. *pervenche*, Lat. *pervinca*; (2) to *m* in *malmsey* = Mid. Eng. *malvesie*, O. Fr. *malvoisie.* In vulgar speech, especially of Londoners, *v* is sometimes used for *w*, and, conversely, *w* for *v*: as, *vell* for *well*, *wery* for *very.* *V* never appears as a final letter in English (though a final *v* sound often occurs), nor is it ever doubled.

V *as a symbol is used:*

1. *As a numeral*: For 5, and with a dash over it (V̄) for 5,000.

2. *In Chem.*: For the element Vanadium.

3. *In Her.*: For vert, in the tricking of arms with a pen and ink. [Trick, v., 3.]

4. *In Law, &c.:* For *versus* (Lat. = against): as, John Doe *v.* Richard Roe.

"The popular comparison of Free Trade *v.* Protection to the Big Loaf *v.* Little loaf."—*Daily Chronicle*, April 9, 1888.

5. *In Physics, &c.:* For velocity.

6. *In Music:* As an abbreviation of *violino, violini, voce, volta,* &c.

va, *v.i.* [Ital.]

Music: Go on: as, *va crescendo* = go on increasing the power; *va rallentando* = go on dragging the time.

vaag′ măr, *s.* [Icel. *vág-mert* = wave-mare.]

Ichthy.: Trachypterus arcticus, from the Northern seas. The body is extremely compressed, whence it is also called the Riband-shaped Vaagmar and Deal-fish.

vaal′ ite, *s.* [After the Vaal River, South Africa; suff. *-ite* (*Min.*).]

Min.: A monoclinic mineral, occurring in hexagonal prisms in an altered enstatic rock and in the "blue ground" of the diamond mines of South Africa. Compos.: a hydrated silicate of magnesia, alumina, and sesquioxide of iron. On heating, it expands to six times its ordinary size. Probably an altered mica.

***vac a bond, *vac a-bound,** *a. & s.* [Vagabond.]

va′ cance, *s.* [Fr. = vacancy (q.v.).] Vacation; the recess of a court or school; holidays; especially harvest or summer holidays. It is generally treated as a plural. (*Scotch.*)

vā′ can cy, *va can cie, *s.* [Fr. *vacance,* from Lat. *vacans* = vacant (q.v.); Sp. & Port. *vacancia*; Ital. *vacanza.*]

1. The quality or state of being vacant, empty, or unoccupied; as—

* (1) Emptiness.

(2) The state of being unoccupied or unfilled.

"The *vacancy* of the throne being once established."—*Blackstone: Comment.*, bk. i., ch. 3.

* (3) Freedom from employment; leisure, idleness.

* (4) Listlessness; emptiness of thought.

"All dispositions to idleness or *vacancy*, even before they are habits, are dangerous."—*Walton: Remains.*

2. That which is vacant, empty, or unoccupied; as—

(1) Empty space; vacuity; outward space conveying no impression to the eye.

"You do bend your eye on *vacancy*."
Shakesp.: Hamlet, III. 4.

(2) A space between objects or things; an intermediate space, a gap, a chasm.

"The reader finds a wide *vacancy*, and knows not how to transport his thoughts to the next particular, for want of some connecting idea."—*Watts: Logic.*

* (3) An intermission; an interval of time not devoted to the ordinary duties or business of life; hence, unoccupied or unemployed time; leisure, vacation, relaxation.

"If, sometimes, each other's eyes we meet,
Those little *vacancies* from toil are sweet."
Dryden. (*Todd.*)

(4) An unoccupied, unfilled, or vacant post, position, or office; a post, position, or office destitute of a person to fill it.

"For, if the throne be at any time vacant, the right of disposing of this *vacancy* seems naturally to result to the Lords and Commons, the trustees and representatives of the nation."—*Blackstone: Comment.*, bk. i., ch. 3.

vā′ cant, *va caunt, *a.* [Fr., from Lat. *vacans,* pr. par. of *vaco* = to be empty, to be devoid of something, to be at leisure; Sp., Port., & Ital. *vacante.*]

I. *Ordinary Language:*

1. Having no contents; unfilled, empty, void.

"Filling a space less *vacant*."
Wordsworth: Excursion, bk. iv.

* 2. Devoid, destitute, wanting.

"Being of those virtues *vacant*."
Shakesp.: Henry VIII., v. 1.

3. Not occupied or filled by an incumbent, possessor, or official; unoccupied.

"The pope had accursed the English people, because they suffered the bishops' sees to be *vacant* so long a time."—*Holinshed: Hist. England*, bk. vi., ch. xviii.

* 4. Not engaged or occupied in business or care; unemployed, unoccupied, leisure, free.

"At such *vacant* times as they lie not in camp."—*Spenser: State of Ireland.*

5. Free from thought; not given to thought, study, or reflection; thoughtless, listless.

"With a body fill'd, and *vacant* mind."
Shakesp.: Henry V., iv. 1.

II. *Law:* Abandoned; having no heir: as, *vacant* effects.

vacant book, *s.* (See extract.)

"Some of the unions, for example, do part of the work of the state bureaux of labour—keeping in large towns a *vacant-book*, recording the names of men who want work and of masters who want workmen."—*Hazell's Cyclopædia* (1888), s.v. *Trades Union.*

vacant succession, *s.* A succession which is claimed by no one, or the heir to which is unknown.

va cāte′, *v.t.* [Lat. *vacatus,* pa. par. of *vaco* = to be vacant (q.v.).]

1. To make vacant; to cause to be empty; to quit the occupancy or possession of; to leave empty, unfilled, or unoccupied.

"The prospects of sport in the countries now about to be *vacated* will be regarded as promising."—*Field*, Jan. 21, 1888.

2. To annul; to make void; to deprive of validity or authority.

"*Vacating* the authority of the precedent."—*Eikon Basilike.*

* 3. To defeat; to put an end to.

"He *vacates* my revenge." *Dryden.* (*Todd.*)

va cā′ tion, *va ca ci-on, *va ca-cy-on, *s.* [Fr. *vacation,* from Lat. *vacationem,* accus. of *vacatio* = leisure, from *vacatus,* pa. par. of *vaco* = to be vacant (q.v.); Sp. *vacacion*; Ital. *vacazione.*]

1. The act of vacating:

(1) The act of leaving vacant or unoccupied: as, the *vacation* of an office.

(2) The act of annulling; the act of making vacant, void, or of no validity; invalidation, abrogation.

* 2. Time not occupied or disposed of; leisure time.

* 3. A space of time or a condition in which there is an intermission of a stated employment or procedure; stated interval in a round of duties; intermission, rest.

"Benefit of peace, quiet, and *vacation* for piety."—*Hammond: Fundamentals.*

4. Hence specifically:

(1) Temporary cessation of judicial proceedings; the interval between the end of one term and the beginning of the next; recess, non-term.

"As these clerks want not their full task of labour during the open term, so there is for them whereupon to be occupied in the *vacation* only."—*Bacon: Office of Alienation.*

¶ In the Higher Law Courts there are four: the Christmas, the Easter, the Whitsun, and the Long Vacations. (*English.*)

(2) The intermission or temporary cessation of the regular studies of a college, school, or other educational institution, when the pupils have a recess; holidays.

5. The time during which an office is vacant or unoccupied, especially the time during which a see or other other spiritual dignity is vacant.

vacation sittings, *s. pl.*

Law: Sittings of a judge during vacations. It is permissible to take up any cases which may arise or may remain for settlement, but the custom is to dispose only of those standing for argument or judgment. Called also, Sittings after term.

văc cär′ ĭ-a, *s.* [Lat. *vacca* = a cow. (See def.)]

Bot.: A genus of Silenew, akin to Saponaria, but with a five-angled calyx enlarged after flowering. *Vaccaria vulgaris* has been found as a weed in cornfields in England, but it is not indigenous. It is said to increase the secretion of milk of cows fed upon it.

***văc′ car ў, *văc′ char-ў,** *s.* [Low Lat. *vaccariium,* from Lat. *vacca* = a cow.] A cow-house, dairy, or cow-pasture. (*Prov.*)

văc çi nă, *s.* [Vaccinia.]

văc çĭn′ al, *a.* [Eng. *vaccin(e); -al.*] Of or belonging to vaccine matter, or vaccination.

vaccinal fever, *s.*

Pathol.: A slight fever often arising between the sixth and ninth day after vaccination. Sometimes there is an eruption of vaccine lichen or roseola, continuing about a week.

văc′-çĭ-nāte, *v.t.* [As if from a Lat. *vaccinatus,* pa. par. of *vaccino* = to inoculate, from Lat. *vaccinus* = pertaining to cows; *vacca* = a cow.] To inoculate with the cow-pox by means of vaccine matter or lymph, taken directly or indirectly from the cow, for the purpose of procuring immunity from small-pox, or of mitigating its attack.

văc çĭn-ā′ tion, *s.* [Eng. *vaccinat(e); -ion;* Fr. *vaccination.*]

1. *Pathol.:* The act or art of vaccinating; the introduction of vaccine matter into the human frame with the view of protecting it against small-pox, or rendering that disease less formidable. It was at first supposed that the cow-pox (q.v.) had arisen by the transmission to the cow of a disease in the horse called "grease," the purulent matter of which was largely employed by Jenner and others for vaccinating purposes, at first after it had been passed through the cow, and afterwards by direct transmission. Its employment has long since been abandoned. The cow-pox is not produced in the human frame by effluvia; actual inoculation is required. When vaccine lymph is introduced into the arm of an infant, by one or more punctures of a lancet, no noticeable effect is discernible for two days. Then a slight papula arises, which, on the fifth or sixth day, becomes of a bluish colour and vesicular, with a raised head and a central cup. On the eighth day it reaches full development, and an inflammatory areola appears, which spreads with the extension of the vesicle for two more days. Then a crust or scale is produced in the centre of the vesicle, and gradually extends till it covers it in every part. On the fourteenth or fifteenth day the scale becomes hard and brown; it next contracts, dries, and blackens, until, between the twentieth and the twenty-fifth day, it falls off, leaving a permanent circular, depressed, and foveated cicatrix. Unless it possess all these characters, and specially unless fovcation be present, vaccination is imperfect, and cannot be relied on as a prophylactic against small-pox. It has been established also that four, or at least two, such cicatrices are essential for protection, and that the operation should be repeated in ten to twelve, or, at most, in fourteen years. (Revaccination.) Various objections have been brought forward against vaccination; the only one to which importance is attached by medical men is that a danger exists of introducing syphilis into the frame by the use of infected lymph. Dr. Farr deduced from the statistics of the small-pox epidemic of 1871, that if 100,000 vaccinated persons be exposed to certain risks of contagion, 100 will be attacked, ten of which will die; while if 100,000 unvaccinated people be exposed to the same risks, at least 600 will be attacked, of whom 270 will die. The English Commission of 1873 settled the question in the minds of legislators, as all statistics have since done. The German Vaccination Commission of 1884 came to the following conclusions:

"With rare exceptions, one survived attack of small-pox confers immunity against subsequent attacks. Vaccination exerts a similar protection. The duration of the protection varies within wide limits, but is, on the average, ten years. At least two well-developed vaccine vesicles are necessary to ensure an efficient protection. Revaccination is necessary ten years after primary vaccination. The vaccinated condition of the community increases the relative protection against small-pox acquired by the individual and hence vaccination is beneficial not only individually but generally. Vaccination may have an injurious effect under certain circumstances. In the use of human lymph, the danger of transferring syphilis, however slight, cannot be entirely excluded. Any other bad effects are apparently only due to the consequences of the wound, *e.g.*, erysipelas, &c. All these dangers may by precaution be reduced to such a minimum as to make the benefit of vaccination infinitely outweigh them. Since the introduction of vaccination, no scientifically-proved increase of any particular disease or of the general mortality has occurred. Since the dangers to health and life (vaccination-syphilis, &c.) occasionally connected with the use of human lymph can be avoided by the use of animal lymph, and since vaccination with animal lymph has been recently so perfected as almost to equal vaccination with human lymph, the latter is to be gradually superseded by animal lymph."

2. The vaccination process has raised strong opposition, anti-vaccinationists alleging that the process rather tends to increase than to decrease small-pox, and causes a large increase in the number of children afflicted by such inoculable diseases as scrofula, syphilis, skin diseases, &c. To this it is replied that these statements are based on incorrect returns, and that statistics properly and broadly considered tell a very different story. Such danger as exists comes from vaccination with human lymph, and is likely to be completely overcome through the use of pure animal virus. Since 1880 the use of lymph from the calf has

very greatly increased. In Berlin the law permits only the use of this lymph, and it is generally employed throughout Germany. The use of lymph from cow pox began in the United States in 1870, and this now has almost superseded human lymph, with very beneficial results. In France its use is general, and it is being adopted in Britain. A calf yields sufficient lymph to inoculate 400 or 500 children. Compulsory vaccination is the law in some countries, as in England, though considerable opposition to it exists there. In the United States it is being required in the public schools of certain cities, pupils being refused admission unless vaccinated. Vacination is not otherwise compulsory in this country. [ANTIVACCINATIONIST.]

văc'-çĭn-ā-tŏr, *s.* [Eng. *vaccinat(e); -or.*]

1. *Ord. Lang.:* One who vaccinates.

2. *Surg.:* An instrument for introducing vaccine virus beneath the skin.

văc'-çĭne, *a. & s.* [Lat. *vaccinus,* from *vacca* = a cow.]

A. *As adj.:* Of or pertaining to cows; derived or obtained from cows.

B. *As subst.:* [VACCINE-LYMPH.]

vaccine farm, *s.* A place where heifers are inoculated and kept for the cultivation of vaccine virus.

vaccine-lichen, *s.*

Pathol.: A kind of lichen sometimes appearing in connection with Vaccinal Fever (q.v.).

vaccine-lymph, váccine-matter, *s.*

Med.: A pure pellucid liquid taken directly or indirectly from the udder of a cow suffering from cow-pox. [VACCINATION.]

vaccine-roseola, *s.*

Pathol.: A variety of roseola occasionally arising in connection with vaccine fever (q.v.).

văc-çĭn-ĭ-ā'-çē-æ, *s. pl.* [Mod. Lat. *vaccini(um);* Lat. fem. pl. adj. suff. *-aceæ.*]

Bot.: Cranberries; an order of Epigynous Exogens, alliance Cinchonales. Much-branched shrubs or small trees often evergreen, sometimes parasitic. Leaves alternate entire, often with glandular notches, exstipulate; flowers solitary or in racemes; calyx, superior, entire, or with four to six lobes. Corolla monopetalous, with the same number of divisions as the calyx, imbricated in æstivation; stamens inserted in an epigynous disc, twice as many as the lobes of the corolla; anthers two-horned, two-celled, bursting by pores. Ovary inferior, with four to ten cells, each with one or many minute seeds. The species occur in temperate regions, in swamps, or subalpine districts. They are widely diffused over both hemispheres. Their bark and leaves are astringent, their berries pleasantly subacid. Known genera, fourteen; species, two hundred (*Lindley.*) [VACCINIEÆ.]

văc-çĭn'-ĭc, *a.* [Lat. *vaccin(us)* = of or belonging to a cow; Eng. suff. *-ic.*] Contained in or derived from cow's milk.

vaccinic-acid, *s.*

Chem.: Lerch's name for an acid he obtained by the saponification of butter from cow's milk. It appears to have been a mixture of butyric and cupric acids.

văc-çĭn-ĭ-ē'-æ, *s. pl.* [Mod. Lat. *vaccini(um);* Lat. fem. pl. adj. suff. *-eæ.*]

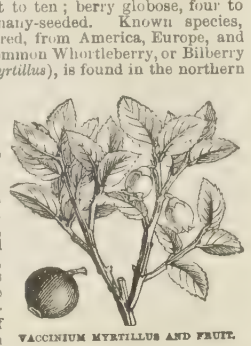
Bot.: A sub-order of Ericaceæ, having the buds clothed with scales, the stamens epigynous, and the ovary inferior. (*Sir J. Hooker.*) It is equal in extent with the order Vaccinieæ (q.v.).

văc-çĭn'-ĭ-fĕr, *s.* [Eng. *vaccine,* and Lat. *fero* = to bear.] One from whose body lymph is taken for the purpose of vaccination.

* **văc'-çĭn-ĭst,** *s.* [Eng. *vaccin(e); -ist.*] A vaccinator.

văc-çĭn'-ĭ-ŭm, *s.* [Lat. = the whortleberry (*Vaccinium Myrtillus*). See def.]

1. *Bot.:* Whortleberry; the typical genus of Vacciniaceæ (q.v.). Shrubs with alternate and, as a rule, evergreen leaves; calyx tube short, limb four or five-toothed; corolla, urceolate or campanulate, four to five cleft; stamens, eight to ten; berry globose, four to five-celled, many-seeded. Known species, about a hundred, from America, Europe, and Asia. The Common Whortleberry, or Bilberry (*Vaccinium myrtillus*), is found in the northern United States, Canada, and Europe. It bears dark purple berries, covered with a mealy bloom, which are sweet and agreeable, and are used as table fruit, also for jellies and tarts. The fruits of several species of Vaccinium are known in the United States as Blueberries. The Huckleberry of this country is the fruit of several species of Gaylussacia, formerly Vaccinium. The Cowberry (*V. oxycoccus,* now *Oxycoccus palustris*) is a wide-spread plant, found in many localities of North America, Great Britain, the north of Europe, and Siberia. *V. Leschenaultii,* growing on the mountains of southern India and Ceylon from 4,000 to 8,000 feet high, bears an edible fruit.



VACCINIUM MYRTILLUS AND FRUIT.

2. *Palæobot.:* A species occurs in the Miocene and one in the Pleistocene. (*Etheridge.*)

văc-çĭ'-nō-, *pref.* [VACCINE.] Of, pertaining to, consisting of, or produced by vaccine matter.

vaccino-syphilitic, *a.*

Pathol.: Of or belonging to inoculation partly vaccinic partly syphilitic. [VACCINATION.]

va-çhĕl'-lĭ-a, *s.* [Named after Rev. G. H. Vachell, residing in China.]

Bot.: An old genus of Acacieæ, now reduced to a sub-genus of Acacia, or altogether merged in that genus. *Vachellia Farnesiana,* now *Acacia Farnesiana* is a large shrub or small tree, with bipinnate leaves having four to eight pinnæ, each with ten to twenty pairs of narrow, blunt leaflets. The flowers, which are in little globular heads, are the Cassie flowers of commerce, which, macerated in fine olive oil, yield a perfume like that of violets. The tree seems to be indigenous only in the tropics of America, but it is now cultivated in most hot countries, and has extended even to the south of Europe.

va'-çher (er as ā), *s.* [Fr., from *vache* (Lat. *vacca*) = a cow.] The stock or cattle-keeper on the prairies of the south-west. (*Amer.*)

va'-çhĕr-y, *s.* [Fr. *vacherie,* from *vache* = a cow.]

1. A pen or inclosure for cows.

2. A dairy.

3. A place-name for farms

¶ Provincial in all its uses.

* **văç'-ĭl-lan-çy,** *s.* [Lat. *vacillans,* pr. par. of *vacillo* = to vacillate (q.v.).] The state of vacillating or wavering; vacillation, wavering, inconstancy.

"I deny that all mutability implies imperfection, though some does, as that *vacillancy* in human souls." —*More: Divine Dialogues.*

* **văç'-ĭl-lant,** *a.* [Lat. *vacillans,* pr. par. of *vacillo.*] Vacillating, wavering, inconstant.

văç'-ĭl-lāte, *v.i.* [Lat. *vacillatus,* pa. par. of *vacillo* = to sway to and fro, to reel, to vacillate. Prob. allied to Eng. *wag* (q.v.).]

*1. *Lit.:* To reel; to sway to and fro; to stagger, to waver.

"It is always liable to shift and *vacillate* from one axis to another."—*Paley: Natural Theology,* ch. xxii.

2. *Fig.:* To fluctuate in mind or opinion; to waver; to be inconstant or unsteady in opinion or resolution.

văç'-ĭl-lāt-ĭng, *pr. par.* or *a.* [VACILLATE.]

A. *As pr. par.:* (See the verb).

B. *As adjective:*

*1. *Lit.:* Swaying to and fro; reeling.

2. *Fig.:* Fluctuating or wavering in opinion; unsteady in opinion or resolution; inconstant.

văç'-ĭl-lāt-ĭng-lȳ, *adv.* [Eng. *vacillating; -ly.*] In a vacillating or wavering manner; unsteadily.

văç-ĭl-lā'-tion, *s.* [Fr., from Lat. *vacillationem,* accus. of *vacillatio,* from *vacillatus,* pa. par. of *vacillo* = to vacillate (q.v.).]

*1. *Lit.:* The act or state of vacillating, reeling, or swaying to and fro; a reeling, a staggering.

"Put in motion by every slip or *vacillation* of the body."—*Paley: Nat. Theology,* ch. xi.

2. *Fig.:* Vacillating conduct, fluctuation, or wavering of mind; inconstancy of opinion or resolution.

"*Vacillation* cannot be considered as a proof of dishonesty."—*Macaulay: Hist. Eng.,* ch. ii.

* **văç'-ĭl-lā-tŏr-y,** *a.* [Eng. *vacillat(e); -ory.*] Inclined to vacillate or waver; vacillating, unsteady.

"Such *vacillatory* accounts of affairs." — *North: Examen,* i. 25.

va-cō'-a, va-côu'-a, *s.* [Fr. *vacoa, vacua, vacoua.* (*Littré.*)]

Bot.: *Pandanus utilis.* It grows wild in Mauritius, &c., and is, moreover, cultivated for its leaves, which are made into square bags for the reception of sugar for export.

* **văc'-u-āte,** *v.t.* [Lat. *vacuatus,* pa. par. of *vacuo* = to empty, from *vacuus* = empty.] To make empty, to evacuate, to empty, to annul.

"Like the Pharisees' Corban, under the pretence of an extraordinary service to God, *vacuates* all duty to man."—*Secular Priest Exposed,* p. 27.

* **văc-u-ā'-tion,** *s.* [VACUATE.] The act of emptying; evacuation.

* **văc'-u-ĭst,** *s.* [VACUUM.] One who holds the doctrine of a vacuum in nature; opposed to a plenist.

"It would also appear that there may be a much subtiler body than common air, and as yet unobserved by the *vacuists.*"—*Boyle: Works,* iii. 251.

va-cū'-ĭ-tȳ, * **va-cu-ĭ-tie,** *s.* [Fr. *vacuité,* from Lat. *vacuitatem,* accus. of *vacuitas,* from *vacuus* = empty.]

*1. The state of being vacuous, empty, or unfilled; emptiness.

"Hunger is such a state of *vacuity,* as to require a fresh supply of aliment."—*Arbuthnot.*

*2. The state of being devoid or destitute of anything.

"Men are at first without understanding or knowledge at all. Nevertheless from this *vacuitie* they grow by degrees till they come at length to be even as the angels themselves be." — *Hooker: Eccles. Politie,* bk. i., § 6.

3. Freedom from mental exertion; rest from brainwork; vacancy.

"Teaching his brain to repose with a wise *vacuity.*" —*Blackie: Lays of Highlands & Islands,* p. 98.

4. Absence of intelligence in look or countenance; expression showing want of thought or intelligence; vacancy, listlessness.

*5. Space unfilled or unoccupied, or occupied with an invisible fluid only; a vacuum.

"In filling up *vacuities,* turning out shadows and ceremonies."—*Hammond: Fundamentals.*

*6. Want of reality; inanity, imbecility.

"Their expectations will meet with *vacuity* and emptiness."—*Glanville.*

*7. A thing of no import or sequence; an idle nothing.

"No sad *vacuities* his heart annoy."
Wordsworth: Descriptive Sketches.

văc'-u-ō-lāt-ĕd, *a.* [Eng. *vacuol(e); -ated.*] Full of vacuoles, or small air-cavities.

văc-u-ō-lā'-tion, *s.* [Eng. *vacuol(e); -ation.*]

Biol.: The multiplication of vacuoles in the germ development or in that of animals low in the scale of being. [VACUOLE.]

văc'-u-ōle, *s.* [Mod. Lat. *vacuolum,* dimin. from Lat. *vacuum* (q.v.).]

Biol.: A cavity, chiefly that formed in the interior of a mass of protoplasm by the filtering into it of drops of water. It is used in this sense of the blood-corpuscles which are destitute of granules, but may be filled with water. The term, however, is chiefly applied to the apparently empty spaces in the protoplasm of the Rhizopoda, Infusoria, &c. These spaces are of two kinds—water-spaces comparatively persistent, and food-vacuoles formed temporarily around particles of food generally enveloped in a drop of water. [POLYGASTRICA.] The term vacuole is used also of the cells which occur in the protoplasm of plants.

văc'-ū-oŭs, *a.* [Lat. *vacuus* = empty, from *vaco* = to be empty.] [VACANT.]

1. *Ord. Lang.:* Empty, unfilled.

"Boundless the deep, because I AM who fill
Infinitude; nor *vacuous* the space."
Milton: P. L., vii. 169.

*2. *Biol.:* Used when an organ does not contain what normally belongs to it; thus, bracts are called vacuous when they contain no flower, although they occupy such a situation as to suggest that they are flower-bearing.

***văc'-ū-oŭs-nĕss,** *s.* [Eng. *vacuous; -ness.*] The quality or state of being vacuous or empty; emptiness.

"In their *vacuousness* the winds and vapours of tediousness and displicence rise."—*Mountague: Devoute Essayes*, pt. i., treat. 9, § 5.

văc'-ū-ŭm (pl. **văc'-ū-ŭms** or **văc'-ū-a**), *s.* [Lat. neut. sing. of *vacuus* = empty, from *vaco* = to be empty.]

1. *Ord. Lang.:* A void, a vacuity.

2. *Physics:* A space which contains no material substance. The general way of obtaining a vacuum is to pump the air out of a closed space by means of an air-pump; but the vacuum which can be obtained by an ordinary air-pump is not very perfect. Much better results are obtained with the mercury-pump, of which there are several forms, in all of which the air is caught by a falling column of mercury, and carried down a long tube out into the surrounding air. Another method of obtaining a vacuum is the chemical method, which consists in filling a space with carbonic acid gas, and afterwards introducing some caustic potash, which absorbs the gas. Such a thing as a perfect vacuum has never been obtained, and probably never will be obtained. Even as practically meant, it is always understood that the vacuum only extends to matter, and that the space is still filled by ether. [TORRICELLIAN.]

vacuum-brake, *s.*

Rail.: A form of steam-brake, in which the power employed is the pressure of the atmosphere produced by creating a vacuum.

vacuum-gauge, *s.*

Steam-eng.: An instrument for indicating difference between the external atmospheric pressure and the pressure inside a partially exhausted vessel; such as a steam-boiler which has become cold and in which the steam has condensed; a condenser in which the steam from the cylinder is condensed; the receiver of an air-pump.

vacuum-pan, *s.*

Sugar-manuf.: A vessel for boiling saccharine juices *in vacuo* in the process of making sugar. Its form is usually nearly spheroidal, and it is made in two segmental nearly semi-globular portions, united at the equator by exterior flanges. At the top is a dome, into which the vapour rises, and from which it is drawn either by a pump or a condenser. The peculiar feature of the vacuum-pan is that, by the exclusion of the air, the quality and quantity of the crystallizable sugar are increased, a smaller proportion of grape-sugar, or molasses being obtained.

vacuum pump, *s.*

Steam-engine:

1. A pump used for withdrawing the air from a boiler or chamber, in order that it may be filled with water forced in under atmospheric pressure. It is employed in connection with marine engines.

2. A pump in which the condensation of steam is made use of to produce a vacuum for the purpose of raising water.

vacuum-tubes, *s. pl.*

Physics: Tubes blown and twisted into different shapes, and hermetically sealed with two platinum wires or electrodes fused with them for the passage of an electric current or spark. Previously to sealing they are exhausted, with the exception of a very small quantity of air or other gases. Under these circumstances electric discharge causes various phosphorescent glows (according to the gas employed in the tube) which may assume peculiar forms, as of layers or strata. Sometimes phosphorescent glass is employed for the tubes themselves, which is illuminated by the glow in the gas. Called also Gassiot or Geissler tubes, from the inventor and chief investigator. Another distinct class of these tubes is prepared with extremely high vacua, ranging to one ten-millionth of an atmosphere, and with various contained apparatus. In such vacua, the mean free path of the gaseous molecules is vastly increased, and many phenomena occur, which were discovered and mainly investigated by Mr. William Crookes, who considers them to represent a fourth state of matter, as distinct from the ordinary gaseous form as that is from the condition of a fluid.

vacuum-valve, *s.* A reversed safety-valve, opening inwardly to the pressure of the atmosphere when there is a negative pressure in the boiler.

vāde, *v.i.* [A weakened form of *fade* (q.v.).]

1. To fade, to wither.

"His summer leaves all *vaded*."
Shakesp.: Richard II., i. 2.

2. To go, to vanish; to pass away; to depart.

"Her power, disperst, through all the world did *vade*."
Spenser: Ruines of Rome, xx.

vā'-dĕ mē'-cŭm, *s.* [Lat. = go with me.] A book or other thing that a person carries with him as a constant companion; a manual; a pocket companion.

***văd'-ĭ-mŏn-ў,** *s.* [Lat. *vadimonium*, from *vas*, genit. *vadis* = a surety, a bail.]

Old Law: A bond or pledge to appear before a judge on a certain day.

vā'-dĭ-ŭm, *s.* [Lat. *vas*, genit. *vadis* = a surety, a bail.]

Scots Law: A word, a pledge, or surety.

vadium-mortuum, *s.* A mortgage.

vadium-vivum, *s.* A living pledge.

vāe, *s.* [VOE.]

***vā'-froŭs,** *a.* [Lat. *vafer* = sly, cunning.] Cunning, crafty, sly.

"He that deals with a fox may be held very simple if he expect not his *vafrous* tricks."—*Feltham: Resolves*, res. 42.

***văg'-a-bŏnd,** *v.i.* [VAGABOND, *a.*] To play the vagabond; to wander about in an idle manner; to vagabondize.

"*Vagabonding* it out yonder."—*C. Reade: Cloister & Hearth*, ch. lvi.

văg'-a-bŏnd, ***vac-a-bond,** ***vac-a-bonde,** ***vac-a-bound,** ***vac-o-bond,** ***vac-a-bund,** ***vag-a-bund,** ***vag-a-bunde,** *a.* & *s.* [Fr. *vagabond*, from Lat. *vagabundus* = wandering about, from *vagor* = to wander.]

A. *As adjective:*

1. Wandering about without having any settled habitation.

"Doubtles the author of this libell was some *vagabond* huckster or pedler."—*Hackluyt: Voyages*, i. 586.

2. Floating about without any certain direction; driven to and fro.

"By envious winds
Blown *vagabond* or frustrate." *Milton: P. L.*, xi. 16.

3. Pertaining to a vagabond or worthless stroller.

B. *As substantive:*

*1. One who wanders about, not having any settled home; a wanderer, a vagrant. (Not necessarily in a bad sense.)

"The question was whether he and his posterity should reign on an ancestral throne or should be *vagabonds* and beggars."—*Macaulay: Hist. Eng.*, ch. x.

2. An idle, worthless stroller from place to place, without fixed habitation or means of living; hence, in law, an idle, worthless vagrant. Now in law used chiefly in the phrase, A rogue and a *vagabond*. [VAGRANT, B. II.]

"To *vacobondys* and other that lokyd for pylfry and rvfflynge, it was a great occasyon & styrynge."—*Fabyan: Chronycle* (an. 1456).

3. An idle, worthless fellow; a scamp, a rascal. (*Colloq.*)

"What a brainsick *vagabond* art thou!"
Cowper: Homer; Odyssey xviii.

văg'-a-bŏnd-age (**age** as **ĭj**), **văg'-a-bŏnd-ĭşm,** *s.* [Eng. *vagabond; -age, -ism.*]

1. The state, condition, ways, or habits of a vagabond.

"Given over to *vagabondage* and deeds of rascality."—*Scribner's Magazine*, March, 1880, p. 709.

2. Vagabonds collectively.

"To increase the *vagabondism* of the neighbourhood."—*Mayhew: London Labour & London Poor*, iii. 322.

văg'-a-bŏnd-ĭşm, *s.* [VAGABONDAGE.]

văg'-a-bŏnd-īze, văg'-a-bŏnd-īse, *v.i.* [Eng. *vagabond; -ize, -ise.*] To wander about as a vagabond.

"Afterwards *vagabondising* for a couple of years."—*Daily Telegraph*, Jan. 26, 1888.

***văg'-a-bŏnd-rў,** *s.* [Eng. *vagabond; -ry.*] Vagabondage.

văg-a-bŭn'-dæ, *s. pl.* [Fem. pl. of Lat. *vagabundus* = strolling about, vagabond.]

Zool.: A sub-tribe of Spiders, tribe Dipneumones or Dipneumoneæ (q.v.). Ocelli usually in three rows. The species wander about, spinning no webs. Families, Saltcidæ and Lycosidæ.

***vā'-ġæ,** *s. pl.* [Fem. pl. of Lat. *vagus* = strolling about, wandering.]

Bot.: The sixty-eighth order in Linnæus's Natural System. It was only provisional, and contained all his doubtful genera.

vā'-ġal, *a.* [Mod. Lat. *vag(us)*; Eng. suff. **-al.**] Of or pertaining to the vagus (q.v.).

***vā'-ġan-çў,** *s.* [Lat. *vagans*, pr. par. of *vagor* = to wander.]

1. Vagrancy.

2. Extravagance.

"A thousand *vagancies* of glory and delight."—*Milton: Church Government*, ch. i.

***vā'-ġant,** ***va-gaunt,** *a.* [Fr. *vagant.*] Wandering, vagrant.

"Fro thi face I shal be hid, and I shal be *vagaunt*."—*Wycliffe: Genesis* iv. 14.

†**vą-găn'-tēs,** *s. pl.* [Pl. of Lat. *vagans*, pr. par. of *vago* = to wander.]

Zool.: A group of Walckenaër's Araneidæ. They are the same as his Laterigradæ (q.v.). The name Vagantes was given because these spiders lead a wandering life, except during oviposition.

***vā-ġą-rant,** *a.* [VAGRANT.]

***vą-gär'-ĭ-oŭs,** *a.* [Eng. *vagary; -ous.*] Having vagaries; whimsical.

"The names of the wandering Jew are characteristically various, not to say *vagarious*."—*M. D. Conway Wandering Jew*, ch. x.

***vā'-ġar-ĭsh,** *a.* [VAGARY.] Wandering.

"His eyes were often *vagarish*."
Wolcott: P. Pindar, p. 305.

vą-gär'-ў, ***va-gare,** ***fi-gar-y,** *s.* [VAGARY, *v.*]

*1. A wandering; a strolling.

"The people called Phœnices gave themselves to long *vagaries* and continual viages by sea."—*Barnaby Rich.*

2. A wandering of the thoughts; a wild freak; a whim; a whimsical purpose.

"Straight they changed their minds,
Flew off, and into strange *vagaries* fell."
Milton: P. L., vi. 614.

***vą-gär'-ў,** *v.i.* [Lat. *vagor* = to wander; Fr. *vaguer*; Ital. *vagare.*] To wander about; to wind.

"The three rivers that *vagary* up to her."—*Nashe: Lenten Stuffe.*

***vą-gā'-tion,** *s.* [Lat. *vagatio*, from *vagor* = to wander.] A wandering; a roving about.

***vā'-ġĭ-ent,** *a.* [Lat. *vagiens*, pr. par. of *vagio* = to cry like a child.] Crying like a child.

"The cradle of the Cretan Jove,
And guardians of his *vagient* infancy."
More: Song of the Soul, iii. 4, 42.

vą-ġĭ'-na, *s.* [Lat. = a sheath, a scabbard.]

1. *Anatomy:*

(1) *Comp.:* A special canal in the female for the reception of an intromittent organ, or the deposition of sperm-cells.

(2) *Human:* A dilatable membranous passage extending from the vulva to the uterus, the neck of which it embraces. It rests below and behind on the rectum, and supports the bladder in front.

2. *Arch.:* The upper part of the shaft of a terminus, from which the bust or figure seems to issue or arise.

3. *Bot.:* A sheath, as of grasses.

vą-ġĭ'-nal, *a.* [VAGINA.]

1. *Ord. Lang.:* Pertaining to or resembling a sheath: as, a *vaginal* membrane.

2. *Anatomy, Pathology, &c.:*

(1) Of or pertaining to anything shaped like a sheath or scabbard: as, the *vaginal* process (q.v.).

(2) Of or pertaining to the vagina (q.v.): as, the *vaginal* artery. The term is frequently used in Pathology: as, *vaginal* catarrh, cystocele, enterocele, hyperæsthesia, &c.

vaginal-artery, *a.*

Anat.: A branch of the internal iliac artery.

vaginal-catarrh, or **leucorrhœa,** *s.*

Path.: [VAGINITIS].

vaginal-plexus, *s.*

Anat.: The lower part of the pelvic plexus, whence the vaginal nerves disperse without again entering into a plexiform arrangement.

vaginal-process, *s.*

Anat.: The lower margin of the tympanic plate, which constitutes a sharp edge partly surrounding the front of the styloid process.

***văg-ĭn-ā'-lēs,** *s. pl.* [Fem. pl. (with Lat. *plantæ* = plants, understood) of Mod. Lat. *vaginalis* = of, belonging to, or possessed of a sheath.]

Bot.: The twenty-seventh order in Linnæus's Natural System. Genera, Polygonum, Laurus, &c.

***văg-ĭn-ā'-lĭs,** *s.* [See def.]

Ornith.: Gmelin's rendering of Pennant's name (Sheathbill) for the genus Chionis, named by Forster, and which therefore has priority. [SHEATHBILL.]

vă-ğĭn' ant, *a.* [Mod. Lat. *vaginans*, genit. *vaginantis*. (See def.)]

Bot.: Sheathing (q.v.).

***văg-ĭ-nā'-ta,** *s. pl.* [Mod. Lat., from *vagina* (q.v.).]

Zool.: Lamarck's name for Polypes enveloped in a sheath formed by a calcareous or horny polypary, as Corals, the Sertularidæ, &c.

vă-ğĭ'-nate, *a.* & *s.* [VAGINA.]

A. *As adjective:*

Bot.: The same as VAGINATED (q.v.).

B. *As subst.:* One of the Vaginata (q.v.).

vă-ğĭ'-nāt-ĕd, *a.* [VAGINA.]

Bot.: Sheathed, inserted in a sheath, as a stalk in a sheath formed by the base of a petiole.

văg-ĭ-nĕl'-la (pl. **văg-ĭ-nĕl'-læ**), *s.* [Mod. Lat., dimin from *vagina* (q.v.).]

Bot.: The same as RAMENTA (q.v.).

văg-ĭ-nĕr'-vōse, *a.* [Lat. *vagus* = wandering, and *nervosus* = full of sinews.]

Bot. (*Of the veins*): Not running in any fixed directions.

văg-ĭ-nĭc'-ō-la, *s.* [Lat. *vagina* = a sheath, and *colo* = to inhabit.]

Zool.: The type-genus of the sub-family Vaginicolina, with several genera from salt and fresh water. Animalcules elongate, subcylindrical, enclosed singly or in pairs within a vase-shaped sheath, to the bottom of which they are affixed directly, or by means of a pedicel; oral and ciliary system as in Vorticella (q.v.).

văg-ĭ-nĭc-ō-lī'-na, *s. pl.* [Mod. Lat. *vaginicol(a)*; Lat. neut. pl. adj. suff. *-ina.*]

Zool.: A sub-family of Vorticellidæ, with eight genera, from salt and fresh water.

văg-ĭn-ĭs'-mŭs, *s.* [VAGINA.]

Pathol.: The name given by Dr. Marion Sims to the involuntary spasmodic closure and over-sensitiveness of the mouth of the vagina. It requires an operation for its removal.

văg-ĭ-nī'-tĭs, *s.* [Lat. *vagin(a)*; suff. *-itis.*]

Pathol.: Inflammation of the vagina. It may be acute or chronic. The former is sometimes produced by the poison of scarlatina; the latter is called also Vaginal catarrh, Vaginal Leucorrhœa, simply Leucorrhœa, and popularly the Whites.

va-ğī-nō-pĕn'-noŭs, ***va-ğĭn-ĭ-pĕn'-noŭs,** *a.* [Lat. *vagina* = a sheath, and *penna* = a wing.] Sheath-winged; having the wings covered with a hard case or sheath, as some insects.

"All *vaginipennous* or sheath-winged insects, as beetles and dorrs."—*Browne: Vulgar Errours*, bk. iii., ch. xv.

vă-ğĭn-ŭ-lī'-na, *s.* [Mod. Lat., a double dimin. from *vagina* (q.v.).]

Zool. & Palæont.: A genus of Lagenidæ, with a series of chambers laterally compressed. From the Trias onward.

vă-ğĭn'-ŭ-lŭs, *s.* [Mod. Lat., dimin. from *vagina* (q.v.).]

Zool.: A genus of Oncidiadæ, with twenty species from the West Indies, South America, India, and the Philippines. Animal elongated, slug-like, covered by a thick, leathery mantle, under which the head is retracted at will; tentacles four, eyes on upper pair; sexes united. The species are found in decayed wood, and under leaves.

***vā'-goŭs,** *a.* [Lat. *vagus.*] Wandering, vagrant, unsettled.

"Such as were born and begot of a single woman, through a *vagous* lust, were called Sporii."—*Ayliffe.*

vā'-grạn-çy, *s.* [Eng. *vagrant(t)*; *-cy.*]

1. The state of wandering, without having a settled home. (Not necessarily in a bad sense.)

"Therefore did he spend his days in continual labour, in restless travel, in endless *vagrancy*, going about doing good."—*Barrow: Sermons*, vol. iii., ser. 4.

2. The life or condition of a vagrant. [VAGRANT, *a.*, B. II.]

"He shall by office prosecute them for the offences of idleness, drunkenness, quarrelling, gaming, or *vagrancy*, in the supreme court."—*Burke: Sketch of the Negro Code.*

vā'-grant, ***vā'-gạr-ạnt,** *a.* & *s.* [From *vagary*, v. (q.v.).]

A. *As adjective:*

1. Wandering about from place to place without having any settled home.

"The people remained in the woods and mountains *vagrant* and dispersed like the wild beasts."—*Puttenham: English Poetry*, bk. i., ch. iii.

2. Pertaining to one who wanders from place to place; unsettled.

"[He] had ever since led an infamous and *vagrant* life."—*Macaulay: Hist. Eng.*, ch. ii.

*3. Moving without any settled or certain direction.

*4. Unsettled, unsteady, inconstant.

"The offspring of a *vagrant* and ignoble love."—*Macaulay: Hist. Eng.*, ch. v.

B. *As substantive:*

I. *Ordinary Language:*

†1. A wanderer; one who has no settled home or habitation.

"But of the *vagrant* none took thought."
Wordsworth: Ruth.

2. An idle wanderer or stroller; a vagabond, a tramp.

"The civil war expelled all sturdy *vagrants* from the city."—*Blackstone: Comment.*, bk. iv., ch. 13.

II. *Law:* In law the term *vagrant* is much more comprehensive than in ordinary language, and the idea of wandering is almost lost. Vagrants are divided into three grades:—

(1) Idle and disorderly persons, or such as, while able to maintain themselves and families, neglect to do so; unlicensed pedlars or chapmen, beggars, common prostitutes, &c.; all of whom are liable to a month's imprisonment with hard labour.

(2) Rogues and vagabonds, or such as having been convicted of being idle and disorderly persons, have been found guilty of a repeated offence; fortune-tellers and other like impostors, persons gambling or betting in public, persons having no visible occupation and unable to give a satisfactory account of themselves; all of whom are liable to three months' imprisonment with hard labour.

(3) Incorrigible rogues, or such as, having been convicted as rogues and vagabonds, are found guilty of a repetition of the offence; persons breaking out of legal confinement, &c.; all of whom are liable to twelve months' imprisonment with hard labour, whipping being added at the option of the judge. (*English.*)

***vā-grant-lў,** *adv.* [Eng. *vagrant*; *-ly.*] In a vagrant, wandering, or unsettled manner; like a vagrant.

***vā'-grant-nĕss,** *s.* [Eng. *vagrant*; *-ness.*] The quality or state of being vagrant; vagrancy.

***vā'-grŏm,** *a.* [See def.] An intentional misspelling of Vagrant (q.v.). (*Shakesp.: Much Ado*, iii. 3.)

vāgue, *a.* & *s.* [Fr. *vague*; Sp., Port., & Ital. *vago.*] [VAGUE, *v.*]

A. *As adjective:*

*1. Wandering, vagrant, vagabond.

"Gray encouraged his men to set upon the *vague* villains."—*Hayward.*

2. Unsettled, as regards meaning, scope, or the like; unfixed, indefinite, unsettled; not clear; uncertain, doubtful, ambiguous.

"Neither loosely *vague*
Nor wordy." *Cowper: Homer; Iliad* iii.

3. Proceeding from no known authority; uncertain: as, a *vague* report.

***B.** *As substantive:*

1. A wandering.

"So as the Scots had some leasure to plaie their *vagues*, and follow their accustomed manner."—*Holinshed: Hist. Scotland* (an. 1542).

2. A vagary.

3. Vagueness. (*Masson: De Quincey*, p. 196.)

***vāgue,** *v.i.* [Fr. *vaguer*, from Lat. *vagor*, from *vagus* = wandering.] To wander, to roam.

"She [the soule] doth *vague* and wander as banished."—*P. Holland: Plutarch*, p. 231.

vāgue'-lў, *adv.* [Eng. *vague*, a.; *-ly.*] In a vague or uncertain manner; indefinitely; not clearly; ambiguously.

vāgue'-nĕss, *s.* [Eng. *vague*, a.; *-ness.*] The quality or state of being vague, indefinite, unsettled, or uncertain; indefiniteness, ambiguousness.

"Objections of some writers to the *vagueness* of the language."—*Mackintosh: Law of Nature*, p. 8.

vā'-gŭs, *s.* [Lat. = wandering, vagrant. Named from its wandering course.]

Anat.: The Pneumogastric nerve (q.v.).

vā'-hĕ-a, *s.* [From *voua-here*, the Madagascar name of *Vahea madagascariensis.*]

Bot.: A genus of Carisseæ. Tall climbing shrubs or trees, with opposite leaves, dense terminal cymes of white flowers, and round fruit. Known species four, all African. *V. madagascariensis* and *V. gummifera*, both growing in Madagascar, yield a kind of caoutchouc.

vāik, *v.i.* [VACANT.] To become vacant; to be vacant; to be unoccupied. (*Scotch.*)

***vāil** (1), *s.* [VEIL, *s.*]

***vāil** (2), *s.* [VAIL (2), *v.*] Submission, descent, decline.

vāil (3), ***vale,** *s.* [For *avail* = profit, advantage.]

*1. Profit, proceeds, return.

"The cave where the young outlaw hoards the stolen *vails* of his occupation."—*Chapman.*

*2. An unlooked for or casual acquisition; a windfall. (*Tooke.*)

3. Money given to servants by visitors. (Generally in the plural.)

"To give extravagant *vails* at every country house which they visited."—*Macaulay: Hist. Eng.*, ch. xxiii.

***vāil** (1), *v.t.* [VEIL, *v.*]

***vāil** (2), ***vaile,** ***vale,** *v.t.* & *i.* [For *avail* or *avale*, from Fr. *avaler* = to let or put down, from Lat. *ad* = to, and *vallis* = a vale, a valley.]

A. *Transitive:*

1. To let, cast, or put down; to lower; to let fall; to put off.

"She *vailed* her eyelids."
Shakesp.: Venus & Adonis, 956.

2. To lower or let down in token of respect or submission.

"To *vaile* their bonnets for the queene of England."—*Hackluyt: Voyages.* (Ep. Ded.)

3. To let sink, as through fear.

"Douglas gan *vaile* his stomach."
Shakesp.: 2 Henry IV., i. 1.

B. *Intransitive:*

1. To bow; to show respect by bowing or uncovering.

"All the gallants on the stage rise, *vail* to me, kiss their hand."—*Beaum. & Flet.: Woman Hater*, i. 3.

2. To give place; to yield; to give way.

"Thy convenience must *vail* to thy neighbour's necessity."—*South.*

***vāil** (3), ***vayle,** *v.i.* [VAIL (3), *s.*] To profit, to avail, to advantage.

"Through this science [physike] it is full sought
Which *vaileth* and which *vaileth* nought."
Gower: C. A., vii.

***vāil'-a-ble,** ***vaile-a-ble,** *a.* [Eng. *vail* (3), v.; *-able.*] Profitable, advantageous, effectual. (*Smith: Commonwealth*, bk. ii., ch. iv.)

***vāil'-ĕr,** *s.* [Eng. *vail* (2), v.; *-er.*] One who vails; one who shows respect by vailing or yielding.

"If he finds not a good store of *vailers*, he comes home stiff."—*Overbury: Characters*, E. 5, b. (1627).

***vāi'-mure, *vā'-mure,** *s.* [VAUNTMURE.]

vāin, *vaine, *vayn, *vein, *veyn, *a.* [Fr. *vain*, from Lat. *vanum*, accus. of *vanus* = empty, vain; prob. from *vacuus* = empty.]

1. Producing no good result; fruitless, ineffectual, useless; destitute of force or efficacy; powerless.

"Give us help in the time of trouble; for *vain* is the help of man."—*Psalm* lx. 11.

* 2. Powerless, weak.

"How these *vain*, weak nails may tear a passage."
Shakesp.: Richard II., v. 5.

3. Having no real value; empty, unreal, unsubstantial, idle, worthless, unsatisfying.

"*Vain* pomp and glory of this world, I hate ye!"
Shakesp.: Henry VIII., iii. 2.

* 4. Unwise, foolish, silly.

"A *vain*, giddy, shallow, humourous youth."
Shakesp.: Henry V., ii. 4.

* 5. Fallacious, deceitful, false.

"All hope is *vain*." *Shakesp.: Coriolanus*, v. 1.

6. Proud of petty things or of trifling attainments; elated with a high opinion of one's own self, or of one's own accomplishments, or of things more showy than valuable; having a morbid craving for the admiration or applause of others; conceited, puffed up, inflated.

"Sir Plume, of amber snuff-box justly *vain*."
Pope: Rape of the Lock, iv. 122.

* 7. Showy, ostentatious.

"Load some *vain* church with old theatrick state."
Pope: Moral Essays, iv. 29.

¶ *Vain* and *fruitless* are both applied to our endeavours; but the term *vain* is the more general and indefinite. What we aim at, as well as what we strive for, may be *vain;* but *fruitless* refers only to the end of our labours. When the object aimed at is general in its import, it is common to term the endeavour *vain* when it cannot attain this object; when labour is specifically employed for the attainment of a particular object, it is usual to term it fruitless if it fail.

¶ * 1. *For vain:* To no purpose; fruitlessly, idly, in vain.

"Which the air beats *for vain*."
Shakesp.: Measure for Measure, ii. 4.

2. *In vain:* To no purpose; ineffectually.

"*In vain* they do worship me."—*Matthew* xv. 9.

3. *To take in vain:* [TAKE, *v.*, ¶ 29].

***vāin'-fūll,** *a.* [Eng. *vain; -full.*] Vain, empty. (*Tusser: Husbandrie*, p. 10.)

vāin-glōr'-ĭ-oŭs, *vaine-glor-y-ous, *a.* [Eng. *vainglory; -ous.*]

1. Feeling vainglory; vain to excess of one's own accomplishments or achievements; boastful, vaunting.

2. Characterized by or proceeding from vainglory; founded on or prompted by vanity; boastful. (*Hackluyt: Voyages*, ii. 169.)

***vāin-glōr-ĭ-oŭs-lў,** *adv.* [Eng. *vainglorious; -ly.*] In a vainglorious manner; with vainglory or vaunting.

"Let it no more enter into your hearts to thinke with your selves *vaingloriously*."—*Udal: Luke*, ch. iii.

vāin-glōr'-ў, *vaine-glor-ie, *vein-gloir-e, *veyn-glor-y, *s.* [O. Fr. *vein glorie*, from Lat. *vana gloria* = vain or idle boasting.] Glory, pride, or boastfulness that is vain or empty; tendency to unduly exalt one's self or one's own achievements; excessive vanity; vain pomp or show.

"If Hector break not his neck i' the combat, he'll break 't himself in *vainglory*." — *Shakesp.: Troilus & Cressida*, iii. 3.

vāin'-lў, *veyn-li, *adv.* [Eng. *vain; -ly.*]

1. In a vain manner; to no purpose; in vain, ineffectually, uselessly, fruitlessly.

"Our cannons' malice *vainly* shall be spent."
Shakesp.: King John, ii.

2. In a vain, arrogant, or conceited manner; proudly, conceitedly.

* 3. Idly, foolishly, unreasonably.

"Supplies beyond necessity of the present, are apt to make us either *vainly* profuse, or *vainly* confident."
—*Hale: Cont.; Lord's Prayer.*

* 4. Falsely, erroneously.

"Which *vainly* I supposed the Holy Land."
Shakesp.: 2 Henry IV., iv. 5.

vāin'-nĕss, *vaine-nesse, *s.* [Eng. *vain; -ness.*]

1. The quality or state of being vain; useless, or ineffectual; inefficacy, fruitlessness, uselessness.

2. Vanity, empty pride.

"Free from *vainness* and self-glorious pride."
Shakesp.: Henry V., v. (Chorus).

* 3. Foolishness, folly.

"O how great *vainenesse* is it then to scorne
The weake." *Spenser: World's Vanitie*, vi.

* 4. Falseness, falsehood, deceit.

"I hate ingratitude more in a man
Than lying *vainness*, babbling drunkenness."
Shakesp.: Twelfth Night, iii. 4.

vāir, *veir, *s.* [Fr. *vair* = a rich fur of ermines, &c., from Lat. *varius* = variegated.]

* 1. *Ord. Lang.:* A kind of fur.

2. *Her.:* One of the furs, composed of several pieces, silver and blue (argent and azure), cut to represent little shields or (it is said) the flower of the campanula, and opposed to each other in rows. When of different colours, these are specified and described, *vairé* or *vairy:* as, *vairy argent* and *vert.* [COUNTER-VAIR.]

VAIR.

vāir'-ĕ, vāir'-ў, *var-ry, *ver-ry, *a.* [Fr. *vairé.*]

Her.: Chequered or charged with vair (q.v.).

Vaī-sĕ'-shĭ-ka, *s.* [Sans. *vaisesha* = an atom.]

Hindoo Philos.: One of the six leading systems of Brahmanic philosophy. At first only three of the six—viz., the two Mimânsâs and the Nyâya—were considered orthodox; but ultimately the three rejected—the Vaiseshika, the Sankhya, and the Yoga—were exempted from the ban of heresy. The founder of the Vaiseshika system was Kanâda, whose exact date is unknown, but it may be vaguely conjectured as about 500 B.C. The system assumes or establishes that all material substances are composed of atoms mechanically united. These atoms it regards as eternal in their duration. The combinations of them which form the present world are, however, but transitory; so also is the present system of things. The Vaiseshika philosophy is generally connected with the Nyâya or Logical school of Gautama, of which it is supposed to be a modification.

Vaīsh'-na-va, *s.* [Sansc., &c.]

Hindooism (Pl.): A primary religious section of the Hindoos, who adore Vishnoo in preference to, if not to the exclusion of, the other persons of the Hindoo Triad. To carry individual preference to this extent is not considered orthodox, and many of those who do so have united themselves into monastic bodies, which, drawing their devotees from various castes, virtually merge them in a new one—that of the Sectarian brotherhood. Horace Hayman Wilson divided the Vaishnavas into the following sections: (1) Râmânujas, Sri Sampradâyis, or Sri Vaishnavas; (2) Râmânandis, or Râmâvats; (3) Kabir Panthîs; (4) Khâkis; (5) Malûk Dâsis; (6) Dâdû Panthîs; (7) Râya Dâsis; (8) Senâis; (9) Vallabhâchâris, or Rudra Sampradâyis; (10) Mîrâ Bâis; (11) Madhwâchâris, or Brahma Sampradâyis; (12) Nimâvats, or Sanakâdi Samprayadâyis; (13) the Vaishnavas of Bengal; (14) Radhâ Vallabhîs; (15) the Sakhî Bhâvas; (16) Charan Dâsis; (17) Harischandîs; (18) Sadhnâ Panthîs; (19) Mâdhavis; and (20) Sannyâsis, Vairâgis, and Nagas.

Vaīs'-ya, *s.* [Sansc.]

Hindooism: The third of the primary Hindoo castes in the order of dignity. Nominally it contains the merchants and shopmen. [CASTE.]

vāi'-vōde, *s.* [WAYWODE.]

va-keēl', *s.* [Hind., &c. *wakil.*] In the East Indies an ambassador or agent sent on a special commission, or residing at a court; a native attorney; a native Indian law-pleader.

Va'-la, *s.* [A female name (?).]

Astron.: [ASTEROID, 131.].

văl'-a-īte, *s.* [After M. Vâla: suff. *-ite* (*Min.*).]

Min.: A mineral belonging to the group of Resins, occurring in small, hexagonal tables and massive, associated with hatchettite (q.v.), in the Rossitz-Oslawaner Coal formation, Moravia. Hardness, about 1·5 or lower; lustre, shining; colour and streak, black; aromatic odeur when rubbed; fracture, uneven. Compos.: not yet determined.

văl'-ance (1), **văl'-ence, *văl'-lance *val-lens,** *s.* [From Valence in France, south of Lyons, where silk is still made.]

1. Fringes of drapery; specif., the drapery hanging round a bed, couch, &c.

"*Valance* of Venice, gold of needlework."
Shakesp.: Taming of the Shrew, ii.

2. The drooping ledge at the parting of a trunk.

***văl'-ance** (2), *s.* [O. Fr. *vallence, valence.*] Valour, bravery, worth.

"And there the *valance* of men, is demed in riches out forthe."—*Chaucer: Test. of Love*, bk. ii.

***văl'-ance,** *v.t.* [VALANCE (1), *s.*] To furnish or decorate with a valance or fringe; to fringe; hence, fig., to decorate with a beard.

"Thy face is *valanc'd* since I saw thee last; com'st thou to beard me?"—*Shakesp.: Hamlet*, ii. 2.

***va-lanche',** *s.* [AVALANCHE.] An avalanche.

"The great danger of travelling here . . . proceeds from what they call the *valanches*."—*Smollett: France & Italy*, let. xxxviii.

***văl'-an-çў, *văl'-lan-çў,** *s. & a.* [Eng. *valanc(e); -y.*]

A. *As subst.:* A large wig that hides the face.

B. *As adj.:* Hiding the face.

"Critics in plume and white *vallancy* wig."
Dryden: Ep. iii.

val-dĕn'-sĭ-an, *a. & s.* [WALDENSIAN.]

***vāle** (1), *s.* [VAIL (3), *s.*]

vāle (2), ***val,** *s.* [Fr. *val*, from Lat. *vallem* accus. of *vallis* = a vale, a valley.]

I. *Literally:*

1. A tract of low ground between hills; a valley. (*Dryden: Ep.* iii.)

¶ *Vale* is more commonly used in poetry, *valley* in prose.

2. A little trough or canal: as, a pump *vale* to carry off the water from a ship's pump.

* II. *Fig.:* A state of decline or wretchedness.

"I am declined into the *vale* of years."
Shakesp.: Othello, iii. 2.

***vā'-lĕ** (3), *s.* [Lat., imper. sing. of *valeo* = to be well.] A farewell; an adieu.

"I dropt a tear and wrote my *vale*."
Praed. (*Annandale.*)

***vāle,** *v.i.* [VAIL, *v.*] To descend.

"Here *vales* a valley, here ascends a mountain."
Sylvester: Du Bartas; Seventh day, first week, 53.

***văl'-ĕct,** *s.* [VALET.]

***văl-ĕ-dĭc'-tion,** *s.* [As if from a Lat. *valedictio*, from *valedictus*, pa. par. of *valedico* = to say farewell, from *vale* = farewell, and *dico* = to say.] [VALE (3), *s.*] A bidding farewell; a farewell; an adieu.

"He always took this solemn *valediction* of the fellowes."—*Fuller: Worthies; Shropshire.*

văl-ĕ-dĭc-tōr'-ĭ-an, *s.* [Eng. *valedictory; -an.*] In American colleges, the student who pronounces the valedictory (q.v.).

văl-ĕ-dĭc'-tōr-ў, *a. & s.* [VALEDICTION.]

A. *As adj.:* Bidding farewell; pertaining or relating to a farewell or adieu; of the nature of a farewell; farewell.

"To pay to their popular chief governor every *valedictory* honour."—*Cumberland: Memoirs.*

B. *As subst.:* In American colleges, an oration or address spoken at the annual commencement by one of the class whose members receive the degree of B.A., and take their leave of the college and of each other.

***văl'-ençe** (1), *s.* [VALANCE.]

***văl'-ençe** (2), *s.* [VALISE.]

Va-lĕn'-cĭ-a (c as sh), *s.* [See def. 2.]

1. [VALENTIA.]

2. A province on the east coast of Spain, and a city, the capital of the province.

3. (*Pl.*): Raisins grown in, and exported from Valencia.

va-lĕn'-çĭ-an-īte, *s.* [After the Valenciana mine, Mexico, where found; suff. *-ite* (*Min.*).]

Min.: A variety of orthoclase, much resembling adularia, associated with quartz.

văl-ĕn-çĭ′-ĕnnes, *s.* [See def.] A term applied to a variety of lace whose meshes are of the form of an irregular hexagon. It is formed of two threads, partly twisted and plaited at top of the mesh. The pattern is worked in the net. Named after Valenciennes, in France, where it is made.

văl-ĕn-çĭ-ĕn-nē′-sĭ-a, *s.* [Mod. Lat.; from M. Valenciennes, a French professor of the first half of the nineteenth century.]

Paleont.: A genus of Limneidæ, with one species, from a Tertiary deposit, near Kertch, Crimea. The shell resembles a gigantic Ancylus (q.v.); apex much incurved, concentric markings on surface.

vā′-lən-çy, *s.* [Lat. *valens*, pr. par. of *valeo* = to be worth, to be strong.]

Chem.: Atomicity (q.v.).

văl′-ēne, *s.* [Eng. *val(eric); -ene.*] [VALERONE.]

vă-lĕn′-tĭ-a (t as sh), *s.* [Etym. not apparent.]

Fabric: A stuff made of worsted, cotton, and silk, used for waistcoats.

văl′-ĕn-tīne, *s.* [See def.]

* 1. A sweetheart or choice made on St. Valentine's day.

> "To-morrow is St. Valentine's day,
> All in the morning betime!
> And I a maid at your window,
> To be your *Valentine.*"
>
> *Shakesp.: Hamlet,* iv. 5.

¶ According to the legend, St. Valentine was beheaded on February 14, at Rome, under Claudius. The old notion was that birds began to couple on that day, and hence arose the custom of young persons of both sexes choosing each other as "valentines" for the ensuing year by a species of lottery, and of sending love missives to each other.

2. A letter or other missive sent by young persons of both sexes to each other on Valentine's day; a printed missive of an amatory or satirical nature, generally sent by post anonymously. Some valentines are highly ornamental and artistic, while others are caricatures, designed to reflect on the personal appearance, habits, character, &c., of the persons to whom they are addressed. The practice of sending valentines appears to be diminishing year by year. Postal returns indicate a great falling off in the numbers of valentines sent during the past decade, one large office showing a decrease from 117,000 to 45,000 within five years. The sending of caricatures has equally decreased, and the veiled insults thus frequently offered have been creditably reduced. The sending of valentines is a harmless folly, which is dying out.

Văl-ĕn-tĭn′-ĭ-ans, *s. pl.* [See def.]

Church Hist.: The followers of Valentinus, an Egyptian gnostic, whose sect arose at Rome, then rooted itself deeply in Cyprus, and finally spread throughout a great part of southern Europe, western Asia, and northern Africa. He supposed that in the Pleroma (q.v.) there were thirty male and as many female æons united in wedlock, with four unmarried, these latter being Horus, Christ, the Holy Spirit, and Jesus. The youngest æon, Sophia (Wisdom), brought forth a daughter, Achamoth, whence sprang the Demiurge, who created mankind. This Demiurge, becoming puffed up with pride, aspired to be regarded as the only god, and led many angels into the same error. To repress his insolence, Christ descended, Jesus, one of the highest æons, joining him when he was baptised in Jordan. The Demiurge had him crucified; but, before his death, both Jesus the Son of God and the rational soul of Christ had separated, leaving only the sentient soul and the ethereal body to suffer. The Valentinians were divided into the Ptolemaitic, the Secundian, the Heracleonite, the Marcosian, and many other sects.

vă-lĕn′-tĭn-īte, *s.* [After Basil Valentine, an alchemist, who discovered some of the properties of antimony; suff. *-ite* (*Min.*).]

Min.: An orthorhombic mineral, occurring mostly in crystals, but occasionally massive. Hardness, 2·5 to 3; sp. gr. 5·566; lustre, adamantine to pearly; colour, white, peach-blossom red, ash-gray; streak, white; translucent to sub-transparent. Compos.: oxygen, 16·44; antimony, 83·56 = 100, whence the formula SbO_3. Results from the decomposition of various antimonial ores.

vạ-lĕr-ạ-çĕt-ō-nī′-trīle, *s.* [Eng. *valer(ic)*, and *acetonitrile.*]

Chem.: $C_{26}H_{48}N_4O_6$. A mobile, colourless liquid found in the neutral oil produced by distilling glue with potassium chromate and sulphuric acid. It has an aromatic odour, is very inflammable, burning with a faintly luminous flame, moderately soluble in water, soluble in alcohol and ether; sp. gr. 0·79 at 15°; boils between 68° and 71°.

vạ-lĕr′-ạl, *s.* [Eng. *valer(ic)*, and *al(dehyde).*]

Chem.: $C_5H_{10}O = \begin{matrix} CH_3 \\ CH_3 \end{matrix}\!\!>\!CH\cdot CH_2\cdot CHO$. Valeraldehyde, valerianic aldehyde, valeryl-hydride. A mobile, colourless liquid, discovered by Dumas and Stas. Obtained by oxidizing amylic alcohol with nitric or chromic acid, or by distilling fusel-oil with sulphuric acid. It has a burning, bitter taste, a suffocating apple-like odour, exciting coughing, is insoluble in water, but soluble in all proportions in alcohol, ether, and volatile oils; sp. gr. ·8057 at 17°, and boils at 96° under ordinary atmospheric pressure. It is very inflammable, burning with a bright blue-edged flame. When exposed to the air it is gradually converted into valerianic acid.

valeral-ammonia, *s.*

Chem.: $C_5H_{10}O\cdot NH_3 = C_5H_9(NH_4)O$. A crystalline body prepared by adding ammonia to valeral mixed with a thousand times its bulk of water. It is almost insoluble in water, soluble in alcohol and ether, melts when heated, but re-crystallizes on cooling.

vạ-lĕr′-ăl′-dĕ-hȳde, *s.* [Eng. *valer(ic)*, and *aldehyde.*] [VALERAL.]

văl-ĕr-ăl′-dīde, *s.* [VALERALDEHYDE.]

văl-ĕr-ăl′-dīne, *s.* [Eng. *valeral(ide); -ine.*]

Chem.: $C_{15}H_{31}NS_2$. A viscid oil obtained by passing sulphydric acid into valeral ammonia suspended in water. It has an alkaline reaction, a strong unpleasant odour, does not solidify at —20°, is insoluble in water, soluble in alcohol and ether, and volatilizes without decomposition.

văl-ĕr-ăm′-ĭc, *a.* [Eng. *valer(ic)*, and *amic.*] Derived from valeric acid and ammonia.

valeramic-acid, *s.*

Chem.: $C_5H_{11}NO_2 = C_5H_9(NH_2)O_2$. Amido-valeric-acid, valeramidic acid. Discovered by Gorup-Besanez in the pancreas of an ox, and prepared artificially by the action of ammonia on an alcoholic solution of bromovaleric acid. It crystallizes in colourless leaves, somewhat sublimable, is slightly soluble in water and alcohol, insoluble in ether, and unites with acids and bases to form crystallizable compounds. Heated in the air, it burns with a bluish flame; heated in a glass tube, it melts and sublimes, giving off alkaline vapours having the odour of herring-pickle.

vạ-lĕr′-ạ-mīde, *s.* [Eng. *valer(ic)*, and *amide.*]

Chem.: $C_5H_{11}NO = C_5H_9O\cdot H_2N$. The primary amide of valeric acid, produced by the action of strong ammonia on ethylic valerate. Insoluble in water, melts at 100°, subliming at a somewhat higher temperature, and, when boiled with alkalis, gives off ammonia.

vạ-lĕr-a-mĭd′-ĭc, *a.* [Eng. *valeramid(e); -ic.*] [VALERAMIC.]

văl-ĕr-ăm′-īne, *s.* [Eng. *valer(ic)*, and *amine.*]

Chem.: Wurtz's original name for amylamine.

văl-ĕr-ăn′-ĭl-īde, *s.* [Eng. *valer(ic); anil-(ine)*; and suff. *-ide.*]

Chem.: $C_{11}H_{15}NO = C_5H_{10}(C_6H_5)NO$. Phenyl-valeramide. A crystalline body, obtained by the action of valeric anhydride on aniline. It is slightly soluble in water, soluble in alcohol and ether, melts at 115°, and distils unaltered at 220°.

văl-ĕr′-ạte, *s.* [Eng. *valer(ic); -ate.*]

Chem.: A salt of valeric acid.

valerate of potassium, *s.*

Chem.: $C_5H_9KO_2$. Obtained by saturating valeric acid with potassium. It is an amorphous, white, deliquescent, saline mass, soluble in water and in strong alcohol, melts at 140°, and decomposes at a higher temperature.

văl′-ĕr-ēne, *s.* [Eng. *valer(ic); -ene.*] [AMYLENE.]

vạ-lĕr′-ĭ-an, *s.* [VALERIANA.]

Botany:

1. The genus Valeriana (q.v.).

2. *Polemonium cæruleum* (*Britten & Holland.*) [GREEK-VALERIAN, RED-VALERIAN, SPUR-VALERIAN.]

valerian-oil, *s.*

Chem.: A pale yellow or greenish oil, obtained by distilling valerian root with water. It has the odour of valerian, an aromatic taste, an acid reaction; sp. gr. 0·90–0·93; boils at 200°; becomes viscid at −15°, but does not solidify completely even at −40°. It appears to be a mixture of several substances.

valerian pug, *s.*

Entom.: Eupithecia valerianata; a rare British geometer moth, with ashy-brown wings, the caterpillar of which feeds on the common valerian.

vạ-lĕr-ĭ-ā′-na, *s.* [From Lat. *valeo* = to be strong; so named from the powerful medicinal qualities of some species.]

Bot.: Valerian; the typical genus of Valerianaceæ or Valerianeæ. Herbs, generally perennial, with radical leaves crowded, those of the stem opposite or whorled, entire or pinnatifid; flowers cymose, with bracteoles; corolla five-cleft, gibbous at the base, stamens three; fruit crowned with a feathery pappus. Known species about 130, from the North Temperate Zone and from South America. The Common Valerian (*Valeriana officinalis*) is abundant in ditches, moist woods, &c., in all parts of Europe and in northern Asia. In the United States it is a cultivated plant. The root is fleshy, the leaves pinnatifid, the stalk two to four feet high, the flowers pale flesh-colored. The root, which is warm and aromatic, is a well-known medicine, particularly so when the plant is grown in dry hilly ground. It yields a volatile oil, in which

VALERIANA OFFICINALIS.

valerianic acid is developed on exposure to the air. Some of the salts of this acid are specially valuable medicinally. The root is used in pharmacy in spasms, hemicrania, hysteria, chorea, epilepsy, hypochondriasis, and as an auxiliary to tonics in intermittents. Baths of valerian have been found of much use in acute rheumatism. In excessive doses it produces headache and mental excitement. It is highly attractive to rats, and also to cats, hence it is called Cats' Valerian; and, being much used by the poor as an application to fresh wounds, is named also All-heal. *V. Pyrenaica*, which has very large, cordate, deeply-toothed leaves, is a native of the Pyrenees. It grows in woods in Scotland, but is not indigenous. The winged seeds have been carried by the wind from adjacent gardens in which it is cultivated. *V. celtica* and *V. Saliunca*, natives of the mountains of Austria, are used in the east of Europe to aromatize baths. The roots of *V. celtica*, *V. officinalis*, and *V. Phu* are tonic, bitter, aromatic, spasmodic, vermifugal, and perhaps febrifugal. *V. sitkensis*, *Dioscoridis*, &c., are powerful stimulants. The strong-scented roots of *V. Hardwickii* and *V. Wallichii*, Himalayan species, are used in India medicinally.

vạ-lĕr-ĭ-ạ-nā′-çĕ-æ, *s. pl.* [Mod. Lat. *valeriana*, and fem. pl. adj. suff. *-aceæ.*]

Bot.: Valerianworts; an order of Epigynous Exogens, alliance Campanales. Annual or perennial scented herbs, occasionally twining. Leaves collected in rosettes at the root, or distributed upon the stem, opposite, entire, or pinnately-divided. Flowers in cymes; calyx superior, the limb membranous or resembling feathery pappus; corolla monopetalous.

tubular, inserted in the top of the ovary, two or three-lobed, regular or irregular, sometimes with a spur; stamens one to five, inserted into the tube of the corolla, and alternate with its lobes; ovary inferior, one-celled, sometimes with two other abortive cells; seed one, pendulous. Chiefly in temperate climates. Known genera twelve; species 185. (*Lindley.*)

va-lĕr'-ĭ-an-āte, *s.* [Eng. *valerian(ic); -ate.*]

1. *Chem.:* A salt of valerianic acid (q.v.).

2. *Pharm.:* Valerianate of zinc is a nervine tonic, an antispasmodic, and an anthelmintic. Valerianate of iron and that of ammonia act somewhat similarly; valerianate of soda acts like valerian root; valerianate of quinine is useful in intermittent and spasmodic neuralgic affections.

va-lĕr-ĭ-a-nĕl'-la, *s.* [Dimin. from Mod. Lat. *valeriana* (q.v.).]

Bot.: Corn-salad; a genus of Valerianaceæ. Small annuals, dichotomously branched. Flowers small, bracteate, solitary or cymose in the forks of the branches; corolla regular, funnel-shaped; stamens three; fruit two to three-celled, one-seeded. Known species about fifty, chiefly from the north temperate zone. Three of them are, *Valerianella olitoria* (= *Fedia olitoria*), Common Corn-salad or Lamb's Lettuce; *V. Auricula* (= *F. Auricula*), the Sharp-fruited Corn-salad; and *V. dentata* (= *F. dentata*), the Smooth Narrow-fruited Corn-salad. The first is from three inches to a foot high; has pale blue or rarely white flowers, in terminal compact heads and laterally compressed oblique fruit, crowned with the remains of the calyx. It grows on banks and in corn-fields, especially in a light soil, and is often cultivated as a salad. The second has lax cymes and an ovate-acuminate capsule, and is rare. The third has flesh-coloured flowers in panicled cymes, and ovate flattish capsules; it is not very common. *V. carinata*, naturalised in England, may be a variety of the first species. *V. eriocarpa* is stated to be a casual in Worcestershire.

va-lĕr-ĭ-ăn'-ĭc, *a.* [Eng. *valerian; -ic.*] Pertaining to or derived from valerian.

valerianic-acid, *a.* [Valeric-acid.]

valerianic-aldehyde, *s.* [Valeral.]

va-lĕr'-ĭ-an-wŏrt, *s* [Eng. *valerian*, and *wort.*]

Bot. (Pl.): Lindley's name for the Valerianaceæ (q.v.).

va-lĕr'-ĭc, *a.* [Eng. *valer(ian); -ic.*] Contained in or derived from valerian-root.

valeric-acid, *s.*

Chem.: $C_5H_{10}O_2 = \left.\begin{matrix}C_5H_9O\\H\end{matrix}\right\}O$. Delphinic acid; Phocenic acid; Butylcarbonic acid; Valerianic acid. A monobasic acid, first obtained by Chevreul, in 1817, from the fat of *Delphinum phocœna*, but found widely diffused throughout the vegetable kingdom, in valerian root, angelica root, and in many plants of the composite order. It is prepared artificially by oxidising amylic alcohol with a mixture of strong sulphuric acid and acid potassic chromate. When pure, it is a colourless, mobile oil, having a sour, burning taste; sp. gr. 0·937 at 16°; slightly soluble in water, soluble in alcohol and ether and in strong acetic acid; does not solidify at −16°, and boils at 184°. With the bases, it forms salts called valerates, none of which is of any importance.

valeric-aldehyde, *s.* [Valeral.]

valeric-anhydride, *s.*

Chem.: $C_{10}H_{18}O_3 = ((CH_3)_2 : CH{\cdot}CH_2{\cdot}CO)_2O$. Valeric oxide; Valeric valerate. A colourless, mobile oil, prepared by distilling valerate of potassium with oxychloride of phosphorus, washing the distillate with sodic carbonate, dissolving in ether, and evaporating. It has a faint odour of apples; sp. gr. 0·934 at 15°; is soluble in ether, and boils at 215°. Water slowly absorbs it, converting it into valeric acid; with alcohol it forms ethylic valerate. [Valeric-ethers.]

valeric chloride, *s.*

Chem.: $C_5H_9O_2Cl$. A colourless, mobile, fuming liquid, produced by the action of phosphorous chloride on valeric acid. It has a sp. gr. of 1·005 at 6°, boils at 117°, and is easily decomposed by water into hydrochloric and valeric acids.

valeric-ethers, *s. pl.*

Chem.: Prepared by distilling sodium valerate with sulphuric acid and the corresponding alcohols: (1) Methylic valerate, $C_5H_9(CH_3)O_2$, is a colourless liquid, with an odour of valerian and wood spirit; sp. gr. 0·8869 at 15°; boils at 116°. (2) Ethylic valerate, $C_5H_9(C_2H_5)O_2$, is a colourless liquid, of a fruity odour; slightly soluble in water, soluble in alcohol; sp. gr. 0·866 at 15°; boils at 133°.

valeric-oxide, valeric-valerate, *s.* [Valeric-anhydride.]

văl'-ĕr-ĭn, *s.* [Eng. *valer(ic)*, and *(glycer)in.*]

Chem. (Pl.): A series of glycerides obtained by heating valeric acid with glycerin: (1) Monovalerin, $C_8H_{16}O_4 = (C_3H_5)'''(HO)_2(C_5H_9O_2)$. An oily neutral liquid produced by heating valeric acid with excess of glycerin to 200° for three hours. It has a faint odour; sp. gr. 1·100 at 15°; mixes with half its bulk of water to a clear liquid, but separates on the addition of more water, and is decomposed by alcohol, even in the cold. (2) Divalerin, $C_{13}H_{24}O_5 = (C_3H_5)'''{\cdot}HO{\cdot}(C_5H_9O_2)_2$. A neutral oily liquid, obtained by heating valeric acid and glycerin to 275°. It has a disagreeable, fishy odour; sp. gr. 1·059 at 15°, solidifies at −40°, and does not mix readily with water. (3) Trivalerin, $C_{18}H_{32}O_6 = (C_3H_5)'''(C_5H_9O_2)_3$. A neutral oily liquid, produced by heating divalerin to 220°, with ten times its weight of valeric acid. It has an unpleasant odour, is insoluble in water, but soluble in alcohol and ether.

văl-ĕr-ĭs'-ĭc, *a.* [Eng. *valer(ic);* Gr. ἴσος (*isos*) = the same as, and Eng. suff. *-ic.*] Contained in or derived from valeric acid.

valerisic-acid, *s.*

Chem. (Pl.): Laurent's name for the substitution products of valeric acid, in which three atoms of hydrogen are replaced by chlorine or other radicles, *e.g.*, chlorovalerisic acid, $C_5H_7Cl_2O_2$. In like manner, those products in which four atoms of hydrogen are thus replaced, are called valerosic acids.

văl-ĕr-ō-dī-chlōr-hȳ'-drĭn, *s.* [Eng. *valero(l)*, and *dichlorhydrin.*]

Chem.: $C_8H_{14}O_2Cl_2 = (C_3H_5)'''(C_5H_9O)O{\cdot}Cl_2$. A mobile liquid, produced by heating epichlorhydrin with valeric chloride to 100°. It smells like amylic acetate, has a sp. gr. of 1·149 at 11°, and boils at 245°.

văl-ĕr-ō-glўç'-ĕr-ăl, *s.* [Eng. *valero(l); glycer(in)*, and suff. *-al.*]

Chem.: $C_8H_{16}O_3 = \left.\begin{matrix}(C_3H_5)'''\\H\\(C_5H_{10})''\end{matrix}\right\}O_3$. A liquid obtained by heating valeral with glycerin to 180°, for twenty-four hours. It is insoluble in water, soluble in alcohol, sp. gr. 1·027 at 0°, and boils at 224°—228°.

văl-ĕr-ŏl', *s.* [Eng. *valer(ian); -ol.*]

Chem.: $C_5H_{10}O$? Produced by rapidly distilling valerian oil in a stream of carbonic anhydride. It crystallizes in colourless, transparent prisms, slightly soluble in water, soluble in alcohol, ether, and volatile oils, melts at 20°, and then remains liquid at ordinary temperatures.

văl ĕr-ō-lăc'-tĭc, *a.* [Eng. *valero(l)*, and *lactic.*] Contained in or derived from valeric and lactic acids.

valerolactic-acid, *s.*

Chem.: $C_5H_{10}O_3$. Produced by heating bromovaleric acid with silver oxide and water. Its zinc salts crystallize readily.

văl'-ĕr-ōne, *s.* [Eng. *valer(ic); -one.*]

Chem.: $C_9H_{18}O = \left.\begin{matrix}C_5H_9\\C_4H_9\end{matrix}\right\}O$. Valene, valeryl-butyl, valeroyl-butyloxide. A transparent, colourless, mobile liquid, obtained by the dry distillation of calcium valerate, mixed with one-sixth of its weight of lime. It is lighter than water, has an ethereal odour and burning taste, soluble in alcohol and ether, sp. gr. 0·823 at 20°, and boils at 181°.

văl'-ĕr-ō-nĭ'-trĭle, *s.* [Eng. *valero(l)*, and *nitrile.*]

Chem.: $C_5H_9N = C_4H_9{\cdot}CN$. Butylic cyanide. A colourless oil, produced by heating valeric acid with potassic sulphocyanate. It has the odour of bitter almonds, sp. gr. 0·8164 at 0°, and boils at 140°.

văl'-ĕr-ō-nȳl, *s.* [Eng. *valeron(e); -yl.*]

Chem.: Lowig's name for the hydro-carbon C_4H_9. (*Watts.*)

văl ĕr-ŏx' ȳl, *s.* [Eng. *valer(ic); ox(atyl); -yl.*] [Valeryl.]

văl'-ĕr-ōȳl, *s.* [Eng. *valero(ne); -yl.*]

Chem.: A name applied to the hydro-carbon C_9H_{17}, according to which denomination valerone may be designated as hydride of valeroyl. C_5H_9H; valerone as valeroyl butyloxide, $C_5H_9{\cdot}C_4H_9O$, &c. (*Watts.*)

văl'-ĕr-ȳl, *s.* [Eng. *valer(ic); yl.*]

Chem.: C_5H_9O. Valeroxyl. The radicle of valeric acid and its derivatives, obtained in the free state by the action of sodium on ethylic valerate.

valeryl butyl, *s.* [Valerone.]

valeryl-chloride, *s.* [Valeric-chloride.]

valeryl hydride, *s.* [Valeral.]

valeryl protoxide, *s.* [Valeric-anhydride.]

văl'-ĕr-ȳl-ēne, *s.* [Eng. *valeryl; -ene.*]

Chem.: C_5H_8. A colourless, mobile liquid, homologous with acetylene, obtained by heating amylene bromide, with a concentrated alcoholic solution of potash, to 140° for several hours, washing the resulting product with water, distilling, and collecting the liquid which passes over between 44° and 46°. It has a pungent alliaceous odour, is insoluble in water, soluble in alcohol, boils at 46°, and has a vapour density of 2·356.

***văl'-ĕt,** *v.t.* [Valet, *s.*] To attend on, as a valet.

"Some dandy old Brown, whom he had *valeted* in the middle of the last century."—*T. Hughes: Tom Brown's Schooldays*, pt. i., ch. ii.

văl'-ĕt (or as **văl'-ē**), ***val-ĕtt,** *s.* [Fr. *valet* = a groom, a yeoman. The same word as Varlet (q.v.).]

1. A man-servant who attends on his master's person; a valet-de-chambre. *Valets* or *varlets* were originally the sons of knights, and afterwards of the nobility, before they obtained the age of chivalry.

"The king made him his *valett* (equivalent to what afterward was called gentleman of the bedchamber)."—*Fuller: Worthies; Yorkshire.*

2. *Manège:* A kind of goad or stick armed with a point of iron.

* **1.** Strong, powerful, efficient.

"Perhaps more *valid* armes,
Weapons more violent, when next we meet,
May serve to better us." *Milton: P. L.*, vi. 433.

2. Supported or grounded on actual fact; well-grounded, sound; capable of being justified or defended; not weak or defective; well-based: as, a *valid* argument, a *valid* excuse.

3. Having sufficient legal strength or force; good or sufficient in point of law; incapable of being lawfully overthrown or set aside; executed with the proper formalities; binding in law.

"Bonds of resignation on demand have been declared by the temporal judges *valid*."—*Secker: Charge to the Clergy* (an. 1747).

***văl-i-dāte,** *v.t.* [Low Lat. *validatus*, pa. par. of *validō* = to make strong, from Lat. *validus* = strong.]

1. To make or declare valid; to confirm.

"All the elections are *validated*."—*Standard*, Nov. 11, 1885.

2. To test the validity of: as, To *validate* votes.

***văl-i-dā-tion,** *s.* [Fr., from Low Lat. *validatus*, pa. par. of *validō* = to validate (q.v.).] The act of giving validity.

"The *validation* of the elections."—*Daily Telegraph*, Nov. 11, 1885.

va-lid-i-tў, *va-lid-i-tie, *s.* [Fr. *validité*, from Lat. *validitatem*, accus. of *validitas*, from *validus* = strong, valid (q.v.).]

* **1.** The quality or state of being strong; strength, power.

"Purpose is but the slave to memory
Of violent birth, but poor *validity*."
Shakesp.: Hamlet, iii. 2.

2. Strength or force derived from resting on or being supported by fact; soundness, justness, validness: as, the *validity* of an argument.

3. Legal strength or force; sufficiency in point of law.

"Making inquiry into the *validity* of their assumed titles."—*Cook: Third Voyage*, bk. ii., ch. vi.

* **4.** Value.

"No less in space, *validity*, and pleasure,
Than that conferred on Gomeril."
Shakesp.: Lear, i. 1.

văl-id-lў, *adv.* [Eng. *valid*; *-ly.*] In a valid manner; so as to be valid.

văl-id-nèss, *s.* [Eng. *valid*; *-ness.*] The quality or state of being valid; validity.

va-linçh', vĕ-linçhe', *s.* [Etym. doubtful.] A tube for drawing liquors from a cask by the bunghole.

va-lise', *val-lies, *val-lise, *s.* [Fr. *valise*, a word of doubtful origin; Sp. *valija*; Ital. *valigia*.] A small leather bag or portmanteau to hold a traveller's equipment for short journeys, &c.; a portmanteau.

"Sealed up
In the *vallies* of my trust, locked close for ever."
Ben Jonson: Tale of a Tub, iii. 1.

Val-kўr, Val-kўr'-i-ạ, *s.* [Icel. *valkyrja*, from *valkr* = the slain.]

Scand. Myth. (*Pl.*): One of the twelve nymphs of Valhalla. They were armed and mounted on fleet horses, and in the thick of battle they selected those whom the Fates had destined to be slain, and conducted them to Valhalla, and served them with mead and ale in the skulls of their enemies. [WISH-MAIDENS.]

"The *Valkyrs* are choosers of the slain: a destiny inexorable, which it is useless trying to bend or soften, has appointed who is to be slain."—*Carlyle: Heroes*, lect. i.

"Ourself have often tried
Valkyrian hymns." *Tennyson: Princess*, iv. 121.

***văl-lạn-çy,** *s.* [VALANCY.]

***văl-lar,** *a.* & *s.* [Lat. *vallaris*, from *vallum* = a palisaded rampart, from *vallus* = a stake.]

A. *As adj.*: Of or pertaining to a rampart or palisade.

B. *As subst.*: A vallar-crown (q.v.).

"Garlandes, *vallares*, and myralles."—*Udal: Apoph. of Erasmus*, p. 284.

vallar-crown, *s.*

Roman Antiq.: A crown of gold presented to the soldier who first surmounted a vallum, and forced an entrance into an enemy's camp.

văl-lar-ĭs, *s.* [Lat. *vallaris* = pertaining to a rampart; *vallum* = a rampart. So named because one species is used in Java for fences.]

Bot.: A genus of Parsonseæ (q.v.). Twining Indian shrubs, with opposite leaves, dichotomous interpetiolar peduncles, salver-shaped corollas and follicular fruit.

***văl-lar-ў,** *a.* [Lat. *vallaris.*] The same as VALLAR (q.v.).

***văl-lā-tion,** *s.* [Lat. *vallum* = a palisaded rampart.] A rampart, an entrenchment, a fortification.

"The *vallation* south-west of Dorchester in this county."—*Warton: Hist. Kiddington*, p. 70.

***văl-lạ-tòr-ў,** *a.* [VALLATION.] Of or pertaining to a rampart or vallum. (See extract under SCRIPTORY, 2.)

văl-lĕ-ạ, *s.* [Named by Mutis after Robert Valle of Rouen.]

Bot.: A genus of Elæocarpeæ (q.v.). Peruvian trees, with entire cordate leaves, large leafy stipules, five overlapping petals, many stamens, and a muricate capsular fruit.

văl-lĕc'-u-la, *s.* [Mod. Lat. = Class. Lat. *vallicula* (q.v.).]

Anat.: A deep fossa separating the hemispheres of the cerebellum. (*Quain.*) Called also a Valley.

văl-lèr-i-ite, *s.* [After the Swedish mineralogist Vallerius; suff. *-ite* (*Min.*).]

Min.: A mineral of very complex composition, occurring as nodular masses in a dark-greenish limestone at Nya Kopparberg, Wermland, Sweden. Soft, yielding to the nail, and marking paper like graphite; sp. gr. 3·14; colour resembling that of pyrrhotite; lustre metallic. From several analyses the formula $2CuSFe_2S_3 + 2MgFe_2O_3 + 4HO$ is deduced, which, as Dana suggests, appears to be a very doubtful compound.

văl-leў, *vale, *val-eie, *s.* [O. Fr. *valee*; Fr. *vallée*, from *val* = a vale (q.v.); Ital. *vallata.*]

I. *Ord. Lang.*: A hollow or depression in the surface bounded by hills or mountains, and generally traversed by a stream or river, which receives the drainage of the surrounding heights; a vale.

"On the 3rd, Mr. Banks set out early in the morning with some Indian guides, to trace our river up the *valley* from whence it issues, and examine how far its banks were inhabited."—*Cook: First Voyage*, bk. i. ch. xvi.

¶ A level tract of great extent and traversed by two or more rivers is, properly speaking, not a valley, but a plain; deep, narrow river-courses are more correctly designated as gorges, glens, ravines, &c.

II. *Technically*:

1. *Anat.*: [VALLECULA].

2. *Arch.*: The internal angle formed by the junction of two inclined sides of a roof.

3. *Geol.*: A long depression or hollow on the surface of the earth, margined by ground more or less high. It may be on a vast scale of magnitude, as the bed of an ocean would be if upheaved sufficiently to become land, or it may be comparatively small but broad as a Scottish strath; or narrow, as what is called in that country a glen or a deep gorge, called by the Spanish-Americans a cañon. It may be surrounded by hills, or may constitute a depression crossing a country from sea to sea. Valleys of stratification are produced by the decay and removal of shale or other soft rocks, while the less destructible hard rocks remain. Thus the limestones of the Oolite cross England diagonally in parallel lines, while the intervening shales and clays have left valleys in their place. Other valleys have been excavated by rivers alone. Many valleys on low-lying plains adjacent to the sea have originally constituted river-beds and banks, then through a depression of the land the ocean has gained access to them, constituting them estuaries; then again upheaval has made them land-valleys. Other valleys have constituted the beds of old lakes. Valleys, resembling troughs, on table-lands are in many cases produced by the flexure of strata laterally, so as to constitute a series of elevations and depressions. A small number of valleys occurring high up mountain-sides may constitute old craters of eruption.

Valley of death tree:

Bot.: The Upas-tree (q.v.).

valley-board, *s.*

Arch.: The board fixed upon the valley-rafter for the leaden gutter to lie upon.

valley rafter, valley piece, *s.*

Arch.: The rafter which supports the valley.

***văl-leў-lĕt,** *s.* [Eng. *valley*; dimin. suff. *-let.*] A little valley.

"Stream and valley, streamlet and *valleylet*."—*Greenwood: Rain & Rivers* (1866), p. 188.

văl-lic-u-la, *s.* [Dimin. from Lat. *vallis* = a valley.]

Bot.: One of the intervals between the ribs of the fruit of Umbellifers.

văl-lis-nër'-ĕ-æ, văl-lis-nër-i-ā'-çe-æ, *s. pl.* [Mod. Lat. *vallisneria*; Lat. fem. pl. adj. suff. *-eæ*, *-aceæ.*]

Bot.: A tribe of Hydrocharidaceæ, having the ovary one-celled.

văl-lis-nër'-i-ạ, *s.* [Named after Antonio Vallisneri (1661–1730), F.R.S., medical pro-

fessor in the University of Padua, and an eminent Italian botanist.]

Bot.: The typical genus of Vallisneræ (q.v.). Fresh-water plants, with dioecious flowers. Males on a spadix, corolla monopetalous, with three segments. Females singly in a spathe, on a spiral peduncle; calyx monophyllous, corolla polypetalous, capsules one-celled, many-seeded, the seeds attached to a parietal placenta. Both sexes grow at the bottom of running water, and to effect fertilization the spiral peduncle of the female flower elevates it to the surface of the stream as the male flowers are floating past. There are two species, one, *Vallisneria spiralis*, found in various warm or hot countries, including the south of Europe; the other Australian. The leaves of the first are beautiful objects for the microscope, as they exhibit the movements of the fluids within. *V. alternifolia* (Roxburgh), a sub-species of *V. spiralis*, is one of the plants used in India mechanically to supply water to sugar when it is being refined.

VALLISNERIA SPIRALIS.
1. Female Flower. 2. Male Flower.

4. Estimate of the worth of a thing; valuation; appreciation of worth.

"Green tale, upon which they set a high *value*."—*Cook: First Voyage*, bk. iv., ch. x.

5. Price equivalent to the intrinsic worth of a thing; equivalent.

"His design was not to pay him the *value* of his pictures, because they were above any price."—*Dryden.*

6. Market price; the price for which a thing is sold or which it will fetch; amount obtainable for a thing: as, The *value* of a thing is what it will fetch.

7. Import, signification: as, the *value* of a word or phrase.

* 8. Esteem, regard.

"My *value* for him so great."—*Burnet.* (*Webster.*)

II. *Technically:*

1. *Music:* The relative length or duration of a tone or note: as, A semibreve is of the *value* of two minims, or four crotchets, or eight quavers, &c.

2. *Polit. Econ.:* The value of any economic quantity is any other economic quantity for which it can be exchanged. (*McLeod.*) Worth as estimated by the power of purchasing or being exchanged for other commodities; the command which the possession of a thing gives over purchasable commodities in general. *Value* differs from price, in that the latter always expresses the value of a thing in relation to money.

¶ *Intrinsic Value. Standard of Value.* Jevons, Macleod, Walker, Watson, and other contemporary economists hold that, strictly speaking, *value* is the relation or ratio in exchange that one thing bears to other things, and, therefore, that it cannot be inherent or reside in any one thing. The idea of value never arises until one object is confronted with another; hence, while a single object may be said to possess *purchasing power*, it cannot alone possess *value*. Jevons asserts that value is the "accident of a thing arising from the fact that someone wants it," from which he argues that intrinsic value is absurd—"a nonentity." In this view, a standard of value is also absurd, since "standard of accident" or "standard of ratio" are terms quite as ridiculous as "intrinsic accident" or "intrinsic ratio." Again, ratios may be numerically expressed, but cannot be measured. This reduces the scientific definition of value to: *A numerical expression of values of exchangeability*; which renders a material standard of value not only absurd but actually impossible. In common use, however, by intrinsic value is really meant the price which an object will command in current money, and the term standard of value refers to a system which seeks to make a money of account conform to the purchasing power of a certain commodity. Both of these uses are manifestly incorrect and misleading, from the standpoint of the eminent economists named above.

văm pire, *s.* & *a.* [Fr., from Ger. *vampyr*, from Servian *vampir*, *vampirui*, Bul. *upir*] Hung. *upir* = a vampire.]

A. As substantive:

I. [illegible]:

1. A kind of [illegible] supposed to suck out the heart and entrails, on which the blood of the victims. This superstition had its rise in the dismal of savage animals to account for the fact that certain patients are seen to [illegible] day by day, without any apparent cause, thin, weak, and inanimate, and is found among the Kaffirs, in Polynesia, and in the Malay Peninsula. But it is in Slavonia and [illegible] that the vampires have their special home, and it is from these parts [illegible] that their name of "vampire" is derived. According to Tylor, there are two theories of vampirism. The first is, that the soul of a living man, usually a sorcerer, leaves its own body and goes back to the earth in [illegible] a piece of dust and attacks [illegible] the victim, should the sleeper awake and clutch the unbidden dead, he may through it have his revenge by maltreating in the [illegible] body. The second theory is that the soul of a dead man comes out from the buried corpse to suck the blood of living men. The corpse, thus supplied by its [illegible] with blood, is believed to remain [illegible] and unable to feed, accordingly the most effective way to [illegible] is to open the grave, when the [illegible] corpse will be found to bleed when cut, and even to move and shriek. One way to lay a vampire is to stake down the corpse (as with [illegible] and keep the [illegible] [illegible] But the most effectual process is [illegible] it. (*Tylor, Early Hist. văm'-pyr-ī, *s. pl.* [Vampyrus.]

Zool.: A group of Bats, sub-family Phyllostominæ, with thirteen genera, from the Neotropical region. Muzzle long and narrow in front; distance between the eyes generally less than distance from the eye to extremity of muzzle; nose-leaf well developed, horse-shoe-shaped in front, lanceolate behind; interfemoral membrane well-developed; tail generally distinct. Nearly all the species appear to be insectivorous, so that the name applied to this group cannot be considered indicative of their habits. A few, if not all, probably supplement their insect diet with fruit.

văm-pyr'-ŏps, *s.* [Mod. Lat. *vampyr(us)*, and Gr. ὤψ (*ops*) = the countenance.]

Zool.: A genus of Stenodermata, with three species, from the Mexican and Brazilian subregions.

văm-pyr'-ŭs, *s.* [A name suggested to Geoffroy, and adopted by Spix, from the supposed blood-sucking habits of the genus.]

Zool.: The type-genus of the group Vampyri (q.v.), with two species, from the Neotropical region. There are two species: *Vampyrus spectrum*, about eight inches long, commonly called the Vampire-bat, and erroneously said to be sanguivorous, the observations of modern travellers having shown that it feeds on fruit and insects; and *V. auritus*, a somewhat smaller bat.

vanadin bronzite, *s.*

Min.: A bronzite said to contain vanadic acid.

vąn-ăd'-ĭn-īte, *s.* [Eng. *vanadi(um)*; *n* connect., and suff. *-ite* (*Min.*); Ger. *vanadinit*, *vanadinbleierz*, *vanadinbleispath.*]

Min.: A mineral occurring mostly in simple hexagonal prisms, but sometimes with other forms. Hardness, 2·7 to 3; sp. gr. 6·6623 to 7·23; lustre, resinous; colour, light brownish-yellow, straw yellow, reddish-brown; bright red; streak, white to yellowish; sub-translucent to opaque; fracture, uneven, brittle; Compos.: vanadate and chloride of lead, with the formula $3Pb_3(VO_4)_2 + PbCl_2$. Isomorphous with pyromorphite. Recently found in beautiful crystals of a bright red colour in Colorado.

vąn-ăd'-ĭ-ō-līte, *s.* [Eng. *vanadi(um)*; *o* connect., and Gr. λίθος (*lithos*) = a stone.]

Min.: A somewhat doubtful mineral species; occurs in small crystals with lavroffite at Sludianka, Lake Baikal, Asiatic Russia. Sp. gr. 3·96; colour, dark green to black; lustre, vitreous. An analysis yielded Hermann, silica, 15·61; alumina, 1·10; protoxide of iron, 1·40; lime, 34·43; magnesia, 2·61; vanadic acid, 44·85 = 100, the formula for which he gives as $3ROSiO_2 + 6CaO,(VO_4 + 2VO_5)$.

văn'-ą-dīte, *s.* [Vanadinite.]

vą-nā'-dĭ-ŭm, *s.* [Latinised from *Vanadis*, a name of the Scandinavian goddess Freyja, from the fact of its discovery in Swedish iron.]

Chem.: A metallic pentad element, discovered by Sefstrom in 1830, in the refinery slag of the iron ores of Taberg, in Sweden; symbl., V; at. wt., 51·2. It is extracted from the finely-pulverised slag by deflagrating with nitre and sodic carbonate, digesting the fused mass with a saturated solution of sal-ammoniac, and igniting the product in an open vessel. On heating the mass with potassium, and washing with water, pure vanadium is obtained as a brilliant metallic powder, having a silver white lustre. It is non-volatile, does not tarnish in the air, burns vividly when heated in oxygen, is insoluble in hydrochloric acid, dissolves slowly in hydrofluoric acid, but very rapidly in nitric acid, forming a blue solution. It forms five oxides analogous to the oxides of nitrogen, and three chlorides, viz., the dichloride, the trichloride, and the tetrachloride.

vanadium oxides, *s. pl.*

Chem.: Vanadium forms four oxides: (1) Vanadium dioxide, V_2O_2, is obtained by reducing either of the higher oxides with potassium. It forms a light gray glittering powder, having a sp. gr. of 3·64, and is insoluble in sulphuric and hydrochloric acids. (2) Vanadium trioxide, V_2O_3, is obtained by igniting the pentoxide in hydrogen gas. It is a black powder, with an almost metallic lustre, and is insoluble in acids. (3) Vanadium tetroxide, V_2O_4, is obtained by allowing the trioxide to absorb oxygen at ordinary temperatures, forming blue shining crystals. It is soluble in acids, and combines with bases forming vanadites, none of which is of any importance. (4) Vanadium pentoxide, V_2O_5, is prepared by igniting vanadate of ammonium in an open platinum crucible. It has a more or less reddish yellow colour, is tasteless, and dissolves in the stronger acids, forming red or yellow solutions.

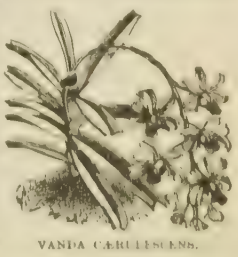
văn'-ą-dŏus, *a.* [Mod. Lat. *vanad(ium)*; Eng. adj. suff. *-ous.*] Of or pertaining to vanadium.

***văn-cŏu'-rĭ-èr, *vant cur reur, *van-cur rier,** *s.* [Fr. *avant-courrier*, *avant-coureur*, from *avant* (Lat. *abante*) = from in front, and *courrier*, *coureur* = a runner, a courier (q.v.).] An avant-courier, a precursor.

"But the most part of them [diseases] have their *vantcurriours* as it were."—*P. Holland: Plutarch*, p. 508.

văn'-dą, *s.* [Sanso. *vánda* = a parasitic plant, generally considered to be of this genus, but regarded by Prof. Watt as *Loranthus longiflorus.*]

Bot.: The typical genus of Vandeæ (q.v.). Leaves distichous, coriaceous, from a few inches to two feet in length. Flowers in racemes, beautifully coloured—blue, red, yellow, brown, &c.—and highly fragrant. They occur in India, China, the Moluccas, &c., as parasites upon trees in dense forests, from which they have been introduced into hot-houses in Great Britain and elsewhere. They may be attached to a piece of wood or a wire-basket, as their nourishment is derived from the atmosphere and not from the soil. More than twenty species are known. The fragrant root of *Vanda Roxburghii* is given by Hindoo doctors in various forms in rheumatism. It also enters into the composition of several medicinal oils.



VANDA CÆRULESCENS.

Văn'-dal, *s. & a.* [Lat. *Vandalus* = a Vandal, one of the tribe of Vandals, lit. = the wanderers; cogn. with Eng. *wander* (q.v.).]

A. *As substantive:*

1. *Lit.:* One of a Teutonic race, originally inhabiting the southern shore of the Baltic. They began to be troublesome to the Romans A.D. 160. In A.D. 410 they mastered Spain in conjunction with the Alani and Suevi, and received for their share Vandalitia (Andalusia). In A.D. 429 they crossed into Africa under Genseric, and not only obtained possession of Byzacium, Gætulia, and part of

Numidia, but crossed over into Italy (A.D. 455), and plundered Rome. After the death of Genseric the Vandal power declined.

2. *Fig.*: One who wilfully or ignorantly destroys or disfigures any work of art, literature, or the like.

B. *As adj.*: Pertaining to or resembling the Vandals; Vandalic.

Van dal ic, *a.* [Eng. *Vandal*; *-ic.*] Of or pertaining to or resembling the Vandals; hence, rude, barbarous, ferocious, hostile to the arts and sciences.

Vän dal işm, *s.* [Eng. *Vandal*; *-ism.*] The spirit, practice, or conduct of the Vandals; wilful or ignorant destruction of works or monuments of art and literature; hostility to or irreverence for art and literature; disregard for what is beautiful or venerable.

"The removal of the stone sea horses which disfigure the pediment will be met with a cry of *Vandalism*."—*Daily Telegraph*, Feb. 23, 1888.

vän dē æ, *s. pl.* [Mod. Lat. *vand(a)*; Lat. fem. pl. adj. suff. *-eæ.*]

Bot.: A tribe of Orchidaceæ; parasitic on terrestrial plants, with or without a stem, with a terminal or rarely a dorsal anther, the pollen cohering in definite waxy masses; a distinct candicle united to a stigmatic gland. Found in Asia and America. Families: Sarcanthidæ, Cryptochilidæ, Pachypetalidæ, Maxillaridæ, Catasetidæ, Ionopsidæ, and Calanthidæ.

vän dĕl li a, *s.* [Named after Dominico Vandelli, professor of botany at Lisbon, who died about 1815.]

1. *Bot.*: A genus of Linderniæ, found in Southern Asia, South America, &c. Flowers axillary, tufted, calyx tubular or campanulate, five-toothed; upper lip of the corolla shorter than the lower one; anthers coherent; fruit a globose capsule, two-valved, with many seeds. *Vandellia diffusa*, a native of Guiana, where it is called by the Dutch Bitter-blaue, is an antibilious emetic and febrifuge given in malignant fevers and dysentery.

2. *Ichthy.*: [STERNOPTYCHIDÆ].

vän dyke, * **vän dyok,** *s.* & *a.* [After the painter Vandyke (1599–1641).

A. *As subst.*: A pointed collar of lace or sewed work worn by both sexes during the reign of Charles I., and to be seen in portraits painted by Vandyke.

CHARLES I., WEARING A VANDYKE.

"Laced handkerchiefs resembling the large falling band worn by the men were in fashion among the ladies. This article of dress has been lately revived, and called a *Vandyck*."—*Granger: Biog. Hist. Chas. I.*

B. *As adj.*: Applied to the style of dress in which Vandyke painted his portraits.

vandyke brown, *s.* A pigment obtained from a kind of peat or bog-earth of a fine, deep, semi-transparent brown colour. It owes its name and reputation to the supposition that it was the brown used by Vandyke in his pictures.

vän dyke, vän dyok', *v.t.* [VANDYKE, *s.*] To scallop the edge of, as a piece of dress, after the manner of a Vandyke collar.

"The edges are best scalloped or *vandyked*, while the foundation ought to be silk."—*Daily Telegraph*, Feb. 20, 1888.

* **vane,** *s.* [VANE.]

vane, * **fane,** *s.* [A.S. *fana* = a small flag; cogn. with Dut. *vaan*; Icel. *fani*; Dan. *fane*; Sw. & Goth. *fana*; M. H. Ger. *fano*; Ger. *fahne*; Lat. *pannus* = a piece of cloth; Gr. πανος (*panos*) = the woof.]

1. A contrivance attached to an axis, and having a surface exposed to a moving current of fluid, so as to be actuated thereby. A vane indicates direction or rate of motion, the amount of fluid passing, or it may be used to obtain power; specifically—

(1) A weather-cock, flag, or arrow, or other thin object, which points in the direction whence the wind proceeds. [DOG-VANE.]

(2) The arm of a windmill; the wing of a fan.

(3) The blade of a screw-propeller and the like.

* 2. A flag carried by a knight in a tournament.

3. The broad part of a feather on either side of the shaft; the web.

4. A cross-piece on a levelling-staff (q.v.).

5. The sight of a quadrant or similar instrument for the measurement of angles.

vạ nĕl lūs, *s.* [The name was formerly spelt *vannellus*, as the diminu. from Lat. *vannus* = a fan. (*Charleton*: *Exercitationes*, in *Yarrell*: *Brit. Birds* (ed. 4th), iii. 283, Note †.)]

Ornith.: A genus of Charadriidæ (or, if that family is divided, of Charadriinæ), with three species, from Palæarctic and Neotropical regions. Bill straight, shorter than head, slightly compressed, points horny and hard; nasal groove wide, nostrils basal, linear, in the membrane of nasal groove; legs slender, lower part naked; tarsi reticulated behind, scutellated in front; feet four-toed, three before, united at the base by a membrane, hind toe very short, articulated on tarsus; wings large, tuberculated or spurred in front of the carpal joint; third and fourth quill-feathers longest. One species, *Vanellus cristatus*, the Lapwing (q.v.), is common in Europe and Asia.

vạ nēs sạ, *s.* [Mod. Lat., from Gr. Φάνης (*Phanês*) = a mystic divinity in the Orphic rites.]

1. *Entom.*: The typical genus of the subfamily Vanessinæ, or Vanessidi. Antennæ with the club somewhat prolonged; fore wings with a distinct projection in the hind margin above the middle, the inner margin nearly straight; hind wings generally with a short projection in the hind margin. Caterpillar spiny. Among well known species are, *Vanessa Atalanta* (= *Pyrameis atalanta*, Newman), the Red Admiral [ADMIRAL, C. 1]; *V. io*, the Peacock Butterfly (q.v.); *V. antiopa*, the White-bordered Butterfly (q.v.), called also the Camberwell Beauty; *V. polychloros*, the Large, and *V. urticæ*, the Small Tortoiseshell. [TORTOISESHELL BUTTERFLY.] Sometimes the Comma Butterfly, *Grapta C. album*, is called *Vanessa C. album*, and ranked as a sixth species. Darwin (*Descent of Man*, ed. 2nd, p. 311) notes the resemblance of the closed wings of some species to the bark of trees; but, in spite of their protective colouring, they are palatable to birds and lizards (*Proc. Zool. Soc.*, 1887, p. 263).

VANESSA IO.

2. *Palæont.*: There is a species, *Vanessa plato*, in the Oligocene of Radoboj, in Croatia. The pattern of the wing has escaped obliteration. Called also *Mylothritis plato*, and supposed by some to belong to the Pierinæ.

vän ès si næ, vạ nes si dı, * *pl.* [Mod. Lat. *vanessa(*); Lat. fem. pl. adj. suff. *-inæ*, or masc. *-idi.*]

Entom.: Angle-wings; a sub-family of Nymphalidæ. Wings angled; caterpillar spiny, of uniform thickness throughout, often living gregariously; chrysalis angulated, head cased, the points sharp and salient. Genera and species numerous.

vän fōsse, *s.* [Fr. *avant* = before, and *fosse* (Lat. *fossa*) = a ditch.]

Fort.: A ditch on the outside of the counterscarp.

văng, *s.* [Dut. *vangen*; Ger. *fangen*; Eng. *fang* = to catch.] [FANG, *v.*]

Naut.: A rope, one on each side, to steady laterally the peak of a gaff. It is usually a pendant, with a twofold purchase.

* **vàng,** *v.t.* & *i.* [Etym. doubtful.]

A. *Trans.*: To receive, to earn; to catch, to throw. (*Halliwell.*)

B. *Intrans.*: To answer for a person at the baptismal font. (*Bay.*)

vàn -gạ, *s.* [Latinised from native name.]

Ornith.: A genus of Laniidæ (or, if that family is divided, of Thamnophilinæ), with four species, from Madagascar. Bill moderate, straight, compressed, keeled, with tip curved; angle of mouth armed with bristles; nostrils lateral, basal, rounded; tail rather long, graduated. The plumage, which is green-black and pure white, is very conspicuous.

vàn ġeē, *s.* [Etym. doubtful.]

Naut.: A contrivance for working the pumps of a ship by means of a barrel and crank-breaks.

vàń -glō, vàń -glōe, *s.* [See def.]

Bot.: A West Indian name for *Sesamum orientale*. [TEEL.]

vän -guard (ua as ä), * **vant-guard,** * **vaunt guard,** * **van-warde,** * **vant-warde,** * **vaunt warde,** * **vaun-warde,** * **vawne-warde,** *s.* [O. Fr. *avantgarde*, *avantwarde*, from *avant* (Lat. *abante*) = from in front, and *garde*, *warde* = guard.] The troops who march in the front or van of an army; the advance-guard; the van.

"The front of the French *vanguard* makes Upon the English."

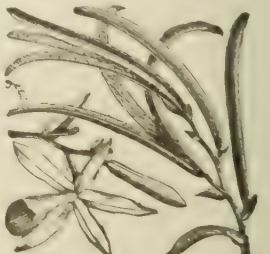
Drayton: Battle of Agincourt.

vàń guēr -ī -ạ, *s.* [From *voa-ranga*, or *roa-rangee*, the Madagascar name of one species.]

Bot.: A genus of Guettardidæ. Shrubs, having the limb of the calyx minutely toothed; the corolla campanulate, with a hairy throat; stamens five, filaments short; fruit succulent, resembling an apple, with five seeds. Natives of Madagascar and India. *Vanguería edulis*, a small tree, a native of Madagascar, has edible fruit; it has, in consequence, been introduced into India. *V. spinosa*, a large, thorny shrub, wild in eastern Bengal, Burmah, Pegu, and Tenasserim, has a round, cherry-like fruit, yellow when ripe, which is eaten by the Hindoos.

vạ nil la, *s.* [Span. *vainilla*, dimin. of *vaina* = a knife, a scissors-case. So named because the pod, which is long and cylindrical, is like the sheath of a knife.]

Bot.: The typical genus of Vanillidæ. Climbing orchids, not parasitic. Stem square; leaves fleshy, articulated at the base; pollen masses two, bilobed and granular. Natives of tropical Asia and America. *Vanilla claviculata* is fragrant and bitter; its leaves are used in the West Indies as an anti-syphilitic and a vulnerary. The dried fruit of *V. planifolia* and other species constitutes the vanilla of commerce, an agreeable aromatic used in the manufacture of chocolate, various liqueurs, and confectionery. The plant is cultivated for this purpose in Mexico.



VANILLA AROMATICA,
Showing Flower and Seed-vessels.

vạ-nille, *s.* [Fr.] Vanilla.

"You flavour everything, you are the *vanille* of society."—*Sydney Smith: Works*, p. 329.

vạ nil lic, *a.* [Eng. *vanill(a)*; *-ic.*] Contained in or derived from vanillina (q.v.).

vanillic-acid, *s.*

Chem.: $C_8H_8O_4$ = $CO{\cdot}OH{:}OCH_3{\cdot}OH$. A crystalline substance obtained by the oxidation of vanilline. It forms white plates, which melt at 211–12°, and sublime at a higher temperature.

vạ nil -li -dæ, *s. pl.* [Mod. Lat. *vanill(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Bot.: A family of Orchids, tribe Arethuseæ. Lindley formerly made it a distinct order, Vanillaceæ, on account of its succulent, valve-

less fruit, its seeds not having the testa of other Orchidaceæ, its habit, and its aromatic properties.

vạ nil line, *s.* [Eng. *vanill(a)*; *-ine.*]

Chem.: $C_8H_8O_3 = \frac{CH_3O}{HO}C_6H_3{}^{1}_{2}COH$. The methylether of protocatechuic aldehyde, found in crystals, in vanilla pods, from which it may be extracted by alcohol. It crystallizes in long, hard needles, slightly soluble in cold water, very soluble in boiling water and in alcohol, melts at 80·81°, and sublimes at 150°. Fused with potassic hydrate it is converted into protocatechuic acid.

vạ nil loeş, *s.* [Vanilla.]

Bot., &c.: A bastard kind of vanilla, obtained from *Vanilla Pompona.*

*** vạ nil ô quọnçe,** *s.* [Eng. *vaniloquent(t)*; *-ce.*] Idle, foolish, or vain talk.

*** vạ nil ô quọnt,** *a.* [Lat. *vanus* = vain, empty, and *loquens*, pr. par. of *loquor* = to speak.] Talking idly or foolishly.

vàn ish, * van iss en, * van shen, * van ysch, *v.i.* [From Lat. *evanesco* = to vanish (lit., to become empty, from *evanus* = empty), through an O. Fr. *esvanir* (not found), pr. par. *evanissant.* Cf. *punish, polish, furnish,* &c.]

I. *Ordinary Language:*

1. To pass from a visible to an invisible state; to disappear; to become imperceptible; to lose perceptible existence.

"The heavens shall *vanish* away like smoke."—*Isaiah* li. 6.

2. To pass away from the sight or out of view; to pass beyond the limits of vision: as, A ship *vanishes* from the sight of spectators on the land.

* **3.** To pass away; to be annihilated or lost.

"Picked from the worm holes of long *vanish'd* days."
Shakesp.: Henry V., ii. 4.

* **4.** To issue; to be given off or out, as breath.

"A gentler judgment *vanished* from his lips."
Shakesp.: Romeo & Juliet, iii. 3

II. *Math.:* To become evanescent, like a mathematical quantity when its arithmetical value is nothing. [Vanishing-fraction.]

vàn ish, *s.* [Vanish, *v.*]

Elocution: A sound that gradually becomes weaker till it ceases.

vàn ish ing, *pr. par.* & *a.* [Vanish, *v.*]

vanishing fraction, *s.*

Math.: A fraction which reduces to the form of $\frac{0}{0}$ for a particular value of the variable which enters it, in consequence of the existence of a common factor in both terms of the fraction, which factor becomes 0 for this particular value of the variable.

vanishing line, *s.*

Perspective: An indefinitely extended line supposed to be drawn on a level with the eye, parallel to the horizon. In the vanishing-line the vanishing points are situated.

vanishing point, *s.* [Point, *s.*, II. 17, (3).]

vanishing stress, *s.*

Elocution: Stress of voice upon the closing portion of a syllable. (*Rush*, in *Goodrich & Porter.*)

*** vàn ish mènt,** *s.* [Eng. *vanish*, *v.*; *-ment.*] A vanishing.

Vàn ists, *s. pl.* [See def.]

Church Hist.: The followers of Sir Henry Vane, an Antinomian, and Governor of New England in 1636.

*** vàn i tied, * vàn i tyed,** *a.* [Eng. *vanity*; *-ed.*] Affected with vanity.

"Your foolish, your low *vanity'd* Lovelace."—*Richardson: Clarissa*, iv. 36.

vàn i tỹ, * van i te, * van i tie, * van y tee, *s.* [Fr. *vanité*, from Lat. *vanitatem*, accus. of *vanitas* = emptiness, worthlessness, from *vanus* = empty, vain (q. v.).]

1. The quality or state of being empty, vain, or worthless; worthlessness, futility, emptiness, unsubstantiality, unreality, unrealness, illusion.

"*Vanity* of *vanity*, saith the Preacher, all is *vanity*."—*Eccles.* i. 2.

* **2.** Groundlessness, falseness; want of grounds or foundation.

3. The quality or state of being vain or elated with a high opinion of one's own accomplishments or achievements, or with things more showy than valuable; empty pride inspired by an overweening conceit of one's personal attainments or decorations, and causing its possessor to be morbidly anxious for the notice, admiration, and applause of others; conceit. [Pride, ¶.]

"*Vanity* is that species of pride, which, while it presumes upon a degree of superiority in some particular article, fondly courts the applause of every one within its sphere of action, seeking every occasion to display some talent, or some supposed excellence."—*Cogan: On the Passions.*

4. Ostentation; ambitious or ostentatious display; vainglory, vauntang, pride, conceit.

"The ground work thereof is true, however they, through *vanity*, whilst they would not seem to be ignorant, do thereupon build many forged histories of their own antiquity."—*Spenser: State of Ireland.*

5. That which is vain, empty, unreal, or unsubstantial: as

(1) Empty pleasure, vain pursuit, idle show, unreality.

"All their exhortations were to set light of the things in this world, to count riches and honours *vanities*."—*Hooker: Eccles. Pol.*, Pref., § 8.

(2) Fruitless desire or endeavour; effort which produces no result.

* (3) An empty or vain conceit; a trifle.

"Some *vanity* of mine art."—*Shakesp.: Tempest*, iv.

* (4) *Script.:* An idol (Jer. xviii. 15). In this sense it is generally used in the plural.

"Are there any among the *vanities* of the Gentiles that can cause rain, or can the heavens give showers. Art thou not he, O Lord our God?"—*Jer.* xiv. 22. (Cf. also Deut. xxxii. 21; 1 Kings xvi. 13, 26; Jer. viii. 19.)

* **6.** A character in the old moralities.

"You . . . take *vanity* the puppet's part."—*Shakesp.: Lear*, ii. 2.

Vanity Fair, *s.* A fair described by Bunyan (*Pilgrim's Progress*, pt. i.) as established by Beelzebub, Apollyon, and Legion, for the sale of all sorts of vanities. (Used to symbolize a collection of the most alluring temptations of the world.)

*** vàn mure,** *s.* [Vauntmure.]

vàn nèr, *s.* [Eng. *van* (1), *s.*; *-er.*] A van horse.

"Twenty five Welsh cobs, cabbers, and *vanners*."—*Referee*, April 8, 1888. (Advt.)

vàn ning, *s.* [Van (2), *v.*]

vàn quish, * ven kis en, * ven kus en, * ven quish on, * ven quis en, *vt.* & *i.* [O. Fr. *veinquir* (pr. par. *veinquaissant*), a collateral form of *veincre* (Fr. *vaincre*, pa. t. *vainquis*, subj. *que je vainquisse*), from Lat. *vinco* = to conquer.]

A. *Transitive:*

1. To conquer; to overcome or subdue in battle, as an enemy.

"The enemies beaten on all sides, and in so many sorts, with artillery were put backe, and *vanquished*."—*Hackluyt: Voyages*, ii. 84.

* **2.** To overcome or defeat in any contest, as in an argument.

* **3.** To confute, to refute; to prove erroneous or unfounded; to upset.

"This bold assertion has been fully *vanquished* in a late reply to the Bishop of Meaux's treatise."—*Atterbury.*

* **4.** To overpower, to prostrate.

"Sorrow and grief have *vanquished* all my powers."
Shakesp.: 2 Henry VI., ii. 1.

* **5.** To overpower the peculiar virtue or properties of; to destroy; to render inert or medicacious; to neutralize.

B. *Intrans.:* To overcome, to conquer; to get the better.

"If thou *vanquishest* thy words are true."
Shakesp.: 1 Henry VI., i. 2.

¶ For the difference between to *vanquish* and to *conquer*, see Conquer.

vàn quish, vĭn quish, *s.* [Etym. doubtful.] A disease in sheep, in which they pine away.

*** văn quish a ble,** *a.* [Eng. *vanquish*, v.; *-able.*] Capable of being vanquished, conquered, or subdued; conquerable.

"That great giant was only *vanquishable* by the Knights of the Welis."—*Guyton: Festivous Notes on Don Quixote.*

văn quish ẹr, *s.* [Eng. *vanquish*, v.; *-er.*] One who or that which vanquishes; a conqueror.

"I am alone the *vanquisher* of time."
Drayton: Robert Duke of Normandy.

*** vàn quish mènt,** *s.* [Eng. *vanquish*, v.; *-ment.*] The act of vanquishing; the state of being vanquished.

"Yet he opposes three dains pestilence to seven years famine and three months *vanquishment*."—*Bp. Hall: Rules of Gilead*, § 7.

vàn sire, *s.* [Native name.]

Zool.: Herpestes galera; a small, weasel-like animal, from Madagascar and the Isle of France. The colour is deep-brown speckled with yellow, the tail of equal thickness throughout.

*** vànt,** *v.i.* [Vaunt.] To vaunt, to boast.

van tage (age as ĭj), * vaunt age, *s.* [Fr. *avantage* = an advantage (q. v.).]

*** I.** *Ordinary Language:*

1. Advantage, gain, profit.

"Not for renowme or *vauntage* sake, but for the love of his name."—*Udal: Hebrews* vi.

2. Advantage; the being in a better state or condition for action or defence than another; vantage-ground; condition favourable to success.

"He sought to get the *vantage*."—*North: Plutarch*, p. 152.

* **3.** Opportunity, convenience.

"At your meetest *vantage* of the time."
Shakesp.: Richard III., iii. 5.

II. *Lawn Tennis:* A term used for the point following the stage when each player has won three points. Properly called *advantage*, and often used attributively as in *vantage game* or *set.*

"Advantage sets are played—*i.e.*, if each player wins five games, the set is continued until one player wins two games consecutively. '*Vantage* all' is a barbarous term, introduced by some genius who does not understand language, to express the fact that the players agree to decide the set by the best of three games, after arriving at five games all. This arrangement is not allowed in matches where advantage sets are played. The term '*vantage* all' is absurd, as both players cannot win advantage at the same time. The correct expression is 'games all.'"—*Field*, Dec. 24, 1887.

* ¶ (1) *Of vantage, To the vantage:* To boot; besides.

"Yes, a dozen; and as many
To the vantage, as would store the world."
Shakesp.: Othello, iv. 3.

(2) *To get vantage of:* To get the better of.

"If they *get* ground and *vantage of* the king."
Shakesp.: 2 Henry IV., ii. 3.

*** van tage (age as ĭj),** *v.t.* [Fr. *avantager.*] To profit, to advantage.

"The injuries that to myself I do
Doing thee vantage, double *vantage* me."
Shakesp.: Sonnet 88.

vantage ground, *s.* Superiority of position or place; a place or condition which gives one an advantage over another.

"Upon the steadfast *vantage ground* of truth."
Milton: Areopagitica, bk. viii.

† vantage loaf, *s.* The thirteenth loaf in a baker's dozen. (*Brewer.*)

*** vant brace, * vant brass,** *s.* [Vambrace.]

*** vant courier,** *s.* [Vancourier.]

*** vant mure,** *s.* [Vauntmure.]

*** vant our,** *s.* [Vaunter.]

vàn ŭx ẽm ite, *s.* [After Mr. Vanuxem; suff. *-ite* (*Min.*).]

Min.: A white, massive mineral substance, occurring with zinc ores at Sterling Hill, New Jersey. Hardness, 2·5 to 3; sp. gr. 2·5. An analysis gave: silica, 35·64; alumina, 11·70; protoxide of zinc, 32·48 to 36·0; water, 14·80 to 19·88. As Dana points out, this cannot be regarded as a distinct species, but rather as a mixture of clay with hydrated silicate of zinc.

*** vàn ward,** *a.* [Eng. *van*, *s.*; *-ward.*] Of, pertaining to, or situated in the van or front.

"The *vanward* frontier."—*De Quincey.* (*Annandale.*)

vàn zoÿ, *s.* [Wanzey.]

*** vàp, * vappe,** *s.* [Lat. *vappa* = wine that has lost its flavour; vapid or pallid wine; allied to *vapor* = vapour.] Wine that has become vapid or dead; vapid, flat, or insipid liquor.

"The dead lees and *vap* of wine."—*Bp. Taylor: Rule of Conscience*, bk. ii., ch. iii.

vàp' id, *a.* [Lat. *vapidus*, from *vappa* = vapid or palled wine; Fr. *vapide.*]

* **1.** Corrupt, foul.

"A kind of *vapid* atmosphere about that planet."—*Glanvill: Essays*, No. vii.

1. *Literally:*

(1) In the same sense as II.

(2) Any visible diffused substance floating in the atmosphere and impairing its transparency, as fog or mist; hazy matter.

"From the damp earth impervious *vapours* rise."
Pope: Statius: Thebaid, i. 486.

*(3) Wind, flatulence.

"Ointments, if laid on anything thick, by stopping up the pores, shut in the *vapours*, and send them to the head extremely."—*Bacon.*

2. *Figuratively:*

(1) Something unsubstantial, fleeting, or transitory; unreal fancy; vain imagination.

"He hath the grace of hope, though it be clouded over with a melancholy *vapour*."—*Hammond.*

* (2) (*Pl.*): A hectoring or bullying style of conversation or mode of behavior, indulged in by swaggerers for the purpose of bringing about a real or mock quarrel, consisting in flatly contradicting whatever was said by a speaker, even if the bully had granted what was asserted just before.

"They are at it still, sir: this they call *vapours*."—*Ben Jonson: Bartholomew Fair*, iv. 2.

* (3) (*Pl.*): A disease of nervous debility, in which a variety of strange images float in the brain, or appear as if real; hence, hypochondriacal affections; depression of spirits; dejection, spleen; the blues.

"A fit of *vapours* clouds this demi-god."
Pope: Satires, iii. 188.

II. *Physics:* An aeriform fluid into which some volatile substance is changed by the action of heat. Vapor is essentially the same as gas, but the word vapor is conventionally limited to the gaseous state of a body which is liquid or solid at ordinary temperatures, while the term gas is applied to aeriform bodies which are in that rarefied state at ordinary temperatures. Thus we speak of hydrogen gas, but of watery vapors. Vapors, like gases, have a certain elastic force, by which they exert a pressure on every part of any vessel in which they are enclosed. Vapors are formed instantly in a vacuum; in the atmosphere they are generated more slowly. When not saturated they exactly resemble gases in their action; when saturated and in contact with the liquid by which they were generated, they can neither be compressed nor expanded, but remain constant, both in their elastic force and in their density. Vapors of different composition vary in density. Thus if atmospheric air be taken as unity, the vapor of water = 0·6235, that of alcohol 1·6138, that of sulphur 6·6542, and that of mercury 6·9760.

vapor-bath, vapour-bath, *s.*

1. The application of vapor or steam to the body in a close place. [Bath (1) *s.* B. I. 2.] Medicated vapor baths are largely employed: the ingredients vapor being [illegible] nation, [illegible] heat, &c., according to the nature of the disease.

2. The place or bath itself; an apparatus for heating bodies by the vapor of water.

vapor douche, vapour douche, *s.* A [illegible] bath, which consists of the [illegible] a jet of aqueous vapor on some part of the body.

A. *Intransitive:*

I. *Literally:*

1. To pass off in the form of vapor; to dissolve or disappear, as into vapor, steam, or air: to be exhaled; to evaporate.

*2. To emit or give out vapor, steam, gas, or evaporations.

"Swift running waters *vapour* not so much as standing waters."—*Bacon: Natural History.*

II. *Figuratively:*

* 1. To pass off or disappear as a vapor.

"He now is dead, and all his furie gone,
And all his greatnesse *vapoured* to nought,
That as a goose vpon the water shone."
Spenser: The Ruines of Time, 219.

2. To boast, brag, or vaunt with ostentatious display; to hector, to bully.

"He *vapoured* considerably."—*Daily Telegraph*, Feb. 7, 1882.

* **B.** *Transitive:*

1. *Lit.:* To cause to pass into a vaporous state; to cause to dissolve, pass away, or disappear in a vaporous, gaseous, or aeriform condition; to cause to melt into thin air or other unsubstantial thing.

"He laugh to see one throw his heart away,
Another sighing *vapour* forth his soul."
Ben Jonson.

2. *Fig.:* To affect with the vapors; to disquiet, to make melancholy.

"She *vapours* me but to look at her."—*Mad. D'Arblay: Camilla*, bk. v., ch. vi.

* **vā-pŏr-a-bĭl'-ĭ-ty,** *s.* [Eng. *vaporable*; *-ity.*] The quality or state of being vaporable.

* **vā'-pŏr-a-ble,** *a.* [Eng. *vapor*; *-able.*] Capable of being vaporized, or converted into vapor.

* **vā'-pŏr-āte,** *v.i.* [Lat. *vaporatus*, pa. par. of *vaporo* = to emit steam or vapor, from *vapor* = vapor.] To emit vapor; to evaporate.

* **vā-pŏr-ā'-tion,** *s.* [Lat. *vaporatio*, from *vaporatus*, pa. par. of *vaporo.*] [Vaporate.]

1. The act or process of converting into vapor.

"By conflagration and congelation, according to certain recipes: by *vaporation* and evaporation."—*Bibl. theol. Biblioca*, i. 498.

2. The state of passing off in vapor; evaporation.

* **vā'-pored,** *a.* [Eng. *vapor*; *-ed.*] Affected with the vapors; peevish, dejected, splenetic.

* **vā'-pŏr-ĕr,** *s.* [Eng. *vapor*; *-er.*]

1. *Lit.:* Full of, or abounding in vapors; vaporous.

* 2. *Fig.:* Affected by vapors: splenetic hypochondriac, whimsical.

"Run to the fretful, *vaporish*, or give way
To spleen."
Crabbe: Tales of the Hall.

* **vā'-pŏr-ĭsh-ness,** *s.* [Eng. *vaporish*; *-ness.*] The quality or state of being vaporish; melancholy, vapors.

"The *vaporishness* which has laid hold of my heart."—*Richardson: Clarissa*, iv. 41.

* **vā'-pŏr-ĭz-a-ble,** *a.* [Eng. *vaporize*; *-able.*] Capable of being vaporized or converted into vapor.

* **vā-pŏr-ĭ-zā'-tion,** *s.* [Eng. *vaporize*; *-ation.*] The act or process of vaporizing; the artificial formation of vapor; the state of being vaporized.

"We cannot as yet comprehend in what manner it [heat] produces the liquefaction or vaporization of one body."—*Whewell: Hist. Scientific Ideas*, ii. 46.

¶ *Vaporization, evaporation,* and *boiling* differ slightly in meaning. *Vaporization* is a generic, *evaporation* a specific word; the former signifying the passage of any liquid into the solid state, without reference to the slowness or rapidity with which the process is carried out, or the temperature of the liquid becoming transformed into the vapor. *Evaporation* generally implies the slow production of a vapor at the free surface of a liquid, and *boiling* always signifies the rapid production of vapor in the liquid itself.

vā'-pŏr-ize, *v.t. & i.* [Eng. *vapor*; *-ize.*]

A. *Trans.:* To convert into vapor by the application of heat or artificial means; to sublimate; to cause to evaporate.

B. *Intrans.:* To pass off in vapor; to evaporate.

* **vā'-pŏr-ĭz-ĕr,** *s.* [Eng. *vaporize*; *-er.*] One who or that which vaporizes. A scent-vaporizer is a form of atomizer (q.v.), for converting scent into very fine spray.

* **vā'-pŏr-ose,** *a.* [Vaporous.]

* **vā-pŏr-ŏs-ĭ-ty,** *s.* [Eng. *vaporose*; *-ity.*] The quality or state of being vaporous or vaporosis.

"His first ideas and volcanic *vaporosity*."—*Carlyle: Diamond Necklace*, ch. vi.

vā'-pŏr-oŭs, *a.* [Fr. *vaporeux*, from Lat. *vap*[illegible]

I. *Literally:*

1. Being in the form of, or having the nature or character of vapor.

"[illegible] of a moist and vaporous air." [illegible]

2. Promoting exhalation, or the flow of effluvia, vapor, gases, or the like; hence, windy, flatulent.

"If the mother eat much beans, or such *vaporous* food, it endangereth the child to become lunatick."—*Bacon.*

3. Full of vapors or exhalations.

"Thein [illegible]

1. *Zool.*: The typ. genus of Varanidæ (q. v.), with about[illegible] species, having the name of the family.

2. *Paleont.*: From the Miocene of Greece and India. (*Wallace.*)

***var dĭn′ gāle, *vêr dĭn′ gāle,** *s.* [Fare-thingale.]

***vāre,** *s.* [Sp. *vara* = a rod, a wand.] A wand or staff of office, authority, or justice.

vā′ ree, *s.* [Fr. *varec*. Low Lat. *varec* (q. v.).] The impure carbonate of soda made in Brittany.

var′ ga nite, *s.* [After Count Vargas, of Wargas, still *Herr* (Min.).] *Min.*: The same as Pyrrhoarsenite (q. v.).

***vär′ f,** *s.* [Fr. Hemistalym. doubtful.]

vär′ i a bil′ i ty, *s.* [Eng. *variable*; *-ity*.]
1. *Ord. Lang.*: The quality or state of being variable; variableness.
2. *Med.*: The state or condition of manifesting or being subject to variation (q. v.).

vär′ i a ble, *var y a ble, *a. & s.* [Fr., from Lat. *variabilis*, from *vario* = to diversify, to vary.]

A. *As adjective:*

1. Capable of varying, changing, or altering in a physical sense; liable to change or change; changeable.

2. Capable of being varied, altered, or changed; subject to being changed. as, To place a number of bodies in a position variable at pleasure.

3. Liable to change, vary, or alter in a manner [illegible].

B. [illegible]

1. *Ordinary Language:*

1. That which is variable; that which varies or is liable or subject to vary, change, or alter.

2. A shifting wind, as opposed to a trade wind; hence, *the variables*, the space, region, or belt intermediate between the north-east and the south-east trade-winds. [illegible] varies in width from about 100 to 500 miles, being widest in September and narrowest in December or January, and is characterized by calms, baffling winds, and sometimes violent squalls.

II. *Math.*: A variable quantity; a quantity which may be regarded as in a state of continual change or change.

variable bealus, *s.*

Zool.: *Lalius variabilis*, a small tree frog, from Ceylon. The body is about an inch and a half long, and the hind limbs greatly developed. The coloration is very variable.

variable motion, *s.*

Mech.: Motion produced by the action of a force [illegible].

variable quantities, *s. pl.*

Math.: Quantities which admit of an indefinite number of sets of values, in the same equation. Such quantities are regarded as [illegible] in opposition to those which are constant, or nothing always the same.

variable stars, *s. pl.*

[illegible] with the enormous number of the heavenly bodies they are but few. Sir John Herschel gave a list of sixty-six known to him, and considered it nearly complete. The most remarkable is Algol (q. v.). Another is Mira Ceti. [Mira.] Goodricke, who in 1783 discovered the [illegible], attempted to account for it by the hypothesis, which Sir John Herschel also accepted, that some [illegible] the observer and the star, intercepted a large part [illegible].

variable toad, *s.*

[illegible] a pest [illegible] to France. It has the blind limbs and feet nearly as large as those of the Frog. Called also the Green Toad, from its color.

var i a ble ness, *s.* [Eng. *variable*, *-ness*.]

1. The quality or state of being variable or changeable, in a physical sense, liability from susceptibility of material change; liableness, or aptness to alter or to be altered.

We feel pleasure, owing to the *variableness* of the whole. *Hall Vaynge to Ind.*, ch. i.

¶ Sometimes used in the same sense as [illegible] under Variable.

2. Liability to change or alter in a moral sense; mutability, shiftingableness; fickleness, inconstancy.

The fatter of flights with whom to be *variable* was neither shadow of wanting. *Lamb*: [illegible].

vär′ i a bly, *adv.* [Eng. *variable*; *-ly*.] In a variable manner; changeably, mutably, inconstantly.

vär′ i ance, *var i aunce, *var y aunce, *s.* [Lat. *varians*, pr. par. of *vario* = to vary.]

1. *Ordinary Language:*

* 1. The quality or state of being or becoming variant; change of condition; alteration, [illegible].

[illegible]

"That stubby hoof would no doubt be subject to the inclemency of weather [illegible] but [illegible] still." *Dwight's Travels.* [illegible]

2. Difference that produces dispute or controversy [illegible].

In this year, 1611, a *variance* arose the July subjects of [illegible] and [illegible] of London. *Fuller: Church Hist.*, bk. x.

II. *Law*: An alteration of something formerly laid in a will, or a difference between a declaration and a will or the deed on which it is grounded; a departure in the trial evidence from the statement in the pleadings.

¶ *At variance*:

* 1. In a state of disagreement or difference; differing.

2. In a state of dissension, discord, or controversy; at enmity.

The following [illegible] at variance amongst them[illegible].

vär′ i ant, *var i aunt, *a. & s.* [Fr. *variant*, pr. par. of *varier* = to vary (q. v.).]

A. *As adjective:*

1. Different, diverse; having a different form or character.

"Men were found of *variant* [illegible]." *Chaucer: Court of Love.*

2. Variable, varying.

B. *As subst.*: Something different in form from, but essentially the same as another; a different form, reading, version, or the like.

There are the usual number of *variants* from the Greek [illegible] [illegible] [illegible].

***vär′ i āte,** *v.t. & i.* [Lat. *variatus*, pa. par. of *vario* = to vary (q. v.).]

A. *Trans.*: To make different; to vary, to change, to alter.

B. *Intrans.*: To alter, to vary, to change.

This artificial change is but a [illegible] of nature's [illegible], helping the [illegible] [illegible].

vär′ i ăt ĕd, *pa. par. & a.* [Variate.]

A. *As pa. par.*: (See the verb).

B. *As adj.*

* 1. *Ord. Lang.*: Varied, diversified.

2. *Her.*: Variated (q. v.).

vär′ i ā′ tion, *var i a′ ci on, *var i a′ cy on, *s.* [Fr. *variation*, from Lat. *variatio*, from pa. par. of *vario* = to vary (q. v.); Ital. *variazione*.]

1. *Ordinary Language*:

I. The act, process, or state of varying; partial change in the form, position, state, or [illegible]; modification.

[illegible] in which there can be no [illegible] or degree. *Charles the Six*, [illegible] page xii.

2. The extent to which a thing varies. The [illegible] a precise condition, position, or form; amount or extent of change.

"Another thing that stumbled me here was the narration which at this time by the best watches I had I found to be but 3 deg 30 min." *Hampton Correction* [illegible].

* 3. [illegible]

There is great *variation* between [illegible] that is subject to the [illegible] by the [illegible] and [illegible] that cannot be [illegible] by the [illegible] of the people. *Sir Isaac Newton*: [illegible].

4. The act of deviating; deviation.

"He observed the *variation* of our English from the original, and made an entire translation of the whole [illegible]." *Fell.*

[illegible] the [illegible] differences. *Barrow: Sermons*, [illegible].

II. *Technically*:

1. *Astron.*: Any deviation from the mean orbit or mean motion of a heavenly body produced by the perturbation of another body or bodies. Thus the [illegible] are considered to [illegible] would be the case if they were subject to the attraction of the sun only, but being acted on by each other, there is supposed to be a minute and slow but constant variation in the elements of the ellipse. Variations which are compensated in short intervals are called periodic, and those which require for their compensation a long period are called secular. (*Herschel: Astron.*, § 386, 388.)

2. *Biology*:

(1) A tendency in all organisms to vary slightly from other organisms produced by the same [illegible].

No two animals or plants even when born of the same parents are exactly alike. This is known as Variation. *Roy Lankester: Degeneration*, p. 18.

(2) Hereditary modification.

We shall endeavor to trace in the present work the [illegible] of species [illegible] from [illegible] *Origin of Species by Means of Natural Selection*, p. 9.

(3) A modification directly due to the physical conditions of life, such as the dwarfed condition of shells in the Baltic, or of stunted plants on Alpine summits. (*Huxley: Origin of Species*, ch. ii.)

[illegible]

The term *variation* has been employed by some authors to designate [illegible] that [illegible] [illegible] to [illegible] [illegible] [illegible]

as in declension, conjugation, comparison, and the like ; inflection.

"The rules of grammar, and useful examples of the *variation* of words, and the peculiar form of speech, are often appointed to be repeated."—*Watts : On the Mind*

4. *Music :* An air or theme with variations is a musical composition in which a simple melody is first given out, and then several times repeated, each repetition containing changes by means of broken harmony, counterpoint, broken rhythm, the arpeggio, scale-passages, and even by modification of key. The earliest forms of a variation were the "divisions" ad led to a ground-bass ; then there followed the changes above described, but the character of variations in modern music has gradually developed into a series of sound-pictures, of which the theme is indeed the main subject, but is represented under various phases of sentiment, expression, thought, and aesthetic colouring.

5. *Physics & Navig. :* The angle included between the true and magnetic meridians of any particular place. If the direction of the true meridian at any given place were known, the variation of the needle would be found by simply taking the bearing of this line with the compass. If the bearing of the meridian is east of north, the variation is to the west ; if the bearing is west of north, the variation is to the east. In order, therefore, to find the variation of the needle at any place, we first find the direction of the true meridian, or of some line which makes a known angle with it ; we then observe the bearing of this line ; from this result the variation is easily computed. The line most usually employed is the line of greatest elongation of the pole star, either to the east or west. At London, in 1550, the deviation was 11° 17′ E. ; about 1669 it was 0°. It then began to deviate to the west, till it attained its maximum in 1815, 24° 17′ 18″. In 1865 it was 20° 38′.

¶ (1) *Annual variation :*

Astron. : The annual change in the right ascension or declination of a star produced by the combined influence of its own motion and the precession of the equinoxes.

(2) *Calculus of variations :* [Calculus].

(3) *Variation of elements :*

Astron., Physics, & Math. : Changes in the elements entering into the calculation of any figure, rate of motion, &c. [Variation, II. 1., & ¶ (6).]

(4) *Variation of the compass :* [Magnetism, ¶ ; Variation, II. 5.].

(5) *Variation of the moon :*

Astron. : Irregularity in the moon's motion and in the form of her orbit, depending on the angular distance of the luminary from the sun. When nearest the earth the true longitude, as seen from the earth, is gaining on the mean longitude ; it will be the reverse when she is in quadratures (farthest from the earth), and at intermediate points nearly coinciding with octants, she will be neither gaining nor losing. But at these points the amount of gain or loss will have reached its maximum. The entire variation produced by this cause in the moon's longitude, is 1° 4′. (*Herschel : Astron.*, § 705.)

(6) *Variations of the barometer :* [Barometer].

variation compass, *s.* A declination compass (q.v.).

*** var i aunt,** *a.* [Variant.]

văr ĭ çĕl' la, *s.* [Dimin. from Mod. Lat. *varicella* (q.v.).]

Pathol. : The name formerly given to a modified form of small-pox [Varicelloid small-pox], now confined to chicken-pox.

văr ĭ cĕl' loid, *a.* [Mod. Lat. *varicell(a) ;* Eng. suff. *-oid.*] Resembling varicella (q.v.).

varicelloid small pox, *s.*

Pathol. : Modified small-pox, in which the eruption seems to stop at its vesicular stage, most of the vesicles drying up instead of developing into pustules. Called also Abortive Small-pox.

vạ rĭç' ĭ form, *a.* [Lat. *varix*, genit. *varicis*, and *forma* = form.] Resembling a varix (q.v.).

văr' ĭ cō çēle, *s.* [Mod. Lat. *varix*, genit. *varicis*, and Gr. κήλη (*kēlē*) = a tumour.]

Pathol. : A varicose condition of the veins of the spermatic cord, due to increased pressure within the vessels, or to diminished resistance in their walls and in the surrounding structures.

văr' ĭ cose, * **văr' ĭ coūs,** *a.* [Lat. *varicosus*, from *varix*, genit. *varicis.*] [Varix.]

I. *Ordinary Language :*

1. Exhibiting or marked by a varix ; preternaturally enlarged or permanently dilated. (Said of veins.)

"There are instances of one vein only being *varicous*, which may be destroyed by tying it above and below the dilatation."—*Sharp.*

2. Designed for the cure or relief of varicose veins : as, *varicose* stockings, elastic hose to compress and support distended veins in the leg and foot.

II. *Bot. :* Swollen here and there.

varicose aneurism, *s.*

Pathol. : A form of aneurism in which a communication has been formed between the aorta and either of the *venæ cavæ*, one of the auricles, the right ventricle, or the pulmonary artery.

varicose-veins, *s. pl.* [Varix.]

văr ĭ cŏs' ĭ tў, *s.* [Eng. *varicos(e) ; -ity.*] The quality or state of being varicose. (Said of a vein.)

A. *As pa. par. :* (See the verb).

B. *As adjective :*

1. Partially changed ; altered, changed.

2. Characterized by variety ; consisting of various sorts or kinds ; diversified.

3. Differing from each other ; diverse, various.

*** văr' ied lў,** *adv.* [Eng. *varied ; -ly.*] In a varied manner ; diversely.

văr' ĭ ē gāte, *v.t.* [Lat. *variegatus*, pa. par. of *variego* = to make of various colours, from *varius* = of diverse colours, various.] To diversify by means of various tints or hues ; to mark with different colours in irregular patches ; to spot, to streak, to dapple, or the like.

"The skill in making tulips feathered and *variegated*, with stripes of divers colours."—*Fuller : Worthies ; Norfolk.*

văr' ĭ ē gāt ĕd, *pa. par.* or *a.* [Variegate.]

Bot. : Having the colour disposed in various irregular, sinuous spaces.

variegated copper-ore, *s.*

Min. : The same as Bornite (q.v.).

variegated-leaves, *s. pl.*

Bot. : Leaves, particular parts of which are white, or of some other colour than the normal green. The change in colour arises from disease. [Variegation, II., 2.] In exogens the pale blotches are generally irregular, in endogens they tend to follow the course of the venation. In general, the disease almost simultaneously affects all the leaves of a branch. If in this case a cutting from the diseased branch be planted, the plants which result will have all the leaves with white blotches. On the other hand, if a plant in which the disease has arisen while it grew in poor soil be transferred to richer mould, the variegation will often disappear.

variegated-monkey, *s.*

Zool. : Semnopithecus nemæus, the most brightly-coloured species of the genus. Head and back gray ; thighs, fingers, and toes black ; legs and ankles bright red ; fore arms, throat, and tail pure white ; throat with a more or less complete circle of bright red. They are natives of Cochin China, and appear to be good-tempered, but little is known of them. Called also the Douc.

*** variegated-sandstone,** *s.*

Geol. : A name formerly given to the New Red Sandstone called by the French *grès bigarré* and by the Germans Bunter Sandstein, terms all implying its parti-coloured character. The system containing it was formerly called in England also Poikilitic (q.v.).

variegated-sole, *s.*

Ichthy. : Solea variegata, a small species, about eight or nine inches long, with very small pectorals ; colour brownish-gray, with dark bands extending between the dorsal and anal fins. It is common off the south coast of Devonshire. Called also the Banded Sole.

variegated spider-monkey, *s.*

Zool. : Ateles variegatus, or *bartlettii* (Gray), discovered in 1866, in Eastern Peru, by Mr. E. Bartlett. Fur abundant, long, and soft. Black, cheeks white, band across the forehead bright reddish-yellow ; chest, belly, inner side and front and back part of the limbs, and side and under surface of tail, yellow. (*Proc. Zool. Soc.*, 1867, p. 992.)

văr ĭ ē gā' tion, *s.* [Variegate.]

I. *Ordinary Language :*

1. The act of variegating or the state of being variegated by different colours ; diversity of colours or tints.

"They will soon lose their *variegations*."—*Evelyn : Kalendarium ; October.*

* 2. A variety. (*Glanvill : Sermon* 10.)

II. *Botany :*

1. The disposal of the colour in various irregular, sinuous spaces. Nearly in the same sense as I. 1. Called also Marking.

2. Spec., a disease of plants causing their leaves to become more or less white from the absence or modification of chlorophyll. It is distinguished from chlorosis in being permanent and in leaving the health of the plant unaffected. [Variegated-leaves.]

*** var ĭ en,** *v.t.* [Vary.]

† văr' ĭ ẽr, *s.* [Eng. *vary ; -er.*] One who varies ; one who strays in search of variety.

"Pious *variers* from the church."
Tennyson : Sea Dreams, 19.

vạ rī' ē tal, *a.* [Eng. *variet(y) ; -al.*] Of or pertaining to a variety, as distinguished from an individual or a species.

"Hares, according to the altitude of their range, show almost every degree of variableness between red and white. Our common hare is widely distributed, and to such an extent do *varietal* forms differ, that several (so-called) distinct species have been evolved out of one."—*St. James's Gazette*, Jan. 6, 1887.

vạ rī' ē tў, *s.* [Fr. *variété*, from Lat. *varietatem*, accus. of *varietas*, from *varius* = various (q.v.).]

I. *Ordinary Language :*

1. The quality or state of being varied or various ; intermixture of different things or of things different in form, or a succession of different things ; diversity, multifariousness.

"It [the world] is a goodly place . . . full of *variety* and pleasantness."—*Bp. Hall : Contempl. ; Victory of Faith over the World.*

2. Exhibition of different characteristics by one individual ; many-sidedness.

"Age cannot wither her nor custom stale
Her infinite *variety*."
Shakesp. : Antony & Cleopatra, ii. 2.

* 3. Difference, dissimilitude.

"There is a *variety* in the tempers of good men, with relation to the different impressions they receive from different objects of charity."—*Atterbury.*

* 4. Variation, deviation ; change from a former state.

"To go about to answer those reasons by suppositions of a *variety* in things."—*Hale : Orig. of Mankind.*

5. Something differing from others of the same general kind ; one of many things which agree in their general features, but differ in detail ; a sort, a kind.

6. A collection or number of many different things ; a varied assortment : as, He deals in a *variety* of goods.

¶ Used also adjectively of an entertainment consisting of singing, dancing, gymnastic performances, &c., or of performers engaged in such an entertainment.

"The biggest *variety* company ever seen at the East end of London."—*Referee*, March 25, 1886.

7. Absence of monotony or uniformity ; diversification, change.

"*Variety* 's the very spice of life
That gives it all its flavour."
Cowper : Task, ii. 606.

II. *Biol. :* A group of organisms (subordinate to a species, but not susceptible of strict definition). They breed true to characters, but are not invariably fertile with other varieties—*e.g.*, pouters among pigeons, and some kinds of maize among plants. The line of demarcation between varieties and species is indeterminable.

"Certainly no clear line of demarcation has as yet been drawn between species and sub-species—that is, the forms which, in the opinion of some naturalists, come very near to, but do not quite arrive at, the

rank of species: or, again, between sub-species and well-marked *varieties*, or between lesser *varieties* and individual differences. These differences blend into each other by an insensible series; and a series impresses the mind with the idea of an actual passage." —*Darwin: Origin of Species* (ed. 2nd), p. 41.

¶ The term is often used more loosely of minerals, rocks, &c.: as, *varieties* of amphibole, *varieties* of granite, &c.

¶ For the difference between *variety* and *difference*, see DIFFERENCE.

***vär'-ĭ-form,** *a.* [Lat. *varius* = various, and *forma* = form.] Having various or different forms or shapes; varying in form.

vär'-ĭ-formed, *a.* [Eng. *variform*, *-ed.*] Formed with different shapes.

***vär'-ĭ-fȳ,** ***var-i-fie,** *v.t.* [Lat. *varius* = various, and *facio* = to make.]

1. To make different; to vary.

"Their workes to *varifie*."
Davies: Summa Totalis, p. 17.

2. To variegate; to colour variously; to diversify.

"Lively colours lovely *varifide*."
Sylvester: The Magnificence, 661.

vạ-rĭg'-ẽr-ạ, *s.* [Mod. Lat. *varix*, genit. *varicis*, and Lat. *gero* = to carry.]

Palæont.: A genus of Tornatellidæ (q.v.), with eight species, ranging from the Neocomian to the Chalk of France.

vạ-rĭn'-ghĭ-ạn, *s.* [VARANGIAN.]

vạ-rī'-ō-lạ, *s.* [Fr. *variole*, from Lat. *varius* = various, spotted.]

1. *Pathol.*: Small-pox (q.v.).

2. *Bot.*: One of the pustular shields formed in Variolaria, &c. (In this sense there is a plural, *vạ-rī'-ō-læ.*)

vạ-rī'-ō-lar, *a.* [Mod. Lat. *variol(a)*; Eng. adj. suff. *-ar.*] Pertaining to variola or small-pox; variolous.

***vạ-rī-ō-lār'-ĭ-ạ,** *s.* [Mod. Lat. *variola*, and fem. pl. adj. suff. *-aria.*]

Bot.: A spurious genus of Fungals, being a state of a lichen with abundant soredia. *Variolaria luctea* is used in dyeing.

vạ-rī-ō-lār'-ĭn, *s.* [Mod. Lat. *variolar(ia)*; *-in.*]

Chem.: Robiquet's name for the crystalline body obtained by him from the alcoholic extract of *Variolaria dealbata*.

vär-ĭ-ŏl'-ĭc, *a.* [Mod. Lat. *variol(a)*; Eng. adj. suff. *-ic.*] Variolous.

vär'-ĭ-ō-līte, *s.* [Lat. *variol(a)* = the small-pox; suff. *-ite* (*Petrol.*).]

Petrol.: A rock originally found in pebbles, having small, projecting pustular bodies, resulting from sub-aerial weathering. It is an aphanitic diabase, enclosing spherular concretions of a felspar, mostly labradorite. Has recently been found *in situ* with normal diabase.

vär-ĭ-ō-lĭt'-ĭc, *a.* [VARIOLA.] Thickly marked with small round specks or dots; spotted.

vär'-ĭ-ō-lŏid, *a.* & *s.* [Mod. Lat. *variol(a)*; suff. *-oid.*]

A. *As adjective:*

1. Resembling variola or small-pox.

2. Resembling measles; having the appearance of measles.

B. *As substantive:*

Pathol.: The name given to a disease which has the characters of variola in a mild form, but which is really small-pox modified by previous vaccination or inoculation.

vạ-rī'-ō-loŭs, *a.* [Mod. Lat. *variol(a)*; Eng. adj. suff. *-ous.*] Pertaining to or designating small-pox; variolar.

vär-ĭ-ŏr'-ŭm, *a.* [From the Lat. (*editio cum notis*) *variorum* = an edition (with the notes) of various persons.] A term applied to an edition of some work in which the notes of various commentators are inserted: as, a *variorum* edition of a Greek classic.

vär'-ĭ-oŭs, *a.* [Lat. *varius* = variegated, diverse, manifold.]

1. Differing from each other; different, diverse, manifold.

"He . . . in derision sets
Upon their tongue a *various* spirit, to raze
Quite out their native language."
Milton: P. L., xii. 53.

2. Divers, several.

"On the whole we lost little less than a month by our attendance upon her [the Gloucester], in consequence of the *various* mischances she encountered."—*Anson: Voyages*, bk. iii., ch. i.

*3. Variegated. (A Latinism.)

"The *various* Iris Juno sends with haste.
Dryden: Virgil: Æneid ix. 2.

*4. Changeable, uncertain, unfixed, inconstant.

"The names of mixed modes want standards in nature, whereby to adjust their signification; therefore they are very *various* and doubtful."—*Locke.*

*5. Exhibiting different characters; multiform.

"A man so *various* that he seem'd to be
Not one, but all mankind's epitome."
Dryden: Absalom & Achitophel, i. 545.

6. Having a diversity of features; not uniform or monotonous; diversified.

"Herbs of every leaf, that sudden flowered,
Opening their *various* colours."
Milton: P. L., vii. 318.

¶ For the difference between *various* and *different*, see DIFFERENT.

vär'-ĭ-oŭs-lȳ, *adv.* [Eng. *various*; *-ly.*] In a various manner or degree; in various or different ways; diversely; with diversity; multifariously.

"So sweet, so shrill, so *variously* she sung."
Dryden: Flower & Leaf, 116.

văr-ĭs'-çīte, *s.* [After Variscia, the Latin name for Voigtland, where found; suff. *-ite* (*Min.*).]

Min.: A reniform mineral of apple-green colour; compos.: a hydrated phosphate of alumina. Is probably related to Calaite (q.v.).

var-îsse', *s.* [Cf. *varix.*]

Farr.: An imperfection on the inside of the leg of a horse, differing from a curb, at the same height, and frequently injuring the sale of the animal by growing to an unsightly magnitude. (*Craig.*)

vär'-ĭx, *s.* [Lat.]

1. *Pathol.*: The dilatation and thickening of the veins with lengthening and tortuosity, and projection of certain points in the form of knots or knobs, in which the blood coagulates, fibrin is deposited, and in the centre sometimes even osseous matter; in addition the coats of the veins are diseased. Occasionally partitions are formed, and perforations communicating with the surrounding cellular tissue, which is generally more or less diseased; this form is chiefly found round the anus, causing piles or hæmorrhoids. The veins chiefly affected are the saphenous, spermatic, and hæmorrhoidal, most of all the first, producing varicose veins and ulcers of the legs in women, and clerks who sit cross-legged at their desks.

2. *Zool.*: One of the ridges or spinose lines which mark the former position of the mouth in certain univalve shells. (See illustration under UNIVALVE.)

var'-lĕt, var lette, *s.* [O. Fr. *varlet*, *vaslet*, *vallet*, *valet.* The original form was *vaslet*, for *vassalet*, dimin. from *vassal* = a vassal (q.v.). *Varlet* and *valet* are doublets.]

*1. A page, or knight's follower; an attendant on a gentleman; a serving-man, a groom or footman.

"For the archers who were to the nombre of iii. M. shotte faste theyr arowes, nat sparyng maisters nor *varletis*."—*Berners: Froissart; Cronycle*, vol. i., ch. xvi.

†2. A term of contempt for a low fellow; a scoundrel, a rascal.

"There's money for thee: thou art a precious *varlet*. Be fat, be fat, and blow thy master backward."
Beaum. & Fl.: Women Pleas'd, ii. 4.

*3. The court card now called the knave.

***var'-lĕt-ĕss,** *s.* [Eng. *varlet*; *-ess.*] A female varlet; a waiting-woman.

"Losing their noble *varletess*."—*Richardson: Clarissa*, i. 218.

***var'-lĕt rȳ,** *s.* [Eng. *varlet*; *-ry.*] The rabble, the crowd, the mob.

"Gay swarms of *varletry* that come and go."
R. Browning: Sordello, vi.

var'-mĕt, *s.* [O. Fr.]

Her.: The escallop when represented without the ears.

var'-mĭnt, *s.* [See def.] A vulgar corruption of vermin (q.v.), often applied to any person or animal, specially troublesome, mischievous, or the like; specifically in hunting slang, a fox.

"Decided the hound in question to go for the *varmint* he had found."—*Field*, Feb. 4, 1888.

var'-nĭsh, *ver-nisch, *ver-nysche, *ver nysshe, *s.* [Fr. *vernis* = varnish; *vernisser* = to varnish; O. Fr. *vernir* (pa. par. *verni*) = to varnish; *vernis* = varnished, from a supposed Low Lat. *vitrino* = to glaze, from Lat. *vitrinus* = pertaining to or resembling glass, from *vitrum* = glass; Sp. *berniz*, *barniz* = varnish, lacquer; *barnizar* = to varnish, to lacquer; Ital. *vernice* = varnish; *verniciare*, *verniciare* = to varnish; cf. Late Gr. βερονικη, βερνικη (*beronikē*, *bernikē*) = amber.]

1. *Lit.*: A thin, resinous fluid, which when spread over the surface of wood, metal, glass, or other solid substance, forms a shining coating, impervious to air and moisture. Varnishes are prepared by dissolving certain resins, as copal, anime, mastic, lac, &c., in spirit of wine, or in fixed or volatile oils, thus producing spirit varnishes or oil varnishes. Amber is hard, tough, and soluble with difficulty; it makes an excellent varnish, but is expensive and dries slowly. Copal is next in durability to amber, and is more largely used than any other gum in preparing oil varnishes. Anime dries quickly, but is deficient in toughness, and is liable to crack. Crystal varnish for maps or drawings is prepared by dissolving Canada balsam in the purest oil of turpentine. Common resin, dissolved by means of heat in linseed-oil or turpentine, is used as a varnish for some common purposes, and is mixed with other varnishes to impart brilliancy, but unless sparingly used renders them liable to crack. [See DAMMARIN, LAC-VARNISH, MASTIC.]

2. *Figuratively:*

(1) A glossy or lustrous appearance, natural or artificial, resembling varnish; as, the *varnish* of the holly.

(2) An artificial covering to give a fair outward appearance to any act or conduct; outside show; gloss, palliation.

"We'll put on those shall praise your excellence,
And set a double *varnish* on the fame
The Frenchman gave you."
Shakesp.: Hamlet, iv. 7.

¶ For the difference between *Varnish* and *Gloss*, see GLOSS.

varnish-tree, *s.*

Bot.: The name given to various trees which furnish varnish. They are chiefly natives of the hotter parts of the Eastern hemisphere, and the Varnish-tree of each country or large province is, as a rule, different from that of others. In Tenasserim, Pegu, &c., the varnish-tree is *Melanorrhœa usitatissima*, sometimes specifically called the Black, or Martabam varnish; that of Japan is *Rhus vernicifera* and *Stagmaria verniciflua*; that of Sylhet, *Semecarpus Anacardium*. The varnish-tree of the countries bordering on the Mediterranean is *Rhus Coriaria*. It is a tree the leaves of which are divided into five to seven pairs of hairy leaflets with a terminal one. It is fifteen to twenty feet high.

var'-nĭsh, *ver-nish, *ver-nysshe, *v.t.* [VARNISH, *s.*]

1. *Lit.*: To cover with varnish; to lay or spread varnish on; to cover with a liquid for the purpose of giving anything a glossy surface, and also of protecting it from external influences.

"Such painted puppets! such a *varnish'd* race
Of hollow gewgaws, only dress and face!"
Pope: Donne Imitated, sat. 4.

2. *Figuratively:*

(1) To cover with anything that gives a fair outward appearance to; to give an improved appearance to.

"Young people are used to *varnish* over their nonperformance and forbearance of good actions by a pretence unto humility."—*Feltham: Resolves.*

(2) To give a fair superficial appearance by rhetoric; to colour, to gloss over, to palliate.

"With seeming good so *varnishing* their ill
That it went current by the fair event."
Drayton: Barons' Wars, 67.

var'-nĭsh-ẽr, *s.* [Eng. *varnish*, v.; *-er.*]

1. *Lit.*: One who varnishes; one whose occupation is to varnish.

"An oil obtained of common oil may probably be of good use to surgeons and *varnishers*."—*Boyle.*

2. *Fig.*: One who disguises, glosses, or palliates.

"Modest dulness lurks in thought's disguise;
Thou *varnisher* of fools."
Pope: On Silence, 21.

var'-nish ĭng, *pr. par.* or *a.* [VARNISH, *v.*]

varnishing day, *s.* A day which precedes the opening to the public of an exhibition of paintings, when the painters of the

pictures are invited to see their works, and to put such finishing touches upon them as may seem necessary, or to varnish them if they think fit. The latter is an operation not often performed upon new pictures for fear that it may cause them to crack as they dry. Called also Touching-day.

văr-rĭ-āt-ĕd, *a.* [Eng. *vair*; *-iated.*]

Her.: Cut in the form of vair: as, a bend *varriated* on the outsides.

văr'-rĭes, văr'-rȳs, văr'-reys, *s. pl.* [A dimin. from *vair* (q.v.).]

Her.: Separate pieces of vair, in form resembling a shield.

* **var'-sal,** *a.* [See def.] A vulgar corruption of *universal*, frequently used simply to intensify or emphasize. (*Swift: Polite Conv.*, ii.)

'Var'-sĭ-tȳ, *s.* [See def.] Either University (*i.e.*, Oxford or Cambridge); more rarely University College, Oxford. (*Slang.*)

"The parson—possibly an old *'Varsity* man."—*Daily Telegraph*, May 8, 1888.

var-sō'-vĭ-ĕnne, *s.* [Fr.]

Music: A celebrated dance, named from Warsaw, in Poland, where it probably originated. It is characterized by strong accent on the first beat of the second and fourth bars.

var'-ta-băd, var'-ta-bĕd, var'-ta-bĕt, *s.* [Armenian *vartabad* = a doctor, in the sense of a learned man.]

Ecclesiol. (*Pl.*): An order of ecclesiastics in the Armenian church, consisting of clerics with monastic vows, in this differing from the parochial clergy who must not merely be married, but have at least one child, before they are appointed to office. They are the only men under monastic vows in the Armenian Church, no lay monks being recognized. The bishops are taken from the Vartabads. (*Wilson: Lands of the Bible.*)

văr'-ŭs, *s.* [Lat. = bow-legged, straddling.] A variety of club-foot, in which the person walks on the outer edge of his foot.

var'-vĕl, vĕr'-vĕl, *s.* [Fr. *vervelle* (O. Fr. *vertevelle*), from Low Lat. *vertibella, vertebolum*, from Lat. *verto* = to turn.]

Falconry: A ring, usually of silver, placed on the leg of a hunting-hawk, on which the owner's name is engraved.

var'-vĕlled, *a.* [Eng. *varvel*; *-ed.*] Having varvels or rings. In heraldry, when the leather thongs, or jesses, which tie on the bells to the legs of hawks are borne flotant, with rings at the ends, the bearing is then termed jessed, belled, and *varvelled.*

var'-vĭ-çite, *s.* [After Warwickshire, where found.]

Min.: A pseudomorph of pyrolusite, after manganite; some varvicite is said to have the composition of wad.

văr'-ȳ, * **var-i-en,** * **var-rey,** *v.t.* & *i.* [Fr. *varier*, from Lat. *vario* = to diversify, to vary, from *varius* = various (q.v.); Sp. & Port. *variar*; Ital. & Sp. *variare.*]

A. *Transitive:*

I. *Ordinary Language:*

1. To change; to alter in form, appearance, substance, or position; to make different by a partial change; to modify.

"Shall we *vary* our device at will,
Even as new occasion appeares?"
Spenser: Mother Hubbard's Tale.

* 2. To make of different kinds; to make diverse or different from each other.

"God hath divided the genius of men according to the different affairs of the world; and *varied* their inclinations, according to the variety of actions to be performed."—*Brown.*

3. To diversify.

"The epithets are sweetly *varied.*"
Shakesp.: Love's Labour's Lost, iv. 2.

* 4. To change; to make unlike itself.

"Once more I'll mark how love can *vary* wit."
Shakesp.: Love's Labour's Lost, iv. 3.

5. To relieve from monotony or uniformity; to diversify.

II. *Music:* To embellish, as a melody or theme, with passing notes, cadenzas, arpeggios, &c.; to make or execute variations on. [Variation, II. 4.]

B. *Intransitive:*

I. *Ordinary Language:*

1. To alter; to change or be altered in any way; to suffer a partial change or alteration; to be modified.

"Fortune's mood *varies* again."
Shakesp.: Pericles, iii. (Prol.)

2. To be unlike or different; to differ; to be diverse.

"The violet *varies* from the lily as far
As ink from elm: one loves the soldier, one
The silken priest." *Tennyson: Princess*, v. 174.

3. To become unl ke one's self; to undergo change or variation, as in purpose, opinion, or the like.

"So *vary'd* he, and of his tortuous train,
Curl'd many a wanton wreath."
Milton: P. L., ix. 516.

4. To deviate, to depart, to swerve.

"All they of his counsaile coude nat make hym to *vary* fro that purpose."—*Berners: Froisaart; Cronycle*, vol. i., ch. ccxviii.

* 5. To disagree; to be at variance; to differ.

"Of the firste comynge of these Saxons into Britayne, auctors in party *varrey.*"—*Fabyan: Cronycle*, ch. lxxxiii.

* 6. To alter or change in succession; to alternate; to succeed.

"While fear and anger, with alternate grace,
Pant in her breast, and *vary* in her face."
Addison: Cato.

II. *Math.:* To be subject to continual increase or decrease. One quantity is said to *vary directly* as another, when, if the one is increased or diminished, the other is also increased or diminished in the same proportion. Quantities are said to *vary inversely*, when, if one is increased or diminished, the other is diminished or increased in the same proportion.

"The unit of velocity *varies directly* as the unit of length, and *inversely* as the unit of time."—*Everett: The C. G. S. System of Units*, ch. i., p. 3.

* **văr'-ȳ,** * **var-ry,** * **var-ye,** *a.* & *s.* [Vary, *v.*]

A. *As adj.:* Varied, variegated, various.

"Rere up their eyen, and se alle the malis steying up upon the femalis, *varye* (Lat. *varios*) and sprynkld and spottid."—*Wycliffe: Genesis* xxxi. 12.

B. *As subst.:* Change, alteration, variation.

"[They]... turn their halcyon beaks
With every gale and *vary* of their masters."
Shakesp.: Lear, ii. 2.

* **vary-coloured,** *a.* Coloured differently in different parts; variegated; parti-coloured; diversely coloured.

"A walk with *vary-coloured* shells."
Tennyson: Arabian Nights, 57.

văs'-cu-lar, *a.* [Mod. Lat. *vasculum* (q.v.); Eng. adj. suff. *-ar.*] [Vase.]

1. *Botany:*

(1) Composed of tubes or vessels. (*Paxton.*)

(2) Consisting of tissue in a very succulent enlarged state, as in Potamogeton. (*Loudon.*)

(3) Containing spiral vessels or their modifications; vasculose; connected with the circulatory system.

2. *Zool.:* Containing blood-vessels.

vascular-bundles, *s. pl.*

Veg. Physiol.: The fibrous cords which form the ribs, veins, &c., of the leaves, petioles, and other appendicular organs of all plants above the rank of mosses, and which, by their confluence and more considerable development, constitute the wood of stems and trunks. (*Griffith & Henfrey.*)

vascular-cryptogams, *s. pl.*

Bot.: The Cormophytes (q.v.).

† **vascular-glands,** *s. pl.*

Anat.: Gland-like bodies supposed to effect some change in the blood which passes through them. They are: the spleen, the thyroid body, the pituitary body, the lymphatic glands, &c.

vascular-plants, *s. pl.*

Bot.: A primary division of plants established in 1813 by De Candolle. He deemed it as plants furnished with cellular tissue and vessels, and whose embryo is provided with one or more cotyledons. Called also by him Cotyledonous Plants. This division comprehended the Exogens, Endogens, and the higher Cryptogams.

vascular-sedatives, *s. pl.*

Pharm.: Medicines which possess the power of depressing the action of the heart, or other portions of the circulatory system. Some—as digitalis, tobacco, aconite, &c.—act chiefly on the heart, and others—as acetate of lead, ipecacuanha, &c.—on the smaller vessels and capillary system.

vascular-system, *s.*

1. *Bot.:* That portion of the interior of a plant in which spiral vessels or their modifications exist. In an exogenous stem, the vascular system is confined to the space between the pith and the bark. It chiefly consists of ducts and pitted or woody tissue collected into compact, wedge-shaped, vertical plates, the edges of which rest on the pith and the bark, while the sides are in contact with the medullary rays. It comprises the medullary sheath, which consists of spiral vessels and woody tissue intermixed. In an endogenous stem, the vascular system exists in the form of fibrous bundles, consisting of woody tissue containing spiral or other vessels, the whole embedded in the cellular system.

2. *Comp. Anat.:* The circulatory system. A term applied to the whole series of vessels—arteries, veins, lymphatics, and lacteals—directly or indirectly connected with the circulation of the blood. The vessels of which it is composed are of two leading types—those which carry blood, and those carrying lymph or chyle. The first constitute the sanguiferous system, and include the heart, the arteries, the capillaries, and the veins. The second or absorbent system includes the smaller and larger lymphatic and lacteal vessels, with the lymphatic and mesenteric glands. [Artery, Blood, II. 1., Circulation, B., Lacteal, Vein, &c.]

vascular-tissue, *s.*

Bot.: Tissue consisting of a series of tubes. [Vascular-system, 1.]

vascular-tonics, *s. pl.*

Pharm.: Medicines which give tone or strength to the heart, and other parts of the circulatory system, when these are weakened by disease. [Tonic, B. 2. (4).]

văs-cu-lăr'-ēs, *s. pl.* [Masc. and fem. pl. of Mod. Lat. *vascularis* = vascular.]

Bot.: A class of plants founded by Lindley in 1830. It was not quite identical with De Candolle's Vascular plants (q.v.), for it included only Flowering Plants, with the two sub-classes, Exogens and Endogens, excluding the higher Cryptogams, which were relegated to the Cellulares or Flowerless Plants.

văs-cu-lăr'-ĭ-tȳ, *s.* [Eng. *vascular*; *-ity.*] The quality or state of being vascular.

văs-cu-lĭf'-ĕr-oŭs, *a.* [Lat. *vasculum* (q.v.), and *fero* = to bear.]

Bot.: Having seed-vessels divided into cells.

văs'-cu-lōse, *a.* & *s.* [Lat. *vascul(um)* = a little vessel; *-ose.*]

† **A.** *As adjective:*

Bot.: The same as Vascular (q.v.).

B. *As substantive:*

Chem.: Fremy's name for the substance constituting the principal part of the wood-vessels in plants. It is insoluble in concentrated acids, and in an ammoniacal solution of copper.

văs'-cu-lŭm (pl. **văs'-cu-la),** *s.* [Lat., dimin. from *vas* = a vessel, a vase.]

1. *Ord. Lang.:* A botanist's case for carrying specimens as he collects them.

2. *Bot.:* A pitcher, as in Sarracenia and Nepenthes.

vase (or as **vāse),** *s.* [Fr., from Lat. *vasum*, *vās* = a vase, a vessel.]

I. *Ord. Lang.:* A vessel of various forms and materials, applied to the purposes of domestic life, sacrificial uses, &c. They were often used merely for ornament, or were at least primarily ornamental in character and design. The antique vases found in great numbers in ancient tombs and catacombs in Etruria, Southern Italy, Greece, Sicily, &c., and used to contain the ashes of the dead, were for the most part made of baked clay, painted and glazed, though by the Egyptians, Greeks, and Ottomans other materials, such as precious stones, gold, silver, bronze, ivory, and glass, were used. One form of vase seems to have been peculiar to Etruria—viz., black or red vessels, with figures in relief upon them. A favourite kind of vase, introduced into Rome by Pompey, was called Murrhine (q.v.). Another kind was the cameo vase, made of two layers of glass, the outer of which was opaque, and was cut down so as to leave

figures standing out upon the lower layer as a ground. To this class belongs the celebrated Portland Vase in the British Museum. The glass vases of Venice became famous in the beginning of the sixteenth century, and in the same and following centuries many vases of the highest artistic performance were produced in Italy, France, and Germany. The porcelain vases of China and Japan are also characterized by great elegance of form and beauty of ornamentation.

"The toilet stands unveiled,
Each silver *vase* in mystic order laid."
Pope: Rape of the Lock, i.

II. *Technically:*

1. *Architecture:*

(1) A sculptured ornament placed on socles or pedestals representing the vessels of the ancients, as incense-pots, flower-pots, &c. Vases usually crown or finish façades or frontispieces.

(2) The same as DRUM, *s.*,[1] II. 2. (q.v.).

* 2. *Bot.:* A calyx (q.v.).

vase-shaped, *a.*

Bot.: Shaped like a flower-pot—*i.e.*, resembling an inverted, truncate cone.

văs'-ĕ-lēne, *s.* [Altered from *vaseline* (q.v.).]

Chem.: Petroleum jelly. A pale yellow, translucent, semi-solid substance, consisting of a mixture of the hydrocarbons $C_{16}H_{34}$ and $C_{20}H_{42}$, obtained by treating the undistilled portion of petroleum with superheated steam, and filtering while hot through animal charcoal. It is insoluble in water, very slightly soluble in alcohol, but dissolves freely in ether, chloroform, benzene, and turpentine, is miscible in all proportions with fixed and volatile oils, melts at 35° to 40°, and commences to fume at 160°. Its density in the melted state is ·840 to ·866. Pure vaselene does not turn rancid on exposure to the air, a property which renders it a valuable substitute for lard, &c., in the preparation of ointments liable to change. It is also said to possess curative powers of its own.

văs'-ĕ-line, *s.* [Ger. *wasser* = water, and Gr. ἔλαιον (*elaion*) = Lat. *oleum* = oil. Named by Mr. R. A. Cheesbrough, and applied to the preparations of the Cheesbrough Manufacturing Co.]

1. (See etym.).

2. Popularly applied to vaselene (q.v.) and other petroleum products. (*Allen: Commercial Organic Analysis*, ii. 406. Note 1.)

vā'-ṣĭ-form, *s* [Lat. *vas*, genit. *vasis* = a vessel, and *forma* = form.]

Biol.: Having the shape of a tube or duct.

vā'-ṣīte, *s.* [WASITE.]

vā-sō-, *pref.* [Lat. *vas* = a vessel.]

Anat.: Of, belonging to, or connected with a blood or other vessel.

vaso-constrictor, *a.*

Anat. & Physiol.: A term applied to nerves, the stimulation of which always causes constriction. Such are the vaso-motor fibres of the cervical, sympathetic, and splanchnic nerves. (*Foster.*)

vaso-dentine, *s.*

Compar. Anat.: That modification of dentine in which the capillary tracts of the primitive vascular pulp remain uncalcified, and carry red blood into the substance of the tissue. They form the so-called vascular or medullary canals, and are usually more or less parallel in their course. Vaso-dentine occurs in large amount in the central part of the tooth of the sloth and megatherium, in smaller amount in the teeth of the elephant and the incisors of the Rodentia. (*Page.*)

vaso-dilator, *a.*

Anat.: Causing dilatation in vessels. Used of nerves, the stimulation of which causes dilatation of vessels. (*Foster.*)

vaso-motor, vaso-motorial, *a.*

Anat.: A term applied to nerves which govern the motions of the blood-vessels. Quain says that the term is a convenient one, but does not consider that the nerves thus indicated constitute a distinct system. Used also of the operation of those nerves.

"Our explanation of *vaso-motor* action would be very simple."—*Foster: Physiol.* (ed. 4th), p. 208.

vaso-motorial, *a.* [VASO-MOTOR.]

văs'-sal, *văs'-sall, *vas-sell, *s. & a.* [Fr. *vassal* = a vassal, a subject, a tenant (Low Lat. *vassallus, vassus, vasus* = a servant), from Bret. *gwaz* = a servant, a vassal; Wel. & Corn. *guas* = a youth, a servant.]

A. *As substantive:*

1. A feudatory; a tenant holding lands under a superior lord, and bound by his tenure to feudal services.

"The grantor [of lands] was called the proprietor or lord; being he who retained the dominion or ultimate property of the feud or fee; and the grantee who had only the use and possession, according to the terms of the grant was stiled the feudatory or *vassal*, which was only another name for the tenant or holder of the lands: though on account of the prejudices which we have justly conceived against the doctrines that were afterwards grafted on this system, we now use the word *vassal* opprobriously, as synonymous to slave or bondsman."—*Blackstone: Comment.*, bk. ii., ch. 4.

2. A subject, a dependant, a retainer.

"The prince who had lately been his pensioner and *vassal*."—*Macaulay: Hist. Eng.*, ch. vi.

Văt′-ĭ-cąn, *s.* [From Lat. *mons Vaticanus* = the Vatican mount or hill, one of the hills of ancient Rome, on the west bank of the Tiber.]

1. The palace of the Pope, built on the Vatican hill, immediately north of the basilica of St. Peter's. Strictly speaking, it consists of the papal palace, the court and garden of Belvidere, the library, and museum. The present palace was built by Pope Eugenius III. (1145–1153), and has been enlarged and embellished by many of his successors. Immense treasures are stored in it, including the Vatican library. The Vatican has been used more or less as a place of residence by the popes since their return from Avignon in the latter part of the fourteenth century, and here the conclaves always meet for the election of new popes. Since the conversion of Rome into the capital of Italy the Vatican has been the only residence of the pope.

2. The papal government or power.

"The resumption of these relations will be signalised by the despatch of a Russian diplomatic agent to the *Vatican*."—*Daily Chronicle*, March 7, 1888.

¶ *Thunders of the Vatican:* The anathemas or denunciations of the pope.

Vatican Council, *s.*

Church Hist.: The First Council of the Vatican, or the Nineteenth General Council, which assembled on Dec. 8, 1869. At the opening sitting 719 prelates were present, and the numbers rose in the following year to 764. The work done consisted of two constitutions: one, "Of the Catholic Faith," treating of the primary truths of natural religion, revelation, faith, and the connection between faith and reason; the other, "Of the Church of Christ," treating of the primacy of the Roman See, and defining the Papal claims to authority over all Christians. The first constitution was unanimously accepted in a session of 667 prelates, and confirmed by the Pope (Pius IX.) on April 20, 1870. The second constitution led to a long discussion; on May 13 the scheme, with the added clauses on Papal Infallibility, was laid before the Council, and on July 18 the bull *Pastor Æternus*, containing the constitution and the definition of Papal Infallibility was read. 535 prelates voted in favour of it, two voted against it, whilst several absented themselves from the public session. The decree was then confirmed by the Pope: on the same day Napoleon III. declared war against Prussia; on Sept. 20 the Italians took possession of Rome, and on Oct. 20 the Pope prorogued the Council, which has never reassembled. [INFALLIBILITY.]

văt′-ĭ-cąn-ĭşm, *s.* [Eng. *Vatican*; *-ism.*] The tenets of those who hold extreme views as to the rights and supremacy of the Pope; ultramontanism; the doctrines and tenets promulgated by the Vatican.

"What is to be expected of him is yet a deeper disgust with *Vaticanism*."—*St. James's Gazette*, April 30, 1888.

văt′-ĭ-cąn-ĭst, *s.* [Eng. *vatican*; *-ist.*] A devoted adherent of the Pope; an ultramontanist.

***vā′-tĭ-çĭde,** *s.* [Lat. *vates* = a prophet, and *cædo* (in comp. *-cido*) = to kill.]

1. The murder of a prophet.

2. The murderer of a prophet.

"Then first (if poets aught of truth declare)
The caitiff *vaticide* conceiv'd a prayer."
Pope: Dunciad, iii. 78.

***vā-tĭç′-ĭn-ąl,** *a.* [Lat. *vaticinus* = prophetic, from *vates* = a prophet.] Pertaining to or containing predictions; prophetic, vatic.

"He [Thomas Rhymer] has left *vaticinal* rhymes, in which he predicted the union of Scotland with England."—*Warton: English Poetry*, § 79.

***vā-tĭç′-ĭn-āte,** *v.i.* & *t.* [Lat. *vaticinatus*, pa. par. of *vaticinor* = to prophesy, from *vaticinus* = vaticinal (q.v.).]

A. *Intrans.:* To prophesy; to utter prophecies or predictions.

"All have not alike learned the connexion of natural things, or understand what they signify, or know how to *vaticinate* by them."—*Berkeley: Siris*, § 253.

B. *Trans.:* To prophesy, to foretell; to utter prophetically or as a prophet.

*** vā-tĭç′-ĭn-ā′-tion,** *s.* [Lat. *vaticinatio*, from *vaticinatus*, pa. par. of *vaticinor* = to vaticinate (q.v.).]

1. The act of prophesying; prediction, prophecy.

"Unless we dare ascribe to the tyrant a spirit of *vaticination*, we cannot acquit the author of the letters of so manifest a cheat."—*Bentley: Dis. on Phalaris*, § 4.

2. A prediction, a prophecy.

"For this so clear *vaticination*, they have no less than twenty-six answers."—*Bp. Taylor: Liberty of Prophesying.*

***vā-tĭç′-ĭn-ā-tŏr,** *s.* [Lat.] One who prophesies or predicts.

"Listen to the *vaticinator*."—*I. Disraeli: Curiosities of Literature; A Bibliognosta.*

***vā-tĭç′-ĭn-ā-trĕss,** *s.* [Eng. *vaticinator*; *-ess.*] A prophetess.

"There was shown unto them the house of the *vaticinatress*."—*Urquhart: Rabelais*, bk. iii., ch. xvii.

***vā′-tĭç-ĭne,** *s.* [Lat. *vaticinium.*] A prediction, a prophecy.

"Then was fulfilled the *vaticine* or prophesie of old Merlin."—*Holinshed: Conquest of Ireland*, ch. xxxiv.

văt′-tĭng, *pr. par.* & *a.* [VAT, *v.*]

A. *As pr. par.:* (See the verb).

B. *As adj.:* Pertaining or relating to the act of putting in a vat: as, *vatting* charges at the docks.

vâu-çhĕr′-ĭ-ą, *s.* [Named after Rev. M. Vaucher, of Geneva, a botanical author, who died in 1841.]

Bot.: The typical genus of Vaucherieæ (q.v.). Green-spored Algæ, with fronds, or filaments, aggregated capillary; with an internal green mass. Fructification consisting of short lateral curved antheridia, and cysts containing a single zoospore of a dark green colour. The species occur in ponds, ditches, damp ground, and the mud of saline streams or seashores. Several species occur in Europe. *Vaucheria dichotoma*, about a foot long, is common in spring and autumn in ditches and ponds.

vâu-çhĕr-ĭ-ē′-æ, *s. pl.* [Mod. Lat. *vaucheri(a)*; Lat. fem. pl. adj. suff. *-æ.*]

Bot.: A sub-order or tribe of Fucaceæ. Frond with one or more siphons, without bark; utricles forming a lateral branchlet, proceeding from the upper, or more rarely from the lowest, joint of the branch. It contains the following families or tribes: Hydrogastridæ, Dasycladidæ, Ectocarpidæ, Batrachospermidæ, and Chordaridæ.

vaudeville, *vaudevil (as **vōd′-vĭl**), *s.* [Fr. *vaudeville* = a country ballad, from O. Fr. *vau* (Fr. *val*) *de Vire* = valley of Vire, a town in Normandy.]

1. A term originally applied to a country song of like kind with those written by Oliver Basselin, of the valleys of Vaux de Vire, in Normandy, in the fifteenth century. These songs, which were satirical, had for their subjects love, drinking, and passing events. They became very popular, and were spread all over France under the name *Lais des Vaux de Vire.* The peculiarity of their character lived after their origin was forgotten, and plays, interspersed with songs of this description, came to be called Vaudevilles, and occasionally Virelais.

2. A light gay song, frequently embodying a satire, consisting of several couplets and refrain burden, sung to a familiar air, and often introduced into theatrical pieces; a ballad, a topical song.

3. In French drama a piece whose dialogue is intermingled with light or comic songs sung to popular airs.

"A series of matrimonial adventures which might well appal the most daring and ingenious of our *vaudeville* authors."—*Daily Telegraph*, March 22, 1888.

Petrol.: A variety of granite (q.v.), containing hornblende.

vâult (1), ***vawte, *vaut, *vout, *voute, *vowte,** *s.* [O.Fr. *volte, voute, voulte, vaute* (Fr. *voûte*) = a vault; *volte* is prop. fem. of *volt* = bent or bowed, vaulted, from Low Lat. *volta, voluta* = a vault, from Lat *volutus*, pa. par. of *volvo* = to roll, to turn, from the rounded or arched top of vaults; Ital. *volta.*]

1. An arched roof; a concave roof or roof-like covering, hence applied figuratively to the sky.

"Had I your tongue and eyes, I'd use them so
That heav'n's *vault* should crack."
Shakesp.: Lear, v. 3.

2. *Arch.:* An extended arch covering an apartment so constructed that the stones, bricks, or other material of which it is composed sustain and keep each other in their places. Vaults are of various kinds: a cylindrical vault has a semicircular arch; a covered vault has an arch which springs from all sides of its plan; a groined vault is one formed by two vaults intersecting at right angles. When a vault is of greater height than half its span, it is said to be surmounted, and when of less height surbased. A rampant vault is one which springs from planes not parallel to the horizon, the vault placed over another constitutes a double vault. A conic vault is formed of part of the surface of a cone, and a spherical vault of part of the surface of a sphere. A vault is simple when it is formed by the surface of some regular solid, and compound when compounded of more than one surface of the same solid, or of two different solids.

"Then echo'd through the gloomy *vaults* of all
The lofty roof, the suitor's boist'rous roar."
Cowper: Homer; Odyssey, i.

3. An arched chamber; a passage or chamber with an arched roof, especially a subterranean chamber. Used as—

(1) A place of interment.

"The knell, the shroud, the mattock, and the grave,
The deep, damp *vault*, the darkness and the worm."
Young: Night Thoughts, iv. 10.

(2) A place of confinement; a prison, a dungeon.

(3) A place for storing articles; a cellar.

"The wine of life is drawn, and the mere lees
Is left this *vault* to brag of."
Shakesp.: Macbeth, ii. 3.

4. A chamber or space arched over naturally; a cavern.

"They frequently passed under *vaults* formed by fragments of the rock, in which they were told people who were benighted frequently passed the night."—*Cook: First Voyage*, bk. i., ch. xvi.

vâult (2), *s.* [Fr. *volte* = a round or turn, a tumbler's gambols, from Ital. *volta* = a turn, a vault; *vault* (1) and (2) are thus essentially the same word.] A leap or spring, especially—

* (1) The leap of a horse.

(2) A leap by means of a pole or springboard, or assisted by resting the hand or hands on something.

vâult (1), * **vaut**, * **vawt**, *v.t.* [Vault (1), *s.*

1. To form with a vault or arched roof; to give the shape of a vault or arch to.

"The houses within were well *vaulted* with stone."—*Berners: Froissart; Cronycle*, vol. iii., ch. lxxxix.

2. To cover with or as with an arch or vault; to arch over.

"Fiery darts in flaming volleys flew,
And flying *vaulted* either host with fire."
Milton: P. L., vi. 214.

"*Vauntingly* thou spakest it."
Shakesp.: Richard II., iv.

vauqueline, vauquelinite (as **vōk'-lĭn, vōk'-lĭn-ite**), *s.* [After M. Vauquelin, the discoverer of chromium; suff. *-ite* (*Min.*).]

1. *Chem.:* (*Of the form* Vauqueline): Pelletier and Caventou's original name for strychnine.

2. *Min.* (*Of both forms*): A monoclinic mineral occurring in minute crystals, also botryoidal and granular. Hardness, 2·5 to 3; sp. gr. 5·5 to 5·78; lustre, adamantine to resinous, becoming dull on exposure; colour, shades of green and brown to nearly black; streak, greenish or brownish; somewhat brittle. An analysis by Berzelius yielded: chromic acid, 28·33; protoxide of lead, 60·87; protoxide of copper, 10·80 = 100, corresponding with the formula $(CuO\,PbO)_3\,2CrO_3$, which requires, chromic acid, 27·7; protoxide of lead, 61·4; protoxide of copper, 10·9.

* **vaut,** *s.* [Vault (1), *s.*]

* **vaut,** *v.t.* [Vault (1), *v.*]

* **văv'-a-sŏr,** * **val-va-sor,** * **vav-a-sour,** * **vav-a-soure,** *s.* [O. Fr. *vavasor, vavasseur*, from Low Lat. *vavassor, vasvassor*, prob. a contr. of *vassus vassorum* = a vassal of vassals.]

Feudal Law: A principal vassal, not holding immediately of the sovereign, but of a great lord, and having other vassals who held of him; a vassal of the second degree or rank, inferior but next to the higher nobility. The title was rarely used. In the class of vavasors were comprehended *châtelains*, who owned castles or fortified houses, and possessed rights of territorial justice.

"The first name of dignity, next beneath a peer, was antiently that of vidames, vice-domini, or *valvasors*, who are mentioned by our antient lawyers as viri magnæ dignitatis. Our legal antiquaries are not agreed upon even their original or antient office."—*Blackstone: Comment.*, bk. i., ch. 12.

* **văv'-a-sŏr-ў,** *s.* [Fr. *vavassoire*.]

1. The quality or tenure of the fee held by a vavasor.

2. Lands held by a vavasor.

"He was also called a vavasor, and his lands a *vavasory*, which held of some mesne lord, and not immediately of the king."—*Harrington: Works*, p. 65.

* **vā'-ward,** *s.* & *a.* [For *vanward*, from *van* = front, and *ward* = guard.]

A. *As subst.:* The fore part; the vanguard, the van.

"The Earl of Huntley had the *vaward*, the duke the battele."—*Strype: Eccles. Mem.* (an. 1557).

B. *As adj.:* Foremost, front.

"Where's now the victor *vaward* wing?"
Scott: Marmion, vi. 33.

* **vayne,** *a.* [Vain.]

vē-ā'-dẽr, vē-ā'-dar, *s.* [Heb. וֵאדָר (*veadar*) = Adar the second.]

Hebrew Calendar: A supplementary month added by the later Jews sometimes after the third, sometimes after the second sacred year, care being taken that the seventh year should have no such month appended to Adar (q.v.). The twelfth sacred month ended in February or March, and Veadar, if introduced, immediately followed. This was the method of adjusting the Hebrew months which were lunar to the solar year.

vēal, * **veale,** * **veel,** *s.* [O. Fr. *veël* (Fr. *veau*), from Lat. *vitellum*, accus. of *vitellus* = a little calf; *vitulus* = a calf, orig. = a yearling, from the same root as *vetus* = old; *vetulus* = a little old man; Gr. ἔτος (*hetos*) = a year.]

* 1. A calf.

"*Veël.* A calfe or *veale*."—*Cotgrave.*

2. The flesh of a calf killed and prepared for the table.

veal-cutlet, *s.* A slice of veal cut off for frying or broiling.

* **vĕck,** * **vecke,** *s.* [Etym. doubtful; cf. Ital. *vecchia*, from Lat. *vetula*.] An old woman. (*Romaunt of the Rose.*)

Vĕc'-tĭ-an, Vĕc'-tine, *s.* [For etym. see extract.]

Geol.: A term proposed for the Lower Greensand. (Used also adjectively.) [Neocomian.]

"The name *Vectian*, recommended in 1855 by Mr. A. J. Jukes-Browne, was previously applied by John Phillips to the Fluvio-Marine Tertiary Strata of the Isle of Wight, while the name of *Vectine* (from Insula vectis of the Romans) was suggested by Fitton in 1845."—*H. B. Woodward: Geol. England & Wales* (ed. 2nd), p. 365.

***vĕc'-tion,** *s.* [Lat. *vectio*, from *vectus*, pa. par. of *veho* = to carry.] The act of carrying; the state of being carried.

***vĕc'-tĭs,** *s.* [Lat.] A lever.

***vĕc-tĭ tā'-tion,** *s.* [Lat. *vectitatus*, pa. par. of *vectito*, freq. of *vecto*, intens. of *veho* (pa. par. *vectus*) = to carry.] The act of carrying; the state of being carried.

"Their enervated lords are lolling in their chariots (a species of *vectitation* seldom used among the ancients, except by old men)."—*Pope: Martinus Scriblerus.*

vĕc'-tor, *s.* [Lat., from *veho* (pa. par. *vectus*) = to carry.]

Mathematics:

1. The same as RADIUS-VECTOR (q.v.).

2. A directive quantity, as a straight line, a force, or a velocity. The simplest manner in which to represent such a quantity which involves both direction and magnitude is by means of a straight line in space. Then the vector may be regarded as a stepping from one extremity of the line to the other. Vectors are said to be equal when their direction is the same and their magnitudes equal.

***vĕc'-ture,** *s.* [Lat. *vectura*, from *veho* (fut. par. *vecturus*) = to carry.] The act of carrying; carriage.

"There be but three things which one nation selleth unto another; the commoditie as nature yeeldeth it; the manufacture; and the *vecture* or carriage."—*Bacon: Essays; Of Seditions & Troubles.*

Vê'-da, *s.* [Sansc. = knowledge; specif. inspired knowledge, from *vid* = to know, cogn. with Lat. *video* = to see; Gr. οἶδα (*oida*) = I know; Eng. *wit*, *wisdom*, &c.]

Hindoo Sacred Lit.: The oldest Hindoo sacred volume, or series of volumes, divided into four portions: the Rig-veda, the Sama-veda, the Yajur-veda, and the Atharva-veda, often spoken of as separate Vedas. The oldest is the Rig-veda; then the Sama-veda and the Yajur-veda were composed, and after an interval the Atharva-veda was added. They are in metre, consisting of hymns supposed to have been divinely revealed to certain Rishis or Brahmanical sages. The hymns of the Rig-veda are arranged in ten circles according to the families of their composers. Some are named after their individual authors. The Sama, Yajur, and Atharva Vedas consist of extracts from the Rig-vedic hymns made to be used in connection with sacrificial offerings. They are therefore in the mass more modern than the Rig-veda, though individual portions of the Sama-veda have more archaic grammatical forms than those of the Rig-veda, and may be older. The Atharva, on the contrary, is so much more modern, that it did not obtain its present place without controversy. To the Sanhita, or collection of hymns, in each Veda was appended a Brahmana, or prose commentary or theological treatise. With these were connected certain upanishads, speculative treatises. [UPANISHAD.] Then follow sutras (strings), consisting of short sentences strung together: but these, though founded on the Vedas, are admitted by the Brahmans to have been only of human origin. The Vedas were composed while their Aryan authors were fighting their way forward from the north-western boundary of India across the five rivers of the Punjaub onward to the Ganges. [For the theology see BRAHMANISM and RIG-VEDA.]

Vĕd'-ah, Vĕd'-dah, *s.* [Native name.]

Ethnol. (Pl.): A tribe inhabiting the forests of the interior of Ceylon, probably either the aborigines, or outcasts from the Singhalese. They live in a primitive state, ruled by their own chiefs, and conceal their villages in the depths of the jungle, as far as possible from the beaten paths. Their language differs but little from the common Singhalese.

Vĕ-dăn'-ga, *s.* [Sansc. See def.]

Hindoo Sacred Lit. (Pl.): What the Brahmans call "members of the Veda." They are six in number, but this name, says Max Müller (*Ancient Sanscrit Literature*, p 109), "does not imply the existence of six books or treatises intimately connected with their sacred writings, but merely the admission of six subjects, the study of which was necessary either for the reading, the understanding, or the proper sacrificial employment of the Veda." The six subjects or doctrines usually comprehended under the name Vedangas are: Sikshâ (= pronunciation), Chhandas (= metre), Vyâkarana (= grammar), Nirukta (= explanation of words), Jyotisha (= astronomy), and Kalpa (= ceremonial). The first two are considered necessary for reading the Veda, the two next for understanding it, and the last two for employing at sacrifices. The writers of the Vedangas do not claim inspiration.

Vĕ-dăn'-ta, *s.* [Sansc. = conclusion of the Veda.]

Hindoo Philos.: A system of religion and philosophy professedly founded on the Vedas. It is divided into the Pûrva mimânsa and the Uttara mimânsa, or the former and latter mimansas, which constitute two of the leading darsanas or schools of philosophy. As the first of these is chiefly practical, the Vedanta philosophy is mainly derived from the second. It was founded by Vyasa, and was modified by Sankara, its commentator. The former identified the world with God, and contended earnestly for the reality of the external universe, which he held to have been created by God; the later Vedantists maintained that the universe is but an illusion projected by God, and is itself God. The present Vedanta system is Pantheistic. It has many adherents among the more educated Hindoos. (*Banerjee: On the Hindoo Philosophy, &c.*)

Vĕ-dăn'-tic, *a.* [Eng. *Vedant(a)*; *-ic.*] Of or pertaining to the Vedas; founded on or derived from the Vedas.

Vĕ-dănt'-ist, *s.* [Eng. *Vedant(a)*; *-ist.*] One versed in the doctrines of the Vedanta (q.v.).

"The *Vedantist*, the Buddhist, and the Illuminated Western Philosopher."—*Daily Telegraph*, Jan. 9, 1886.

vĕ-dĕtte', vĭ-dĕtte', *s.* [Fr. *vedette* = a sentry, a high place from which one may see afar off, from Ital. *vedetta* = a sentry, a watch-tower, for *veletta* = a sentry-box, dimin. of *veglia* = a watch, watching, from Lat. *vigilia* a watching.] [VIGIL.] A sentinel on horseback stationed on an outpost or elevated point to watch an enemy and give notice of danger.

Vê'-dĭc, *a.* [Eng. *Ved(a)*; *-ic.*] Of or relating to a Veda or the Vedas.

"Sanskrit philology has no longer an excuse for ignoring the *Vedic* age."—*Max Müller: Ancient Sanscrit Literature* (1859), p. 10.

veĕ-nâ', *s.* [VINA.]

veër, *vear, *vere, *vire, *v.i. & t.* [Fr. *virer* = to veer, to turn round, to whirl round, from Low Lat. *viro* = to turn; *virola* = a ring; Lat. *viriola*; Sp. *virar*, *birar* = to wind, to twist, tack, or veer; Port. *virar* = to turn, to change; Dut. *vieren* = to veer.]

A. *Intransitive:*

1. To turn; to alter its course, as a ship by turning her head away from the wind.

2. To shift; to change its direction, as the wind.

"The wind *veered*, the rain ceased."—*Daily Chronicle*, Jan. 4, 1888.

¶ The wind is said to veer when it shifts with the sun, and to back when it shifts against the sun. In nautical language it is said to veer aft when it comes to blow more astern; the contrary is to haul forward.

3. To turn round, to shift, to vary; to alter one's opinion; to be otherwise minded; said of persons, opinions, feelings, and the like.

"Thou weather-cock of government; that when the wind blows for the subject, point'st to privilege; and when it changes for the sovereign, *veers* to prerogative."—*Dryden: Amphitryon*, v.

B. *Transitive:*

Nautical:

1. To direct into a different course; specifically, to wear, or cause to change a course by turning the stern to windward, in opposition to tacking.

2. To let out, to veer out.

"*Veering* about one hundred and fifty fathoms of cable, the ship was happily brought up."—*Cook: First Voyage*, bk. ii., ch. vi.

3. To turn, to shift, to change.

"Sailing further, it *veers* its lily to the west, and regardeth that quarter wherein the land is nearer or greater."—*Browne.*

¶ (1) *To veer and haul:* To pull tight and slacken alternately.

(2) *To veer away:* To let out; to slacken and let run.

(3) *To veer out:* To suffer to run, or to let out to a greater length.

"This obliged us to let go our sheet anchor, *veering* out a good scope of cable, which stopt us till 10 or 11 o'clock the next day."—*Dampier: Voyages* (an. 1687.)

***veër'-a-ble,** *a.* [Eng. *veer*; *-able.*] Changeable, shifting. (Said of winds).

"We find the winds south, S. by W. and S.S.W. fresh gales; *veerable* to S.W."—*Dampier: Discourse of Winds*, ch. v.

veër'-ĭng, *a. & s.* [VEER, *v.*]

A. *As adj.:* Shifting, changing, turning; changeable.

B. *As subst.:* The act of shifting, turning, or changing; fickle or capricious change.

"It is a double misfortune to a nation given to change, when they have a sovereign that is prone to fall in with all the turns and *veerings* of the people."—*Addison: Freeholder.*

***veër'-ĭng-lў,** *adv.* [Eng. *veering*; *-ly.*] In a veering or shifting manner; shiftingly.

veër'-y, *s.* [See def.] A name given in America to Wilson's Thrush (*Turdus fuscescens*).

Vê'-ga (1), *s.* [Arab.]

Astron.: A fixed star of the first magnitude, called also α Lyræ. It is one of the brightest stars in the northern hemisphere. No other large stars are near it, but Vega, Arcturus, and Polaris nearly constitute a right-angled triangle. Another triangle is formed by Vega, Deneb, and Altair. Vega emits a brilliant white light. Spectroscopic analysis shows that it contains incandescent hydrogen, sodium, and magnesium. It is accompanied by a small telescopic star.

***vê'-ga (2),** *s.* [Sp.] An open plain; a tract of level and fruitful country.

"Sometimes marauders penetrated into the *vega*, the beautiful *vega*, every inch of whose soil was fertilized with human blood."—*Prescott.* (*Annandale.*)

***vĕg-ĕt-a-bĭl'-ĭ-tў,** *s.* [Eng. *vegetable*; *-ity.*] The quality or state of being vegetable; vegetable nature.

"The coagulating spirits of salt, and lapidificial juyce of the sea, which entring the parts of that plant, overcomes its *vegetability*, and converts it into a lapideous substance."—*Browne: Vulgar Errours*, bk. ii., ch. v.

vĕg'-ĕt-a-ble, *a. & s.* [Fr. = vegetable, fit or able to live, from Lat. *vegetabilis* = animating, full of life, from *vegeto* = to enliven, to quicken, from *vegetus* = lively, from *vegeo* = to excite, to quicken, to arouse; akin to *vigeo* to flourish; Sp. *vegetable*; Ital. *vegetabile.*]

A. *As adj.:* Pertaining, belonging, or peculiar to plants; resembling or characteristic of a plant, or what belongs to a plant; having the nature or characteristics of a plant; occupied or concerned with plants.

"The wood, bark, and leaves, &c., of an oak, in which consists the *vegetable* life."—*Locke: Human Understanding*, bk. ii., ch. xxvii.

B. *As substantive:*

1. A plant (q.v.).

"The whole tribes of *vegetables* or plants. These may be divided into herbs, shrubs, and trees."—*Locke: Nat. Philosophy*, ch. ix.

2. In a more restricted sense, a plant used for culinary purposes, or for feeding cattle, sheep, or other animals. Vegetables used for such purposes, as cabbages, turnips, beans, pease, &c., are of a more soft and fleshy substance than trees or shrubs.

vegetable-acids, *s. pl.*

Chem.: Acids derived from vegetable matters, now included under organic acids. The most important are acetic, oxalic, tartaric, citric, &c.

vegetable-æthiops, *s.* A kind of charcoal prepared by incinerating a sea-weed, *Fucus vesiculosus*, the Common Bladder-wrack, in a covered crucible.

vegetable-albumin, *s.*

Chem.: A substance occurring in small quantities in all vegetable juices. It has not yet been obtained pure, but appears to possess the general properties of the albumins.

vegetable-alkalis, *s. pl.*

Chem.: The proximate principles of plants which possess alkaline properties, such as morphia, quinine, &c. [ALKALOIDS.]

vegetable-anatomy, *s.*

Bot.: The dissection of plants. It may be (1) Gross, in which the plant is first examined with the aid of a hand-lens, or (2) Minute, in which every part is subject to the compound microscope.

vegetable-brimstone, vegetable-sulphur, *s.* [BRIMSTONE, LYCOPODE.]

vegetable-butter, *s.* The butter-like concrete oil of various trees. [BUTTER, A. II. 8., BUTTER-TREE, COCOA-BUTTER, *s.*]

vegetable-egg, *s.*
Bot.: Lucuma mammosum. [LUCUMA.]

vegetable fire-cracker, *s.*
Bot.: Brodiæa coccinea.

vegetable-flannel, *s.* Pine-needle wool (q.v.).

vegetable-gelatine, *s.* [GLUTIN.]

vegetable-gold, *s.* An acid extracted from the roots of *Trixis Pipizahuac.*

vegetable-hair, *s.*
Bot.: Tillandsia usneoides. [TILLANDSIA.]

vegetable horse-hair, *s.*
Bot.: The fibre of *Chamærops humilis.* [CHAMÆROPS.]

vegetable-ivory, *s.* [TAGUA, IVORY, ¶.]

vegetable-jelly, *s.* Pectin (q.v.). The popular name appears to have been given by Lindley. (*Introd. to Botany*, ed. 3rd, p. 46.)

vegetable-kingdom, *s.*
Bot.: The English equivalent of the Latin term *Regnum Vegetabile*, used by Linnæus to designate and comprehend all plants of whatever affinity, from the highest to the lowest. In his *Systema Naturæ* he divided it into three tribes: Monocotyledones, Dicotyledones, and Acotyledones; but he made no subsequent use of this arrangement either in his Artificial or in his Natural System of classification. For Lindley's classification, see BOTANY.

vegetable-leather, *s.*
Bot.: Euphorbia punicea.

vegetable-life, *s.* The life of a plant as distinguished from that of an animal. Linnæus described a vegetable as an organized being possessed of life but not of feeling. Like an animal, it has the powers of nutrition or self-support, that of assimilating to itself particles of other bodies suitable for its nourishment and growth, and finally it has the power of reproduction. [PLANT, II., 1.]

vegetable-marrow, *s.* [MARROW (1), *s.*, ¶ 2.]

vegetable-morphology, *s.* [MORPHOLOGY.]

vegetable-mould or **soil,** *s.* Mould or soil to a certain extent formed by decaying or decayed vegetation. It might be supposed that this would tend to increase continually in thickness, especially in tropical forests, where vegetation is so luxuriant; but a large proportion of it is swept away by the heavy rains, or, decomposing on the spot, is partly resolved into gaseous elements.

vegetable-oils, *s. pl.* [OIL, I., 2.]

vegetable-parchment, *s.* [PARCHMENT-PAPER.]

vegetable-pathology, *s.*
Biol.: The branch of pathology or of botany which treats of the diseases of plants.

vegetable-physiology, *s.*
Bot.: The physiology of plants, the branch of physiology or of botany which treats of the functions which the several organs of plants perform.

vegetable-sheep, *s.*
Bot.: Raoulia eximia, a New Zealand plant. So called because from its growing in large, white tufts on elevated sheep-runs it is liable to be mistaken for the sheep itself. It is a composite flower—one of the Helichryseæ.

vegetable-silk, *s.*
Bot., &c.: A cotton-like fibre obtained from the seed pods of a tree, *Chorisia speciosa*, used by the Brazilians for stuffing pillows and cushions. It is a Sterculiad, akin to the Silk Cotton-tree, 1. & 2. (q.v.).

vegetable-sulphur, *s.* [VEGETABLE-BRIMSTONE.]

vegetable-tallow, *s.* A fatty substance obtained from *Stillingia sebifera*, *Vateria indica*, and other plants.

vegetable-tissue, *s.* [TISSUE, II. 2.]

vegetable-wax, *s.* A ceraceous excretion obtained from different parts of various plants, as from the coating on the fruits of *Myrica cerifera.* [MYRICA-TALLOW.]

***vĕġ'-ĕt-al,** ***veg-et-all,** *a. & s.* [Fr. *végétal.*] [VEGETABLE.]

A. *As adjective:*

1. Pertaining or relating to a plant or plants; having the nature or characteristics of a plant; vegetable.

"Necessary concominants of this *vegetal* faculty are life and his privation, death." — *Burton: Anat. of Melancholy*, p. 21.

2. Of or pertaining to the class of vital phenomena, common to animals and plants, namely, digestion and nutritive assimilation, growth, absorption, secretion, excretion, circulation, respiration, and generation, as contradistinguished from sensation and volition, which are peculiar to animals.

B. *As subst.:* A plant, a vegetable.

"Let brutes and *vegetals* that cannot think
So far as nature urges, drink."
Waller: The Drinking of Healths.

***vĕġ-ĕ-tăl'-ĭ-tў,** *s.* [Eng. *vegetal; -ity.*]

1. The quality or state of being vegetal or vegetable; vegetability.

2. The aggregate of those vital phenomena which constitute the life or existence of a vegetable. [VEGETAL, A. 2.]

vĕġ-ĕ-tăr'-ĭ-an, *s. & a.* [Eng. *veget(able); -arian.*]

A. *As substantive:*

1. One who abstains from animal food, living exclusively on vegetables, milk, eggs, and the like. The more strict vegetarians eat vegetables and farinaceous food only, abstaining from eggs, butter, and milk.

2. One who maintains the doctrine of vegetarianism.

B. *As adj.:* Pertaining or relating to vegetarians or vegetarianism; of or belonging to the diet or system of vegetarians.

Vegetarian Society, *s.* A society consisting of members, associates, and subscribers, formed at Manchester in 1847, to promote the use of cereals, pulse, and fruit, as articles of diet; and to induce habits of abstinence from fish, flesh, and fowl, as food. The Vegetarian Federal Union was formed in 1889. It has affiliated with it societies in the United States, Germany, Australia, and Great Britain. International Congresses of vegetarians have been held.

vĕġ-ĕ-tăr'-ĭ-an-ĭsm, *s.* [Eng. *vegetarian; -ism.*] The practice of living solely on the products of the vegetable kingdom—grain, pulse, fruit, and nuts, with or without the addition of eggs and milk and its products (butter and cheese), to the exclusion of flesh, fish, and fowl. Vegetarians allege in support of this system that man when created was exclusively frugivorous, and that his structure is not adapted for a flesh diet; that the adoption of the vegetarian method of living would enable the country to support a greater population, and render it independent of a foreign food supply; that vegetarianism is favourable to temperance, a peaceful disposition, and purity in thought and life; that it is preferred by children; that it is infinitely cheaper than a flesh diet; that its adoption would enable the working classes not only to live better, but to save money; that it would stay the revolting horrors of the slaughter-house; that much better health is invariably enjoyed by vegetarians, who are also less liable to give way to intemperance. On the other hand, the most eminent physiologists, while admitting that a theoretically perfect diet can be obtained from the vegetable kingdom, hold that a mixed diet is the best, and the structure of man's organs (especially of the stomach and teeth) is held to prove an adaptation for all kinds of food. Apart from the story of Genesis, which many authorities hold to be poetical rather than literal, there are no means of ascertaining the diet of the first man, but practically all the remains that have been discovered show that at a very early stage in his existence man was a hunter, and lived almost exclusively on a flesh diet.

Vĕġ ĕ tăr'-ĭ-ans, *s. pl.* A Chinese sect who observe the habit of vegetarianism as a religious duty. This sect was charged with inciting the murder of many Christian missionaries in 1895.

vĕġ'-ĕ-tāte, *v.i.* [Lat. *vegetatus*, pa. par. of *vegeto* = to enliven, to quicken.] [VEGETABLE.]

1. *Literally:*

(1) To grow up in the manner of a plant or vegetable; to grow by vegetable growth.

(2) To promote growth, as of a plant.

"The rain water may be endued with some *vegetating* or prolifick virtue."—*Ray: On the Creation*, pt. i.

2. *Fig.:* To live an idle, unthinking life; to have a mere existence.

"He deems it hard to *vegetate* alone."
Cowper: Tirocinium, 724.

vĕġ-ĕ-tā'-tion, *s.* [Fr., from Lat. *vegetationem*, accus. of *vegetatio*, from *vegetatus*, pa. par. of *vegeto* = to quicken, to enliven; Sp. *vegetacion*; Ital. *vegetazione.*] [VEGETATE.]

I. *Ordinary Language:*

1. The act or process of vegetating; the process of growing by vegetable growth.

"The second sensible, that have not only a life of *vegetation*, but a life of sense and faculties."—*Hale: Orig. of Mankind*, p. 266.

2. Vegetables or plants generally and collectively. (*Thomson: Summer*, 439.)

¶ Lyell considered that the effect of vegetation was conservative, *i.e.*, that it retarded the destruction of the soil and the subjacent rocks by the action of running water. Thus, when the woods clothing the steep declivities of the hills bounding the upper part of the valley of the Arno were cut down in the eighteenth century, the quantity of sand washed down into the river increased enormously. (*Princip. of Geol.*, ch. xlv.)

II. *Pathol.:* The term usually applied to growths and deposits connected with the valves of the heart; used also of excessive granulations on wounds, and of warty growths.

* ¶ *Vegetation of salts:*

Chem.: A name formerly applied to the crystallization of salts.

vĕġ'-ĕ-tā-tĭve, ***veg-e-ta-tife,** *a. & s.* [Fr. *végétatif* = vegetative, lively.]

A. *As adjective:*

I. *Ordinary Language:*

1. Growing; having the power of growing, as plants.

"Substantial forms, *vegetative* souls, abhorrence of a vacuum."—*Locke: Human Understand.*, bk. iii., ch. x.

2. Having the power to produce or support growth in plants.

"This growth is a constant and habitual exercise of vital or *vegetative* souls."—*Blackie: Self-Culture*, p. 41.

II. *Zool.:* Repeated an indefinite number of times as the limbs of a Millipede or the segments of a worm.

"The vermiform type of the articulated sub-Kingdom in which the *vegetative* principle of development by the frequent repetition of similar parts is still conspicuously manifested."—*Owen: Anat. Invert.* (ed. 1843), pp. 129, 131.

* **B.** *As subst.:* A vegetable.

vegetative-tissue, *s.*
Biol.: The same as VEGETABLE-TISSUE (q.v.).

vĕġ'-ĕ-tā-tĭve-lў, *adv.* [Eng. *vegetative; -ly.*] In a vegetative manner. [VEGETATIVE, II.]

***vĕġ'-ĕ-tā-tĭve-nĕss,** *s.* [Eng. *vegetative; -ness.*] The quality or state of being vegetative, or of producing growth.

***vĕ-ġēte',** *a.* [Lat. *vegetus* = lively, vigorous.] [VEGETABLE.] Active, vigorous.

"That he had lived a healthful and *vegete* age till his last sickness."—*Bp. Taylor: Holy Dying*, ch. iv., § 1.

***vĕġ'-ĕ-tĭve,** *a. & s.* [Eng. *veget(e); -ive.*]

A. *As adjective:*

1. Vegetable; having the nature of a plant; capable of growth.

"The tree still panted in the unfinished part;
Not wholly *vegetive*, and heaved her heart."
Dryden: Ovid; Metamorphoseed.

2. Growing vigorously; vigorous, strong.

"It quickens all kinde of seeds, it makes them *vegetive*."—*Hakewill: Apologie*, bk. ii., ch. iv., § 1.

B. *As subst.:* A vegetable, a plant.

"Better than those *vegetives*,
Whose souls die with them."
Massinger: Old Law, i. 1.

vĕġ-ĕ-tō-, *pref.* [VEGETOUS.] Of a vegetable nature.

vegeto-alkalis, *s. pl.* [VEGETABLE ALKALIS.]

* **vegeto-animal,** *a.* A term applied to an organism supposed to partake of the nature of an animal and of a vegetable.

***vĕġ-ĕ-tŏŭs,** *a.* [Lat. *vegetus.*] [VEGETE.] Vigorous, lively, active.

"If she be fair, young, and *vegetous*, no sweetmeats ever drew more flies."—*Ben Jonson: Silent Woman*, ii. 1.

vē'-hĕ-mĕnçe, *s.* [Fr. *véhémence*, from Lat. *vehementia*, from *vehemens* = vehement (q.v.); Sp. & Port. *vehemencia.*]

1. The quality or state of being vehement; violent ardour, fervour, or impetuosity; violence.

"To declare the *vehemence* of his mynde in the matter of fayth."—*Sir T. More: Workes*, p. 565.

2. Force or impetuosity accompanying energetic action of any kind; impetuous force; impetuosity, violence, fury.

"A universal hubbub wild . . .
Borne through the hollow dark, assaults his ear
With loudest *vehemence*." *Milton: P. L.*, ii. 954.

***vē'-hĕ-mĕn-çy, *ve-he-men-cie,** *s.* [Lat. *vehementia.*] Vehemence, violence.

"The river arose so high, and ran with such *vehemencie*."—*Holinshed: Descript. Britain*, ch. xv.

vē'-hĕ-mĕnt, *a.* [Fr., from Lat. *vehementem*, accus. of *vehemens* = passionate, eager, vehement; lit. = carried out of one's mind, from *veho* = to carry, and *mens* = mind; Sp. & Port. *vehemente*; Ital. *veemente.*]

1. Proceeding from or characterized by strength, violence, or impetuosity of feeling or emotion; very ardent, eager, or urgent; fervent, passionate, fiery.

"The preparations went on rapidly, yet too slowly for the *vehement* spirit of William."—*Macaulay: Hist. Eng.*, ch. ix.

2. Acting with great force, energy, or violence; energetic, violent, furious: as, a *vehement* gale.

vē'-hĕ-mĕnt-lў, *adv.* [Eng. *vehement; -ly.*] In a vehement manner; with vehemence, great force, violence, or energy; violently, urgently, forcibly, furiously, passionately.

"They would again retire to the place from whence they came, and would bark *vehemently* a long time."—*Dampier: Voyages* (an. 1676).

vē'-hĭ-cle, *s.* [Lat. *vehiculum*, from *veho* = to carry; Fr. *véhicule*; Sp. *vehiculo*; Ital. *veiculo.*]

I. *Ordinary Language:*

1. *Lit.:* Any kind of carriage moving on land, whether on wheels or runners; a coach, a car, a carriage, a cart, a sledge, sleigh, or the like.

2. *Fig.:* That which serves as the instrument or means of conveyance, transmission, or communication.

"Painting, with all its technicalities, difficulties, and peculiar ends, is nothing but a noble and expressive language, invaluable as the *vehicle* of thought, but by itself nothing."—*Ruskin: True & Beautiful.* (Introd.)

II. *Technically:*

1. *Art:* The menstruum or medium with which the various pigments are applied in painting. Of these water is used in fresco and in water-colour painting, the colours being consolidated with gum-arabic; size is used in distemper painting. In oil-painting the fixed oils of linseed, nut, and poppy are used; in encaustic painting, wax is the vehicle.

2. *Pharm.:* A substance in which medicine is taken. [EXCIPIENT, B. 2.]

***vē'-hĭ-cled,** *a.* [Eng. *vehicl(e); -ed.*] Conveyed in a vehicle; applied or imparted by means of a vehicle. [VEHICLE, I. 2.]

"Guard us through polemic life,
From poison *vehicled* in praise."
Green: The Grotto.

vĕ-hĭc'-ŭ-lar, *a.* [Lat. *vehicularis*, from *vehiculum* = a vehicle (q.v.).] Of, pertaining to, or relating to a vehicle or vehicles.

"*Vehicular* traffic was impeded and blocked in the streets."—*Daily Telegraph*, Feb. 9, 1886.

***vĕ-hĭc'-ŭ-lar-ў,** *a.* [Eng. *vehicular; -y.*] Vehicular.

***vĕ-hĭc'-ŭ-late,** *v.t. & i.* [Eng. *vehicle; -ate.*]

A. *Trans.:* To convey, apply, or impart by means of a vehicle.

"Try various other means of *vehiculating* and conveying safe."—*Carlyle: Past & Present*, bk. ii., ch. i.

B. *Intrans.:* To ride or drive in a vehicle.

"*Vehiculating* in gigs or otherwise over that piece of London Road."—*Carlyle: Cromwell's Letters, &c.*, iii. 34.

***vĕ-hĭc-u-lā'-tion,** *s.* [VEHICULATE.] Movement of vehicles; traffic.

"The new Road with its lively traffic and *vehiculation* seven or eight good yards below our level."—*Carlyle: Reminiscences*, i. 212.

***vĕ-hĭc'-ŭ-lā-tŏr-ў,** *a.* [Eng. *vehiculat(e); -ory.*] Designed for carrying.

"Logical swim-bladders, transcendental life-preservers, and other precautionary and *vehiculatory* gear for setting out."—*Carlyle: Life of Sterling*, ch. viii.

vêh'-mę (v as f), *s.* [VEHMGERICHTE.]

vêhm-gĕ-rĭch'-tę (v as f, *ch* guttural), *s.* [Pl. of Ger. *vehmgericht*, from O. Ger. *veme, feme, fem* = punishment, and *gericht* = a court of justice.]

Hist.: A system of secret tribunals which originated during the Middle Ages in Westphalia, and then spread over Germany, where the regular administration of justice had fallen into complete disorder. The supreme government of the Vehmic tribunals was vested in the Great or General Chapter, composed of the Freegraves and all the other initiated members, high and low. The assemblies of the tribunals were generally held in broad daylight and in public, sometimes by night and in secret. The last tribunal was held at Zell in 1568, but a few Vehmic tribunals existed in name, though without possessing any remnant of their pristine power, as late as the middle of the eighteenth century. Westphalia was divided into districts, each of which usually contained one, and sometimes many, Vehmic tribunals, whose boundaries were accurately defined. The court itself was composed of "Echevins," nominated by the Lord or Graff, and divided into two classes—(1) the ordinary, and (2) the Wissender, or Witan—who were admitted under a strict bond of secrecy. The criminal jurisdiction of the Vehmic tribunals took the very widest range. They, like the Echevins, were of two classes—(1) the open court, or Folkmoot, and (2) the far-famed and dreaded Secret Tribunal. Charlemagne, according to the tradition, was the founder of the Vehmic tribunal, but this is not confirmed either by documentary evidence or by contemporary history. More probably these tribunals were the original summary jurisdictions of the old Saxons, which survived the subjugation of their country. In fact, these proceedings differed in no essential character from the summary jurisdiction exercised in the townships and hundreds of Anglo-Saxon England. (For illustrations of the proceedings of the Vehmgerichte, see Sir W. Scott's *Anne of Geierstein.*)

vêhm'-ĭc (v as f), *a.* [Eng. *vehm(e); -ic.*] Of or pertaining to the Vehme or Vehmgerichte (q.v.).

vêil, *vāil, *vaile, *vayle, *veile, *s.* [O. Fr. *veile*; Fr. *voile*, from Lat. *velum* = a sail, a covering, from *veho* = to carry, to bear along.]

I. *Ordinary Language:*

1. *Lit.:* Something hung up or spread out to intercept the view; a covering hung or suspended in front of or over something to prevent it from being seen; a screen, a curtain; specifically, a more or less transparent piece of dress worn to conceal, shade, or protect the face.

"The *veil* of the temple was rent in twain."—*Matt.* xxvii. 51.

2. *Fig.:* Anything that prevents observation; a covering, mask, disguise, or the like.

"Under the *veile* of darke and obscure speeches."—*Holinshed: Hist. Scotland* (an. 1279).

II. *Technically:*

1. *Anat., &c.:* [VELUM].

2. *Ecclesiol.:* The name given to more or less precious fabrics used for covering persons or things. The chief are the Eucharistic veils, of silk or fine linen, used to cover the altar vessels or the elements, or thrown over the shoulders of the priest at Benediction and of the deacon at High Mass [HUMERAL-VEIL]; the veil worn by nuns on making their profession; and the purple veils used to cover the crucifix, pictures, and statuary in churches in Holy Week.

¶ *To take the veil:* To assume the veil according to the custom of a woman when she becomes a nun; to retire to a convent.

"The abbess was of noble blood,
But early *took the veil* and hood."
Scott: Marmion, ii. 8.

vêil, *vāil, *v.t.* [VEIL, *s.*]

I. *Lit.:* To cover, hide, or conceal with a veil, curtain, or the like; to put a veil over.

"*Veiling* his face through fear to be observ'd
By the Phæacians weeping at the song."
Cowper: Homer; Odyssey viii.

II. *Figuratively:*

1. To keep from being seen; to hide, to conceal, to disguise.

"Yonder blazing cloud that *veils* the hill."
Milton: P. L., xi. 229.

2. To invest, to enshroud, to conceal.

3. To mask, to disguise.

"I have *veiled* my look."
Shakesp.: Julius Cæsar, i. 2.

vêiled, *vāiled, *a.* [Eng. *veil; -ed.*]

I. *Ordinary Language:*

1. Covered, hidden, or protected by a veil.

*2. Having taken the veil; having become a nun.

"She had surely been sainted if *vailed*."—*Fuller: Worthies; Essex.*

II. *Bot.:* The same as VELATE (q.v.).

veiled-voice, *s.*

Music: A voice which is not clear, but sounds as if it passed through some interposed medium. (*Grove.*)

vêil'-ĭng, *s.* [Eng. *veil; -ing.*] A veil; a thin covering.

"Draped with a light *veiling* of white mist-like lisse."—*Daily Telegraph*, Feb. 25, 1888.

***vêil'-lĕss,** *a.* [Eng. *veil*, s.; *-less.*] Destitute of a veil.

"He drove the dust against her *veilless* eyes."
Tennyson: Geraint & Enid.

vêin, *vayne, *veine, *veyne, *s.* [Fr. *veine*, from Lat. *vena* = a vein, from the same root as *veho* = to carry; Sp. & Ital. *vena.*]

I. *Ordinary Language:*

1. In the same sense as II. 1.

2. A streak or wave of different colour, appearing in wood, marble, and other stones; a long, irregular streak of colour.

3. A cavity, fissure, cleft, or hollow, as in the earth or other substance.

"To do me business in the *veins* o' the earth."
Shakesp.: Tempest, i. 2.

4. Any distinctive or valuable property or characteristic considered as running through, or intermingled with others; a continued strain; a current, a stream.

"He can open a *vein* of true and noble thinking."—*Swift.* (*Todd.*)

5. Manner of speech or action; particular style, character, disposition, or cast of mind.

"This is Ercles' *vein*, a tyrant's *vein*."—*Shakesp.: Midsummer Night's Dream*, i. 2.

6. Particular mood, disposition, temper, or humour.

"To see you in this merry *vein*."
Shakesp.: Comedy of Errors, ii. 2.

*7. Favourable moment; time when any inclination is predominant.

"Artizans have not only their growths and perfections, but likewise their *veins* and times."—*Wotton: Architecture.*

II. *Technically:*

1. *Anat.* (*Pl.*): Thin ramifying elastic tubes arising in the extremities of the body, and proceeding by a more or less direct course to the heart, to which they carry back the blood sent forth by the arteries and transferred to them by the capillaries connecting the two kinds of vessels. They fall under three great divisions: the pulmonary, the systemic veins, and those constituting the portal system. The pulmonary veins consist of four short venous trunks which carry the red blood back from the lungs to the left side of the heart, and which are found two on each side in the root of the corresponding lung. The systemic veins arise by small branches, which receive the blood from the capillaries [CAPILLARY-VESSELS] throughout the body, and uniting to form larger vessels and then two large venous trunks, the superior and inferior *venæ cavæ*, finally enter the right auricle of the heart, into which the coronary veins also conduct the blood which nourishes that organ itself. These systemic veins are naturally divided into two groups, according to the channel by which they enter the heart. The veins of the head, the neck, the upper limbs, the spine, the heart, and part of the walls of the thorax and abdomen, make their entrance into the right auricle by the superior *vena cava*, while those of the lower part of the trunk and the abdominal viscera do so by the inferior *vena cava*. The veins of the portal system bring back the blood from the stomach, the intestines, the spleen, and the pancreas; then joining, they form the great portal vein which ramifies in the surface of the liver, after the manner of an artery, before finally entering the

heart by the inferior *vena cavu*. The anastomoses of veins are much larger and more numerous than those of arteries. In many parts of the body there are two sets, one superior, the other more deeply seated, with frequent communications between the two. Some veins possess valves, while others are destitute of them. All the ramifications of veins are named; the most important will be found in this dictionary. The walls of the veins are thinner than those of the arteries, but the veins themselves are less elastic. The total capacity of the veins is much greater than that of the arteries; so much so that the veins alone can hold the mass of blood which in life is distributed over both arteries and veins. While there is a considerable pressure even in the smaller and a greater one in the larger arteries, the pressure in veins is greatest in those of smaller bore, and even in them is but slight; hence, while a pulse is present in the arteries, it is as a rule absent in the veins. The velocity of the blood in the veins is least in those of smaller diameter and greatest in the larger trunks, which is the reverse of the rule in arteries. When a vein is cut the flow from the distal end—*i.e.*, from the end nearest the capillaries—is continuous, but the blood is ejected with little force.

2. *Bot.* (*Pl.*): The ramifications of the petiole among the cellular tissue of a leaf, of which they constitute the framework. They are of fibro-vascular tissue, and carry sap into the parenchyma. The principal vein, that which forms the continuation of the petiole and the axis of the leaf, is called the costa or midrib, a term which Lindley proposes to extend to all main veins proceeding direct from the base to the apex of a leaf, or to the points of its lobes. The ramifications sent out by the midrib, called by some lateral ribs, he terms primary veins. They curve towards the apex, and anastomose with the back of the primary vein which lies next to them. The part of the primary vein which curves in the vicinity of this anastomosis he calls the curved vein, and those external to it the marginal veins. Veins running at right angles from the midrib and alternate with the primary veins he terms costal veins. [VEINLET, VENATION.]

3. *Geol.*: A crack in a rock filled up by substances different from the rock. These may be either earthy or metallic. In very many cases the fissures have been produced by volcanic or earthquake action, and they often coincide with faults. Water descending by these fissures to unknown depths has been raised to so high a temperature that it has become capable of holding in solution various metallic and other mineral substances. As the water has cooled it has gradually deposited these matters held in solution, not doing so simultaneously, but in succession. Metalliferous veins vary greatly in width, being sometimes a few inches, frequently three or four feet, and sometimes much more. The thinner portions often branch off into innumerable slender ramifications like the veins of an animal, whence their name. Sometimes part of the material filling veins has fallen in from above or been segregated from the rocks constituting the sides of the fissure. They are often parallel, are associated with dykes, and are more common in the palæozoic than in more modern strata. They vary in age, and not unfrequently one crosses another.

4. *Mining*:

(1) A lead or lode of ore-bearing rock, alive or dead; that is, containing ore or not.

(2) A seam of metalliferous matter filling up a former fissure in rock. [PIPE-VEIN, RAKE-VEIN.]

5. *Pathol.*: The chief affections to which veins are subject are: Inflammation, varix, hypertrophy, atrophy, degeneration, phlebolites, parasites, and new growths. In surgical operations the accidental sudden entry of air often causes death by arresting the pulmonary circulation. If slowly injected an enormous quantity may be (and has been) pumped into the vein with impunity, while a quantity sufficient to fill the auricle, entering suddenly, would certainly prove fatal. The first recorded case of spontaneous entry of air in man occurred in 1707, though experiments had been made on the lower animals in the seventeenth century.

vein-stone, vein-stuff, *s.*

Min.: The gangue or matrix of the ore. It frequently consists of crystallized silica, fluor-spar, or carbonate of lime.

vein-stuff, *s.* [VEIN-STONE.]

***vêin,** *v.t.* [VEIN, *s.*] To fill or furnish with veins; to cover with veins; to streak or variegate with or as with veins.

"Tho' all the gold
That *veins* the world were pack'd to make your crown."
Tennyson: Princess, iv. 622.

***vêin'-age (age as ĭğ),** *s.* [Eng. *vein*; *-age.*] Veining; veins.

"The rich fruit glistening with the ruddy sun-streaks or with russet *veinage* mellowing."—*Blackmore: Alice Lorraine*, ch. xxii.

***vêin'-al,** *a.* [Eng. *vein*, s.; *-al.*] Pertaining or relating to the veins; venous.

vêined, *a.* [Eng. *vein*, s.; *-ed.*]

1. *Ord. Lang.*: Full of veins; marked with or as with veins; streaked, variegated.

"Meadows, often *veined* with gentle-gliding brooks."—*Drayton: Poly-Olbion.* (Pref.).

2. *Bot.*: Traversed by veins, as the parenchyma of a leaf.

vêin'-ĭng, *a.* [Eng. *vein*, s.; *-ing.*]

I. *Ordinary Language*:

1. The act or process of streaking or marking with veins.

2. A streaked or variegated appearance, as if covered with a network of veins.

3. A kind of needlework in which the veins of a piece of muslin are wrought to a pattern.

II. *Technically*:

1. *Bot.*: The same as VENATION (q.v.).

2. *Weaving*: A stripe in the cloth formed by a vacancy in the warp.

vêin'-lĕss, *a.* [Eng. *vein*, s.; *-less.*] Destitute of veins: as, a *veinless* leaf. Used in botany when there are no veins in a leaf, except a slight approach to a midrib, as in the Mosses and the Fuci. Leaves of this kind exist only in the lowest tribes of foliaceous plants, and must not be confounded with fleshy or thickened leaves in the higher orders in which the veins are not absent, but only concealed within the substance of the parenchyma.

***vêin'-lĕt,** *s.* [Eng. *vein*, s.; *-let.*]

1. *Ord. Lang.*: A little vein; a vein branching off from a large vein.

"Joins itself with other veins and *veinlets*."—*Carlyle: Miscellanies*, iv., 206.

2. *Bot.*: A vein of the smallest size. Lindley describes and names three kinds of them in the leaves of plants: (1) Marginal veinlets, constituting a fine network of minute veins connecting the external veins with the margin of the leaf. The primary veins are themselves connected by fine veins, which he calls (2) Proper veinlets, where they immediately leave the primary veins, and (3) Common veinlets, where they anastomose in the area between them. [VEIN, II. 2.]

***vêin'-oŭs,** *a.* [Eng. *vein*, s.; *-ous.*] Veined; having the veins prominent or strongly marked.

"She clasped his *veinous* and knotted hands."—*Dickens: Tale of Two Cities*, bk. ii., ch. ix.

***vêin'-ў,** *a.* [Eng. *vein*, s.; *-y.*] Full of veins; veined. (*Thomson: Summer*, 135.)

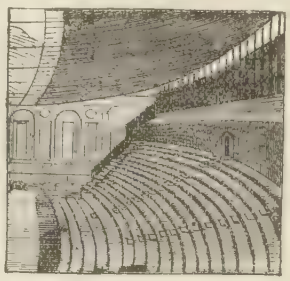
***veize,** *v.t.* [Etym. doubtful; cf. PHEESE.] (See extract.)

"Some have confidently affirmed in my hearing, that the word to *veize* (that is, in the West, to drive away with a witness) had its originall from his [Vesty] profligating of the lands of his bishoprick; but I yet demurre to the truth hereof."—*Fuller: Worthies; Warwickshire.*

***vē'-lar,** *a.* [Lat. *velum* = a cloth, a sail; Eng. adj. suff. *-ar.*] [VELUM, *s.*] Of, pertaining to, or relating to a veil; specifically, in philology, a term applied to certain sounds, as those represented by the letters *gw*, *kw*, *qu*, produced by the aid of the veil, or soft palate.

vĕ-lār'-ĭ-ŭm, *s.* [Lat.]

Rom. Antiq.: The great awning stretched over the roofless Roman theatres or amphitheatres, as a protection against rain or the sun's rays. These awnings were generally of woollen or linen; cotton was used for the purpose a little before the time of Julius Cæsar (*Plin., H. N.*, xix. 1, 6. This vast extent of canvas was supported by masts (*Lucr.*, vi. 108) fixed in rings in the outer wall. In the Great Theatre at Pompeii, these rings may still be seen; they are at regular intervals, and one above another, so that each mast was fixed in two rings. There is a similar contrivance in



VELARIUM
Over the Spectators' Benches in the Great Theatre at Pompeii.

the Coliseum at Rome; but there the masts were on the outside of the walls, and rested on consoles, passing through holes cut in the cornice.

vē'-lāte, *a.* [Lat. *velatus*, pa. par. of *velo* = to veil.]

Bot.: Having a veil; veiled.

vĕl-ą-tū'-rą, *s.* [Ital.]

Art: A mode of glazing adopted by the early Italian painters, by which the colour was rubbed on by all the fingers, or the flat of the hand, so as to fill the interstices left by the brush, and cover the entire surface of the picture thinly and evenly. (*Fairholt.*)

***vele,** *s.* [VEIL, *s.*]

vĕ-lĕl'-ą, *s.* [Mod Lat., from Lat. *velum* = a sail.]

Zool.: The type-genus of Velellidæ (q.v.). The hydrosoma consists of a widely-expanded rhomboidal pneumatophore, carrying on its upper surface a diagonal, vertical crest, which is exposed to the wind like a sail. The species are about two inches in length by one inch and a half in height.

vĕ-lĕl'-lĭ-dæ, *s. pl.* [Mod Lat. *velell(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Zool.: A family of Oceanic Hydrozoa, with two genera, Velella and Porpita.

vĕl'-ĭ-a, *s.* [Etym. doubtful. Prob. from Lat. *Velia* = (1) an elevated part of the Palatine Hill, Rome; (2) a town on the coast of Lucania.]

Entom.: A genus of Hydrometridæ (q.v.). Antennæ filiform, four-jointed, the first joint the longest, the others about equal to each other in length, and bent at an angle with the first. Rostrum two-jointed; legs moderate, nearly equidistant. Two species are British: one, *Velia rivulorum*, about a quarter of an inch long, common on the surface of streams, running on the water with ease and rapidity.

***vē-lĭf'-ĕr-oŭs,** *a.* [Lat. *velum* = a sail, and *fero* = to bear.] Bearing or carrying sails.

"They invented *veliferous* chariots."—*Evelyn: Navigation & Commerce.*

***vē-lĭg'-ĕr-oŭs,** *a.* [Lat. *velum* and *gero* = to bear.] Bearing a velum (q.v.).

vē-lĭnçhe', vą-lĭnçh', *s.* [VALINCH.]

***vĕl-ĭ-tā'-tion,** *s.* [Lat. *velitatio*, from *velitatus*, pa. par. of *velitor* = to skirmish, from *veles*, genit. *velitis* = a light-armed soldier.] A dispute or contest; a slight skirmish.

"But all these were but small *velitations* and conflicts preparatory to the main battle."—*Hale: Cont.; Of the Knowledge of Christ Crucified.*

***vē-lĭv'-ō-lant,** *a.* [Lat. *velivolans*, from *velum* = a sail, and *volans*, pr. par. of *volo* = to fly.] Passing under sail.

vĕll, *s.* [FELL, *s.*] The maw or stomach of a young calf, used for rennet. (*Prov.*)

vĕll, *v.t.* [VELL, *s.*] To cut off the turf or sward of, as of land. (*Prov.*)

vĕl'-la, *s.* [Said to be from Celtic *veler*; Gael. *biolar* = a cress.]

Bot.: Cress-rocket; the typical genus of Vellidæ (q.v.). Calyx erect; pouch swollen,

two-celled, with a dilated flat-winged style, twice as long as the valves; seeds four in each cell. *Vella annua*, the Annual Cress-rocket, is said to have been found on Salisbury Plain, but not since the time of Ray.

Vĕl'-lĕ-da, *s.* [Lat. *Veleda* = a prophetic virgin among the Germans, regarded as a divine being. (*Tacitus: Hist.*, iv. 61; *Germ.*, viii.; cf. *Statius: Silvæ*, I. iv. 49).]

Astron.: [ASTEROID, 126].

***vĕl-lē'-ĭ-tў,** *s.* [Fr. *velléité*, as if from a Lat. *velleitatem*, accus. of *velleitas*, from *velle* = to wish.] Inclination in the way of volition; an indolent or inactive wish or inclination towards a thing, but unaccompanied by any energetic effort to obtain it.

"The least act of *velleity* from thee might have wrought this cure."—*Bp. Hall: Cont.; Deaf & Dumb Man Cured.*

***vel-len-age,** *s.* [VILLENAGE.]

* **vĕl'-lĕt,** * **vel-et,** *s.* & *a.* [VELVET.]

* **vĕl'-lĭ-cāte,** *v.t.* & *i.* [Lat. *vellicatus*, pa. par. of *vellico*; freq. from *vello* = to pull.]

A. *Trans.:* To twitch, to pluck; to cause to twitch convulsively; applied to the muscles and fibres of animals.

"Bodies which are rough and angular, rouse and *vellicate* the organs of feeling."—*Burke: Sublime & Beautiful*, § 20.

B. *Intrans.:* To twitch; to move spasmodically.

* **vĕl-lĭ-cā'-tion,** *s.* [Lat. *vellicatio*, from *vellicatus*, pa. par. of *vellico*.] [VELLICATE.]

1. The act of twitching or of causing to twitch.

2. A twitching; a convulsive or spasmodic movement of a muscular fibre.

"And therefore we see that almost all purgers have a kind of twitching and *vellication*, besides the griping which cometh of wind."—*Bacon: Nat. Hist.*, § 37.

* **vĕl'-lĭ-cā-tĭve,** *a.* [Eng. *vellicat(e)*; *-ive.*] Having the property or power of vellicating, twitching, or plucking.

vĕl'-lĭ-dæ, *s. pl.* [Mod. Lat. *vell(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Bot.: A family of Orthoploceæ, having the pouch with the valves convex and the dissepiments broad.

vellon (as **vĕl'-yŏn**), *s.* [Sp., same word as *billon.*] A kind of Spanish money of account. Also used like the English *sterling*. The *reale de vellon* is equal to about 2½d. English.

vĕl'-lŏped, *a.* [Etym. doubtful.]

Her.: Having gills of such or such a tincture. Applied to a cock whose gills are borne of a different tincture from the body.

vĕl-lō'-zĭ-a, *s.* [Etym. unknown.]

Bot.: The typical genus of Velloziæ. Stem dichotomously branched; leaves linear or linear-lanceolate, generally arranged spirally; flowers large, solitary, white, blue, or violet; perianth connate; stamens six or indefinite; ovary inferior, three-celled; capsules subglobose, with many seeds. Characteristic of the mountain-regions of Brazil.

vĕl-lō-zĭ-ē'-æ, *s. pl.* [Mod. Lat. *vellozi(a)*; Lat. fem. pl. adj. suff. *-eæ.*]

Bot.: A tribe doubtfully placed by Lindley under Hæmodoraceæ.

vĕl'-lŭm, * **vel-am,** * **vel-lam,** * **vel-im,** * **vel ym,** * **vel-yme,** *s.* [Fr. *vélin*, from Low Lat. *vitulinium*, or *pellis vitulina* = prepared calf-skin, vellum, from Lat. *vitulinus* = belonging to a calf; *vitulus* = a calf. For the change of *n* to *m*, cf. *venom.*] [VEAL.] A fine parchment made of calf-skin. The skins are limed, shaved, washed, stretched, scraped, and rubbed down with pumice-stone. The term is also applied to a superior kind of writing-paper, and to a kind of cotton cloth prepared to imitate, more or less, vellum in appearance.

"The tree, so pruned, dressed, and cultivated, was, within a few days, transplanted into a large sheet of *vellum*, and placed in the great hall."—*Addison: Spectator*, No. 612.

vĕl'-lŭm-ў, *a.* [Eng. *vellum*; *-y.*] Resembling vellum.

* **vĕl-lūre,** *s.* [VELURE.]

vĕl'-lŭs, *s.* [Lat. = a fleece.]

Bot.: The stipe of certain fungals.

* **vĕl'-lūte,** *s.* & *a.* [Ital. *velluto.*] Velvet (q.v.).

"Charges of coaches, *vellute* gowns."
Ben Jonson: Magnetick Lady.

vê-lō'-cê (c as ç h), *a.* [Ital. quick.]

Music: A direction prefixed to a passage or movement to indicate that it is to be performed with great quickness or swiftness.

* **vē-lŏç'-ĭ-man,** *s.* [Lat. *velox*, genit. *velocis* = swift, and *manus* = the hand.] A carriage of the nature of a velocipede, but driven by hand.

vĕl-ŏ-çĭm'-ĕ-tĕr, *s.* [Lat. *velox*, genit. *velocis* = swift, and Eng. *meter.*] An apparatus for measuring and ascertaining the speed of machines, &c. There are numerous varieties.

"The new *velocimeter* invented by Colonel Sebert for registering recoils, pressure on buffers, and velocity of projectile through the gun."—*Daily Chronicle*, Sept. 25, 1885.

vē-lŏç'-ĭ-pēde, *s.* [Lat. *velox*, genit. *velocis* = swift, and *pes*, genit. *pedis* = a foot.] A word applied to any kind of carriage driven by the feet, and formerly to bicycles and tricycles. The name was first used in France, towards the end of the last century, when riding on the dandy-horse became popular. The two wheels of the dandy-horse were of equal size, connected by a bar, on which a saddle was placed, and astride of which the rider sat. The impetus was given by the rider's feet touching the ground, alternately pushing and being raised. Self-propulsion was next attempted by pulling levers with the hands or treading with the feet. In this kind of velocipede there were three wheels; but it never became very popular, on account of the labor. In the year 1868, the bicycle was introduced into England from France, and was ridden by Lewis Moore and Charles Spencer. This velocipede consisted of two wheels—as the name implies—of equal size. The rider sat on a saddle connected with the backbone, and propelled himself by pressing his feet on pedals at the ends of cranks which turned the wheel. It was a great improvement on the dandy-horse; but, owing to the heavy weight of the machine, faulty bearings, and the vibration—which was so great that this form of the velocipede acquired the name of "bone-shaker"—the bicycle never became really popular until the introduction of the india-rubber tire from France. The attention of English manufacturers was now attracted towards further improvement. Mr. Starley of Coventry invented a light wheel consisting of a steel rim, grooved for the reception of the tire, with stretched spokes of thin steel wire. This "tension" wheel was so light and graceful, yet strong, that it at once superseded the old one, and virtually created the modern velocipede. The size of the hind wheel was reduced and the front one enlarged, and the bicycle was finally perfected by the invention of almost frictionless "ball-bearings," in which the spindles roll between free polished steel balls. The machine, as thus developed, has been greatly added to by more recent inventions, in which the skill and ingenuity of American mechanics have borne a large share. The United States patent office possesses multitudes of models of new inventions in this field and the bicycle as now used approaches perfection. The machine formerly popular, with its tall riding wheel and diminutive hind wheel, has been superseded by the "safety" bicycle, in which the wheels are nearly of the same size, being much reduced in proportions, while the necessary velocity is obtained by the principle of "gearing up," adopted from the tricycle. The action of these machines has been further improved by the introduction of the pneumatic tire, an india-rubber air-cushion which enables the rider to go over rough ground with comparatively little concussion. Tricycles, tandem bicycles, and various other forms have been produced, but the ordinary safety bicycle has become so popular that the others are little used. There are many thousands of cyclists in the United States, and Americans have excelled alike in long distance riding, in speed, and in trick riding.

† **vē-lŏç'-ĭ-pĕd-ĭst,** *s.* [Eng. *velociped(e)*; *-ist.*] One who uses or rides on a velocipede.

"Four *velocipedists* of the Tours Véloce-Club."—*St. James's Gazette*, May 15, 1888.

vē-lŏç'-ĭ-tў, *s.* [Fr. *velocité*, from Lat. *velocitatem*, accus. of *velocitas*, from *velox*, genit. *velocis* = swift, from the same root as *volo* = to fly; Sp. *velocidad*; Port. *velocidade*; Ital. *velocità.*]

1. *Ord. Lang.:* Quickness or speed in motion or movement; swiftness, rapidity, celerity, speed. (Seldom applied to the movements of animals.)

2. *Physics:* Rate of motion, whether fast or slow; the rate at which a body changes its position in space; the rate of change of position of a point per unit of time. Velocity is said to be accelerated when the body moving passes through a greater space in equal successive times, as in the case of bodies falling under the action of gravity; and to be retarded when a less space is passed through in each successive portion of time. (See extract.)

"When a material point moves, it describes a continuous line which may be either straight or curved, and is called its path and sometimes its trajectory. Motion which takes place along a straight line is called rectilinear motion; that which takes place along a curved line is called curvilinear motion. The rate of the motion of a point is called its *velocity*. *Velocity* may be either uniform or variable; it is uniform when the point describes equal spaces or portions of its path in all equal times; it is variable when the point describes unequal portions of its path in any equal times. Uniform *velocity* is measured by the number of units of space described in a given unit of time. The units commonly employed in this country are feet and seconds. Variable *velocity* is measured at any instant by the number of units of space a body would describe if it continued to move uniformly from that instant for a unit of time. Thus, suppose a body to run down an inclined plane, it is a matter of ordinary observation that it moves more and more quickly during its descent; suppose that at any point it has a velocity 15, this means that at that point it is moving at the rate of 15 ft. per second; or in other words, if from that point all increase of *velocity* ceased, it would describe 15 ft. in the next second."—*Ganot: Physics* (ed. Atkinson), § 25.

¶ (1) *Angular velocity:* [ANGULAR].

(2) *Initial velocity:* The rate of movement of a body at starting; used especially of the velocity of a projectile, as it issues from a firearm.

(3) *Unit of velocity:* That velocity with which the unit length would be described in the unit time. (*Everett: C. G. S. System of Units*, ch. i., pt. ii.)

(4) *Virtual velocity:* [VIRTUAL].

vē-lō'-nĭ-a, *s.* [VALONIA.]

vē-lour', *s.* [Fr. *velour.*] A hatter's lustring and smoothing pad of silk or plush.

vē-lours', *s.* [Fr. = velvet (q.v.).] A fabric for upholstering, carpentry, &c. It is a velvet or plush, partly of linen and partly of double cotton warps with mohair yarn weft.

vę-lou'-tê, *s.* [Fr. = as adj., velvety; as subst., any substance like velvet.] Velouté sauce (q.v.).

velouté-sauce, *s.*

Cook.: A superior white sauce made by boiling down veal, poultry, and ham. When velouté is reduced to a glaze and cream added, it is known as Sauce Suprême.

vēlt'-fāre, *s.* [See def.] A fieldfare. (*Prov.*)

vē'-lŭm, *s.* [Lat. = a covering, awning, curtain, veil, or cloth.]

1. *Anat.:* A veil, a partition; specif. *velum palati*, the soft palate, a compound membranous septum, which prevents the food fro n ascending to the upper part of the pharynx. The term *velum* is also used of the anterior and posterior medullary valves of the cerebrum.

2. *Bot.:* The horizontal membrane which connects the margin of the pileus with the stipes of a fungus. Such a veil when adnate with the surface of the pileus, is called *velum universale* (a universal veil), and when extending only from the margins of the pileus to the stipes *velum partiale* (a partial veil)

3. *Zoology:*

(1) A single or double ciliated lobe occurring in the young of some bivalve molluscs when they leave the parent. (*Nicholson.*)

(2) An extension of the cephalic integument in the young of the Gasteropoda. It commences as a circlet of cilia round the head. (*Nicholson.*)

(3) The membrane which surrounds and partially closes the mouth of the disc of Medusæ or of Medusiform gonophores. (*Nicholson.*)

vē-lū'-mĕn, *s.* [Lat. = a fleece.]

Bot.: The velvety coating produced in some leaves by short, very dense and soft, but rather rigid hairs, as in many Lasiandras.

***vĕl'-ūre, *vĕl'-lūre,** *s.* [Fr. *velours.*] Velvet (q.v.).

"His horse with one girt, six times pieced, and a woman's crupper of *velure*, pieced with packthread." —*Shakesp.: Taming of the Shrew*, iii. 2.

vĕl-ų-tī'-na, *s.* [Mod. Lat. *velutinus* = velvety, from Lat. *vellus* = a fleece.]

1. *Zool. & Palæon.:* A genus of Naticidæ, with four recent species from Britain, Norway, and North America. Shell thin, with a velvety epidermis; spire small, suture deep, aperture very large and rounded, no operculum. Margin of mantle developed all round and turned up over the shell; gills two, head broad, tentacles blunt, far apart, with eyes at their outer bases. The animal is carnivorous.

2. *Fabrics:* A durable dress goods, resembling velvet, but with a shorter nap.

vĕ-lū'-tĭn-oŭs, *a.* [Ital. *velluto* = velvet.]

1. *Ord. Lang.:* Resembling velvet; velvety, soft.

2. *Bot.:* Velvety, having the surface hairy, and with the look and feel of velvet, as in *Cotyledon coccineus.*

***vĕl'-vĕr-ĕt,** *s.* [A dimin. from *velvet* (q.v.).] An inferior kind of velvet.

"No doubt his lordship recognises
The coat he had on at assizes;
A *velveret*, genteel and neat,
With tabby lined, and frogs complete."
Anstey: Pleader's Guide, lect. 7.

vĕl'-vĕt, *vel-et, *vel-let, *vel-ouet, *vel-ouette, *vel-wet, *vel-lure, *s. & a.* [O. Ital. *veluto* (Ital. *velluto*), from a supposed Low Lat. *villutus* = shaggy (Lat. *villosus*), from Lat. *villus* = shaggy hair, a tuft of hair. The form *vellure* is directly from Fr. *velours* = velvet, from Lat. *villosus.*]

A. *As substantive:*

1. *Fabric:* A silk fabric in which the warp is passed over wires so as to make a row of loops which project from the backing, and are thus left by withdrawing the wire for an uncut or pile velvet; but are cut by a knife to make a cut velvet. [VELVETEEN.]

"Another piece of cloth of golde raised with crimosin *veluet* in graine, a piece of purple *veluet*."—*Hackluyt: Voyages*, i. 287.

¶ The manufacture is not known to have taken place earlier than the thirteenth century. It is mentioned by Joinville in 1272. For a time it was confined to Italy, then it extended to France, and finally was brought to England by the refugees who came over, in 1685, on the revocation of the Edict of Nantes. Cotton-velvet was first made in England in 1756.

2. A delicate hairy integument covering the antlers of a deer in the first stages of growth. It is provided with blood-vessels, which supply nutriment to the horn, but gradually begins to shrivel and peel off, its complete disappearance being hastened by the deer rubbing its antlers against trees, &c.

"They cannot have much of a time with the red deer (Bara singh), whose horns are likely to be in *velvet* till the last weeks of that month."—*Field*, Feb. 13, 1886.

B. *As adjective:*

1. Made or consisting of velvet.

"Will any man thinke that a *velvet* cote is of more price than a linnen coife?"—*Hooker: Eccles. Pol.*, bk. v., § 6.

2. With a surface like velvet; velvety.

"The cowslip's *velvet* head." *Milton: Comus*, 898.

¶ *To stand on velvet:* To have made one's bets so that one cannot lose, and must in all probability win. (*Racing slang.*)

velvet-bur, *s.*

Bot.: Priva echinata; a plant of the order Verbenaceæ.

velvet copper-ore, *s.*

Min.: The same as LETTSOMITE (q.v.).

velvet-cork, *s.* The best kind of cork bark reddish, supple, and not woody or porous. (*Simmonds.*)

velvet-dock, *s.*

Bot.: Verbascum Thapsus. Named from its soft leaves. (*Prior.*)

velvet-duck, *s.* [VELVET-SCOTER.]

velvet fiddler-crab, *s.* [VELVET SWIMMING-CRAB.]

velvet-flower, *s.*

Botany:

1. *Amaranthus caudatus* (Love-lies-a-bleeding). Named from its velvety crimson tassels. (*Prior.*)

2. *Tagetes patula.* (*Turner* in *Britten & Holland.*) [TAGETES.]

***velvet-guard,** *s.*

1. A guard or ornamental trimming of dress worn in the reign of Queen Elizabeth.

"Those *velvet-guards* and black-lac'd sleeves."
Decker: Histriomastix.

2. A person wearing such trimmings or ornaments.

"*Velvet-guards* and Sunday citizens."
Shakesp.: 1 *Henry IV.*, iii. 1.

velvet-leaf, *s.*

Botany:

1. *Cissampelos Pareira.* [PAREIRA.]

2. *Sida Abutilon*, a broad-leaved species found in India.

3. *Lavatera arborea.* [LAVATERA.]

velvet-loom, *s.*

Fabric: A pile-fabric loom.

velvet-moss, *s.*

Bot.: Gyrophora murina, a lichen used in dyeing.

velvet-painting, *s.* The art of colouring on velvet with transparent liquid and other readily diluted colours.

velvet-paper, *s.* Flock-paper (q.v.).

***velvet-pee,** *s.* [Cf. *pea-jacket.*] A velvet jacket.

"Your lashed shoulders [covered] with a *velvet-pee*."—*Beaum. & Fl.: Love's Cure*, ii. 1.

velvet-pile carpet, *s.* [WILTON-CARPET.]

velvet-runner, *s.*

Ornith.: One of the many popular names of *Rallus aquaticus*, the Water-rail (q.v.). Called also Bidcock, Bilcock, Brook-ousel, Brook-runner, and Runner.

velvet-scoter, *s.*

Ornith.: Oidemia fusca, a visitor to Britain in autumn and winter. General plumage velvet black, ends of secondary quills white, forming a conspicuous bar across the wings; eyelids and a small patch behind each eye white; beak pale orange, legs and toes crimson-red.

velvet-seed, *s.*

Bot.: Guettarda elliptica.

velvet-sponge, *s.*

Zool.: Hippospongia meandriformis.

velvet swimming-crab, *s.*

Zool.: Portunus puber; a small crab with a hairy carapace, armed in front with ten or more spines. Claws and four pairs of simple legs clothed with a dense pile of fur. General colour brown, longitudinal ridges in the joints of the limbs blue. Found along the British coasts. Called also the Velvet Fiddler-crab.

velvet-tree, *s.*

Puddling: The point where the draught from the neck of the furnace is turned upward into the stack.

*** vĕl'-vĕt,** *v.i. & t.* [VELVET, *s.*]

A. *Intrans.:* To paint velvet.

"Verditure . . . is the palest green that is, but good to *velvet* upon black in any drapery."—*Peacham: On Drawing.*

B. *Trans.:* To cover with velvet; to cause to resemble velvet.

vĕl'-vĕt-ĕd, *a.* [Eng. *velvet; -ed.*] Partaking of the nature of velvet; painted so as to resemble velvet; velvety.

vĕl-vĕ-teēn', *s.* [A dimin. from *velvet* (q.v.).]

1. *Lit.:* A cotton fabric having the appearance of velvet, from which it differs only in respect of the material. When it has a twilled back it is called Genoa.

"A passion for nature—a deep, imaginative passion for her wild scenes and solitary beauty—very often lies hidden under the rough coat of the fisherman, the *velveteen* shooting-jacket, and even under the scarlet coat."—*Emilia Wyndham*, ch. xii.

2. *Fig. (Pl.):* A gamekeeper, from his dress. (*Colloq. or slang.*)

"Were the English '*velveteens*' less conservative and orthodox in his views of what the limits of his duties are, he might take a hint from the 'foreigner' in trapping blue rocks."—*Daily Telegraph*, Dec. 29, 1885.

vĕl'-vĕt-ĭng, *s.* [Eng. *velvet; -ing.*] The fine nap or shag of velvet.

vĕl'-vĕt-ў, *a.* [Eng. *velvet; -y.*] Made of velvet; resembling velvet; velutinous (q.v.).

"The beautiful, *velvety* turf of the gardens."—*Hughes: Tom Brown at Oxford*, ch. xxv.

vē'-na (pl. **vē'-næ**), *s.* [Lat.]

Anat. & Bot.: A vein (q.v.).

vena-cava, *s.*

Anat.: One of two veins, the Inferior and the Superior venæ cavæ. The inferior, lower, or ascending vena cava returns the blood from the lower limbs and from the viscera of the pelvis and the abdomen. A large valve, that of Eustachius, is situated at the orifice by which it enters the right auricle of the heart. The Superior vena cava conveys to the heart the blood which is returned from the head, the neck, the upper limbs, and the thorax. It has no valves.

vena-contracta, *s.* [CONTRACTED-VEIN.]

vena-portæ, *s.* [PORTAL-VEIN.]

vĕn-a'-da, *s.* [Native name.] [PUDU.]

vē'-nal (1), *a.* [Lat. *vena* = a vein.] Of or pertaining to a vein or veins; contained in the veins; venous: as, *venal* blood.

vē'-nal (2), *a.* [Fr., from Lat. *venalis* = saleable, for sale, from *venus, venum* = sale.] Ready to be sold for money or other consideration, and entirely from sordid motives; ready to be bought over for lucre; mercenary, hireling, sordid.

"The *venal* cry and prepared vote of a passive senate."—*Burke: State of the Nation.*

vē-năl'-ĭ-tў, *s.* [Fr. *venalité*, from Lat. *venalitatem*, accus. of *venalitas*, from *venalis* = venal (q.v.).] The quality or state of being venal or basely influenced by money; the prostitution of talents, offices, or services for money or reward; mercenariness.

"Not unacquainted with the *venality* of the government."—*Anson: Voyages*, bk. iii., ch. vii.

† vē-năn'-tēs, *s. pl.* [Lat., nomin. pl. of *venans*, genit. *venantis*, pr. par. of *venor* = to hunt.]

Zool.: In Walckenaer's classification, a group of Spiders, which he defines as incessantly running or leaping about the vicinity of their abode to catch their prey. The group was approximately equal to the more modern families Mygalidæ, Salticidæ, and Lycosidæ.

*** vē'-nar-ў,** *a. & s.* [Lat. *venor* = to hunt.]

A. *As adj.:* Pertaining or relating to hunting; venatic.

"There be three for *venary* or venatical pleasure in England, viz., a forest, a chace, and a parke."—*Howell: Letters*, bk. iv., let. 15.

B. *As subst.:* The art of hunting; the chase.

"The right of pursuing and taking all beasts of chase or *venary*."—*Blackstone: Comment.*, bk. ii., ch. 27.

vĕn-ăs'-quite (qu as k), *s.* [After Vénasque, Pyrenees, where found; suff. *-ite* (*Min.*).]

Min.: A variety of Ottrelite (q.v.), occurring in masses with a lamellar and radiating structure. Hardness, 5·5; sp. gr. 3·26; colour and streak, gray to grayish-black; compos.: essentially a hydrated silicate of alumina and protoxide of iron.

*** vē-năt'-ĭc, * vē-năt'-ĭc-al,** *a.* [Lat. *venaticus*, from *venatus*, pa. par. of *venor* = to hunt.]

1. Pertaining to hunting; used in hunting.

"*Venatic* vagaries in the matter of scent were readily understood."—*Field*, Nov. 12, 1887.

2. Given to hunting; fond of the chase.

"The 'Buffs,' a very *venatic* corps, entertained all comers most hospitably."—*Field*, Dec. 6, 1884.

vē-năt'-ĭ ca, *s.* [VINATICO.]

*** vē-năt'-ĭc-al,** *a.* [VENATIC.]

vē-năt'-ĭc-al-lў, *adv.* [Eng. *venatical; -ly.*] In a venatic manner; as pertaining to hunting or the chase.

"I do not know whether that vernal saint, Valentine, was *venatically* minded."—*Field*, Feb. 26, 1887.

*** vē-nā'-tion** (1), *s.* [Lat. *venatio*, from *venatus*, pa. par. of *venor* = to hunt.]

1. The act or practice of hunting; the chase.

"The manner of their [the bever] *venations* in America."—*Browne: Vulgar Errours*, bk. iii., ch. iv.

2. The state of being hunted.

vē-nā'-tion (2), *s.* [Lat. *vena* = a vein.]

Bot.: The arrangement of the veins in the

leaves of plants. If a leaf has only a single midrib without branches, as in many Coniferæ, the venation is said to be simple. The three leading types of venation are the Reticulated, Netted, or Angular, found in the exogens and a few aberrant endogens; the Parallel, or Curved, found in all the higher endogens; and the Furcate, or Forked, characteristic of Ferns. Lindley made ten divisions: Veinless, Equal-veined, Straight-veined, Curve-veined, Netted, Ribbed, Falsely-ribbed, Radiating, Feather-veined, and Hidden-veined. Professors Mc Cosh and Dickie considered that they had traced a connection between the ramifications of plants and their venation.

***vē-na-tōr'-i-al,** *a.* [Lat. *venator* = a hunter.] Pertaining or relating to hunting; venatic.

vĕnd, *v.t.* [Fr. *vendre*, from Lat. *vendo*, contracted from *venundo* (for *venum do*) = to offer for sale, from *venum* = sale, and *do* = to give.] To sell; to offer to sell; to transfer to another person for a pecuniary equivalent.

"The *venders* of card-matches."—*Addison: Spectator*, No. 251.

vĕn-dĕt'-ta, *s.* [Ital., from Lat. *vindicta* = revenge.] [VINDICTIVE.]

Anthrop.: A particular case of the wider custom of blood-feud, by which every member of a stock, or body of men between whom blood-relationship subsists, is bound to aid in taking vengeance (on the offender if possible, or on the stock to which he belongs) for a personal injury done to any of his kinsmen. The vendetta which exists in Corsica, and to a less extent in Sicily, Sardinia, and Calabria, is the practice of taking vengeance on the murderer of a relative; and this duty is imposed primarily on the next of kin, but in a less degree on all the relatives of the murdered individual. If the murderer succeeds in eluding his pursuers, then vengeance may be taken on any of his relatives. Between 1770 and 1800, when the vendetta was at its height, some 7000 murders are said to have occurred in Corsica owing to this practice of private vengeance. A law prohibiting the carrying of arms did much to put a stop to the vendetta, but the law is now repealed with the result that the number of murders is on the increase.

"It is now apparent that the *vendetta* represents a system which prevailed everywhere before the consolidation of society into the state, and the establishment of a police capable of protecting life and property. The system was a rude substitute for government and the administration of justice. The family, or the body of kindred, formed in fact, a commonwealth of itself; its members held firmly together; and when one was injured all the little state was injured."—*Chambers' Encyc.* (ed. 1867), ix. 746.

¶ Hence applied to a private quarrel that can only be settled by the death of one of the parties concerned at the hands of the other.

"E——, a short-sighted, plucky, powerful fellow, fell out with J. D——. For some weeks it was known in Chicago that a meeting between them meant shooting. Later ambassadors between the pair were understood to have brought about a sort of reconciliation. The *vendetta* was to drop."—*Referee*, April 9, 1888.

Vĕ-nē'-tian, *a.* & *s.* [Fr. *vénétien*; Ital. *veneziano*; Sp. *veneciano*, from Lat. *Venetia* = the country of the Veneti.]

A. *As adj.*: Of or pertaining to the city or province of Venice, in Northern Italy.

B. *As substantive:*

1. A native or inhabitant of Venice.

2. A Venetian-blind. (*Colloq.*)

* 3. (*Pl.*): A peculiar fashion of hose or breeches, originally introduced from Venice.

"To make *venetians* down below the garter."
Harington: Epigrams, i. 20.

Venetian-architecture, *s.* A variety of the Gothic style, of which examples are found mainly in palaces which form a class apart amongst buildings constructed in the Italian Gothic style. In these palaces the arches of the windows and halls rest upon shafts, and terminate in intricate designs of open tracery work, as in the case of the celebrated Palace of the Doges. The arches have a wavy shape, which gives them an oriental appearance. The enrichments, moreover, display, as they usually do in Italy, different

mode of treatment from that which prevails elsewhere in the Gothic style. The corners of the façades are marked by slender shafts twisted like cables. The mouldings and cornice consist merely of narrow bands, which generally rest on consoles. A method of decoration peculiar to these buildings appears to have been borrowed from Byzantine models: fine marbles of various colours, on which red porphyry and green serpentine are the most frequent, are inserted in circular and angular panels and borderings, and form a sort of mosaic-work. This style of ornamentation is employed both in churches and palaces. [RENAISSANCE-ARCHITECTURE.]

Venetian-ball, *s.* An ornamental form of glass for paper-weights, &c. It consists of waste pieces of filigree-glass conglomerated together in a bulb of clear flint-glass.

Venetian-blind, *s.* A louvre shutter or blind made of slats with spaces between them, to admit air. In some cases the slats are fixed at a certain angle in the shutter; in other cases they are movable, to allow the passage of more or less air and light. The suspended blind has cords for support, and others for changing the positions of the slats.

Venetian-carpet, *s.* A carpet whose warp or chain is of worsted, and generally arranged in stripes of different colours. The shoot, which is generally black, is concealed, and the warp exposed on the two surfaces. The weft is sometimes of different colours, and thus producing a plaid or check pattern. By the suitable arrangement of the heddles, a twill may be given. The ordinary loom suffices, as no figures are raised.

Venetian-chalk, *s.* The same as FRENCH CHALK (q.v.).

Venetian-door, *s.* A door with long, narrow side-lights for lighting a lobby, entrance-hall, &c.

Venetian-glass, *s.* [VENETIAN-BALL.]

Venetian-red, *s.* True Venetian red is said to be a native ochre, but the colours sold under this name are prepared artificially from sulphate of iron, or its residuum in the manufacturing of acids. They are all of redder and deeper hues than light red, are very permanent, and have all the properties of good ochres. Scarlet ochre, Prussian red, English red, and rouge de Mars are other names for the same pigment.

Venetian School, *s.*

Paint.: A school of painting which arose and declined in the sixteenth century, and of which Titian (1477–1576) is considered the founder. Among its other masters were Giorgione (1477–1511), Tintoretto (1512–1594), and Paul Veronese (1528–1581). The distin-

guishing characteristics of this school were a mastery of colour and a consummate knowledge of chiaro-oscuro.

Venetian-white, *s.* A carefully-prepared carbonate of lead.

Venetian-window, *s.* A window with three separate lights.

vĕn'-eŷ, ***vĕn'-nŷ,** ***ven-ew,** *s.* [VENUE.] An assault or attack in fencing, or the like; sometimes applied to a thrust or hit.

vĕnġe'-ance, ***veng-aunce,** ***venge-aunce,** ***ven-i-aunce,** *s.* [Fr. *vengeance,* from *venger* = to avenge, to venge (q.v.).]

1. Punishment inflicted in return for an injury or offence. It generally implies a feeling of indignation on the part of the person inflicting it, together with more or less justice in the nature of the punishment inflicted. It may be also inflicted for wrong or injury done to others.

"Should intermitted *vengeance* arm again
His red right hand to plague us."
Milton: P. L., ii. 173.

***2.** Harm, mischief or evil generally.

"Whiles the eye of man did woo me,
That would do no *vengeance* to me."
Shakesp.: As You Like It., iv. 3.

¶ (1) Hence, used as an oath, curse, or imprecation—

"A *vengeance* on 't, there 't is."—*Shakesp.: Two Gentlemen,* ii. 3.

Similarly in the phrases, *What a vengeance! What the vengeance!* equivalent to *What the deuce! What the mischief!*

"*What the vengeance!*
Could he not speak 'em fair?"
Shakesp.: Coriolanus, iii. 1.

(2) *With a vengeance:* With excessive vehemence, violence, force, or the like.

***3.** Used adverbially = exceedingly.

"That's a brave fellow; but he's *vengeance* proud, and loves not the common people."—*Shakesp.: Coriolanus,* ii. 6.

***vĕnġe'-ance-lў,** *adv.* [Eng. *vengeance; -ly.*] Extremely, excessively; with a vengeance.

"And [it] gently blanches over the breaches of God's law, with the name of *venialls* and favourable titles of diminution."—*Bp. Hall: Dissuasive from Poperie.*

venial-sin, *s.*

Roman Theol.: A sin which is not against the end of the law, *i.e.*, the love of God; a disease of the soul, not its death. Some sins, though mortal in their nature, are held to be venial if not done deliberately, and if the amount of harm done is small, *e.g.*, in the case of small theft. There are two classes of venial sins, deliberate and indeliberate. Casuists speak with much caution on this subject, and declare that the distinction between mortal and venial sins in many cases must rest solely on the judgment of God. [MORTAL-SIN.]

***vē-nĭ-ăl'-ĭ-tў,** ***ve-ni-al-i-tie,** *s.* [Eng. *venial; -ity.*] The quality or state of being venial, pardonable, or excusable.

***ven-ime,** *s.* [VENOM.]

vē-nīr'-ē dē nō'-vō, *phr.* [Lat. = to come anew or afresh.]

Law: (See extract).

"A *venire de novo* is the old common law mode of proceeding to a second trial, and differs materially from a new trial, which is granted only for matter entirely extrinsic of the record. It is where some defect appears on the face of the record itself that a *venire de novo,* as it is called, is awarded; this term being derived from the name of the ancient jury process, which, in this instance, was awarded afresh, or *de novo.* And this differs in effect also from a new trial, for here no costs can be given, nor conditions imposed on either party, it being ordinarily awarded where the finding of the verdict is defective."—*Blackstone: Comment.,* bk. iii., ch. 14.

vē-nīr'-ē fā'-çĭ-ăs, vē-nīr'-ē, *phr.* [Lat. = that you cause to come.]

Law: A writ or precept directed to the sheriff requiring him to cause a jury to come or appear in the neighbourhood where a cause is brought to issue to try the same. This writ was abolished in 1852, but the precept issued by the justices of assize which is substituted is sometimes loosely spoken of as a venire.

"When, therefore, an issue is joined, the court awards a *venire facias* upon the roll or record in these words: 'Therefore let a jury come, &c.;' which award of the *venire* is the authority to the sheriff to summon the jury, which, in all counties, except London and Middlesex, he now does on receiving a precept issued to him for that purpose by the judges of assize."—*Blackstone: Comment.,* bk. iii., ch. 13.

vĕn'-ĭ-şŏn (or **vĕn'-şŏn),** ***ven-e-son,** ***ven-ei-son,** ***ven-ey-sun,** ***ven-y-son,** ***ven-y-soun,** *s.* & *a.* [O. Fr. *veneison* (Fr. *venaison*) = venison, from Lat. *venationem,* accus. of *venatio* = a hunting, (2) that which is hunted, game, from *venatus,* pa. par. of *venor* = to hunt. *Venison* and *venation* are thus doublets.]

A. *As substantive:*

1. The flesh of such wild animals as are taken in the chase and used for human food. (Now restricted to the flesh of animals of the deer kind.)

"We were so desirous of their [the goats'] flesh, which we all agreed much resembled *venison,* that we got knowledge, I believe, of all their herds."—*Anson: Voyages,* bk. ii., ch. i.

***2.** Beasts of the chase; game.

"But therein is *venyson* and other wylde beestes, fowle, and fysshe great pleute."—*Fabyan: Chronycle,* p. 168.

B. *As adj.:* Made of venison.

"We have a hot *venison* pasty to dinner."—*Shakesp., Merry Wives,* i. 1.

¶ *Indirectly venose* (*Of a leaf*): Having the lateral veins combined within the margin, and emitting other little veins.

vē-nŏs'-ĭ-tў, *s.* [Eng. *venos(e); -ity.*]

*1. *Ord. Lang.:* The quality or state of being venous.

2. *Path.:* A somewhat morbid condition in which the blood appears to move more slowly than usual, all being more venous, and having the specifically venous blood in larger proportion than in a state of perfect health.

vē'-noŭs, *a.* [Lat. *venosus*, from *vena* = a vein.]

1. Of or pertaining to a vein or veins; contained in the veins.

"The respiratory organs receive *venous* and return arterial blood into the general circulation without its passing through the branchiæ orgills."—*Field*, Sept. 25, 1886.

2. Consisting of veins: as, the *venous* system.

venous-blood, *s.*

Anat. & Physiol.: Blood from the veins. It is of a purple colour through deficiency of the hæmoglobin. It contains eight to twelve per cent. less oxygen and six per cent. more carbon dioxide than arterial blood.

venous-pulse, *s.*

Physiol.: A feeble pulse or pulsation occurring in certain circumstances in some of the larger veins.

vĕnt (1), ***fent, *fente, *vente,** *s.* [Prop. *fent*, from O. Fr. *fente* = a cleft, rift, chink, or slit, from *fendre* (Lat. *findo*) = to cleave. The word is popularly connected with Fr. *vent* = wind, as if it were a hole to allow the passage of air or wind.]

*1. A slit at the collar of a dress, closed by a brooch, serving for convenience in putting on a robe so fashioned as to fit closely round the neck.

"The coller and the *vente*."
Chaucer: Assemblee of Ladies, lxxvi.

2. Applied generally to a small aperture or opening.

"How thy wounds bled at many *vents*."
Shakesp.: Troilus & Cressida, v. 3.

3. More especially a small aperture or opening for the passage of air.

"To make more *vent* for passage of her breath,
Which, thronging through her lips, so vanisheth
As smoke." *Shakesp.: Rape of Lucrece*, 1,040.

4. Applied specifically to—

(1) The opening in the top of a barrel to allow air to pass in as the liquid is drawn out.

¶ In the following quotation it seems to mean a vent-peg (q.v.).

"To draw any drink, be not at the trouble of opening a *vent*; or, if you take out the *vent*, stay not to put it in."—*Swift: Instructions to Servants.*

(2) *Arch.:* A crenelle, or loophole, in an embattled wall.

Ordn.: The raised tablet in the metal near the breech of a gun, in which the vent is bored.

vent-hole, *s.*

1. The same as Vent (1), s., 4. (1)

2. A vent or outlet for air or gases.

"For, the town and temple, as we observed, were seated on a bare and hollow rock: which would here and there afford *vent-holes* for such fumes as generated within to transpire."—*Warburton: Julian*, bk. ii., ch. vi.

vent-peg, *s.* A peg to stop a vent-hole in a cask.

vent-piece, *s.*

Ordnance:

(1) A plug of copper containing the vent, and screwed into its position in the gun.

(2) The block which closes the rear of the bore in a breech-loader.

vent-pin, *s.* The same as Vent-peg (q.v.).

vent-pipe, *s.* An escape-pipe for air or steam.

vent-plug, *s.* A stopper for the vent of a gun.

vent-punch, *s.* A punch made of steel, slightly less in diameter than the vent, and used for clearing the vent when it has become foul or scaly.

vent-stopper, *s.* A plug or tap to close the vent-hole.

vent-wire, *s.*

Found.: A long steel wire, one end of which terminates in a bow and the other in a sharp point. It is used for giving vent to green and dry sand-moulds.

***vĕnt** (2), *s.* [Fr. *vente* = a sale, from *vendre* (Lat. *vendo*) = to sell. The word has been confused in its use with *vent* (1), *s.*, and Vent (1), *v.*; Sp. *venta.*]

1. Sale; the act of selling.

"He drew off a thousand copies of a treatise, which not one in threescore can understand, can hardly exceed the *vent* of that number."—*Pope: Letters.* (*Todd.*)

2. Opportunity of selling; market.

"The king might dispend a thousand marks sterling a day, such *vent* of wools had the English merchants in that season."—*Holinshed: Chron. Edw. III.* (an. 1355.).

2. To keep no longer pent up in one's mind; to give vent to.

"That fatal distemper which has always taken a particular pleasure in *venting* its spite upon the nose."—*Tatler*, No. 260.

*3. To utter; to report; to publish.

"Their mind runs only after paradoxes: these they seek, these they embrace, these alone they *vent*."—*Locke: Conduct of the Understanding*, § 34.

*4. To put into circulation; to circulate.

"When he found ill money had been put into his hands, he would never suffer it to be *vented* again."—*Burnet: Life of Hale.*

*5. To scent, as a hound.

"When he [a hound] smelleth or *venteth* anything, we say he hath this or that in the wind."—*Turberville.*

B. *Intrans.:* To snuff; to snort; to snuff up or puff out air.

"A few amateurs, we are told, hunt the otter with dogs, which run it to ground, and when, after being driven out into the river, it rises to *vent*, it is immediately shot at."—*Field*, Jan. 23, 1886.

¶ *To vent up:* To raise so as to admit air.

"[She] onely *vented* up her umbriere."
Spenser: F. Q., III. i. 42.

***vĕnt** (2), *v.t.* [Vent (2), *s.*] To sell; to vend.

"Therefore did those nations *vent* such spice, sweet gums, and pearls, as their own countries yielded."—*Raleigh.*

***vĕn'-ta,** *s.* [Sp. = a sale, a market, a mean roadside inn.] A mean inn; a roadside tavern. [Vent (2), *s.*]

vĕnt'-age (age as ĭg), *vĕnt'-ĭġe), *s.* [Eng. *vent* (1), *s.*; *-age.*] A small hole for the passage of air; a vent.

"Govern these *ventages* with your finger and thumb."—*Shakesp.: Hamlet*, iii. 2.

***vĕn'-tāil, *ven-taile, *ven-tayle,** *s.* [O. Fr. *ventaille*, from *vent* (Lat. *ventus*) = wind.] The lower movable part of the front of the helmet, which admitted of breathing, the upper being the visor (q.v.). It succeeded the nasal of the eleventh century, and the term was afterwards applied to all defences of the face, whether a combination of the mail-hood or a plate attached to the front of the helmet.

FRENCH BASCINET, WITH CLOSED VENTAIL.

"The wicked stroke . . .
Her *ventaille* shar'd away."
Spenser: F. Q., IV. vi. 19.

vĕn'-tẽr (2), *s.* [Lat. = the belly.]

1. *Anat.:* Any large cavity containing viscera. Hence the head, the thorax, and the abdomen were called the Three Venters. The term was formerly applied to (1) the uterus; (2) the belly of a muscle; (3) the subscapular fossa, a shallow concavity on the anterior surface of the scapula. It receives the subscapular muscle.

2. *Entom.:* The lower part of the abdomen.

3. *Law:* The womb, and hence, a mother.

"A has issue B a son and C a daughter by one *venter*, and D a son by another *venter*. If B purchases in fee, and dies without issue, it shall descend to the sister and not to the brother of the half blood."—*Hale.*

***vĕn-tĭc'-ŭ-lar,** *a.* [A dimin. from *vent* (1), s.] Consisting of small holes or vents.

"Distinguished from genuine examples by the so-called '*ventricular* perforations of the mezail,' or breathing holes."—*Athenæum*, Oct. 14, 1882.

vĕn'-tĭ-dŭct, *s.* [Lat. *ventus* = wind, and *ductus* = a passage; *duco* = to lead.]

Arch.: A passage for wind or air; a subterraneous passage or pipe for ventilating apartments.

"Having been informed of divers *ventiducts*, I wish I had had the good fortune, when I was at Rome, to take notice of these organs."—*Boyle.*

vĕn'-tĭl, *ven-tile, *s.* [Ger., from Lat., *ventus* = wind.]

Music:

(1) A valve, by means of which brass tubes may be made to sound the semitones and tones between the natural open harmonics.

(2) A mechanical contrivance on an organ for the purpose of cutting off the wind from a particular sound-board.

vĕn-tĭl-ā'-gō, *s.* [Lat. *ventilo* = to fan (*ventus* = the wind), and *ago* = to drive away. So named because the fruit is winged, and is scattered by the wind.]

Bot.: A genus of Rhamnaceæ. Tall climbing shrubs with woody branches, leathery leaves, and small panicles of flowers. They are all from the tropics of the eastern hemisphere. *Ventilago maderaspatana*, an extensive climber, with green, offensively smelling flowers, a native of Central and Southern India and Burmah, is said to yield a gum. The root bark yields a red dye, orange and chocolate with *Oldenlandia umbellata*, and black with galls. The fibres of the bark constitute excellent cordage, and, according to Rumphius, the Amboyna fishermen employ the long stems instead of ropes.

vĕn'-tĭ-lāte, *ven-ty-late, *v.t.* [Lat. *ventilatus*, pa. par. of *ventilo* = to blow, to winnow, to ventilate, from *ventus* = wind; Fr. *ventiler*; Sp. & Port. *ventilar.*]

" 1. To winnow, to fan; to remove chaff from.

2. To blow upon; to renew or refresh by blowing.

"*Ventilate* and warm the swelling buds."
Cowper : Task, iii. 426.

3. To expose to the free passage of air or wind; to supply with fresh air and remove vitiated air from: as, To *ventilate* a room by opening the windows.

4. To expose to common or public talk or consideration; to allow to be discussed freely; to expose to examination and discussion.

"Much had been *ventilated* in private discourse."—*Harrington : Oceana*, p. 213.

***vĕn'-tĭl-ate,** *a.* [Ventilate, *v.*] Discussed, considered, ventilated.

"Those counsayles . . . were before trayted, and (as I might say) *ventilate*."—*Elyot : Governour*, bk. i., ch. xxv.

vĕn'-tĭl-āt-ĭng, *pr. par.* or *a.* [Ventilate, *v.*]

ventilating-brick, *s.* A hollow brick (q.v.).

ventilating heater, *s.* A form of stove in which the air is drawn fresh from the outside of the building, warmed in the passages of the stove, and discharged into the room.

vĕn-tĭl-ā'-tion, *s.* [Fr., from Lat. *ventilationem*, accus. of *ventilatio*, from *ventilatus*, pa. par. of *ventilo* = to ventilate (q.v.).]

" 1. The act of fanning or blowing; the state of being fanned or blown on.

"The soil, worn with too frequent culture, must lie fallow, till it has recruited its exhausted salts, and again enriched itself by the *ventilations* of the air."—*Addison.*

2. The act of ventilating; the state of being ventilated; the process of removing vitiated air from and supplying fresh air to rooms, buildings, mines, and other confined places, so as to maintain the atmosphere in such places in a constant state of purity. This may be effected either by withdrawing the foul air and permitting the fresh air to flow in and supply its place (the vacuum process); or by forcing in fresh air (the plenum process), which drives the foul air before it to the exit. A combination of both processes is also used in certain cases.

"In the *ventilation* of mines, a series of shafts, termed winzes, are sunk from one level to another, permitting the ascent of the more highly heated air from below, causing an ascending current; and the descent of the cooler air from outside, which traverses the various galleries, is usually found sufficient. In coal or other mines where large quantities of dangerous gases are generated, this method is inadequate, and artificial means are resorted to to produce a more powerful ascending current, and cause a more rapid circulation of air. The most simple means of doing this, and that generally employed in coal-mines, is by means of two shafts, in one of which a fire is kept up, rarefying the air, and producing a strong draught, which causes the withdrawal of the air from the set of galleries with which this, the upcast shaft, is connected."—*Knight : Dict. Mechanics.*

" 3. The act or process of refrigerating or cooling; refrigeration.

"Procure the blood a free course, *ventilation*, and transpiration, by suitable and cephractic purges."—*Harvey.*

" 4. Vent, utterance.

"To his secretary, Dr. Mason, whom he let lie in a pallet near him, for natural *ventilation* of his thoughts, he would break out into bitter eruptions."
Wotton : Life of Duke of Buckingham.

5. Public examination; open or free discussion.

"The *ventilation* which this superlatively important subject is receiving."—*Field*, Dec. 31, 1887.

***vĕn'-tĭ-lāt ĭve,** *a.* [Eng. *ventilat(e)*; *-ive.*] Of or pertaining to ventilation; producing ventilation: as, *ventilative* appliances.

vĕn'-tĭ-lāt-ŏr, *s.* [Lat. = a winnower, from *ventilatus*, pa. par. of *ventilo* = to ventilate.] An arrangement for supplying fresh and removing vitiated air from buildings, mines, and other confined spaces; specif., an apparatus made to turn with the wind, and placed in a wall or roof, in order to throw a due quantity of fresh air into a close apartment or a mine. The ventilator for stacks, mows, and granaries consists of a perforated air-duct which allows the heated air and moisture to pass off. The ventilator for ships is commonly a wind-sail (q.v.).

vĕnt'-ĭng, *pr. par.* or *a.* [Vent (1), *v.*]

***venting-hole,** *s.* A vent-hole.

"Certaine out-casts, tunnels, or *venting-holes*."—*P. Holland : Plinie*, bk. xxxi., ch. iii.

***vĕnt'-lĕss,** *a.* [Eng. *vent* (1), s.; *-less.*] Having no vent or outlet.

"A restlesse, *ventlesse* flame of fire."
Davies : Microcosmos, p. 61.

vĕn'-tōse, *a.* [Lat. *ventosus*, from *ventus* = wind.] Windy, flatulent.

***vĕn-tōse (1),** *s.* [Fr. *ventouse*, from Lat. *ventosa cucurbita* = a cupping-glass, from *ventus* = wind.] A cupping-glass.

"They have certaine hollow concavities dispearsed within their clawes or armes like to *ventoses* or cupping-glasses."—*P. Holland : Plinie*, bk. ix., ch. xxix.

Vĕn'-tōse (2), *s.* [Fr., from Lat. *ventosus* = windy, from *ventus* = wind.] The name adopted in October, 1793, by the French Convention for the sixth month of the Republican year. It commenced on Feb. 19, and was the third winter month.

***vĕn-tŏs'-ĭ-tỹ,** *s.* [Eng. *ventos(e)*, a.; *-ity.*]

1. *Lit.:* Windiness, flatulence.

"Democritus banished turneps altogither from the board, by reason of the *ventosity* or windinesse that it engendreth."—*P. Holland : Plinie*, bk. xx., ch. iii.

2. *Fig.:* Empty pride or boasting; vainglory. (*Bacon.*)

***vĕn'-tōs-ŏ-ĭng,** *s.* [Ventose (1), *s.*] The act or process of cupping.

"Neither veine-blode, nor *ventousing*,
Ne drinke of herbes may ben his helping."
Chaucer : C. T., 2,750.

vĕn'-trăl, *a.* [Lat. *ventralis*, from *venter*, genit. *ventris* = the belly.]

1. *Anat.:* Of or pertaining to the belly, or to the surface of the body opposite to the dorsal side or back: as, *ventral* muscles.

2. *Bot.:* Belonging to the anterior surface of anything.

ventral fins, *s. pl.*

Ichthy.: Paired or horizontal fins, inserted on the abdominal surface, behind, below, or in advance of the pectoral fins, whence they are called abdominal, thoracic, or jugular ventral fins respectively. They are generally narrow, composed of a small number of rays, the outer of which is ordinarily bony. In some genera of the Gobiidæ, the ventral fins are united and form a suctorial disc.

ventral-suture, *s.* [Suture, s., II. 2.]

***vĕn'-trĭc,** *a.* [Ventricous.] Of or pertaining to the stomach.

"'Magister artis . . . venter,' says Persius [*Prol.* 10, 11], the art of accurate time-keeping is *ventric*."—*M. Collins : Thoughts in my Garden*, i. 41.

vĕn'-trĭ-cle, *s.* [Fr. *ventricule*, from Lat. *ventriculum*, accus. of *ventriculus* = (1) the stomach, (2) a ventricle; double dimin. from *venter*, genit. *ventris* = the belly.]

I. *Ordinary Language:*

1. A small cavity in an animal body; a place of organic function.

"Herophilus [places the soul] within the *ventricle* or concavity of the brain, which also is the basis or foundation of it."—*P. Holland : Plutarch*, p. 883.

" 2. The stomach.

"Whether I will or not, while I live my heart beats, and my *ventricle* digests what is in it."—*Hale.*

II. *Anat.:* The name given to various cavities smaller than that of the stomach. [¶.] Thus the cerebrum has several ventricles, and the cerebellum one. Among these are the right and left lateral ventricles. The third ventricle is a narrow longitudinal cleft placed between the optic thalami of the cerebrum. The fourth, called also the ventricle of the cerebellum, occupies the space between the *medulla oblongata* in front and the cerebrum behind. The fifth, called also the ventricle of the septum, or sylvian ventricle, is situated between two laminæ of the *septum lucidum* a thin transparent partition placed between the two lateral ventricles.

¶ *Ventricles of the heart:*

Anat.: Two of the four cavities into which the heart is divided. They are called the right and the left ventricles. The right or anterior ventricle occupies most of the anterior surface of the right border and a smaller part of the posterior surface. The upper and left angle, called the arterial cone or infundibulum, is prolonged in a conical form to the commencement of the pulmonary artery. The muscular wall of the right ventricle is thickest at the base, and becomes thinner towards the apex. At its base are two orifices: the auriculo-ventricular orifice, protected by the tricuspid valve, and that of the pulmonary artery, protected by the semilunar or sigmoid valves. The left or posterior ventricle occupies the left border of the heart, about a third of its extent appearing on the anterior surface, the rest being visible behind. It is longer and narrower than the right ventricle, and oval in cross-section. Its walls, except near the apex, are three times as thick as those of the right ventricle. Its two orifices are very close together. One is the left auricular, the other the aortic, opening, the former protected by the bicuspid or mitral, the latter by another semilunar or sigmoid valve, while the two are separated only by the attachment of the anterior segment of the mitral valve. The ventricles receive the blood from the auricles, and transmit it to the lungs and through the aorta to the body generally. [Heart, II. 2. (1).]

vĕn'-trĭc-ŏŭs, vĕn-trĭc-ōse, *a.* [Low Lat. *ventricosus*, from Lat. *venter*, genit. *ventris* = the belly.]

I. *Ord. Lang.* (*Of both forms*): Resembling the belly; hence, swelled out, distended.

II. *Botany* (*Of the form* ventricose): Inflated. [Bellying, B. 2.]

vĕn-trĭc'-ŭ-lar, *a.* [Eng. *ventricul(e)*; *-ar.*] Pertaining to or resembling a ventricle; distended in the middle; bellied.

"The general *ventricular* space within the cerebrum."—*Quain: Anat.* (ed. 8th), ii. 539.

vĕn-trĭc'-ŭ-lite, *s.* [VENTRICULITES.] Any individual of the genus Ventriculites.

vĕn-trĭc-ŭ-lī'-tī-dēs, *s. pl.* [Lat., dimin. from *venter* = the belly.]

Palæont.: The typical genus of Ventriculitidæ (q.v.). Characteristic of the Chalk.

vĕn-trĭc-ŭ-lĭ'-tī-dæ, *s. pl.* [Mod. Lat. *ventriculīt(es)*; Lat. fem. pl. adj. suff. *-idæ.*]

Zool. & Palæont.: Sponges, simple or compound. Cup, funnel or top-shaped, cylindrical or ramose. Wall in meandrous folds, spicular nodes octohedral; radial canals blind. The outer or under surface of the sponge with elongate apertures or vents, the inner or upper surface either similar to the lower or with circular vents. Dermal layer a cribriform siliceous membrane. Root-appendage of fasciculate siliceous fibres, united by transverse extensions, and without axial canals. (*Hinde* in *Palæontographical Society's* vol. for 1886.) They reach their maximum in the Cretaceous rocks. Only one genus now survives.

vĕn-trĭc'-ŭ-loŭs, *a.* [Eng. *ventricul(e)*; *-ous.*] The same as VENTRICULAR (q.v.).

* **vĕn-trĭ-lō-cū'-tion,** *s.* [Lat. *venter*, genit. *ventris* = the belly, and Eng. *locution.*] A speaking after the manner of a ventriloquist; ventriloquism.

* **vĕn'-trĭ-lōque (qu as k), vĕn-trĭ'-lō'-quĭ-al,** *a.* [Lat. *ventriloquus* = a ventriloquist: *venter*, genit. *ventris* = the belly, and *loquor* = to speak.] Pertaining to ventriloquism.

"Followed by a faint kind of *ventriloquial* chirping."—*Dickens: Sketches by Boz; Mistaken Milliner.*

vĕn-trĭl'-ō-quĭsm *s.* [Eng. *ventriloqu(y)*; *-ism.*] The act or art of speaking in such a manner as to cause the hearers to believe that the sound comes not from the person speaking, but from a different source. The name originated from the erroneous supposition that the sounds uttered were formed in the belly, whereas they are formed by the same organs as the emissions of sound commonly, viz., the larynx, the palate, the tongue, the lips, &c., only that to increase the illusion the performer moves the lips as little as possible. The art of ventriloquism depends mainly on two things: (1) The power of appreciating the value of sounds at certain given distances, or when hindered by obstacles; (2) The power of imitating or reproducing the diminished value of such sounds. Thus, to represent a man speaking outside a window, the ventriloquist should know exactly the value of such sounds inside a room if actually produced outside, and also be able to reproduce them by accurate imitation. The art of ventriloquism was known to the ancient Greeks and Romans.

vĕn-trĭl'-ō-quĭst, *s.* [Eng. *ventriloqu(y)*; *-ist.*] One who practises or is skilled in the art of ventriloquism; one who speaks so as to cause his voice to appear to come from some other quarter.

"A tuneful bird is a *ventriloquist.*"—*Paley: Nat. Theology*, ch. x.

* **vĕn-trĭl-ō-quĭs'-tĭc,** *a.* [Eng. *ventriloquist*; *-ic.*] Pertaining to ventriloquism or ventriloquists; ventriloquial.

"It has, moreover, a peculiar *ventriloquistic* quality, which, when heard in the distance, seems to locate its origin at much closer range."—*Harper's Magazine*, July, 1886, p. 291.

vĕn-trĭl'-ō-quīze, *v.i.* [Eng. *ventriloqu(y)*; *-ize.*] To practise ventriloquism; to speak after the manner of a ventriloquist.

* **vĕn-trĭl'-ō-quŭs,** *a.* [Lat. *ventriloquus.*] [VENTRILOQUE.] Speaking after the manner of a ventriloquist; ventriloquial.

"In the same tract, chap. 6, is this observation of *ventriloquous* persons."—*Derham: Physico-Theology*, bk. iv., ch. vii.

* **vĕn-trĭl'-ō-qu�² ,** *s.* [Lat. *ventriloquus.*] [VENTRILOQUE.] Ventriloquism.

vĕn-trō-, *pref.* [Lat. *venter*, genit. *ventris* = the belly.]

Anat.: Of, pertaining to, or connected with the belly.

ventro-inguinal, *a.*

Anat.: Of or pertaining to the belly and the groin: as, *ventro-inguinal* hernia.

ventro-lateral, *s.*

Anat.: Of or pertaining to the belly and the side: as, *ventro-lateral* muscles.

vĕn'-ture, * **venter,** *s.* [An abbreviation of *aventure*, or *adventure* (q.v.).]

1. An undertaking of chance, risk, or danger; the hazard or risking of something upon an event, the result of which cannot be clearly foreseen; the undertaking of chance and risk; a trial of one's chance or of an issue; hazard, risk.

"I cannot lose much by the *venture*, sure."
Beaum. & Flet.: Noble Gentleman, iv. 1.

2. Specifically, a commercial speculation or enterprise; a pecuniary risk.

3. That which is put to hazard or risk; that which is staked; a stake, a risk; especially something sent abroad in trade.

"We must take the current when it serves,
Or lose our *ventures.*"
Shakesp.: Julius Cæsar, iv. 3.

4. A chance occurrence, an accident; chance, hap, contingency.

"The king resolved with all speed to assail the rebels, and yet with that providence and surety as should leave little to *venture* or fortune."—*Bacon.*

¶ *At a venture:* An improper spelling of *at aventure*, at *adventure* = at hazard, at random, on chance.

"A certain man drew a bow *at a venture.*"—*1 Kings* xxii. 34.

vĕn'-ture, *v.t. & i.* [VENTURE, *s.*]

A. *Transitive:*

1. To expose to hazard or risk; to risk, to hazard. (*Shakesp.: Coriolanus*, ii. 2.)

2. To run the hazard or risk of; to expose one's self to; to chance.

"I should *venture* Purgatory for 't."
Shakesp.: Othello, iv. 3.

* 3. To put or send as a venture or commercial speculation.

"The fish *ventured* for France they pack in staunch hogsheads, so as to keep them in their pickle."—*Carew: Survey of Cornwall.*

* 4. To confide in; to rely on; to trust; to risk one's self with.

"To buy silks of one whom he would not *venture* to feel his pulse."—*Addison.*

B. *Intransitive:*

1. To hazard one's self; to dare; to have the courage or presumption to do, undertake, or say.

"Whosoever *ventured* in must nedes gore themselves upon the sharpe pointes of the stakes."—*Golding: Cæsar*, fo. 225.

2. To try a chance, hazard, or risk; to run all risks.

"Before you *venture* for me."
Shakesp.: Merchant of Venice, iii. 2.

¶ *To venture at, on, or upon:* To dare to enter upon or engage in; to take or run the risk of.

"It was impossible to think of *venturing upon* this passage."—*Anson: Voyages*, bk. ii., ch. vii.

* **vĕn'-tu-rĕr,** * **vĕn'-tĕr-ĕr,** *s.* [An abbreviation of *adventurer* (q.v.).]

1. One who ventures, hazards, or risks; an adventurer.

"Remember, you're all *venturers*, and in this play
How many twelve-pences ye have 'stow'd this day."
Beaum. & Flet.: Mad Lover. (FROL.)

2. A prostitute, a strumpet.

vĕn'-ture-sŏme, *a.* [Eng. *venture*; *-some.*]

1. Inclined to venture; venturous, bold, daring.

2. Risky, hazardous, bold.

"That bold and *venturesome* act of his."—*Strype: Eccles. Mem.*; *Henry VIII.* (an. 1546).

vĕn'-ture-sŏme-lў, *adv.* [Eng. *venturesome*; *-ly.*] In a venturesome, bold, or daring manner.

vĕn'-ture-sŏme-nĕss, *s.* [Eng. *venturesome*; *-ness.*] The quality or state of being venturesome; riskiness, boldness.

"As far as Europe is concerned, the *venturesomeness* of travel has been for some years past steadily on the decrease."—*Daily Telegraph*, April 3, 1888.

vĕn'-tu-rine, *s.* [AVANTURINE.] Powdered gold used in japanning to cover varnished surfaces.

vĕn'-tu-roŭs, * **vĕn'-troŭs,** *s.* [An abbreviation of *adventurous* (q.v.).] Daring, bold, venturesome, adventurous.

"The *vent'rous* knicht is from the saddle thrown."
Dryden: Palamon & Arcite, iii. 735.

vĕn'-tu-roŭs-lў, * **vĕn'-troŭs-lў,** *adv.* [Eng. *venturous*; *-ly.*] In a venturous, bold, daring, or venturesome manner.

"How men durst die so *ventrously* except they are sure they died well."—*Bales: Remains; Sermon on Numbers* xxxv. 33.

vĕn'-tu-roŭs-nĕss, *s.* [Eng. *venturous*; *-ness.*] The quality or state of being venturous, daring, or venturesome; daring, fearlessness.

"Her coming into the place, where the walls and ceilings were whited over, much offended her sight, and made her repent her *ventrousness.*"—*Boyle: Works*, i. 673.

vĕn'-ue, * **vĕn'-ew (ew as ŭ),** * **vĕn'-nў,** *s.* [Fr. *venue* = a coming, an arrival, a thrust in fencing; prop. fem. of *venu*, pa. par. of *venir* (Lat. *venio*) = to come.]

* **I.** *Ordinary Language:*

1. *Lit.:* A thrust or hit received in a contest with swords or cudgels; a turn or bout of fencing or cudgel-play.

"Preventing the *venue* of their stroke."—*P. Holland: Plutarch*, p. 407.

2. *Fig.:* A combat, a trial of skill.

"A quick *venue* of wit."—*Shakesp.: Love's Labour's Lost*, v. 1.

II. *Law:* The place where an action is laid or tried. The county in which the trial of a particular cause takes place is said to be the *venue* of that trial. In local actions, as for damages for an actual trespass, or for waste, &c., affecting land, the plaintiff must lay his declaration, or declare his injury to have happened in the very county and place that it really did happen; but in transitory actions, for injuries that might have happened anywhere, as debt, detinue, slander, and the like, the plaintiff may declare in what county he pleases, and then the trial must be had in that county in which the declaration is laid. By legal legislation the venue in all cases, civil and criminal, may be regulated by the superior courts.

¶ *To lay a venue:* To allege or fix a place of trial.

vĕn'-ūle, *s.* [Lat. *venula*, dimin. from *vena* = a vein.]

* 1. *Ord. Lang.:* A small vein.

2. *Bot.:* A veinlet (q.v.).

* **vĕn'-ŭ-līte,** *s.* [Mod. Lat. *venus*, and Gr. λίθος (*lithos*) = a stone.]

Palæont.: A fossil of, or akin to, the genus Venus (q.v.).

vĕn'-ŭ-lōse, *a.* [Eng. *venul(e)*; *-ose.*]

Bot.: Full of small veins.

venulose-hinoid, *a.*

Bot.: The same as Hinoid (q.v.). (*Link.*)

Vē'-nŭs, *s.* [Lat. = the goddess of love, love; allied to Sansc. *van* = to love; Eng. *win.*]

1. *Roman Mythol.:* The goddess of beauty and love, and more especially of sensual love, her principal seats being the islands of Cyprus and Cythera. This goddess is generally supposed to have been of eastern origin, and to have been the same as the Phœnician Astarte. Before her identification with the Greek Aphrodite, the daughter of Zeus and Dione, who, according to some accounts, arose from the foam of the sea, Venus was one of the least important divinities (*Macrob.: Sat.* i. 12.) The Romans regarded her as the progenitress of their nation, which was fabled to have sprung from Æneas, the offspring of her union with the Trojan Anchises. She was married to Vulcan, but was not remarkable for fidelity to her husband, and her amour with Adonis has been celebrated by classic poets and by Shakespeare. The rose, myrtle, and apple were sacred to her; among birds, the dove, swan, and sparrow were her favourites. She is generally represented with her son Cupid in a chariot drawn by doves, or, at other times, by swans or sparrows. Among the most famous statues of Venus are the Venus of Cnidus, by Praxiteles (of which the Venus de Medici, found at Tivoli, is supposed to be a copy), the Venus of Capua, and the Venus of Milo, or Milos, found in the island of Milos. In the best days of art she was always represented as draped, in later times nude.

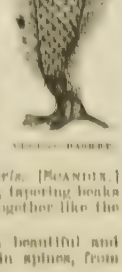
2. *Astron.:* The second of the known inferior planets, if the arrangement be made according to their relative distances from the sun. With the exception of the moon, Venus is the nearest of all the heavenly bodies to

the earth, and, when near its extreme eastern or western elongation, is much brighter than even the largest of the fixed stars. It stands first in this respect also of all the planets, the nearest approach to it being that made at certain times by Jupiter. When Venus is at its maximum of brightness, it can sometimes be seen by the naked eye in sunlight within an hour of noon. Its comparative nearness to the sun causes it to be for six months a morning and for the other six months an evening star. In the first state, it is the Lucifer of the Latins and the Phosphor of the Greeks; in the latter, it is the Hesperus of classical antiquity and of modern poetry. It undergoes phases like the moon. Father Castelli, a famous Florentine philosopher, reasoned this out, and, questioning Galileo on the subject, induced him to look with his telescope and see. On December 30, 1610, he was able to announce to Castelli that the phases had been actually discerned. They are not visible to the naked eye, to which the planet is simply a brilliant speck, too small to reveal its actual form, which is much more globular than that of the earth. Its diameter is about 7,600 miles, or about 958 miles less than that of the earth. Were man placed on the surface of Venus, the earth would look a trifle larger and brighter than Venus does to us in our sky. The mass of Venus is about three-quarters that of the earth, or $\frac{4}{5}$ths that of the sun; its density is about 0.850 that of the earth; its specific gravity 4·81, as against 5·60, that of the earth. While a stone falling towards the earth passes through a little more than sixteen feet in the first second, it would do so to Venus throughout about thirteen feet only in the same time. The excessive brightness of Venus makes the time of its rotation somewhat doubtful; it is provisionally placed at 23 hours 21'. Its mean distance from the sun is 67,000,000, its greatest distance 67,500,000, and its least 66,500,000 of miles. These numbers show that its orbit departs but slightly from a circle. Its periodic time is 224·7 mean solar days. Observation on the passage of the planet over the sun's disc is the best method of ascertaining the distance of the great boundary [Transit]. It has also revealed the fact that Venus has an atmosphere, but its composition is as yet uncertain. Old observers thought they detected a satellite; modern astronomers have not confirmed this view, and believe it to have been founded on optical delusion.

3. *Her.:* The green tincture in coat-armour when borne by princes; vert.

* 4. *Old Chem.:* A name given to copper.

5. *Zool. & Palæont.:* The typ. genus of Veneridæ (q.v.), with 176 recent species, universally distributed, from low water to 140 fathoms. Shell thick, ovate, smooth, sulcated, or cancellated; margins minutely crenulated; hinge teeth 3-3; pallial sinus small, angular; ligament prominent, bundle distinct. Animal with mantle margins fringed; siphons unequal, more or less separate; foot tongue-shaped. All the species are edible. *Venus mercenaria* is known on the east coast of the United States as the Round Clam, and from the sea-worn fragments of the shell of this species the Red Indians used to make coinage, by perforating and stringing them on leather thongs. Fossil species 200, from the Oolite onward.



Venus's basket.

Venus's basin, bath, or cup, *s.*

Bot. = Dipsacus sylvestris [Teasel].

Venus's basket, *s.*

Zool.: A popular name for any species of the genus Euplectella (q.v.). Called also Venus's Flower basket. The species figured is *Euplectella suberea*, from the Philippines.

Venus's comb, *s.*

1. *Bot.:* = Scandix Pecten-Veneris. [Scandix.] So named because the slender, tapering beaks of the seed-vessels are set together like the teeth of a comb.

2. *Zool.:* *Murex tribulus*, a beautiful and delicate shell, with long thin spines, from the Indian Ocean.

Venus's fan, *s.*

Zool.: *Gorgonia flabellum*, a much branched and reticulated zoophyte, which has been found in the waters of the Southern States, the West Indies, &c.

Venus's fly trap, *s.* [Dionæa.]

Venus's girdle, *s.*

Zool.: *Cestum veneris*, a free swimming Hydrozoan, from the Mediterranean. It is a long, narrow, ribbon-like, transparent, gelatinous creature, covered with cilia, and swims with a peculiar undulating motion.

Venus's hair, *s.*

Bot.: *Adiantum Capillus-Veneris.* [Adiantum, Maiden-hair.]

Venus's looking glass, *s.*

Bot.: *Specularia speculum*, a Campanula-like plant, with purple flowers, from southern Europe.

Venus's navel wort, *s.*

Bot.: The genus Omphalodes (q.v.).

Venus's slipper, *s.*

Zool.: The genus Cypripedium (q.v.).

vē nŭ şĭ ą, *s.* [Mod. Lat., from Lat. *Venus* (q.v.).]

Entom.: A genus of Geometer Moths, family Acidalidæ. Antennæ of the male slightly pectinated; abdomen slender; wings entire, rounded. One British species, *Venusia cambrica* (*Curtisii*), or *cambricaria* (*Newman*), the Welsh Wave. The larva feeds on the mountain ash.

*** vē nŭst',** *a.* [Lat. *venustus*, from *venus* = beauty.] Beautiful, amiable.

"As the infancy of Rome was *venust*, so was its manhood a lofty grace."—*Butterworth Cumming: Epitome*, p. 197.

*** ven ym, * ven yme,** *s.* [Venom, *s.* & *v.*]

vē prēe ų læ, *s. pl.* [Lat., pl. of *vepreeula* = a little Ocean or briar bush, dimin. from *vepres* = a thorn bush.]

Bot.: The fifty-fourth order in Linnæus's Natural System. Genera: Rhamnus, Lycium, Daphne, &c.

*** vèr,** *s.* [Lat.] The spring. (*Chaucer.*)

vēr ą, *adv.* [Verv.] (*Scotch.*)

vē rā' cious, *a.* [Lat. *verax*, genit *veracis*, from *verus* = true.]

1. Observant of truth; habitually speaking the truth.

"The Spirit is most perfectly and absolutely *veracious*."—*Barrow: Sermons*, vol. ii., ser. 34.

2. Characterized by truth and accuracy; true: as, a *veracious* account.

* 3. Leading to or reporting actual facts.

vē rā' cious lў, *adv.* [Eng. *veracious*; *-ly.*] In a veracious manner; with truth; truthfully.

vē răç' ĭ tў, *s.* [Lat. *veracitas*, from *verax* = veracious (q.v.).]

1. The quality or state of being truthful or observant of truth; habitual regard or observance of truth; truthfulness; truth.

"He cannot be condemned as unworthy of our trust in him."—*Clarke: Evidences*, prop. 1.

2. Consistency of report with truth or fact; agreement with facts; truth.

"There was no reason to doubt the *veracity* of those facts which they related."—*Addison.*

* 3. That which is true; that in which truth lies; truth. (*Cowley.*)

*** ve ra ment,** *adv.* [O. Fr. *veraiment.*] [Verv.] Truly, really.

vē răn' da, vē răn' dah, * fe ran da, *s.* [Port. *varanda* = a balcony; O. Sp. *barranda*, from *vara* = a rod; or from Pers. *bar-dmadan* = a porch, a terrace, a balcony, from *bar-dmadan* = to ascend, to arise, to emerge, to grow out, from *bar* = up, and *dmadan* = to come, to arrive; or from Sansc. *varanda* = a partition, from *vri* = to cover.] An open portico attached to a house; a sort of light external gallery in the front of a house, having a sloping roof supported by slender pillars, and frequently partly enclosed in front with lattice-work.

"Upon each Cottage, with its *verandah*, French windows, and other pretensions."—*Miss Austen: Persuasion*, ch. v.

vē rā' trāte, *s.* [Eng. *veratr(ic)*; *-ate.*]

Chem.: A salt of veratric acid (q.v.).

vē rā trē ous, *a. pl.* [Mod. Lat. *veratr(um)*; Lat. fem. pl. adj. suff. *-eus.*]

Bot.: A tribe of Melanthaceæ. Divisions of the perianth free, sessile, shortly ungual entire, or colouring like a short tube.

vē rā' trĭ a, *s.* [Veratrine.]

vē rā' trĭc, *a.* [Eng. *veratr(um)* + *-ic.*] Contained in or derived from *Veratrum Sabadilla*.

veratric acid, *s.*

Chem.: $C_9H_8O_2 = C_6H_3(OCH_3)_2CO.OH$. A monobasic acid discovered by Merck, in 1859, in sabadilla seeds. It is prepared by exhausting the ground seeds with alcohol containing sulphuric acid, neutralizing with milk of lime, filtering and evaporating the filtrate to dryness. It crystallizes in colourless four-sided prisms, slightly soluble in water, soluble in alcohol, but insoluble in ether. Heated to 100° it gives off water and becomes opaque; at a higher temperature it melts, and sublimes without decomposition.

vēr' ą trĭn, *s.* [Eng. *veratr(um)*; *-in.*]

Chem.: Veratrum resin (q.v.).

vēr ą trine, *s.* [Eng. *veratr(um)*, *-ine.*]

Chem.: $C_{32}H_{49}NO_9$. Veratria. An organic base discovered by Meissner, in 1818, in sabadilla seeds, and cevadilla, obtained by boiling the bruised seeds in strong alcohol, and precipitating by an alkali. In its pure state it is a white or greenish white crystalline powder, inodorous, insoluble in water, soluble in alcohol and ether, and very poisonous; melts at 113°, and solidifies on cooling to a resinous mass. Strong sulphuric acid colours it first yellow, then carmine red, and lastly violet. It dissolves in dilute acids, forming colourless salts, which are very poisonous.

vēr ą trōl, *s.* [Eng. *veratr(ic)*; *-ol.*]

Chem.: $C_{11}H_{16}O_2$. A colourless oil obtained by distilling veratric acid with excess of baryta. It has an agreeable, aromatic odour, sp. gr. 1·080 at 16°, solidifies at 15°, and boils at 205°-206°.

vē rā' trŭm, *s.* [Lat. = a plant, *Veratrum album.*]

1. *Bot.:* The typical genus of Veratreæ. Perianth of six equal divisions, sessile, persistent; stamens six, springing from the perianth; styles three, persistent; stigmas three, spreading, capsule three-, sessile, many-seeded. Plants with perennial roots, erect stems, ovate pointed leaves, and panicles of polygamous flowers. Natives of Europe and North America. *Veratrum album* is the White Hellebore. The stem is two to four or five feet high, the peduncles drawny, the flowers in a thrice compound panicle. It grows in the Alps of Switzerland and Savoy and in the Pyrenees. It is a powerful emetic and drastic purgative. Locally, it is in mania, epilepsy, &c., externally it is used in itch. Another European species is *V. nigrum*, the Dark-flowered Veratrum. *V. viride* is the Green or American Hellebore, found on the east coast of the United States, from Canada to Carolina. It is called also the Poke-root and the Swamp Hellebore. The rhizome is a powerful cardiac, arterial, and nervous sedative, lowering the pulse, the respiration, and the heat of the body. It is used in pneumonia, rheumatism, gout, neuralgia, asthma, and in some cardiac affections. *V. Sabadilla*, a Mexican and West Indian species, was formerly believed to yield Cevadilla q.v.

2. *Pharm.:* The rhizoma of *Veratrum album*. [1.]

veratrum resin, *s.*

Chem.: $C_{32}H_{49}NO_9$ (?). Veratrin. A brown-ish resin, extracted from sabadilla seeds. It is insoluble in water, ether, and alkalis, soluble in alcohol, melts at 185°, and decomposes at a higher temperature.

vĕrb, * ver bo, *s.* [Fr. *verbe*, from Lat. *verbum* = a word, a verb; cogn. with Eng. *word* (q.v.).]

* I. *Ord. Lang.:* A word.

"In which speeche the *verbe* that coupleth the *nowne* [*noun*] and [*must*] together, signifieth them to be ioyned by their proper signification."—*Sir Gawaine Tottelton*, fol. 8.

II. *Gram.:* That part of speech which predicates or asserts something in regard to something else (the subject or thing spoken of): as, The man *lives*, the boy *threw* a stone,

the man *thinks*. Verbs affirm action or existence of a subject under certain conditions or relations called voice, mood, and tense. (See these words.) Verbs may be classified into: (1) Transitive, requiring an object, as, He *learns* his lesson; and (2) Intransitive, as, He *runs*. [Active, Passive, Transitive, Intransitive.] Transitive verbs include reflexive verbs. [Reflexive.] Some transitive verbs are reflexive in meaning though not in form, and appear, at first sight, as if used intransitively; as, He *keeps* out of danger, *i.e.*, He *keeps himself*, &c. Sometimes a transitive verb has a passive sense with an active form; as, The cakes *ate* short and crisp. Some verbs are sometimes transitive and sometimes intransitive; as, He *floats* a scheme, The body *floats*. Only transitive verbs have a passive voice. Some intransitive verbs, by means of a preposition, become transitive, and may be used passively; as, He *laughed at* the act, The act *was laughed at* by him. Intransitive verbs include a large number that might be classed as frequentative, diminutive, inceptive, desiderative, &c. Some intransitive verbs have a causative meaning, and take an object: I *run*, I *ran* a pin into my finger. Intransitive verbs may take a noun of kindred meaning as object (called the cognate object); as, To *sleep* a sleep, to *run* a race, to *live* a life. Verbs used with the third person only are called impersonal verbs; as, *Methinks*, it *rains*, it *snows*. In the case of some verbs, the transitive form is distinguished from the corresponding intransitive by a change of vowel; as, *raise, rise; set, sit; fell, fall*. Such verbs are called causative (q.v.). The past tense of strong verbs is expressed by a change of vowel only; as, *throw, threw*; the past tense of weak verbs by adding to the verbal root the syllable *ed*; as, *shout, shouted, love, loved*, or its euphonic substitute *d* (*ed*). [Strong, Weak.] In Middle English there were also negative forms of verbs; as, *nam* = *ne am* = am not; *nis* = *ne is* = is not; *not* = *ne wot* = not, (know) not, &c. Auxiliary verbs are used in forming the tenses of other verbs: as, I *have* seen. [Auxiliary.]

"You have told me that a *verb* is (as every word also must be) a noun; but you added, that it is also something more; and that the title of *verb* was given to it on account of that distinguishing something more than the mere nouns convey."—*Tooke: Diversions of Purley*, pt. ii., ch. viii

vŏr′ bal, ***vŏr′ ball,** *a. & s.* [Fr. *verbal*, from Lat. *verbalis* = pertaining to a word, from *verbum* = a word, a verb; Sp. & Port. *verbal*; Ital. *verbale*.]

vĕr bār′ ĭ um, *s.* A game the object of which is the formation of words; either of the greatest possible number of words from the letters of a given one, or of one word from its own letters entangled in some way.

vĕr bā′ sē æ, *s. pl.* [Mod. Lat. *verbasc(um)*; Lat. fem. pl. adj. suff. *-eæ*.]

Bot.: A tribe of Antirrhinideæ. Leaves alternate; inflorescence centripetal; corolla rotate; stamens five, declinate, unequal.

vĕr′ bas cŭm, *s.* [Lat. = mullein. See def.]

Bot.: Mullein, the typical genus of Verbascee (q.v.). Tall, erect, tomentose or woolly plants, usually biennial. Leaves alternate; inflorescence in racemes; calyx five-partite; corolla rotate or regular; stamens five, the three upper ones or all five hairy; capsule of two cells and two valves, septicidal; seeds many. Known species about eighty, chiefly from Europe and Asia. Five are common, *Verbascum Thapsus*, the Great; *V. Lychnitis*, the White; *V. pulverulentum*, the Yellow Hoary; *V. nigrum*, the Dark; and *V. Blattaria*, the Moth Mullein. The first has a nearly simple stem, angular, winged, and four or five feet high, the spike is cylindrical, the flowers handsome golden-yellow. It is found on banks, in waste grounds, on a light sandy, gravelly, or chalky soil, but is local. The second species has many rather small cream-coloured flowers. The third has the leaves covered with a mealy down, the fourth has stellately pubescent inflorescence, and the fifth has nearly glabrous leaves, the hairs of its filaments purple. *V. virgatum*, once believed to be distinct, is made by Sir J. Hooker a sub species of *V. Blattaria*. The flowers of the Great Mullein, when dried in the sun, give out a fatty matter, used in Alsace as a cataplasm in haemorrhoids. Its root is administered in India as a febrifuge. The seeds of *V. Thapsus* and *V. nigrum* are used by British poachers to poison fish, and the flowers of *V. Lychnitis* to destroy mice.

vĕr bā′ tĭm, *adv.* [Lat.]

1. Word for word; in the identical words.

"He would *verbatim* repeat the whole without books."—*Holinshed: Chron.* (Epis. Ded.)

Shakesp.: 1 Henry VI., iii. 1.

¶ *Verbatim et literatim:* [Literatim].

vĕr bē′ na, *s.* [Lat. *verbena* = sacred boughs; *verbenca* = vervain.]

Bot.: Vervain; the typical genus of Verbenacee (q.v.). Herbs or undershrubs with four-sided stems, opposite or ternate leaves, simple, pinnatifid, or three-partite. Flowers in terminal spikes or racemes. Calyx tubular, the limb with five teeth, one usually shorter than the rest. Corolla tubular, the limb not quite regular, five-cleft. Stamens included, four didynamous, rarely two. Ovary with four cells, each one-seeded. Capsule dividing into four one-seeded achenes. Known species seventy, chiefly from America. Many of the species are notable for their beauty, they having under cultivation given rise to numerous varieties greatly admired for the brilliant colors of their flowers. The Lemon-scented Verbena is *Aloysia citriodora*, a member of the same natural order, but the Oil of Verbena of the perfumes is derived from the Lemon-grass. The Vervain, or Vervein (*V. officinalis*), was formerly believed to be beneficial medicinally, but its virtues seem to have been imaginary

vĕr be nā′ cē æ, *s. pl.* [Mod. Lat. *verben(a)*; Lat. fem. pl. adj. suff. *-aceæ*.]

Bot.: Verbenes; an order of Perigynous Exogens, alliance Echiales. Trees, shrubs, or herbs. Leaves generally opposite, simple or compound, without stipules. Flowers in opposite corymbs, or spiked alternately, or in dense heads, or rarely axillary and solitary. Calyx tubular, persistent, inferior. Corolla hypogynous, monopetalous, tubular, deciduous, the limb generally irregular. Stamens generally four, didynamous, or of equal length, rarely two. Style one; stigma bifid or undivided; ovary two or four celled; fruit nucamentaceous or berried, composed of two or four nucules in a state of adhesion. Closely akin to Labiatæ, but the ovary is not four-lobed, nor is there the aromatic smell. The species are found chiefly in the tropics, and in South America beyond them. In hot countries they are generally shrubs or trees, in temperate climates they are mostly herbs. Known genera forty-five, species 633 (*Lindley*); genera forty, species 550 (*Sir J. Hoo. er*).

vernal-equinox, *s.* [Equinox.]

vernal grass, *s.*

Bot.: *Anthoxanthum odoratum*, a native of the northern part of the world generally. It is one of the earliest grasses, and possesses a highly aromatic smell and taste. As a pasture grass it takes only low rank, and when it predominates in a pasture it is left uneaten by stock; at the same time its aromatic qualities may have some wholesome medicinal value. Seed merchants have used the seeds of *Anthoxanthum puelli*, which is not a native of Great Britain, as a substitute for the seeds of this more valuable species; since, as in the case of all annual grasses, they are more easily procured. Called also Sweet-scented Vernal-grass.

vernal signs, *s. pl.* The signs in which the sun appears in the spring.

vernal whitlow grass, *s.*

Bot.: The genus Erophila (q.v.).

***vẽr′ nant,** *a.* [Lat. *vernans*, pr. par. of *verno* = to flourish, from *ver* = spring.] Flourishing in the spring; vernal.

"The spring
Perpetual smil'd on earth, with *vernant* flow'rs."
Milton: P. L., x. 618.

***vẽr′ nāte,** *v.i.* [Lat. *vernatum*, sup. of *verno* = to flourish.] [VERNANT.] To be vernant; to flourish.

vẽr nā′ tion, *s.* [VERNATE.]

Bot.: The manner in which the young leaves are arranged within the leaf-bud. It is of great practical importance for distinguishing species, genera, and even natural orders. Thus the vernation of the Cherry is conduplicate, that of *Prunus domestica* convolute, and that of Ferns and Cycadaceæ circinate. Called also Prefoliation.

vẽr′ nĭ cle, *s.* [VERONICA.] A copy of the handkerchief of St. Veronica, said to have been miraculously impressed with the features of Our Lord. It was worn as a sign by pilgrims to Rome.

"A *vernicle* hadde he sewed upon his cappe."
Chaucer: C. T., 888. (Prol.)

vẽr′ nĭ cose, *a.* [Low Lat. *vernix*, genit. *vernicis* = varnish.]

Bot.: Covered with a natural varnish.

vèr′ nĭ ẽr, *s.* [Named after the inventor, Pelar Vernier, of Brussels, who described it in a tract printed in 1631.] A contrivance for measuring fractional portions of one of the equal spaces into which a scale or limb, or a graduated instrument is divided. The vernier consists of a graduated scale, so arranged as to cover an exact number of spaces on the primary scale, or limb, to which it is applied. The vernier is divided into a number of equal parts, greater or less by 1, than the number of spaces which it covers on the limb. That applied to the barometer will illustrate its principle, *a* representing the mercurial column, *b* the vernier, and *c* the barometer-scale, divided into inches and tenths. The vernier-scale is $1\frac{1}{10}$ inches in length, and is divided into ten equal parts, each embracing $\frac{1}{10}$ of an inch, and therefore exceeding each division of the scale by $\frac{1}{100}$ of an inch. If, therefore, any division of the vernier coincide with a division on the scale, that division, counting downward, when the 0 of the vernier coincides with the top of the mercurial column, indicates the number of hundredths of an inch to be added to the tenths division on the scale next above which the 0 of the vernier stands.

VERNIER.

vernier compass, *s.* A [COMPASS] compass whose compass-circle is fitted with a vernier attachment.

vernier transit, *s.* A transit having a vernier attachment to the compass. [TRANSIT, *s.*, II. 3.]

***vẽr′ nile,** *a.* [Lat. *vernilis*, from *verna* = a slave.] Suiting or characteristic of a slave; servile, slavish.

***vẽr nĭl′ ĭ tў,** *s.* [Lat. *vernilitas*, from *vernilis* = vernile (q.v.).] Servility; fawning behaviour, like that of a slave.

***ver nish,** *v.t. & i.* [VARNISH.]

vẽr nō′ nĭ ą, *s.* [Named after William Vernon, a botanical traveller in North America.]

Bot.: A large genus of Heterocarpeæ, the typical one of Vernoniaceæ. Style cylindrical, with tapering branches, everywhere covered with bristles. More than 400 species are known, chiefly from the hotter parts of the western hemisphere. The seeds of *Vernonia anthelmintica* (= *Serratula anthelmintica* of Roxburgh), a plant found in the Himalayas and some other parts of India, yield an oil. The seeds themselves are a valuable tonic and stomachic, and are said to be diuretic. They are used as an anthelmintic, and bruised and mixed with lime-juice to destroy pediculi. The Hindoos consider them of great use in white leprosy and other skin diseases. A decoction of *V. cinerea*, another Indian species, is used in India to promote perspiration.

vẽr nō nĭ ā′ cē æ, *s. pl.* [Mod. Lat. *vernonia*; Lat. fem. pl. adj. suff. *-aceæ.*]

Bot.: A tribe of Tubulifloræ. Style cylindrical, its arms generally long and subulate, occasionally short and blunt, wholly covered with bristles. Sub-tribes: Elvirieæ, Heterocomeæ, Lychnophoreæ, Eremieæ, Eupatoreæ, Liabeæ, and Pectideæ.

Vẽ rō′ ną, *s.* [See def.] A city and province in the north of Italy.

Verona serge, *s.* A thin fabric of various colours made of worsted and cotton, and sometimes of mohair and cotton.

Vẽr ō′ nēṣe′, *a. & s.* [See def.]

A. *As adj.:* Of or pertaining to Verona.

B. *As subst.:* A native or inhabitant of Verona, as a plural, the inhabitants of Verona collectively.

Vẽ rŏn′ i ca, ***Ver one′ i ke,** *s.* [See def.]

I. *Ordinary Language*

1. The traditional name of the woman who was cured of an issue of blood (Mark v. 25-34), originally given as Berenice, or Bernice. The name Veronica soon came to be popularly explained as equivalent to the words *vera icon* [illegible] and hence to the [illegible] that St. Veronica was a holy woman who wiped the perspiration from the face of the Saviour, when toiling to Calvary, upon the sudarium which she carried, and which immediately received an impression of his features. A relic, purporting to be this very napkin, is still preserved in St. Peter's at Rome. Copies of the portrait were called Veronicæ, or Veronicles, whence the English vernicle (q.v.).

2. A copy of the portrait or impression of Our Lord's features imprinted on the sudarium of St. Veronica, a vernicle.

II. *Bot.:* Speedwell; the typical genus of Veroniceæ. Herbs or shrubs, generally with opposite, sometimes with whorled, leaves; calyx four to five partite; corolla rotate, four cleft, the lowest segment the narrowest; stamens two; capsule two-celled. Known species about 100, from the north temperate zone and from Australia and New Zealand. Some of them grow in wet ditches and marshes, some only on the driest soil. They have usually very beautiful flowers, blue, white, or pink in color, and a number of the species are widely cultivated in flower-gardens. *V. virginica*, a common species in the United States, is called Culver's Physic. It has actively diuretic qualities, and a decoction of the fresh root is violently cathartic and emetic. The [illegible] New Zealand have received much [illegible] species, peculiar but ornamental in appearance, which have been introduced into gardens. There are many European species. One of the finest is *Veronica Chamædrys*, frequent in May and June in woods, pastures, and on hedge banks. Its stem has the soft hairs disposed on two opposite lines, changing their position above each joint; the leaves are wrinkled, the corolla very bright blue. *V. officinalis*, a pubescent plant, with a procumbent stem, ovate-acuminate leaves, and spicate racemes, is abundant in woods and pastures; its bitter and astringent leaves infused make a kind of tea, which has been used medicinally. They are employed in Sweden and elsewhere for this purpose, as are also the leaves of the [illegible] and [illegible] of New Zealand are cultivated, and prove hardy in gardens.

vẽr ō nĭ′ ē æ, *s. pl.* [Mod. Lat. *veronica*; Lat. fem. pl. adj. suff. *-eæ.*]

Bot.: A [illegible] tribe of Scrophulariaceæ. Leaves opposite, centripetal; leaves opposite; corolla almost regular; stamens two diverging. (*Sir J. Hooker.*)

* **vĕr′-sĭ-cŏl-ŏr,** * **vĕr′-sĭ-cŏl-ored,** *a.* [Lat. *versicolor*, from *versus* = turned, and *color* = color.] Having variable colors; changeable in color.

"Neate gardens full of exotick, *versicolour*, diversely varied, sweet smelling flowers."—*Burton: Anat. Melancholy*, p. 283.

* **vĕr-sĭc′-ụ-lar,** *a.* [Lat. *versiculus* = a versicle (q.v.).] Of or pertaining to verses; denoting distinct divisions of a writing.

vĕr-sĭ-fĭ-cā′-tion, *s.* [Fr., from Lat. *versificationem*, accus. of *versificatio*, from *versificatus*, pa. par. of *versifico* = to versify (q.v.).]

1. The act, art, or practice of versifying or composing poetic verse; metrical composition.

"The order of writing an history there withal, presently came down as one would say from the stately chariot of *versification* to prose, and went afoot."—*P. Holland: Plutarch*, p. 977.

2. The construction of poetry; the formation, style, or measure of verse or poetry.

"What can be said of his *versification* will be little more than a dilatation of the praise given it by Pope."—*Johnson: Life of Dryden.*

* **vĕr′-sĭ-fĭ-cāt-ŏr,** *s.* [Lat., from *versificatus*, pa. par. of *versifico* = to versify (q.v.).] A writer of verses; a versifier.

"Statius, the best *versificator* next to Virgil."—*Dryden: Juvenal.* (Ded.)

* **vĕr′-sĭ-fĭ-cā-trĭx,** *s.* [Lat.] A female versifier.

vĕr′-sĭ-fī-ẽr, * **ver-ci-fi-er,** * **ver-si-fi-our,** * **ver-si-fy-er,** *s.* [Eng. *versify*; *-er.*]

1. One who writes or composes verses.

"Sandys, the best *versifier* of the former age."—*Dryden: Palamon & Arcite.* (Pref.)

2. One who converts into verse, or who expresses in verse the ideas of another written in prose: as, Tait and Brady were *versifiers* of the Psalms.

* **vĕr′-sĭ-form,** *a.* [Lat. *versiformis*, from *versus* = turned, and *forma* = form.] Varied in form, changing form.

vĕr′-sĭ-fў, * **ver-si-fie,** *v.i.* & *t.* [Fr. *versifier*, from Lat. *versifico*, from *versus* = a verse, and *facio* = to make.]

A. *Intrans.:* To make verses; to write verses.

"They that make verses expressynge therby none other lernynge but the craft of *versifienge* be not of auncient writers named poetes, but only called versifyers."—*Elyot: Governour*, bk. i., ch. xiii.

B. *Transitive:*

1. To relate or describe in verse; to treat as the subject of verse.

"I *versify* the truth, not poetize."
Daniel: Civil Wars, i.

2. To turn or convert into verse: as, To *versify* the Psalms.

* **vĕrs′-ĭng,** *s.* [Eng. *vers(e)*; *-ing.*] The act of writing verse; versification.

"Prosing or *versing*, but chiefly this latter."—*Milton.* (*Annandale.*)

vĕr′-sion, *s.* [Fr., from Low Lat. *versionem*, accus. of *versio* = a turning, from Lat. *versus*, pa. par. of *verto* = to turn; Sp. *version*; Ital. *versione.*]

I. *Ordinary Language:*

* **1.** The act of turning; the state of being turned; change, transformation, conversion.

"These bodies are mutually convertible into one another (and as to the *version* of water into earth, by a seemingly slight operation)."—*Boyle: Works*, iii. 106.

* **2.** A turning round or about.

"The first was called the strophe, from the *version* or circular motion of the singers."—*Congreve: Disc. on Pindaric Ode.*

* **3.** Change of direction; direction.

"That is, what kinde of comet, for magnitude, colour, *version* of the beames, placing in the region of heaven, or lasting, produceth what kinde of effects."—*Bacon: Essays; Of Vicissitude.*

* **4.** The act of translating or rendering from one language into another; translation.

5. A translation; that which is translated or rendered from one language into another. [REVISED-VERSION.]

6. A statement, account, or description of incidents or proceedings from some particular point of view: as, He gave quite another *version* of the affair.

7. A school exercise consisting of a translation of one language, generally one's vernacular, into another.

II. *Obstetrics:* The operation of bringing down the feet, or some part of the lower extremities of the child, when its presentation is such as to preclude delivery in the ordinary manner.

vĕr′-sion-ĭst, *s.* [Eng. *version*; *-ist.*]

1. One who makes a version; a translator.

"Renderings of the first verses of the first and twenty-third Psalms respectively by 123 different *versionists*."—*St. James's Gazette*, March 17, 1888.

2. One who favours a certain version or translation

vĕrst, *s.* [Russ. *versta.*] A Russian measure of length, containing 1,166⅔ English yards or 3,500 English feet; hence, equal to about two-thirds of an English mile.

vĕr'-sŭs, *prep.* [Lat. = turned in the direction of, toward; prop. pa. par. of *verto* = to turn.] Against; chiefly used in legal language: as, John Doe *versus* Richard Roe, and generally abbreviated to *v.*

***vĕr'-sūte,** *a.* [Lat. *versutus*, from *versus*, pa. par. of *verto* = to turn.] Crafty, wily.

"A person of *versute* and vertiginous policy."—*Gauden: Tears of the Church*, p. 132.

vĕrt (1), *s.* [An abbrev. of *pervert* or *convert*, s. (q.v.).] A pervert or convert. (*Colloq.*)

"Old friends call me a pervert; new acquaintance a convert; the other day I was addressed as a *vert*."—*Experiences of a Vert*, in *Union Review*, May, 1864.

vĕrt (2), ***vĕrd,** *s.* [O. Fr. *verd*; Fr. *vert* = green, from Lat. *viridem*, accus. of *viridis* = green, from *vireo* = to be green.]

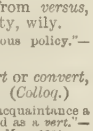
* 1. *Forest Law:*

(1) Everything within a forest that grows and bears a green leaf, which may serve as a covert for deer, but especially great and thick coverts.

"Of the forest officers by whom the laws had to be administered, and of the *vert* and venison which it was their special duty to protect."—*Field*, Feb. 4, 1888.

(2) Power or liberty to cut green trees or wood.

2. *Her.:* A green colour; in coats of nobility it is called Emerald, and in those of princes Venus. It is expressed in engraving by diagonal lines, drawn from dexter chief to the sinister base.



VERT.

"Between three plates, a chevron engrailed checquy, or, *vert*, and ermine."—*Ben Jonson: Every Man out of his Humour*, iii. 1.

vĕrt, *v.i.* [Vert (1), *s.*] To change one's religion; specif., to leave the Church of England for the Roman Communion, or *vice versâ*.

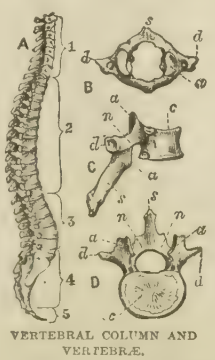
"As a man he is welcome to *vert* and re-*vert* as often as he pleases."—*Echo*, March 17, 1888.

vĕr'-tant, *a.* [Fr.]

Her.: The same as Flected and Reflected—*i.e.*, formed like the letter S reverted.

vĕr'-tē-brą (pl. **vĕr'-tē-bræ**), ***vĕr'-tē-bre (bre** as **bĕr),** *s.* [Lat. = a joint, a vertebra, from *verto* = to turn; Fr. *vertèbre*; Sp., Port., & Ital. *vertebra.*]

Compar. Anat.: One of the bony segments of which the spine, or backbone, consists. Theoretically, a typical vertebra consists of a central piece or body, from which two arches are given off, one (the neural), protecting the nervous system, the other (the hæmal) protecting the organs of circulation, and thus corresponding to the doubly tubular structure of the body of the Vertebrata (See illustration under Vertebrata.) In practice the second arch is only recognizable with difficulty, the parts being either absent or much modified, but a good example may be seen in the human thorax. The fundamental element of each vertebra is the body or centrum (*c*), from the surface of which spring two bony arches (*n n*), called the neural arches, or neurapophyses, because they form with the body the neural canal, which encloses the spinal cord. From the point of junction there is usually developed a spine, called the spinous process, or neural spine (*s*), rudimentary in the atlas or first cervical vertebra. From the neural arches are also developed the articular process or zygapophyses (*a a*), which aid the centra in uniting the vertebræ to each other. From the sides of the body proceed the transverse processes (*d d*). The number of vertebræ varies greatly in different animals. The vertebral column is divisible into distinct regions, of which the following are recognizable in the higher Vertebrata: The cervical vertebræ (seven in man), composing the neck (1); the dorsal (twelve in man), usually carrying well-developed ribs (2); the lumbar (five in man) (3). These form the cervical, dorsal, and lumbar regions respectively, and are sometimes called True Vertebræ, to distinguish them from the False Vertebræ, which consist of those in the sacral region usually anchylosed to form a single bone, the *os sacrum* (4), and a variable number of vertebræ forming the caudal region or tail (5). The spaces between the vertebræ are filled with an elastic substance, admitting of an amount of motion, which, though slight between each pair, is in the aggregate sufficient to give the spinal column considerable flexibility. The vertebræ and their projections or processes afford attachments for a number of muscles and ligaments, and passages for blood-vessels and for the nerves passing out of the spinal cord.



VERTEBRAL COLUMN AND VERTEBRÆ.

A. Side view of Human Vertebral Column; B. First Cervical Vertebra or Atlas; C. Side view of Dorsal Vertebra; D. Lumbar Vertebra. (For other references see text.)

vĕr'-tē-brąl, *a.* & *s.* [Eng. *vertebr(a)*; *-al.*]

A. *As adjective:*

1. Of or pertaining to the vertebræ or joints of the spine.

"The carotid, *vertebral* and splenick arteries."—*Ray: On the Creation.*

2. Having a backbone or spinal joints; vertebrate.

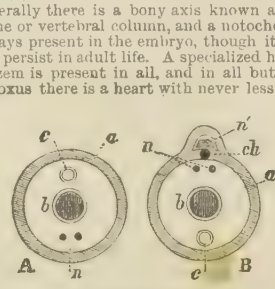
* **B.** *As subst.:* An animal belonging to the division Vertebrata (q.v.); a vertebrate.

vertebral-column, *s.*

Comp. Anat.: The spine. [Vertebra.]

vĕr-tē-brā'-tą, *s. pl.* [Neut. pl. of Lat. *vertebratus* = jointed, vertebrated.]

Zool.: A division of the Animal Kingdom, instituted by Lamarck, comprising animals in which the body is composed of a number of definite segments [Vertebra], arranged along a longitudinal axis; the nervous system is in its main masses dorsal, and the neural and hæmal regions of the body are always completely separated by a partition; the limbs are never more than four in number; generally there is a bony axis known as the spine or vertebral column, and a notochord is always present in the embryo, though it may not persist in adult life. A specialized hæmal system is present in all, and in all but Amphioxus there is a heart with never less than two chambers, and in the higher vertebrates with four. The Vertebrata are usually divided into five classes: Pisces, Amphibia, Reptilia, Aves, and Mammalia, and many attempts have been made to gather these classes into groups. One plan is to divide them into Branchiata (Fishes and Amphibians), because at some portion of their life they are provided with gills, and Abranchiata (Reptiles, Birds, and Mammals), having no gills. The latter are sometimes called Amniota or Allantoidea, because the embryo is provided with an amnion and an allantois, while both these are absent in the Branchiata, which are therefore called Anamniota or Anallantoidea. Owen made two sections: Hæmatocrya, or Cold-blooded Vertebrates (Fishes, Amphibia, and Reptiles), and Hæmatotherma, or Warm-blooded Vertebrates (Birds and Mammals; and Huxley three: Ichthyopsida (Fishes and Amphibia), Sauropsida (Reptiles and Birds), and Mammalia. A later classification is to treat all the Vertebrata as a division of a larger group, Chordata, distinguished by (1) the temporary or permanent possession of a rod (the notochord) underlying the central dorsally-placed nervous system; and (2) the temporary or permanent presence of visceral clefts (q.v.). The Chordata are divided into three groups: (1) Cephalochordata, in which the notochord, pointed at the extremities, extends from one end of the body to the other; (2) Urochordata (q.v.), and (3) the true Vertebrata, or Craniata, in which the anterior end of the central nervous system is enlarged into a brain, which becomes surrounded and protected by a cartilaginous capsule or skull.



TRANSVERSE SECTION

A. Of body of one of the higher Invertebrata: *a.* Body-wall; *b.* Alimentary canal; *c.* Hæmal system; *n.* Nervous system; B. Of a Vertebrate animal: *a. b. c.* as before; *n.* Sympathetic system of nerves; *n'.* Cerebro-spinal system of nerves; *ch.* Notochord.

vĕr'-tē-brāt-ĕd, *a.* [Eng. *vertebrat(e)*; *-ed.*] The same as Vertebrate (q.v.).

***vĕr'-tē-bre (bre** as **bĕr),** *s.* [Vertebra.]

vĕr'-tĕx (pl. **vĕr'-tĭ-çēş** (Lat.), **vĕr'-tĕx-ĕş** (Eng.), *s.* [Lat. = the top, prop. = the turning-point, and especially the pole of the sky, the zenith; from *verto* = to turn. *Vertex* and *vortex* are doublets.]

* **I.** *Ord. Lang.:* A turning-point; the principal or highest point; the top, the summit, the apex. Applied specifically to—

(1) The zenith or point of the heavens directly overhead.

"These keep the *vertex*: but betwixt the bear
And shining zodiack, where the planets err,
A thousand figured constellations roll."
Creech: Lucretius.

(2) The top or crown of the head.

(3) The summit or top of a hill, or the like.

"Mountains especially abound with different species of vegetables; every *vertex* or eminence affording new kinds."—*Derham: Physico-Theology.*

II. *Math.:* The point in any figure opposite to and most distant from its base.

¶ (1) *Vertex of a curve:* The point from which the diameter is drawn or the intersection of the diameter and the curve. In the parabola, the principal vertex is the vertex of the axis of the curve; in the ellipse, the left-hand, and in the hyperbola, the right-hand vertex of the transverse axis.

(2) *Vertex of an angle:* The point at which the two lines meet to form the angle.

vĕr'-tĭ-cąl, ***vĕr'-tĭ-call,** *a.* & *s.* [Fr. *vertical*; from Lat. *verticalis*, from *vertex*, genit. *verticis* = a vertex.]

A. *As adjective:*

I. *Ordinary Language:*

1. *Literally:*

(1) Pertaining or relating to the vertex; situated at the vertex, apex, or highest point; placed in the zenith or point in the heavens directly overhead.

"'Tis raging noon; and, *vertical*, the sun
Darts on the head direct his forceful rays."
Thomson: Summer, 432.

(2) Being in a position perpendicular to the plane of the horizon; placed or acting perpendicularly, or in an upright position or directly upright; plumb.

"The compound motion of the lower jaw, half lateral, and half *vertical*."—*Paley: Natural Theology*, ch. ix.

* 2. *Fig.:* At the highest point or zenith; occupying the highest place.

"He was *vertical* in the esteem of the soldiery."—*Fuller: Worthies; Herefordshire.*

II. *Bot.:* Placed in a direction from the base to the apex. All dissepiments are vertical.

B. *As subst.:* A vertical circle, plane, or line.

"The direction of a *vertical* is normal to the surface of a free fluid."—*Davies & Peck: Math. Dict.*

¶ *Prime-vertical:*

Astron.: That vertical circle which is at right angles to the plane of the meridian, and which passes through the zenith and the east and west points of the horizon.

vertical-angles, *s. pl.*

Geom.: Opposite angles (q.v.).

vertical-anthers, *s. pl.*

Bot.: Anthers which are at the upper extremities of the filaments, and being inserted by their base point upward.

vertical-circle, *s.*

Astron.: A great circle passing through the zenith and the nadir. The meridian of any place is a vertical circle.

vertical-dial, *s.* [DIAL, *s.*, I. 3.]

vertical-escapement, *s.*

Horol.: An old form of escapement in watches, in which the axis of the scape-wheel is at right-angles to that of the verge, thus making its plane of revolution vertical, the plane of oscillation of the balance being assumed to be horizontal.

vertical-fins, *s. pl.*

Ichthy.: Fins situated in the median dorsal line from the head to the tail, and in the ventral line of the tail. Sometimes the vertical fins are continuous, or nearly so, but usually three vertical fins are distinguished—one in the dorsal line (the dorsal fin), one in the ventral line behind the anus (the anal fin), and one confined to the extremity of the tail (the caudal fin), called also Unpaired Fins.

vertical-leaves, *s. pl.*

Bot.: Leaves which present one of their edges directly upwards, so that neither side can be called upper or lower.

vertical line, *s.*

Surv.: A perpendicular line; a line perpendicular to the plane of the horizon. [VERTICAL, B.]

vertical-plane, *s.*

1. [PLANE, ¶ 6.]

2. *Conic sections:* A plane passing through the vertex of a cone and through its axis.

vertical steam-engine, *s.* A form of steam-engine in which the piston reciprocates vertically, as distinguished from the horizontal, inclined, or rotary. [STEAM-ENGINE.]

vertical-strata, *s. pl.*

Geol.: Strata dipping at an angle of 90°. They constitute one side of a large basin or trough. Example, the strata at Alum Bay in the Isle of Wight.

***vĕr-tĭ-căl'-ĭ-tȳ,** *s.* [Eng. *vertical; -ity.*] The quality or state of being vertical or in the zenith.

"Unto them the sun is vertical twice a year; making two distinct summers in the different points of the *vertically.*"—*Browne: Vulgar Errours,* bk. vi., ch. xi.

vĕr'-tĭ-cal-lȳ, *adv.* [Eng. *vertical; -ly.*] In a vertical manner, position, or direction in the zenith; perpendicularly.

"[The sun] . . . *vertically* passeth over the habitations of Peru and Brazilia."—*Browne: Vulgar Errours,* bk. vi., ch. x.

vertically-compressed, *s.*

Bot.: The same as DEPRESSED.

*** vĕr-tĭ-cal-nĕss,** *s.* [Eng. *vertical; -ness.*] The quality or state of being vertical.

vŏr'-tĭ-çĭl, vĕr'-tĭ-çĕl, *s.* [VERTICILLUS.]

Bot.: A term applied (1) to leaves when they stand around the stem in a circle, or when more than two of them are opposite; (2) to flowers when two verticillasters are united; (3) more rarely to branches when several spring from the stem at the same height. The use of the word was introduced by Linnæus. Link used the expression Spurious Verticil or False Whorl.

vĕr-tĭ-çĭl-lär'-ĭ-ą, *s.* [Formed from Mod. Lat. *verticillus* (q.v.).]

Bot.: A genus of Clusieæ, containing one species, *Verticillaria acuminata,* a Peruvian tree with acuminate leaves, two coloured sepals, and many stamens, and a three-valved capsular fruit.

vĕr-tĭ-çĭl-lās'-tĕr, *s.* [Mod. Lat. *verticillus,* and Lat. *aster* = a star.]

Bot.: Hoffmansegg's name for a cyme reduced to a very few flowers. This is the normal inflorescence in the Lamiaceæ, in the species of which two verticillasters are situated opposite to each other in the axils of opposite leaves.

*** vĕr-tĭ-çĭl-lā'-tæ,** *s. pl.* [Fem. pl. of Mod. Lat. *verticillatus* = verticillate.]

Bot.: The fifty-eighth order of plants in Linnæus's Natural System. It corresponded to the modern Labiatæ.

vĕr-tĭ-çĭl'-late, vĕr-tĭç'-ĭl-lāt-ĕd, *a.* [VERTICILLATÆ.]

1. *Bot.:* Whorled (q.v.). Having leaves, flowers, or more rarely branches, arranged in verticils or whorls.

2. *Zool.:* Arranged like the spokes of a wheel.

vĕr-tĭ-çĭl'-lŭs, *s.* [Lat. = a spindle-whorl; dimin. from *vertex,* genit. *verticis* = a vertex (q.v.).]

Bot.: The same as VERTICIL (q.v.).

***vĕr-tĭç'-ĭ-tȳ,** *s.* [Fr. *verticité,* from Lat. *vertex,* genit. *verticis* = a vertex (q.v.).] The property or power of turning; rotation, revolution.

"It will appear endowed with a stronger and more durable *verticity.*"—*Boyle: Works,* iii. 313.

***vèr'-tĭ-cle,** *s.* [Lat. *verticulum,* dimin. from *vertex,* genit. *verticis* = a vertex (q.v.).] An axis, a hinge, a turning-point.

"The *verticle* is near, when admiration from abroad, and luxury at home, threaten our change."—*Waterhouse: Apology for Learning,* p. 51

vĕr'-tĭ-dĭne, *s.* [Etym. doubtful.]

Chem.: An organic base, said to exist in the tar of bituminous shale. It has not yet been isolated.

*** vĕr-tĭg'-ĭn-ŏŭs,** *a.* [Lat. *vertiginosus,* from *vertigo,* genit. *vertiginis* = vertigo (q.v.); Fr. *vertigineux;* Sp., Port., & Ital. *vertiginoso.*]

1. Turning round; revolving, rotary.

"This *vertiginous* motion gives day and night successively over the whole earth, and makes it habitable all around."—*Bentley.*

2. Of the nature of vertigo; affected with vertigo; dizzy, giddy.

"I was sicke before of a *vertiginous* giddiness and irresolution."—*Donne: Devotions,* p. 193.

3. Causing vertigo; apt to affect one with giddiness.

"The smells of meat and *vertiginous* drinkings."—*Bp. Taylor: Sermons,* vol. i., ser. 15.

4. Apt to turn or change; unstable, fickle, inconstant.

"Depending upon . . . the winds and tides of this *vertiginous* world."—*Barrow: Sermons,* vol. i., ser. 5.

*** vĕr-tĭg'-ĭn-ŏŭs-lȳ,** *adv.* [Eng. *vertiginous; -ly.*] In a vertiginous manner; with a whirling or giddiness.

"Go to! The smoothest, safest of you all . . . Will rock *vertiginously* in turn and reel."
Browning: Ring & Book, xi. 2,365.

*** vĕr-tĭg'-ĭn-ŏŭs-nĕss,** *s.* [Eng. *vertiginous; -ness.*] The quality or state of being vertiginous; a whirling, or sensation of whirling; giddiness, dizziness.

"The *vertiginousness* of our own brains."—*Barrow: Sermons,* vol. i., ser. 9.

vĕr'-tĭ-gō, vĕr-tī'-gō, *s.* [Lat., from *verto* = to turn.]

Pathol.: Giddiness; a feeling as if external objects whirled round, or as one had been whirling round, or were about to fall, which one tends to do unless he grasp something fixed or sit down. Sometimes there is staggering without any considerable sense of giddiness, and at others the exact reverse. The malady is most common in advanced life, and is sometimes the precursor of apoplexy or paralysis. The staggering of a drunken man is a form of vertigo produced by alcoholic poisoning; that of a patient on first attempting to rise after a long illness is caused by weakness. It is a common symptom of excessive or defective supply of blood to the brain, and also of derangement of the digestive organs. Except when there is obvious plethora of the system, tonic medicines are required.

*** vĕr-tĭ-lĭn'-ĕ-ar,** *a.* [Eng. *verti(cal),* and *linear.*] Straight, rectangular.

vĕr'-tū, vĭr'-tū, †vĕr-tû', †vĭr-tû', *s.* [Ital. *virtù, vertù,* for *virtute* = virtue, excellence, especially in a love of the fine arts, from Lat. *virtutem,* accus. of *virtus* = virtue (q.v.).] Artistic excellence; that quality which commends articles to the collectors of works of art; hence, works of art, antiquity, or curiosity collectively, especially such as are preserved in museums, private collections, or the like.

"I had thoughts in my chamber to place it in view,
To be shown to my friends as a piece of *virtu.*"
Goldsmith: The Haunch of Venison.

*** vĕr'-tue,** *s.* [VIRTUE.]

*** vĕr'-tu-gal,** *s.* [See def.] A doubtful word, probably the same as FARTHINGALE (q.v.), or Vardingale, as the author (see extract) is speaking of Sardanapalus, who was extremely effeminate and wore women's clothes.

"Amid his *vertugals* for ayde he drew
From his Lieuteuant, who did him pursew."
Hudson: Judith, v. 215.

*** ver-tu-les,** *a.* [VIRTUELESS.]

*** vĕr-tŭm'-nal,** *a.* [From Lat. *Vertumnus* = an Etruscan deity, the god of the changing year, from *verto* = to change.] A term of doubtful meaning. Davies (*Supp. Gloss.*) thinks Adams, having the first syllable (Lat. *ver* = spring) chiefly in his mind, uses the word as = spring.

"Her smiles are more reviving than the *vertumnal* sunshine."—*Adams: Works,* ii. 333.

*** vĕr'-tu-oŭs,** *a.* [VIRTUOUS.]

vĕr'-ų-coŭs, *a.* [VERRUCOSE.]

Vĕr-ų-lā'-mi-an, *a.* [Lat. *Verulamium,* the ancient name of St. Albans.] Of or pertaining to St. Albans, or to Francis Bacon, Lord Verulam.

"A temper well fitted for the reception of the *Verulamian* doctrine."—*Macaulay: Hist. Eng.,* ch. iii.

vĕr'-vāin, * var-vin, * ver-vaine, * ver-vine, ver-veyne, *s.* [Fr. *verveine,* from Lat. *verbena.*] [VERBENA.]

Bot.: The genus Verbena (q.v.), specially *V. officinalis.*

"She nightshade strows to work him ill,
Therewith the *vervain,* and the dill,
That hindreth witches of their will."
Drayton: Nymphidia.

vervain-mallow, *s.*

Bot.: Malva Alcea, a native of Germany.

vĕrve, *s.* [Fr.] Spirit; enthusiasm.

"Act with genuine *verve* and impulse."—*Daily Telegraph,* Sept. 14, 1885.

*** vĕr'-vel, * vĕr'-vaĭl,** *s.* [Fr. *vervelle.*] A label tied to a hawk, and containing the owner's name, &c.

"Free beauteous slave, thy happy feet
In silver fetters *vervails* meet."
Lovelace: Lucasta Posthuma; The Falcon.

vĕr'-vĕt, *s.* [Etym. doubtful.]

Zool.: Cercopithecus pygerythrus, a small monkey, from Senegal and surrounding districts. Prevailing tint greenish; head, throat, and breast light dun, paws dark.

vĕr'-ȳ, * ver-ai, * ver-ra, * ver-ray, * ver-rei, * ver-rey, * verye, *a. & adv.* [O. Fr. *verai, vray* (Fr. *vrai*), from a supposed Low Lat. *veracus,* from Lat. *verax,* genit. *veracis* = veracious (q.v.); cf. O. Fr. *ver, veir, voir* = true, from Lat. *verus;* Ger. *wahr* = true; Russ. *viera* = faith, belief.]

A. *As adjective:*

1. Veritable, real, true, actual.

"*Very* God of *very* God."—*Nicene Creed.*

* 2. True, exact, correct.

"These sothely (ben) the measures of the auter in a cubit most *verre.*"—*Wycliffe: Ezekiel* xliii. 13.

3. Used before substantives to denote—

(1) Exact conformity or identity with what is expressed.

"The *very* night before he went away."
Wordsworth: The Brothers.

(2) To indicate that the word is to be understood in its full and unrestricted sense.

"The sailors mutinied from *very* hunger."—*Macaulay: Hist. Eng.,* ch. ii.

(3) To give emphasis, intensity, or force generally. (Equivalent to the adverb *even.*)

"Thou away, the *very* birds are mute."
Shakesp.: Sonnet 97.

(4) Used as equivalent to alone, mere.

"Nothing but the *very* smell were left me."
Shakesp.: Venus & Adonis, 441.

(5) Used as equivalent to full, complete, perfect. (Frequently in the comparative, and more frequently in the superlative.)

"Thou hast the *veriest* shrew of all."
Shakesp.: Taming of the Shrew, v. 2.

B. *As adv.:* In a high degree; to a great extent; greatly, extremely, exceedingly.

"*Very* weak and faint." *Milton: Psalm* vi.

¶ Formerly used commonly to qualify past

participles: as, *very* altered; now seldom used without an interposed adverb expressive of degree: as, *very much* (or *little*) altered, *very greatly* astonished, *very highly* valued, &c.

"They were *very* frightened."—*G. W. Dasent: Tales from the Norse*, p. 499.

vĕ-sī′-cą, *s.* [Lat. = a bladder.]

Anat.: A bladder.

vesica-piscis, *s.* [Lit. = the fish's bladder.]

Eccles. Art: A term employed by some antiquarians to designate the elliptic aureole in which the Saviour is sometimes depicted. It is formed of two equal circles cutting each other in their centres. It was a very common symbol in the Middle Ages, and the term is supposed to have been derived from the sacred character of a fish as a symbol of Our Lord, the Greek word for fish, Ἰχθύς (*Ichthus*), containing in consecutive order the initials of the words Ἰησοῦς (*Iēsous*), Χριστὸς (*Christos*), Θεοῦ (*Theou*), Υἱός (*Huios*), Σωτήρ (*Sōtēr*) = Jesus Christ, the Son of God, the Saviour. The seals of abbeys, colleges, and other religious establishments were invariably made in this form.

FIGURE IN VESICA-PISCIS.

vĕs′-ĭc-ąl, *a.* [Lat. *vesica* = a bladder.]

Anat.: Of or pertaining to the bladder.

vesical-catarrh, *s.*

Pathol.: Chronic Cystitis (q.v.).

vesical-hæmorrhage, *s.*

Pathol.: Hæmorrhage from the bladder, a form of Hæmaturia (q.v.).

vĕs′-ĭ-cant, *s.* [Low Lat. *vesicans*, pr. par. of *vesico* = to blister, from Lat. *vesica* = a blister, a bladder.] A blistering agent; an epispastic, a vesicatory. The chief are Cantharides, Glacial Acetic-acid, &c.

vĕs′-ĭ-cāte, *v.t.* [Low Lat. *vesico*, from Lat. *vesica* = a blister, a bladder.] To raise vesicles, blisters, or little bladders on; to blister; to inflame and separate the cuticle of.

"Hasten revulsion by venæsection or *vesicatories*."—*Wiseman: Surgery*, bk. v., ch. i.

vĕs′-ĭ-cle, *s.* [Lat. *vesicula*, dimin. from *vesica* = a blister, a bladder; Fr. *vésicule*.]

1. *Anat.:* Any sac, cyst, or receptacle, like a little bladder. Used spec. of the umbilical and seminal vesicles.

2. *Botany:*

(1) A small cell or bladder. It is by an infinite number of such vessels that cellular tissue is built up. [GERMINAL-VESICLE, PRIMORDIAL-UTRICLE or VESSEL.]

(2) Any hollow excrescence like a bladder

Spec. (*a*) An inflation of the thallus of Algals filled with air, by which they are enabled to float; (*b*) A petiole dilated by air, which floats the leaves of a plant, as in *Trapa natans* and *Pontederia crassipes*. (*De Candolle.*)

3. *Pathol.:* A slight elevation of the epidermis containing a serous fluid, generally transparent, but occasionally opaque or seropurulent. [VESICULA.]

vĕs-ĭ-cō-, *pref.* [Lat. *vesica* = the urinary bladder.]

Anat., &c.: Pertaining to the bladder.

vesico-prostatic, *a.*

Anat.: Of or belonging to the prostate gland and the bladder: as, the *vesico-prostatic* artery.

vesico-uterine, *a.*

Anat.: Of or belonging to the uterus and the bladder: as, the *vesico-uterine* folds.

vesico-vaginal, *a.*

Surg., &c.: Of or belonging to the vagina and to the bladder: as, *vesico-vaginal* hernia.

vĕ-sĭc′-ų-la (pl. **vĕ-sĭc′-ų-læ**), *s.* [Lat. = a little vesicle, a blister.]

Pathol. (*Pl.*): An order of cutaneous diseases, characterized by the occurrence of vesicles. These may be globular, umbilicated, or acuminated. They arise on any part of the body, and resemble drops of water on the spots where they exist. The fluid in them may be absorbed, or it becomes effused, causing excoriation and small thin incrustations. The order contains three diseases: Sudamina, Herpes, and Eczema.

vĕs-ĭ cū′-læ-form, *a.* [Lat. *vesiculæ*, genit. of *vesicula*, and *forma* = form.] Having the form of a vesicle or vesicles.

vĕ-sĭc′-ų-lar, *a.* [Fr. *vésiculaire*, from Lat. *vesicula* = a vesicle (q.v.).] Pertaining to or consisting of vesicles; like a vesicle; bladdery, cellulose; full of interstices.

"Special accumulations of *vesicular* matter."—*Todd & Bowman: Physiol. Anat.*, i. 349.

vesicular-emphysema, *s.*

Pathol.: The enlargement of the air-cells of the lungs, followed by the perforation of their walls, so as to produce small oval openings, ultimately enlarging. Called also Pulmonary Emphysema.

vĕ-sĭc′-ų-late, *a.* [Lat. *vesicula* = a vesicle; Eng. adj. suff. *-ate.*] Full of vesicles or small bladders; vesicular.

vĕ-sĭc-ų-lĭf′-ĕr-ī, *s. pl.* [Lat. *vesicula* = a vesicle, and *fero* = to bear. Named from the small globose, transparent sac in which the spores are first enclosed.]

Bot.: The same as PHYSOMYCETES (q.v.).

* **vĕ-sĭc-ų-lō′-są,** *s. pl.* [Neut. pl. of Lat. *vesiculosus*.] [VESICULOSE.]

Entom.: A tribe of Diptera created by Latreille. It was equivalent to Leach's family Acroceridæ. There are two genera, Acrocera (= Syrphus, in part) and Henops (= Ogcodes), both composed of small insects, having the abdomen much swollen. Species few in number, chiefly exotic; found upon plants and amongst flowers.

vĕ-sĭc′-ų-lōse, vĕ-sĭc′-ų-loŭs, *a.* [Lat. *vesiculosus*, from *vesicula* = a vesicle (q.v.); Fr. *vésiculeux*.] Pertaining to or of the nature of vesicles; vesicular.

vĕs′-pą, *s.* [Lat. = a wasp.]

Entom.: Wasp: the type-genus of the family Vespidæ (q.v.), with numerous species, universally distributed. Abdomen broad; mandibles broad, oblique at tip and toothed; clypeus quadrate, truncate in front.

vĕs′-pĕr, *s.* & *a.* [Lat. = the evening, the evening star; *vespera* = even-tide; cogn. with Gr. ἑσπερος (*hesperos*) = evening (adj. & subst.); O. Fr. *vespre* (Fr. *vêpre*); *vespres* = even-song.]

A. *As substantive:*

1. The evening star; a name applied to the planet Venus when she is to the east of the sun and appears after sunset.

"*Vesper* fair Cynthia ushers, and her train."
P. Fletcher: Purple Island, v.

* 2. Hence, fig., evening.

"Thou hast seen these signs:
They are black *vesper's* pageants."
Shakesp.: Antony & Cleopatra, iv. 12.

3. *Ecclesiology* (*Pl.*):

(1) The time of evening service.

(2) The sixth hour of the Roman Breviary. When said or sung in public, vespers form the usual evening service of the Roman Church, approximately corresponding to the Evening Prayer of the Anglican. In the latter there is usually a sermon at vespers, which are generally followed by Benediction of the Sacrament.

B. *As adj.:* Pertaining or relating to the evening or to the service of vespers: as, a *vesper*-bell, a *vesper*-hymn, &c.

¶ *Sicilian Vespers:* [SICILIAN-VESPERS].

* **vĕs′-pĕr-ąl,** *a.* [Eng. *vesper*; *-al.*] Vesper, evening.

vĕs-pĕr-tĭl′-ĭ-ō, *s.* [Lat. = a bat, from *vesper* = evening.]

1. *Zool.:* The type-genus of Vespertiliones (q.v.), with forty-three species, ranging over the temperate and tropical regions of both hemispheres. Muzzle long; glandular prominences between the eyes small; nostrils opening by simple crescentic apertures; crown of the head vaulted; ears separate, oval, generally equalling and often exceeding the length of the head; tragus long, generally acute, and attenuated upwards; tail less than length of head and body; face hairy. Most of the species appear to live in woods; some, either habitually or occasionally, live in caves or under the roofs of houses. The position of attachment of the wings to the hinder extremities and the size of the foot appear to be connected with the nature of their dwellings; those which live in caves have larger feet, more or less free from the wing-membrane, while those living in woods have much smaller feet, enclosed in the wing-membrane to the base of the toes.

2. *Palæont.: Vespertilio parisiensis* appears in the Upper Eocene of Montmartre.

vĕs-pĕr-tĭl-ĭ-ō′-nēs, *s. pl.* [Pl. of Mod. Lat. *vespertilio* (q.v.).]

Zool.: A group of Vespertilionidæ, with eight genera, having the range of the family. Nostrils simple, opening by crescentic or circular apertures at the extremity of the muzzle; ears generally moderate; forehead not grooved.

vĕs-pĕr-tĭl-ĭ-ō′-nĭ-dæ, *s. pl.* [Mod. Lat. *vespertilio*, genit. *vespertilion(is)*; Lat. fem. pl. adj. suff. *-idæ.*]

1. *Zool.:* A family of Microchiroptera, with three groups (Plecoti, Vespertiliones, and Minioptera), generally distributed throughout the temperate and tropical regions of both hemispheres. They are easily distinguished from all other bats by their simple nostrils at the extremity of the conical, somewhat elongated muzzle, by the long tail produced to the hinder margin of the large interfemoral membrane, and by the upper incisor teeth, which are separated by a wide space, and placed near the canines. The eyes are minute, and the inner margins of the ears arise from the sides of the head, not from the forehead. (*Dobson.*)

2. *Palæont.:* From the Eocene Tertiary.

vĕs-pĕr-tĭl ĭ-ō′-nīne, *a.* [Mod. Lat. *vespertilio* (q.v.), genit. *vespertilion(is)*; Eng. adj. suff. *-ine.*] Of, belonging to, or resembling the genus Vespertilio or the family Vespertilionidæ (q.v.).

vespertilionine-alliance, *s.*

Zool.: The name given by Dobson to a division of his Microchiroptera. It consists of three families: Rhinolophidæ, Nycteridæ, and Vespertilionidæ.

vĕs′-pĕr-tīne, *a.* [Lat. *vespertinus*, from *vesper* = evening.]

* **I.** *Ordinary Language:*

1. Pertaining to the evening; happening or being in the evening.

"The stars, their matutine and *vespertine* motions, rise and fall."—*Sir T. Herbert: Travels.*

2. Late; hence, full, complete.

"That *vespertine* knowledge of the saints."—*Bp Hall: The best Bargaine.*

II. *Geol.:* The term applied to the thirteenth series of the Appalachian strata, equivalent to the lowest Carboniferous group of Europe. The maximum thickness in Pennsylvania exceeds 2,000 feet. (*Prof. H. D. Rogers: Geology of Pennsylvania.*)

vĕs-pĕr-ū'-gō, *s.* [Lat. = a bat, from *vesperus* = evening.]

Zool.: A genus of Vespertiliones, with twenty-two species, universally distributed, but more common in the temperate and subtropical regions of the eastern hemisphere. This genus has also the most northernly range of the Chiroptera, one species—*Vesperugo borealis*—having been found close to the limits of the Arctic Circle. The Bats of this genus are the Common Bats of all countries, and may be easily known by their comparatively thick bodies, flat, broad heads, and obtuse muzzles (the thickness of which is increased in front by the rounded glandular elevations), short, broad, and triangular obtusely-pointed ears, obtuse and slightly incurved tragus, short legs, and by the presence in most species of a well-developed post-calcaneal lobule, which probably acts as a kind of adhesive disc in securing the animal's grasp when climbing over smooth surfaces.

vĕs'-pĭ-a-rў, *s.* [Lat. *vespa* = a wasp.] A nest or habitation of wasps, hornets, &c.; a colony or community of such insects.

vĕs'-pĭ-dæ, *s. pl.* [Mod. Lat. *vesp(a)*; Lat. fem. pl. adj. suff. *-idæ.*]

Entom.: A family of Diploptera (having the anterior wings longitudinally duplicate), with thirteen genera and about 1,000 species, universally distributed. Head-shield nearly square; mandibles short, toothed at tips; antennæ twelve-jointed in females and neuters, an extra joint in those of the males.

* **vĕs'-pĭl-lō,** *s.* [Lat., from *vesper* = evening.]

Rom. Antiq.: One who carried out the dead in the evening for burial.

"By raking into the bowels of the deceased, continual sight of anatomies, skeletons, or cadaverous reliques, like *vespillones*, or grave diggers, I am (not) become stupid, nor have I forgot the apprehension of mortality."—*Browne: Religio Medici*, pt. i., § 38.

vĕs'-sęl, * ves-sell, * ves-selle, *s.* [O.Fr. *vaissel, veissel, vessel* (Fr. *vaisseau*), from Lat. *vascellum* = a small urn or vase; dimin. from *vas* = a vase (q.v.); Sp. *vasillo*; Ital. *vascillo, vasello.*]

I. *Ordinary Language:*

1. *Literally:*

(1) A utensil for holding liquids and other things, as a jug, a cup, a dish, a cask, a barrel, &c.

"The wise took oil in their *vessels* with their lamps."—*Matt.* xxv. 4.

(2) A ship or craft of any kind, but more particularly one larger than a mere boat.

"Like a weather-beaten *vessel* holds
Gladly the port, though shroud and tackle torn."
Milton: P. L., ii. 1,043.

2. *Fig.:* Anything conceived as formed for or capable of receiving and containing; hence, in Scriptural language, a person into whom anything is conceived as being poured or infused, or to whom something has been imparted; a receptacle; a recipient.

"*Vessels* of mercy . . . prepared unto glory."—*Rom.* ix. 22, 23.

II. *Technically (Pl.):*

1. *Anat.:* Any tube or canal in which the fluids of the body are contained, secreted, or circulated. Used of the arteries, the veins, and the lymphatics.

2. *Bot.* (Sometimes used in the Latin form *vasa*): Tubes occurring in the interior of plants, and serving for the conveyance of sap and air. They are of various kinds, as annular, barred and imperfectly barred, dotted, milk, punctated, reticulated, scalariform, spiral, tracheary, and transitory vessels.

¶ *The weaker vessel:* A term frequently applied to a woman, in allusion to 1 Peter iii. 7.

"I must comfort *the weaker vessel*, as doublet and hose ought to show itself courageous to petticoat."—*Shakesp.: As You Like It*, ii. 4.

* **vĕs'-sĕl,** *v.t.* [Vessel, *s.*] To place or put into a vessel.

"Take earth, and *vessel* it, and in that set the seed."—*Bacon.*

* **ves-sell, * ves-selle,** *s.* [Vessel, *s.*]

vĕs sĕts, vĕs'-sĕs, *s.* [Etym. doubtful.]

Fabric: A sort of worsted. (*Prov.*)

vĕs'-sĭg-nŏn, *s.* [Fr. *vessignon*, from Lat. *vesica* = a blister, a bladder.] A kind of soft swelling on a horse's leg; a windgall.

vĕst, *s.* [Lat. *vestis* = a garment, a dress; *vestio* = to clothe. From the same root as Sans. *vas* = to put on (clothes); Gr. ἔννυμι (*ennumi*) = to dress, to clothe; ἑσθής (*esthēs*) = clothing; Goth. *gawasjan* = to clothe; *wasti* = clothes; Fr. *veste.*]

1. *Literally:*

* (1) An article of dress covering the person; an outer garment; a vesture, a dress, a gown.

"The *vests* that holy rites require."
Dryden: Palamon & Arcite, iii. 193.

(2) A short, sleeveless garment, worn by men under the coat, and covering the upper part of the body; a waistcoat (q.v.). (A tailor's word.)

* 2. *Fig.:* Dress, array, garments.

vĕst, *v.t. & i.* [Vest, *s.*]

A. *Transitive:*

1. To clothe with or as with a garment, vesture, or dress; to dress, to robe.

"Concerning the *vesting* of the priests in the Levitical ministrations."—*Bp. Taylor: Sermons*, vol. iii., ser. 10.

2. Hence, to cover, surround, or envelop closely.

"The verdant fields with those of heaven may vie,
With ether *vested* and a purple sky."
Dryden. (*Todd.*)

3. To invest or clothe, as with authority; to put in possession; to endow with; to confer upon; to put more or less formally in possession. (Followed by *with.*)

"This company, in consideration of a sum paid to the king, is *vested with* the property of all diamonds found in Brazil."—*Anson: Voyages*, bk. i., ch. v.

4. To place or put in the possession or at the disposal of; to give or confer an immediate fixed right of present or future possession of or authority over. (Followed by *in.*)

"Truelie *vested in* his possession by the forfeiture which Duncan, sometime county of Fife, had doone in K. Robert Bruses daies."—*Holinshed: History of Scotland* (an. 1357).

* 5. To lay out, as money on capital; to invest.

B. *Intrans.:* To come or descend; to be fixed to take effect, as a title or right; to devolve (followed by *in*); as, upon the death of the ancestor the estate, or right to the estate, *vests in* the heir.

Vĕs'-ta, *s.* [Lat.]

1. *Lit.:* In the same sense as II. 2.

2. *Fig.:* A wax match, which ignites by friction.

II. *Technically:*

1. *Astron.:* [Asteroid, 4.].

2. *Rom. Mythol.:* One of the great divinities of the ancient Romans, identified with the Greek Hestia, the virgin goddess of the hearth. She was worshipped, together with the Penates, at every meal, when the family assembled round the hearth, which was in the middle of the room. The sacred fire, said to have been brought by Æneas from Troy, burned perpetually on her altar, and was tended by the Vestal Virgins. The fire was never willingly permitted to expire; but if such an accident occurred through neglect, it was considered an omen of the worst description, and required the most careful and solemn expiations. In the Augustan age Vesta was represented as a personification of Terra, or the Earth, and at a later period she was confounded with Ops, Rhea, Cybele, Bona Dea, and Maia. Her festivals, called Vestalia, were celebrated June 8th.

vĕs'-tal, * vĕs'-tall, *a. & s.* [Lat. *Vestalis*, from *Vesta* (q.v.).]

A. *As adjective:*

I. *Lit.:* Pertaining or relating to the goddess Vesta; sacred to Vesta.

"Those institutions which . . . have still kept the light burning like the *vestal* fire."—*Knox: Essays*, No. 112.

II. *Figuratively:*

1. Pure, innocent, chaste; such as would become a Vestal Virgin.

"In pure and *vestal* modesty."
Shakesp.: Romeo & Juliet, iii. 3.

2. Pertaining to or characteristic of a nun.

"My *vestal* habit me contenting more,
Than all the robes adorning me before."
Drayton: Matilda to King John.

B. *As substantive:*

I. *Ordinary Language:*

1. *Lit.:* One of the Vestal Virgins (q.v.).

2. *Fig.:* A virgin; a woman of spotless chastity; a chaste woman in general. Sometimes applied to a woman who devotes herself to religion: a religieuse, a nun.

"How happy is the blameless *vestal's* lot,
The world forgetting, by the world forgot."
Pope: Eloisa to Abelard, 207.

II. *Entom.: Sterrha sacraria;* a British Geometer Moth, having the fore wings pale yellow with a pink stripe. The caterpillar feeds on various species of Rumex, on the camomile, &c.

Vestal Virgins, *s. pl.*

Roman Mythol.: The name given to the virgin priestesses who had charge of the temple of the goddess Vesta, at Rome, and the superintendence of the sacred fire which blazed perpetually on her altar. Their number was originally four, but was afterwards increased to six; and the period of their service extended to thirty years. The first ten years were spent in acquiring a knowledge of their duties, the second in discharging them, and the third in instructing the novices. During the whole of this time they were bound to continue in a state of maidenhood; but, at the expiration of the period, they were free to return to the world, and even to marry if they thought fit. When a vacancy occurred in their number, it was filled up by the Pontifex Maximus, to whose control they were subject. If, however, through carelessness, they allowed the sacred fire to be extinguished, they were chastised with rods by the Pontifex Maximus, and, if any of them violated their vows of chastity, they were condemned to be buried alive in the Campus Sceleratus. The abolition of the Vestal Virgins was effected in the reign of Theodosius.

"The institution of the *vestal virgins* is generally attributed to Numa; though we meet with the sacred fire long before, and even in the time of Æneas."—*Kennett: Antiquities of Rome*, pt. ii., bk. ii., ch. vi.

vĕst'-an, *s.* [After Vesta, the goddess of the domestic hearth.]

Min.: A name given by Jenzsch to a variety of quartz supposed to crystallize in the triclinic system. Found in the Melaphyres of Saxony and the Thuringian forest.

"Just Simeon and prophetic Anna . . .
Before the altar and the *vested* priest."
Milton: P. R., i. 257.

2. Fixed; not in a state of contingency or suspension.

"A power which was *vested* in others to sell or lease them."—*Walton: Life of Hooker.*

vested-interests, *s. pl.*

English Law: Future interests not dependent on an uncertain period or event; a fixed present right of future enjoyment. A person who is appointed for life to a situation under Government acquires a vested interest in that situation, and, if the situation be abolished by Parliament, compensation for loss of salary is allowed. If, for a certain term of years, or without limitation as to time, certain rights or privileges be granted to a company or an institution, a vested interest arises, and compensation is required if the advantage be taken away by legal enactment. One possessing these rights is said to be vested in interest.

vested-legacy, *s.*

Law: A legacy the right to which commences *in presenti*, and does not depend on a contingency, as a legacy to be paid when the legatee attains to twenty-one years of age.

† **vested-remainder,** *s.* [Remainder.]

* **vĕst'-ĕr,** *s.* [Eng. *vest*, v.; *-er.*] One who invests money or the like; an investor.

"Nestor's son
Urg'd through the *vestibule* and sounding porch
His coursers." *Cowper: Homer; Odyssey* iii.

II. *Anatomy:*

1. A chamber; as the vestibule of the ear, which is the central chamber of the labyrinth; as the vestibule of the aorta, which is a small compartment constituting the part of the ventricle which adjoins the aorta.

2. An angular interval; as the vestibule of the vulva, which is an angular interval between the nymphæ.

vestibule- (or vestibuled-) train, *s.* A passenger train having a weather-proof passage-way between adjacent cars. Called in England corridor train.

vĕs'-tĭ-būled, *a.* Provided with vestibules. [See VESTIBULE-TRAIN.]

vĕs-tĭb'-u lŭm, *s.* [Lat.]
Anat.: The same as VESTIBULE (q.v.).

vĕs'-tĭge, * **ves-ti-gie,** *s.* [Fr., from Lat. *vestigium* = a footstep, a track.]

I. *Ord. Lang.:* The mark of a foot made in passing; a footstep, a footprint, a track, a trace; hence, a mark, sign, trace, or impression of something no longer present or existing; a sensible evidence or sign of something absent, lost, or gone; remains.

"And countless generations of mankind
Depart and leave no *vestige* where they trod."
Wordsworth: Excursion, bk. iv.

II. *Biol.:* (See extract).

"Anatomists who are careful in the use of terms, and yet have had to content themselves with using one and the same word, rudiment, for disappearing and for imperfected structures, will welcome a suggestion recently made by Mr. J. A. Ryder (*Proc. U. S. Nat. Mus.*, 1886, p. 89). He writes: 'Structures which are disappearing should be called *vestigia*. Structures which are still imperfect, but are appearing, ought to be called rudiments. As it is, the word rudiment is usually misapplied so far as concerns its literal sense when speaking of rudimentary organs.'"—*Athenæum*, Oct. 16, 1886.

vĕs-tĭg'-ĭ-al, *a.* [Lat. *vestigium* = a footprint; Eng. adj. suff. *-al.*] Of the nature of a trace, sign, or mark.

vestigial-structure, *s.*
Biol.: A vestige. [VESTIGE, II.]

"But these are not all, or nearly all, the *vestigial structures* that may be seen in the Bird's skull, to say nothing of the skeleton generally; they are sufficient, however, to justify the assumption that Birds arose, by secular transformation, either from the lowest and most ancient of the true Reptiles, or equally with Reptiles from archaic Amphibia, low in structure, but full of potential excellence, and ready, *pro re nata*, to become Reptile, Bird, or even Mammal; as the case might be."—*Nature*, March 22, 1888, p. 502.

* **ves-ti-gie,** *s.* [VESTIGE.]

vĕst'-ĭng, *pr. par., a., & s.* [VEST, *v.*]

A. & **B.** *As pr. par. & particip. adj.:* (See the verb).

C. *As subst.:* Cloth for vests.

"Fancy trouserings and *vestings* hold their position steadily."—*Times*, Jan. 16, 1888.

* **vĕst'-lĕt,** *s.* [Dimin. of Eng. *vest*, s. (?).]
Zool.: A fanciful name for *Cerianthus membranaceus* = *Edwardsia vestita.* (*Gosse: Actinologia Britannica*, p. 268.) The name never came into general use.

vēst'-mĕnt, * **vest-i-ment,** * **vest-y-ment,** * **vest-y-mente,** *s.* [O. Fr. *vestiment, vestement* (Fr. *vêtement*), from Lat. *vestimentum* = a garment, from *vestio* = to clothe; Sp. & Ital. *vestimento.*] [VEST, *s.*]

1. *Ord. Lang.:* A clothing, dress, garment, or robe; a piece or part of clothing or dress, especially some article of outer clothing.

Of folded *vestments* neat the princess plac'd
Within the royal wain."
Cowper: Homer; Odyssey vi.

2. *Ecclesiol.:* A term used in several senses: (1) Any priestly garment; (2) A chasuble; †(3) The whole set of Eucharistic robes: the amice, alb, girdle, stole, maniple, and chasuble, sometimes including the vestments of the deacon and sub-deacon and antependium. It was formerly held that Christian vestments were derived from those of the Jewish priests, but more probably they are only developments from the ordinary dress of the early Christians. The Roman Church makes use of five colours: White (for feasts of Our Lord, the Blessed Virgin, Virgins, and Confessors), red (for feasts of the Holy Ghost and Martyrs), green (for ferias), purple (in Lent and Advent), and black (in masses for the dead). By the decision in the Folkestone Ritual case (1877), the use of Eucharistic vestments is forbidden in the English Church.

vĕs'-trў, * **ves-trye,** *s.* [Altered from O. Fr. *vestiaire* = the vestry in a church, from Lat. *vestiarium* = a wardrobe, prop. neut. sing. of *vestiarius* = pertaining to a vest or clothes, from *vestis* = dress.] [VESTIARY.]

1. A room or place attached to a church, in which the ecclesiastical vestments are kept, and in which the clergy, choristers, &c., robe themselves.

"And he said to him that was over the *vestry*, Bring forth vestments for all the worshippers of Baal."—2 *Kings* x. 22.

2. The place in which the qualified parishioners of a parish meet to consult on parochial business. Properly such place is the vestry of the parish church; but if this is too small a larger room may be used.

3. A meeting of the parishioners of a parish to consult on parochial business. So called from the place of meeting being properly the vestry of the parish church. In this country only church affairs are discussed at such meetings—the term vestry being employed only in the Protestant Episcopal Church. In England it has a wider application. There the vestry of a parish consists generally of the minister, churchwardens, and chief men of the parish; and the minister, whether rector, vicar, or perpetual curate, is *ex officio* chairman of the meetings. Vestries are of two sorts: (1) General (or ordinary), and (2) Select. A general (or ordinary) vestry is one to which every parishioner or out-dweller assessed to or paying poor-rates has a right of admission. Its powers extend to the investigation into and restraint of the expenditure of the parish funds, the repair, alteration, or enlarging of the churches or chapels within the parish, the appointment of certain officers, as vestry-clerk, overseers, &c. A select vestry is one elected annually in certain large and populous places by the ratepayers, with powers and duties similar to those of local boards.

"The local *vestries* keep the roads in wretched repair."—*Globe*, March 24, 1888.

* **vestry-board,** *s.* The vestry of a parish.

vĕt'-ĭ-vĕr, vĕt'-ĭ-vĕrt, *s.* [Fr.] The Khuskhus (q.v.).

vē'-tō, *s.* [Lat. *veto* = I forbid; orig. = to leave in the old state (from the same root as *vetus* = old); hence = to vote against change in.]

*1. *Rom. Antiq.:* The power possessed by the Tribunes of the People of interfering so as at once to put a stop to any measure which they deemed injurious to their order, this power being exercised by pronouncing the solemn word *veto*.

2. The power or right which one branch of the executive of a state has to negative the resolutions of another branch; the right of the executive branch of government of a state, as the king, president, or governor, to reject the bills, measures, or resolutions of the other branches; also the act of exercising such right. In the United States the President may veto all measures passed by congress, but after such right has been exercised, the rejected measures may be passed over the veto if carried by two-thirds of each house of congress. In Great Britain the right of veto belongs to the Crown, but has not been exercised since 1707.

"The Crown had no administrative or executive responsibility, and never exercised the right of *veto* which that House did, and it was the *veto* of the Prime Minister."—*Lord Rosebery*, in *Times*, March 19, 1888.

3. The word whereby forbiddal was expressed in certain political assemblies, where the official language was more or less Latin, and where a single voice on the negative side could prevent the passing of a resolution otherwise unanimous; the Liberum Veto, or Free Veto, of the Polish Diets being the most famous historical instance of it. (*Latham.*)

4. Hence, any authoritative prohibition, refusal, negative, or interdict.

Veto Act, *s.*

Scottish Church: An Act of the General Assembly passed on May 27, 1834, by 184 to 138 votes. It provided that when a patron issued a presentation to a parish in favour of a minister or probationer, the disapproval of the presentee by a majority of male heads of families being communicants, should be deemed sufficient ground for his rejection, it being enacted that no objection should be valid unless the person making it was prepared to state before the Presbytery that he was not actuated by factious or malicious motives, but solely by a conscientious regard to the spiritual interests of himself or the congregation. The passing of this Act was one of the chief causes of the Disruption (q.v.).

vē' tō, *v.t.* [VETO, *s.*] To put a veto on; to prohibit, to forbid, to interdict, to negative.

***vē'-tō ĭst,** *s.* [Eng. *veto*; *-ist.*] One who exercises the right of veto; one who supports the use of the veto.

3. That which causes irritation, annoyance, distress, sorrow, grief, or worry; an annoyance, an affliction.

"Your children were *vexation* to your youth."
Shakesp.: Richard III., iv. 4.

†4. A harassing by process of law; a troubling, annoying, or vexing, as by a malicious or frivolous suit.

"Albeit, the party grieved thereby may have some reason to complain of an untrue charge, yet may he not call it an unjust *vexation*."—*Bacon.*

¶ *Vexation* springs from a variety of causes, acting unpleasantly on the inclinations or passions of men; *mortification* is a strong degree of *vexation*, which arises from particular circumstances acting on particular passions. *Vexation* arises principally from the crossing our wishes and views; *mortification* from the hurting our pride and self-importance; *chagrin* from a mixture of the two: disappointments are always attended with more or less *vexation*, according to the circumstances which give pain and trouble; an exposure of our poverty may be more or less of a *mortification*, according to the value which we set on wealth and grandeur; a refusal of our request will produce more or less of *chagrin* as it is accompanied with circumstances more or less *mortifying* to our pride.

vĕx-ā'-tious, *a.* [Eng. *vex*; *-atious.*]

1. Causing vexation, annoyance, irritation, trouble, worry, or the like; annoying, teasing, worrying, troublesome, vexing.

"The eustachian tube [is] like the hole in a drum, to let the air pass freely into and out of the barrel of the ear, as the covering membrane *vibrates.*"—*Paley: Nat. Theol.*, ch. iii.

3. To produce a vibratory or resonant effect; to quiver, to sound.

"The whisper that to greatness still too near,
Perhaps, yet *vibrates* on his sovereign's ear."
Pope: Prol. to Satires, 357.

* 4. To fluctuate or waver, as between two opinions.

B. *Transitive:*

1. To move backwards and forwards or to and fro; to swing, to oscillate.

2. To affect with vibratory motion; to cause to quiver.

"Breath vocalized, that is *vibrated* or undulated."—*Holder.*

3. To measure or indicate by vibrations or oscillations: as, A pendulum *vibrates* seconds.

* 4. To throw with a vibratory motion; to launch, to hurl. (A Latinism.)

"A glorious people *vibrated* again
The lightning of the nations."
Shelley: Ode to Liberty.

***vī'-brą-tīle,** *a.* [Lat. *vibratilis*, from *vibratus*, pa. par. of *vibro* = to vibrate (q.v.); Fr. *vibratile.*] Adapted to or used for vibratory motion; vibratory.

vibratile cilia, *s. pl.* [Cilia, 3.]

***vī-brą-tĭl'-ĭ-tў,** *s.* [Eng. *vibratil(e); -ity.*] The quality or state of being vibratile; disposition to vibrate or oscillate.

vī-brāt'-ĭng, *pr. par.* or *a.* [Vibrate.]

vibrating-piston steam-engine, *s.* A steam-engine in which the power is communicated to the crank through pistons which are vibrating in their motion, and which move through an arc of a circle.

vī-brā'-tion, *s.* [Lat. *vibratio*, from *vibratus*, pa. par. of *vibro* = to vibrate (q.v.); Fr. *vibration*; Sp. *vibracion*; Ital. *vibrazione.*]

I. *Ordinary Language:*

1. The act of vibrating or swinging to and fro.

2. The state of that which vibrates; oscillation. (See extract.)

"As understood in England and Germany, a *vibration* comprises a motion to and fro: in France, on the contrary, a *vibration* means a movement to or fro."—*Ganot: Physics* (ed. Atkinson), § 220

3. A resonant sound; a resonance.

II. *Technically:*

1. *Physics:* The reciprocating motion of a body, as of a pendulum, a musical chord, elastic plate, the air or the ether. The term oscillation is, however, more frequently used to denote a slow reciprocating motion, as that of a pendulum which is produced by the action of gravity on the whole mass of the body; while vibration is generally confined to a motion having quick reciprocations, as that of a sonorous body, and proceeding from the reciprocal action of the molecules of the body on each other when their state of equilibrium has been disturbed.

2. *Philos. & Physiol.:* A sensorial motion. [Sensorial-motions.]

***vi-brā-tĭ-ŭn-cle (t as sh),** *s.* [Eng. *vibrati(on); dimin.* suff. *-uncle.*] A small vibration. [Vibration, II. 2.]

"The renewed *vibration* being less vigorous than the original one (unless when excited by the presence of the object, or in certain morbid cases) is called a miniature vibration or *vibratiuncle.*"—*Belsham: Philos. of the Mind*, § 4.

vī'-brā-tĭve, *a.* [Eng. *vibrat(e); -ive.*] Vibrating, vibratory.

vi-bra'-tō, *s.* [Ital.]

Music: A pulsating effect in vocal music caused by rapidly varying emphasis on the same tone; differing from the *tremolo*, in which there is a fluttering alternation in tone.

vī'-brą-tor-ў, *a.* [Eng. *vibrat(e); -ory*; Fr. *vibratoire.*]

1. Vibrating; consisting of or belonging to vibration or oscillation.

"The *vibratory* agitations of light and of air."—*Belsham: Philos. of the Mind*, § 4.

2. Causing vibration.

vī'-brĭ-ō, *s.* [Mod. Lat., from Lat. *vibro* = to shake, to quiver.]

* 1. *Zool.:* The type-genus of Ehrenberg's Vibrionidæ (q.v.). It approximately corresponds to the modern genus Anguillula (q.v.). Used also of any individual of the genus.

† 2. *Bot.:* According to Cohn, a genus of Schizomycetes, but Grove (*Bacteria & Yeast Fungi*) classes that genus and Ophidomonas (Ehrenberg) with Spirillum, which he thus defines: Cells cylindrical or slightly compressed, simply arcuate, or spirally twisted, rigid, with a flagellum at each end (doubtful in some species). Multiplication by transverse division, the daughter-cells for the most part soon separating. At times, also, a zooglœa is formed. The species are found in infusions, in brackish water, and in the slime of the teeth. Zopf asserted that minute spherical "cocci," short rodlets ("bacteria"), longer rodlets ("bacilli"), and filamentous ("leptothrix") forms, as well as curved and spiral threads ("vibrio," "spirillum"), &c., occur as vegetative stages in one and the same Schizomycete. (*Encyc. Brit.* (ed 9th), xxi. 399.)

"It may be noted that *Vibrio* is here [i.e., in Ehrenberg's *Die Infusionsthierchen*, p. 75] conceived to be naturally straight-lined, but capable of bending in undulations of a serpentine form, being thus distinguished from Spirillum by the fact that the undulations lie all in one plane. But most modern observers are agreed that the species referred to *Vibrio* belong to two classes—the one, in which the undulations are serpentine, being merely Bacillus; the other, in which they are spiral, being undistinguishable from Spirillum. This is, therefore, another reason . . . why the name *Vibrio* should be dropped."—*W. B. Grove: Bacteria & Yeast Fungi*, p. 69.

† vī'-brĭ-ŏn-al, *a.* [Mod. Lat. *vibrio*, genit. *vibrion(is)*; Eng. suff. *-al.*] Of, belonging to, or induced by vibrios. In the last sense the word is incorrectly employed, the fungi of the genus Spirillum and the lapsed genus Vibrio not being pathogenous.

"Virchow, who examined a sample, considered the granules found on these growths as not fungoid, but *vibrional.*"—*Blyth: Dict. Hygiene*, p. 72.

*** vī-brĭ-ŏn-ĭ-dæ,** *s. pl.* [Mod. Lat. *vibrio*, genit. *vibrion(is)*; Lat. fem. pl. adj. suff. *-idæ.*]

Zool.: A lapsed family of Ehrenberg's Infusoria. These organisms are now known to be Nematoid Worms, and are classed in the family Anguillulidæ (q.v.).

vī-brĭs'-sæ, *s. pl.* [Lat. = the small hairs in the nostrils, so called, according to Festus, because their extraction causes a person to shake his head.]

Biol.: Hairs or bristles attached to the lips of many mammals, and especially developed in the Carnivora and Rodentia. The vibrissæ are organs of touch, and give warning of external obstacles, and branches of the fifth pair of nerves are distributed to their roots. Cats are rendered unable to catch mice when their whiskers are removed, and various experiments have shown that rabbits, without the assistance of their eyes, can by means of these hairs find an outlet in narrow passages. Popularly known as Smellers and Whiskers. In many birds the nasal apertures are covered with stiff, imperfect feathers (also called bristles), to which the name Vibrissæ is sometimes applied. These, however, are not organs of touch, but serve to prevent the nostrils becoming obstructed by dust.

vī-brŭ'-nĭc, *a.* [Eng. *viburn(um); -ic.*] Derived from the viburnum.

viburnic-acid, *s.*

Chem.: A term formerly applied to an acid found in the bark of the guelder-rose, probably valeric acid.

vī-brŭ'-nŭm, *s.* [Lat. = the wayfaring-tree.]

Bot.: Guelder-rose; a genus of Sambuceæ. Shrubs or trees with opposite branches, simple leaves, and terminal or axillary panicles of white or pink flowers; calyx limb five-cleft, corolla campanulate or funnel-shaped, five-lobed; stamens five, stigmas three, sessile, ovary one- to three-celled; fruit an inferior one-seeded berry. Species numerous; two United States species, *Viburnum edule* and *V. oxycoccus*, nearly allied to the European Guelder Rose (*V. opulus*), produce berries agreeably acid in taste, which are used like cranberries. The berries of *V. tantana*, the Wayfaring tree, have medicinal properties. The wood is white and hard and is prized by turners. The fruit of the Common Guelder Rose is eaten in Sweden and Norway with honey and flour. The branches yield a yellow dye. [Guelder-rose.] *V. Tinus* is the Laurustinus (q.v.) An oil extracted from the seeds of *V. coriaceum*, a large Himalayan shrub, is used by the Nepaulese for food and for burning. The fruit of *V. cotinifolium*, *V. foetens*, *V. nervosum*, and *V. stellulatum*, Himalayan shrubs, are eaten by the natives. The wood of *V. erubescens*, a small Himalayan tree, is very hard, close, and even-grained.

vĭc'-ar, * vic-aire, * vic-are, * vic-ar-ie, * vic-ar-ye, * vik-er, * vyk-er, *s.* [Fr. *vicaire* = a vicar, a deputy, from Lat. *vicarium*, accus. of *vicarius* = a substitute, a deputy, from *vicis* = a turn, change, succession; Sp. & Ital. *vicario;* Port. *vigairo.*] [Vice-, *pref.*]

* 1. *Ord. Lang.:* A deputy; a person deputed or authorized to perform the duties or functions of another.

"They might appoint a deputy or *vicar* to do it for them."—*Spelman: On Tythes*, ch xxix.

2. *Canon Law:* The priest of a parish, the predial tithes of which are impropriated or appropriated; that is, belong to a chapter or religious house, or to a layman who receives them and allows the vicar only the smaller tithes or a salary. [Rector.]

"These appropriating corporations, or religious houses, were wont to depute one of their own body to perform divine service in those parishes of which the society was thus the parson. This officiating minister was in reality no more than a curate, deputy, or vicegerent of the appropriator, and, therefore, called vicarius or *vicar.*"—*Blackstone: Comment.*, bk. i., ch. 12.

¶ *Vicar of Christ:* A title in the early Church common to all bishops, but now confined to the Pope.

vicar-apostolic, *s.*

Roman Church: A name formerly given to a bishop or archbishop, generally of some remote see, to whom the Pope delegated a portion of his authority, or to any ecclesiastic invested with power to exercise episcopal jurisdiction in some place where the ordinary was for some reason incapable of discharging his duties efficiently. Now vicars-apostolic, who are nearly always titular bishops, are appointed where no episcopate has been established, or where the succession has been interrupted. There are at present over a hundred of such vicariates in existence. The Church in England was governed by vicars-apostolic from 1685 till the re-establishment of the hierarchy by Pope Pius IX. in 1850.

vicar-choral, *s.*

1. A priest-vicar; a minor-canon (q.v.).

2. A lay-vicar (q.v.).

vicar-forane, *s.*

Roman Church: A dignitary or parish priest appointed by a bishop to exercise a limited jurisdiction in a particular town or district of his diocese. The chief duty of vicars-forane is to maintain ecclesiastical discipline, report to the bishop on the lives of the clergy, and to preside at their local conferences. The first Council of Westminster (1852) adds to these the care of sick priests, the administration of Church property, and the maintenance of sacred buildings. In Ireland almost their sole function is to grant episcopal dispensations for the non-publication of banns.

vicar-general, *s.*

1. *Roman Church:* A clerk, usually (but not necessarily) in holy orders, and having a degree in canon law, appointed by a bishop to assist in the discharge of episcopal functions. In matters of jurisdiction the vicar-general is regarded as the ordinary, and there is no appeal from the former to the latter; but the vicar-general may not do any of those things which belong to the episcopal order. A bishop is not obliged to appoint a vicar-general, but may appoint two or more if necessary. The office corresponds closely to that of an archdeacon (q.v.) in the early and mediæval church.

2. *Anglican Church:* An officer employed by the Archbishop of Canterbury and some other bishops to assist in such matters as ecclesiastical causes and visitations.

vĭc'-ar-age (age as ĭj), * vĭc'-ar-ĭdge, * vyc-rage, *s.* [Eng. *vicar; -age.*]

* 1. The condition or state of a substitute or deputy; substitution.

"They have sole jurisdiction, and the presbyters only in substitution or *vicaridge.*"—*Bp. Taylor: Episcopacy Asserted*, § 50.

2. The benefice of a vicar.

"Some *vicarages* are more liberally, and some more scantily, endowed."—*Blackstone: Comment.*, bk. i., ch. 12.

3. The house or residence of a vicar.

vĭc'-ar-ĕss, *s.* [Eng. *vicar; -ess.*] A female vicar. Also used of the wife of a vicar when she has the character of interfering in parish business.

"Mother Austin was afterwards *vicaress* several years."—*Archæologia*, xxviii. 198.

*** vī-căr'-ĭ-ăl,** *a.* [Eng. *vicar; -ial.*]

1. Of or pertaining to a vicar; small.

"In some parishes rectorial, and in some *vicarial* tithes."—*Blackstone: Comment.*, bk. i., ch. 11.

2. Vicarious, delegated.

"All derived and *vicarial* power shall be done away, as no further necessary."—*Blackwall: Sacred Classics*, ii. (Pref., p xxix.)

3. Holding the office of or acting as a vicar.

"But the great proprietors of land soon found the inconvenience of a ministry so precarious and distant, intolerable; and obtained for each a resident pastor, either rectorial or *vicarial*, either an incumbent or a substitute."—*Knox: Sermons*, vol. vi., ser. 26.

*** vī-căr'-ĭ-ăn,** *s.* [Eng. *vicar; -ian.*] A vicar.

vī-căr'-ĭ-ate, * vī-căr'-ĭ-ăt, *a.* & *s.* [Low Lat. *vicariatus.*]

* **A.** *As adj.:* Having delegated power; delegated.

"Held up by the *vicariat* authority of our Sea."—*Barrow: Works*, i. 261.

B. *As substantive:*

* 1. The office, position, or power of a vicar; a delegated office or power; vicarship.

"Rules the church by a *vicariate* of his spirit."—*Bp. Hall: Revelation Revealed.*

2. The jurisdiction of a vicar-apostolic (q.v.).

"The College of the Propaganda Fide has divided the hitherto existing Apostolic *Vicariate* of Natal into three Jurisdictions."—*Daily Telegraph*, Feb. 20, 1886.

vī-căr'-ĭ-ŏŭs, *a.* [Lat. *vicarius.*] [Vicar.]

I. *Ordinary Language:*

1. Of or belonging to a vicar, deputy, or substitute; deputed, delegated: as, *vicarious* power or authority.

2. Acting for or on behalf of another; acting as a deputy, delegate, or substitute: as, a *vicarious* agent.

3. Performed, done, or suffered for or instead of another; suffered or done by deputy.

"The death of Christ was . . . a *vicarious* punishment of sin."—*Waterland: Works*, vii. 72.

II. *Med.:* Occurring in one place instead of another: as, a *vicarious* secretion.

vī-căr'-ĭ-ŏŭs-lў, *adv.* [Eng. *vicarious; -ly.*] In a vicarious manner; as deputy, delegate, or substitute for another; by means of a deputy or substitute.

"Their preparation is most of it done *vicariously*, through their dressmakers."—*Daily Telegraph*, March 1, 1886.

vĭc'-ar-shĭp, *s.* [Eng. *vicar; -ship.*] The office of a vicar; the ministry of a vicar.

*** vic-ar-y, * vic-ar-ye,** *s.* [Vicar.]

vīce (1), *** vȳce** (1), *** vis,** *s.* [Fr. *vice*, from Lat. *vitium* = a vice, a fault.]

1. A fault, a blemish, a defect, an imperfection.

"You have a *vice* of mercy in you."
Shakesp.: Troilus & Cressida, v. 3.

2. Any immoral or evil habit or practice; any evil habit or practice in which a person indulges; a moral fault or failing; immorality; customary deviation in a single respect or in general from a right standard; specif., the indulgence of immoral, impure, or degrading appetites or passions.

"Let me persuade you to think of that *vice* which, from my experience and from the testimony of others, is devastating your life."—*Canon Knox-Little*, in *Echo*, March 21, 1888.

3. Depravity or corruption of manners. (Used in a general or collective sense, and without any plural: as, An age of *vice.*)

4. A fault; a bad habit or trick in a horse.

* 5. The general title of the buffoon of the old moralities or moral plays. Often named after one specific vice, as Iniquity, Covetousness, Fraud, &c.

"Like to the old *Vice* . . .
Who with dagger of lath,
In his rage and his wrath,
Cries, ah, ha! to the devil."
Shakesp.: Twelfth Night, iv. 2.

*** vice-bitten,** *a.* Corrupted with vice; a prey to vice.

"What a paltry creature is a man *vice-bitten!*"—*Richardson: Sir C. Grandison*, vi. 181.

vīce (2), *** vȳce** (2), *** vys, * vysse,** *s.* & *a.* [Fr. *vis* (O. Fr. *viz*) = a vice, a spindle of a press, a winding stair, from Lat. *vitis* = a vine, bryony, lit. = that which winds or twines; cf. Ital. *vite* = a vine, a vice, a screw.]

A. *As substantive:*

I. *Literally:*

1. A winding-stair, a spiral staircase.

"Then an angell came downe from the stage on bygh by a *vyce.*"—*Caxton: Chronicle of England*, pt. viii., p. 136 b.

2. An instrument with two jaws, between which an object may be clamped securely, leaving both hands free for work. The handvice is not a vice proper, but has a tang which is grasped by one hand, while the other holds the tool to work upon the object held.

"The maine planke or upper stocke of the presse, went with a *vice* in manner of a skrew."—*P. Holland: Pliny*, bk. xviii., ch. xxxi.

3. *Plumb.:* A tool used by plumbers for drawing lead into flat grooved rods, called cames, for lattice-windows.

* II. *Fig.:* Grasp, gripe.

"An' I but fist him once, an' a' come but within my *vice.*"—*Shakesk.: 2 Henry IV.*, ii. 1.

* **B.** *As adj.:* Winding, spiral.

"There were somtyme houses with *vyce* arches and voules in the maner of rome."—*Caxton: Descript. Britain*, p. 16.

vīce-, *pref.* [Fr., from Lat. *vice* = in place of, from *vicis* (genit.) = a turn, change, stead.] A prefix, denoting in its compounds, one who acts in place or as deputy of another, or one

second in rank: as, *vice*-president, *vice*-chairman, &c.

¶ (1) In colloquial language it is frequently used independently as a noun, the compound for which it stands being indicated by the context.

"Mr. Dumkins acting as chairman, and Mr. Luffey officiating as *vice*."—*Dickens: Pickwick*, ch. vii.

(2) It is also commonly used as a preposition or adverb, with the force of "in the place of," "to succeed."

vice-admiral, *s.*

* 1. The second commander of a fleet.

"The *vice-admiral* in the middle of the fleet, with a great squadron of gallies, struck sail directly."—*Knolles: Hist. Turkes.*

1. *Law:* A judge in the Chancery division of the High Court of Justice in England, holding a separate court. The office was abolished by the Judicature Act. [JUDGE, *s.*, II. 1.]

2. *Univ.:* An officer who acts as deputy of the chancellor, discharging nearly all the duties of the latter in his absence.

"Ouer each vniuersitie also there is a seuerall chancelor, whose offices are perpetuall, howbeit their substitutes, whom we call *vice-chancellors*, are changed euerie yeare."—*Holinshed: Descript. Engand*, bk. ii., ch. iii.

vice-chancellorship, *s.* The office or dignity of a vice-chancellor.

vice-consul, *s.* An officer who acts in place of a consul; a subordinate officer to whom consular functions are delegated, in some particular part of a district already under the jurisdiction of a consul.

* **vice-king,** *s.* One who acts in the place of a king; a viceroy.

"His deputis or *vice-king* seeing us at sea, came with his canoe to us."—*Hackluyt: Voyages*, iii. 789.

* **vice-legate,** *s.* A subordinate, assistant, or deputy legate.

vice-presidency, *s.* The office or position of a vice-president.

vice-president, *s.* One who holds office next to a president. In the United States the Vice-President is elected at the same time with the President, to succeed him in case of his death during his term of office. This has happened four times within the history of the country. The Vice-President officiates as President of the Senate.

* **vice,** *v.t.* [VICE (2), *s.*]

1. To press or squeeze with, or as with, a vice; to hold in, or as in a vice.

2. To screw; to force or press, as in a vice.

"As he had seen 't or been an instrument
To *vice* you to 't." *Shakesp.: Winter's Tale*, i. 2.

* **viced,** *a.* [Eng. *vic(e)*, (1), *s.*; *-ed.*] Vicious, wicked, corrupt. [See extract under HIGH-VICED.]

* **vice-gerency, * vice-gerency, * vice-gerency,** *s.* [Eng. *vicegerent(t)*; *-ce*, *-cy.*] The office of a vicegerent; deputed power; lieutenancy; agency under another.

"To the great *vicegerency* I grew,
Being a title as supreme as new."
Drayton: Legend of Thomas Cromwell.

vice-gerent, *a.* & *s.* [Lat. *vice* = in place of, and *gerens*, pr. par. of *gero* = to carry on, to act, to rule.]

A. *As adjective:*

1. Having or exercising delegated power; acting as a vicegerent, or in the place of another.

"But whom send I to judge them? whom but Thee
Vicegerent Son?" *Milton: P. L.*, x. 56.

* 2. Carried out or exercised under delegated authority.

"Under his great *vicegerent* reign abide
United, as one individual soul."
Milton: P. L., v. 609.

B. *As subst.:* An officer deputed by a superior or proper authority to exercise the powers or functions of another; one acting with delegated authority; a deputy, a substitute.

"To haue the autoritie as a notable *vicegerent* in so excellent and paynefull an office."—*Udal: Timothye* i.

* **vic-en-ar-y,** *a.* [Lat. *vicenarius*, from *viceni* = twenty each; *viginti* = twenty.] Pertaining to or consisting of twenty.

vi-cen-ni-al, *a.* [Lat. *viceni* = twenty each, and *annus* = a year.] Lasting or continuing twenty years.

vicennial-prescription, *s.*

Scots Law: A prescription of twenty years; one of the lesser prescriptions which is pleadable against holograph bonds not attested by witnesses.

vice-re-gal, *a.* [Pref. *vice-*, and Eng. *regal.*] Of or pertaining to a viceroy or to viceroyalty.

"No public ceremony could be performed in a becoming manner under the *Viceregal* roof."—*Macaulay: Hist. Eng.*, ch. xii.

vice-roy, *s.* [Fr. *viceroi*, from *vice* = in place of, and *roi* = king.] A vice-king; one who acts as the governor or ruler of a kingdom, country, or province in the place and name of the sovereign, and with regal authority.

vice-roy-al-ty, *s.* [Eng. *viceroy*; *-alty.*] The dignity, office, or jurisdiction of a viceroy.

"So important a concentration of Imperial authority over Ireland as would be implied in the definite abolition of the *viceroyalty*."—*Daily Telegraph*, July 15, 1886.

* **vice-roy-ship,** *s.* [Eng. *viceroy*; *-ship.*] The dignity or office of a viceroy; viceroyalty.

* **vic-e-ty,** *s.* [Eng. *vice* (1), s.; *-ty.*] Fault, defect, imperfection. (*Ben Jonson: Love's Welcome at Welbeck.*)

vice versa [Lat. = the turn being changed.] Contrariwise; on the contrary; the reverse; the terms or the case being reversed.

vic-i-a, *s.* [Lat. = a vetch.]

Bot.: Vetch, Tare; the typical genus of Viciæ (q.v.). Climbing or diffuse herbs, with abruptly pinnate leaves, nearly always ending in a tendril. Flowers in axillary racemes, blue, purple, or yellow; wings of the corolla adnate to the keel; style filiform, with the upper part hairy all round, or with a tuft of hair beneath the stigma. Known species about a hundred; from the northerly regions of South America. Ten are European: *V. tetrasperma*, the Slender; *V. hirsuta*, the Hairy or Common Tare; *V. Cracca*, the Tufted; *V. Orobus*, the Wood Bitter; *V. sylvatica*, the Wood; *V. sepium*, the Bush; *V. lutea*, the Rough-podded Yellow; *V. sativa*, the Common; *V. lathyroides*, the Spring; and *V. bithynica*, the Rough-podded Purple Vetch. One of the most common is *Vicia hirsuta*, which is found in cornfields and hedges. It has weak, straggling, and climbing stems, two or three feet long, and insignificant pale blue flowers. *V. Cracca*, found in bushy places, has numerous and fine bluish-purple flowers. *V. Orobus*, with unilateral racemes of purplish-white flowers, and *V. sylvatica*, with numerous and very beautiful flowers—white streaked with bluish veins—are found in rocky or mountainous regions. *V. sepium*, with dull pale purple flowers, is frequent in woods and shady places, while *V. lutea* flourishes best near the sea. *V. sativa* has six to ten leaflets, one or two axillary, nearly sessile flowers, and silky legumes. It is frequent in cultivated ground. *V. lathyroides*, is a small species, with two to six leaflets, and solitary flowers. *Vicia Faba* is the Common Bean. [BEAN.]

* **vic-i-ate (c as sh),** *v.t.* & *i.* [VITIATE.]

vic-i-æ, *s. pl.* [Mod. Lat. *vici(a)*; Lat. fem. pl. adj. suff. *-æ.*]

Bot.: A tribe of Papilionaceæ. The ten filaments of the stamens, or at least nine of them, connate; cotyledons fleshy; leaves generally cirrhose. Genera: Cicer, Pisum, Ervum, Vicia, Lathyrus, &c.

vic-in-age (age as ij), * **voi-sin-age,** *s.* [Prop. *voisinage*, from Fr. *voisinage* = neighbourhood, from *voisin* = neighbouring, from Lat. *vicinum*, accus. of *vicinus* = neighbouring, near; lit. = belonging to the same street, from *vicus* (whence A.S. *wic*; Eng. *wick* = a town) = a street; cogn. with Gr. οἶκος (*oikos*) = a house; Sanse. *veça* = a house, an entrance; *viç* = to live.]

1. Neighbourhood; the place or places near to or adjoining each other; vicinity.

"To summon the Protestant gentry of the *vicinage* to the rescue."—*Macaulay: Hist. Eng.*, ch. xii.

* 2. The quality, condition, or state of being a neighbour or neighbourly; nearness or closeness of situation or position.

"The *vicinage* of the travelling studio was an occasion and a pretext for unprecedented larks."—*Scribner's Magazine*, March, 1880, p. 660.

* **vic-in-al,** * **vic-ine,** *a.* [Lat. *vicinalis*, from *vicinus* = near.] [VICINAGE.]

1. Near, neighbouring, close.

"Under whose [God's] merciful hand nauigants aboue all other creatures naturally bee most nigh and *vicine*."—*Hackluyt: Voyages*, i. 229.

2. Of or pertaining to a village or town (?).

"The vallum or ridged bank, seemingly a *vicinal* way if not a rampart."—*Warton: Hist. Kiddington*, p. 55.

* **vi-cin-i-ty,** * **vi-cin-i-tie,** *s.* [Fr. *vicinité*, from Lat. *vicinitatem*, accus. of *vicinitas* = neighbourhood, nearness, from *vicinus* = neighbouring, near.]

1. The quality or state of being near; nearness, proximity, propinquity.

Vĭc-tōr'-ĭ-ą, *s.* [Lat. = victory (q.v.).]

1. *Rom. Mythol.:* One of the deities of the Romans, called by the Greeks Nikê. She was sister of Strength and Valour, and was one of the attendants of Jupiter. Sylla raised her a temple at Rome, and instituted festivals in her honour. She was represented with wings, crowned with laurel, and holding the branch of a palm-tree in her hand.

2. *Astron.:* [Asteroid, 12].

3. *Bot.:* A genus of Euryalidæ (q.v.), akin to Euryale, from which it differs by the sepals being deciduous, by the petals gradually passing into stamens, and by the cells of the ovary being more numerous. Species one or three. The type is *Victoria regia*, named by Lindley after Queen Victoria. It is the most magnificent of all known water-lilies, and is the more acceptable that it came from a region in which it had been supposed that no Nymphæaceæ occurred. It was first discovered by the botanist Hænke in 1801; Bonpland afterwards met with it. Orbigny, in 1828, sent home specimens to Paris; others also subsequently saw it growing, but it excited no attention till, in 1837, Sir Robert Schomburgk found it in the Berbice River in British Guiana. The rootstock is thick and fleshy, the leaf-stalks prickly, the leaf peltate, its margin circular, its diameter from six to twelve feet, the edge so turned up as to make the leaves floating in tranquil water look like a number of large trays. The leaves are green above, and covered with small bosses, below they are deep purple or violet; the undeveloped flowers are pyriform; the sepals four, each about seven inches long by four broad, purple externally, whitish internally; the petals numerous, in several rows, passing insensibly into stamens, fragrant, the outer ones white, the inner ones roseate; stamens numerous, the outer fertile, the inner sterile; ovary many celled, cup-shaped above, with many small stigmas along its upper margin; fruit a prickly berry. A native of South American rivers, especially the tributaries of the Amazon. It has been introduced into the United States and other countries. The seeds are said to be eatable, and the plant is in consequence called Water Maize by the natives of the region where it grows.

4. *Vehicles:* A park-carriage, having a low

seat for two persons, a calash top, and an elevated driver's seat in front.

"With silent morosity he hands her into her *victoria*."—*Rhoda Broughton: Second Thoughts.*, vol. ii., pt. ii., ch. viii.

¶ *Royal Order of Victoria & Albert:* An order instituted by Queen Victoria, Feb. 10, 1862, in memory of the Prince Consort, who died Dec. 14, 1861. It was enlarged Oct. 10, 1864, Nov. 15, 1865, and again on March 15, 1880. It consists of her Majesty, as Sovereign of the Order, and fifteen ladies of the Royal families of Europe, who form the First class. The second class consists of eight ladies of the royal families of Europe, and related to the British royal family. The third class includes twenty-one lady members of the British nobility, and the fourth class fifteen lady members of the nobility and gentry. The badge is composed of likenesses in profile of her Majesty and Prince Albert, surmounted by a border of precious stones (different for each class) for the first, second, and third, and of the monogram "V.A." for the fourth class, all surmounted by an Imperial crown. Ribbon, white moiré.

BADGE OF ORDER OF VICTORIA AND ALBERT.

Victoria Cross, *s.* A British naval and military decoration instituted by royal warrant, Jan. 29, 1856, and bestowed for "conspicuous bravery or devotion" to the country in the presence of the enemy. It is the most coveted of all British decorations, and is open to all officers and men of the regular, auxiliary, and reserve forces. It consists of a bronze Maltese cross with the royal crest in the centre, and underneath an escrol bearing the inscription, "For Valour." It is worn attached to the breast by a blue ribbon in the case of the navy, and by a red in the case of the army. For every additional act of bravery an additional clasp may be added. The cross carries with it a special pension of £10 a year, and each additional clasp an additional pension of £5 a year.

VICTORIA CROSS.

Victoria crowned-pigeon, *s.*

Ornith.: Goura victoriæ, a large pigeon from New Guinea and the adjacent islands. General colour slaty blue, with reddish-brown undersurface; bluish-gray stripes on wings, and a broad grayish-white line at the end of the tail. It has a crest of numerous small feathers, which terminate in spatules.

vicugna, vicuña (both as **vĭ-cûn′-ya**), *s.* [From the Spanish form of the native name.]

Zool.: Auchenia vicugna, a native of the most elevated localities of Bolivia and Northern Chili. It is very wild, and has resisted all attempts to reduce it to a state of domestication. It is the smallest species of the genus, standing only about thirty inches at the shoulder. Coloration nearly uniform lion-brown, tinged with yellow on the back and fading into gray on the abdomen. It is extremely active and sure-footed, and is seldom taken alive. In habit it somewhat resembles the chamois, as it lives in herds in the regions of perpetual snow. The soft, silky fur is in much request for making delicate fabrics, and many thousands of these animals are slaughtered annually for the sake of the skins.

VICUGNA.

* **vĭ′-dame′,** *s.* [Fr., from Low Lat. *vicedominus* = a vice-lord, from *vice* = in place of, and *dominus* = a lord.] In France, an officer who originally, under the feudal system, represented the bishop, abbot, &c., in temporal affairs, as in the command of soldiers, the administration of justice, and the like. In process of time these dignitaries erected their offices into fiefs, and became feudal lords. (*Brande & Cox.*) The title continued to the Revolution of 1789.

vī′-dĕ, *v.* [Lat., imper. sing. of *video* = to see.] See; a word used as a reference to something stated elsewhere, as *vide ante, vide supra* = see before, see above—that is, in a previous part of the same book; *vide infra, vide post* = see below, see after, that is, in a subsequent place; *quod vide* (generally abbreviated into q.v.) = which see; *vide ut supra* = see as above, see as mentioned before.

vī-dĕl′-ĭ-çĕt, *adv.* [Lat., contr. for *videre licet* = it is easy to see, hence, plainly, to wit: *videre* = to see, and *licet* = it is allowable; cf. *scilicet.*] To wit, namely, that is. In old MSS. and books the abbreviation for Latin *-et* (final) closely resembled the letter *z*, hence the abbreviation *viz.* (in which form *videlicet* is generally found) stands for *viet.*

"In all this time there was not any man died in his own person, *videlicet* in a love cause."—*Shakesp.: As You Like It*, iv. 1.

vĭġ'-ĭl, *vig-ile, *vig-ill, *vig-ille, *s.* [Fr. *vigile*, from Lat. *vigilia* = a watch, watching, from *vigil* = awake, vigilant, watchful, from *vigeo* = to flourish, to thrive, from the same root as Eng. *wake*; Sp., Port. & Ital. *vigilia.*]

I. *Ordinary Language:*

1. The act or state of keeping awake; abstinence from sleep at the natural or ordinary hours of rest; sleeplessness; hence, the state of being awake or watchful; watchfulness, wakefulness, watch.

"His delicate frame worn out by the labours and *vigils* of many months."—*Macaulay: Hist. Eng.*, ch. xxiv.

2. Devotional watching; hence, devotions, service, praise, prayer, or the like, performed during the customary hours of rest; nocturnal devotions.

II. *Ecclesiastical & Church History:*

1. Originally the watch kept on the night before a feast, then (from the eleventh or twelfth century), the day and night preceding a feast. The practice of spending the night in public prayer, which is probably older than Christianity, prevailed in the early Church, and down to the fourteenth century was the usual prelude to the greater festivals. But there were many objections to the custom, which, from about that date was gradually discontinued. In the Roman Church the Midnight Mass before the feast of Christmas is the only relic of the old custom. [Watch-night.] Broadly speaking, the vigils of the Roman Church have been transferred to the English Prayer Book. Theoretically, all vigils are fast-days, but in the Roman Church the customs of different countries vary slightly.

2. The devotional exercises or services appropriate to the vigil or eve of a festival.

* *Vigils* or *Watchings of flowers:*

Bot.: The rendering of Lat. *vigiliæ*, the name used by Linnæus (*Syst. Nat.*, ed. 13th, ii. 20) to describe the faculty possessed by certain plants of opening and closing their flowers at certain hours of the day. He places it under the heading Horologium. [Floral-clock.]

vĭġ'-ĭl-ąnce, *vĭġ'-ĭl-ęnce, *s.* [Fr., from Lat. *vigilantia*, from *vigilans* = vigilant (q.v.); Sp. & Port. *vigilancia*; Ital. *vigilanza.*]

1. The quality or state of being vigilant or watchful; attention of the mind in discovering or guarding against danger, or in providing

for safety; watchfulness, wariness, circumspection.

"They . . . made haste to make appear
With righteous plea, their utmost *vigilance*."
Milton: P. L., x. 30.

*2. Forbearance of sleep; wakefulness.

"Ulysses yielded unreasonably to sleep, and the strong passion for his country should have given him *vigilance*."—*Broome.*

*3. A guard, a watch.

"In at this gate none pass
The *vigilance*." *Milton: P. L.*, iv. 580.

vigilance-committee, *s.* A committee or body formed to watch the progress or carrying out of some measure, or for the purpose of protecting certain interests supposed to be imperilled, or for restraining any abuse or nuisance.

vĭg'-na, *s.* [Named after Dominic Vigna, a commentator on Theophrastus.]

Bot.: A genus of Phaseoleæ. Papilionaceous plants, with nearly cylindrical legumes constricted between the seeds, which are separated by thin, spurious partitions. Known species more than thirty, chiefly from the tropics. *Vigna Catiang* (= *Dolichos sinensis*) has a legume about two feet long, with a number of pea-like seeds, which are used for food, or the young legume may itself be cooked with its contents. The plant is cultivated throughout the tropics, and is used in India to strengthen the stomach but is said to be hot, dry, diuretic, and difficult of digestion. *V. pilosa* is also cultivated in India and Burmah.

vignette (as **vĭn-yĕt',** or **vĭ-nĕt'**), ***vig-net,** *s.* [Fr. = a little vine; *vignettes* = branches, or branchlike borders or flourishes; dimin. from *vigne* = a vine (q.v.).]

*1. Originally applied to a running ornament of vine-leaves, tendrils, and grapes, used in Gothic architecture.

*2. Ornamental flourishes, consisting of tendrils and vine-leaves upon silver.

*3. The flourishes in the form of vine-leaves, branches, &c., with which the capital letters in ancient manuscriots were often ornamented.

4. Any kind of printer's ornaments, such as flowers, head and tail pieces, &c.; more recently, any kind of wood-cut or engraving not enclosed within a definite border, especially such as are placed on the title-page of a book opposite the frontispiece. Rastoldt, in 1471, is credited with the introduction of this mode of portraying initials, flowers, &c. Pynson (1520) was the first English printer to use borders and vignettes in his books.

"This lady, with the dagger at her breast, and a ridiculous expression of agony in her face, formed a *vignette* to most of his books."—*Ben Jonson: Cynthia's Revels*, v. 2. (Note 2.)

5. A photographic portrait, showing only the head and shoulders, the edges fading away insensibly into the background.

1. Possessing vigor; full of physical strength or active force; strong, robust, lusty.

"Then *vigorous* most
When most unactive deem'd."
Milton: Samson Agonistes, 1,705.

2. Exhibiting or characterized by vigor, energy, or strength; resulting from vigor, either physical or mental; strong, powerful, forcible, energetic.

"They had so sharpe and *vigorous* answers, that there was not one mantellet that abode whole an houre."—*Hackluyt: Voyages*, ii. 81.

3. Strong in growth; healthy, robust.

"The *vigorous* vegetation which constantly takes place there."—*Anson: Voyages*, bk. i., ch. v.

4. Expressed in energetic or forcible language: as, a *vigorous* protest.

vĭg'-ŏr-oŭs-lў, *adv.* [Eng. *vigorous; -ly.*] In a vigorous manner; with vigor, energy, or force, physical and mental; energetically, strongly, forcibly.

"To shoot as *vigorously* as if just gathered from the plant."—*Paley: Natural Theology*, ch. xx.

vĭg'-ŏr-oŭs-nĕss, *s.* [Eng. *vigorous; -ness.*] The quality or state of being vigorous; vigor, force, energy, strength.

"If the elephant knew his strength, or the horse the *vigorousness* of his own spirit, they would be as rebellious."—*Bp. Taylor: Sermons*, vol. ii., ser. 19.

vĭk'-ĭng, † **vī'-kĭng,** *s.* [Icel. *víkingr* = a freebooter, rover, pirate, lit. = a creek-dweller, from *vík* = a creek, inlet, bay; suff. *-ingr* (A.S. *-ing*) = son of, belonging to; Sw. *vik;* Dan. *vig* = a creek, cove; Icel. *víkja* = to turn, to veer, to trend, to recede.] A rover, freebooter, or pirate; used especially in the Icelandic sagas of the bands of Scandinavian warriors who, during the ninth and tenth centuries, harried the British Isles and Normandy. From a misapprehension of the etymology, the second pronunciation is often used, the word being confounded with sea-king, with which it is wholly unconnected. A sea-king was a man of royal blood, and entitled to the name of king when in command even of a single ship; the sea-kings were often vikings, but not every viking was a sea-king.

***vil,** *s.* [VILL.]

A. *As substantive:*

***1.** A serf or peasant attached to a villa or farm.

"We yield not ourselves to be your *villains* and slaves [non in servitatem nos tradimus], but as allies to be protected by you."—*P. Holland: Livy*, p. 935.

2. A member of the lowest class of unfree persons under the feudal system; a feudal serf. A villain had, in respect of persons other than his lord, all the rights and privileges of a freeman, but in respect of his lord he had no rights, save that the lord might not kill or maim him, nor ravish his females. The villain could not acquire or hold any property against his lord's will, and he was obliged to perform all the menial services demanded of him by his lord; the house and land occupied by him were held entirely at the will of the lord. Villains were of two classes: (1) Regardant and (2) in gross. The former were annexed to the soil (adscripti or adscriptitii glebæ) belonging to a manor as a fixture, and passing with it when sold or inherited. They could not be sold or transferred separate from the land. Villains in gross were not annexed to a manor, but belonged personally to their lord, who could sell or transfer them at pleasure. If they ran away or were purloined they might be recovered by action like beasts or other chattels. [VILLENAGE.]

"This they called villenage, and the tenants *villeins*, probably *a villa*, because they lived chiefly in villages, which they could not leave without the lord's permission."—*Blackstone: Comment.*, bk. ii., ch. 6.
